PREFACE TO VOLUME III.

The scene of conflict was transferred from New York State during 1778, but the exposed condition of the frontiers was a constant source of anxiety to the backwoodsman and to the State authorities. The contents of this volume are given more to civil than to military operations inasmuch as the young State had just begun to keep house and the governmental machinery had not adjusted itself to changed conditions. The Tories were giving the Americans more or less trouble, and every person who refused to take the oath of allegiance was incontinently shipped to New York.

The principal events that happened during this year were the acknowledgment of American Independence by Louis XVI of France, who signed the treaty of Alliance and Commerce in February, the acquisition of Baron Steuben to the American forces, the effort on Lord North's part to establish peace negotiations with America, and his sending the Earl of Carlisle, George Johnstone and William Eden as peace commissioners, who were repudiated by Congress because of the attempt of Johnstone to bribe Colonel Joseph Reed, a delegate from Pennsylvania, the signing of the Articles of Confederation by eleven of the States, including New York, the arrival of M. Gerard, the first minister from France, the appointment of Benjamin Franklin as our first minister to France, the conquest of the northwestern territory by General George Rogers Clarke and the selection of John Jay of New York as president of Congress.

In military matters, the evacuation of Philadelphia by the British, June 18th, followed by the battle of Monmouth, ten days

later, the arrival of the French fleet under Count d'Estaing at Sandy Hook and the horrible massacres of Wyoming and Cherry Valley are subjects which the poet, the historian and the novelist have drawn liberally upon. Washington's army went into winter quarters in huts from Danbury, Connecticut, to Elizabethtown, New Jersey.

CLINTON LOOKING AFTER HIS FRONTIER.

*Believes That of More Importance Than a Northern Expedition—
Depleted Condition of New York.*

Poughkeepsie 8th March 1778.

Sir, On the 3d Inst. I did myself the Honor of acknowledging the Receipt of your Letter of the 27th Ultimo, inclosing one to his Excellency Genl. Washington which I have forwarded to Head Quarters by a safe Hand. Rest assured, Sir, it will always afford me Pleasure to serve you, tho' it may not be amiss to inform you, that Expresses from hence to Head Quarters are not so frequent as you are lead to believe, so that, to prevent Delay you will please to mention when your Letters are of such a Nature as that you woud wish them to be forwarded by Express, & it shall be done.

I am also favoured with your Letter of the 3d Instant. It can't be of much Importance to know what the Fools & the Mad say concerning the Northern Expedition; I have the Pleasure to assure you, Sir, that the Sober & Wise, with whom I have had an Opportunity of conversing on the Subject, fully approve your Conduct on the Occassion, tho' I cant with equal Justice add, that those who planned the Enterprize without providing properly for its Execution pass without a Share of Censure.

I flatter myself the two Companies of Vanschaik's Regiment, will be of real Service at Schohary, & if the Idea of the Northern Expedition is entirely given up by Congress and the Disposition of the Indians should be in the least Doubtful, a few more Troops in that Quarter may be necessary for the Protection of the Frontiers.

I have the utmost Reason to believe that there [are] a number of Persons employed recruiting for the Enemy's Service in the Neighbourhood of Albany, & that they have been but too successfull in that Business. Some Important Information, which I received on this Subject, I transmitted three Days ago, with the Names of a Number of the Persons concerned, to the Mayor of the City of Albany, and desired him to apply to the Commanding Officer for Aid to apprehend them—perhaps this may produce a further Discovery of the Conspiracy you mention, & enable you by a sudden Stroke to crush it in an early Stage. It is with Pain I confess that too little Pains have been taken to recruit our Army.

At first setting out the Hopes of Reconciliation injured us greatly; it induced many to consider the War to be a mere Temporary Business & since, we have not been as Industrious as we might & ought to have been. This State has been the Scene of War almost from the Beginning, & considering the many Disadvantages it labours under on that account, & for Internal Enemies much more could not have been reasonably expected from it.

The Defence of the River is an Object of the last Importance to America. Little is yet done for its Security tho I have used every Exertion in my Power to effect it. We are now busied in aranging the Militia of this State & I have called on Mas-

sachusetts & Connecticut to furnish 2000 of theirs to assist in the Defence of the River & Country. I am much of the Opinion that there is not a Command in which a Gentleman may have a better Opportunity of distinguishing himself than that which Genl. Putnam now holds & should it be your Lott to succeed him the Change will afford real, Pleasure to your Most Obed't Serv.

[G. C.]

I am sorry I am not able to send you a word of News. I have not a single Paper at present worth reading. The first I get you shall have.

Clinton Reports to Washington That He Has Sent a Large Supply of Pork to His Army.

Poughkeepsie 8th March 1778.

Dear Sir, I wrote your Excellency the 5th Instant,* informing you of the little Success I had in procuring a present Supply of Provision for the Army under your immediate Command. I am now happy in being able to tell you that since that Time, I have had collected at the different Posts in West Chester County so much more as will make in the whole 1700 barrels pork, which are all on the Way towards Head Quarters. I expect the last of it will pass the River at King's Ferry and New Burgh Tomorrow. I beg Leave to suggest to your Excellency the Propriety of sending faithful Active Officers to the different Posts on the Route to forward it on. Genl. Parsons is furnished with Ample Authority to cause an Impress of Teams &

I have taken the Liberty to inclose a Letter I have wrote to Congress inclosing a Copy of one to the State of Connecticut which as they treat of Military Matters I have left open for your Excellency's persual; you will please to have them sealed & forwarded. If they contain any Thing inconstent with the good of the Service at large your Excellency will be able to point out to Congress wherein I have Erred, so as to prevent any Mischief they might occasion. I am happy to find that the proper measures have been taken for bring'g the Cannon left at Toconderoga &c. by the Enemy to Albany and for Stocking and mount'g them; in the Execution of which there cannot be too much Dispatch used as they will be wanted Immediately on the opening of the River. Wilson had Demmanded it he Expected to pay it. Jno. Link further Says

that he Never Employ'd any Other person, or gave any Money Or Other thing to Endeavour to get him Clear from going in the Service, and that Capt. J. Wilsson nor Jno. Gage Never Encouraged about giting him a Dischg, untill he Came with his Horses and Slay to Peter Knickbacker House—and that he askt him, said Wilson, whether he was like to Procure a Discharge for him—and that Wilson told him he must go to Pulvers and he would try what he Could Do.

John Gage Sworn Saith, That he went from the House of Peter Knickerbackers to Propers, and from there he Rid with Mr. Jno. Link, and that Mr. Link askt him to Intereed with Mr. Morehouse, Conductor of the Slays, for a Discharge, but that he made Link no answer, and when they Got to Pulvers he heard Link & Capt. Wilson talking about geting his Horses &c. Clear—and that Link again askt him to try to get him Clear; he Likewise Overheard Link promis Capt. Wilson, Ten pounds, if he made the Matter Clear; and that he heard Capt. Wilson tell Link he was Clear, & that on that Mr. Link said, why then I must pay you the Ten pounds—which on hearing, he Spoke in Jest, why I ought to have half out, but on Going Down the Road, they all Stopt at one Minclair Tavern, and while we was there Mr. Link Spoke to Capt. Wilson and said, that he had but about Five pounds with him; why, sayd Capt. Wilson, then pay that to Gage—which was the first time I Realy Knew that I was to have any Share of the Money, Meaning the Ten pounds before Mentioned—and that hee Heard Wilson & Link in Conversation about the Other five Pounds. Wilson said that they were Neighbours, and he was not Concerned about it, & Mr. Link Said, that he never Should have the trouble to ask him for it, for he would pay him as Soon as hee Got home, and that he heard Capt.

Wilson Say, that this Matter Ought to be Kept Close and no words made of it so that it gets noised abroad.

FILLING VACANCIES IN TEN BROECK'S BRIGADE.

The General Suspicious of Hessians Who Have Enlisted in the American Army.

Albany 26th Feby. 1778.

Sir, I did my self the honour to write your Excellency the 19th Instant, & Inclosed you a Return of my Brigade since which I have Rec'd the Inclosed Return of Collo. McCrea's Regt. Collo. Whiting I understand attends the assembly. I have not had Return of his Regt. nor of Collo. Van Woerts since August 1776, the Total of Collo. Whiting's Regt. then was 453. Coll. Van Woerts was 225 men.

By the appendix to the militia Law* Passed in August 1775,

*APPENDIX to the rules and orders for regulating the militia of the Colony of New-York,

1st. As the desire of promotion in the public service is extremely laudable, and therefore should be so far encouraged as may be consistent with the safety of the public, and at the same time may not be construed into a design of countenancing promotions, of course it is earnestly recommended to every company, to have a regard in elections, to promote to offices according to rank, so far as may be consistent with true merit and ability to serve the public.

2nd. That where ever a sufficient number of minute men do not voluntarily turn out of any regiment of the militia of this Colony, to complete the proportion in the aforesaid rules and orders required, the deficiency be made up by lot from those companies in which such deficiency shall happen.

3rd. That the militia of the counties of Dutchess and Westchester, be two separate brigades,

the Rank of the officers is fixed giving Preference to Counties; the like method has been observed in this County by giving Preferences to Districts; many Gentlemen who bore Com's under the former Government & Friends to the Glorious American Cause, hold Com's under the Present, & by this arrangement are Injured; as I understand that new Com's are to be given and I beg leave to suggest to your Excellency, that great Uneasi-

4th. That when any person shall think himself aggrieved with respect to his being fined in consequence of the above mentioned regulations, the committee of the city, town, manor, precinct or district, where the cause of complaint ariseth, upon complaint made to them, shall have power to hear and determine the matter, and if said complaint shall appear to be groundless and vexatious, the complainant shall forfeit a sum equal to the fine in dispute, to be levied upon his goods and chattels by warrant from the chairman, directed to a serjeant of the company. The said forfeiture to be applied in the same manner as the fines in the before said regulations are applied; and that no man shall be fined for want of powder and ball, who shall produce a receipt from his captain of his having deposited in his hands six shillings and nine pence for the purchase of those articles.

5th. That besides the stated meetings of the companies of the militia, it be recommended to the commissioned and non-commissioned officers, to use all possible diligence to perfect their companies in the military art, by inviting them together in small parties as often as they conveniently can meet.

6th. That although persons above 50 years of age are not required to be enrolled in the militia, yet it is most earnestly recommended to them that they be respectively provided with arms, accoutrements and ammunition, as though they were required to be enrolled.

7th. That it be earnestly recommended to every man in the militia to provide himself with a bayonet properly fitted to his musket or firelock.

8th. That no new troops of horse be formed unless an augmentation be recommended by Congress or the Committee of Safety.

9th. That all persons incurring the penalties for non-attendance and disobedience of orders specified in the twelfth clause, shall for every default incur the forfeitures therein annexed to the first default, notwithstanding their being held up as enemies of their country.

10th. That the minute men meet in their respective companies on the first and third Mondays in every month, and pass through the necessary military exercise under their proper officers, and that for the second meeting in every month the officers and privates be respectively allowed the pay of the Continental troops agreeable to the new establishment; provided that the commanding officer of each minute company who shall be present at the muster and exercise of each respective minute company, do deliver to the committee of the city, town, precinct or district in which they shall so meet to exercise, a muster roll of the commissioned and non-commissioned officers and privates of their respective companies, who did actually appear and exercise until they were dismissed by the commanding officer, sworn to by the officer who was present and commanded for the day; and that besides these regulations it be recommended to them to meet in such subdivisions of each company under a proper officer, as will be most convenient for their frequent meeting.

11th. That if any officer should omit to meet and exercise his men upon the days appointed, or shall through favour or affection neglect to levy any fines in the said rules and orders for regulating the militia required to be levied, he shall forfeit for every such neglect the sum of 40s. to be levied and applied as is directed in the twelfth clause of the before referred to regulations.

12th. *Resolved*, That the officers of the minute companies that are already chosen, do continue their offices till the further orders of this or some future Congress.—Journal of Provincial Congress.

ness is Subsisting in my Brigade on this account, which unless Provided for, will Undoubtedly be the means of Severall of my best Officers Declining.

There is a great number of Hessian Deserters in this County, & I am Exceedingly Concerned to find that a Considerable number of them by large Bounties have been Tempted & are Returned in the Present Draft made out of my Brigade; for my part I think they are men that Cannot be Depended on; if your Excellency is of this opinion, I Could wish, Sir, you will give some Direction to Prevent the like Practice for the future. With the Greatest Esteem I Remain

Your Excellency's Most Obedt. & Hum'le Serv't

Ab'm Ten Broeck.

His Excell'cy Governor Clinton.

Poughkeepsie 9th March 1778.

Sir, I am favoured with your Letter of the 26th Ultimo inclosing the Return of Colo. McCrea's Regiment. I observe that you have not either with this Return, or those transmitted me with your Letter of the 19th; pointed the Persons most proper in your Opinion to fill the Vacancies in your Brigade, & tho you mention it as your Oppinion that many of the Officers returned, ought to be struck out for disafection, yet such Persons are not particularly mentioned. With the Assistance of the Field Officers of your Brigade, you will certainly be better able than the Council of Appointment can be supposed to be, to point out in the Lists of the different Regiments, such Officers as are disqualified to serve their Country from disafection, or other Cause, & from the particular Knowledge that you & they must have of the Military Characters of the People composing the

different Regiments. It cannot be a difficult task to say upon the whole, who are best qualified for Officers. This is all I want. The Council mean it only by way of Information, to enable them to discharge their Duty, and as I have Reason to believe that the Council will not continue to sit long at this Time, I must begg that you will without Delay comply with this Request, otherwise I fear we shall not be able to officer your Brigade at the present Meeting. It may be Inconvenient for all your field officers to meet together, but such of them as are near you, may be expeditiously done, and forwarded in season; due care will be taken to remove the uneasiness in your Brigade occasioned by the undue arrangement of the officers. Justice will be done such of them as far as will be in the power of the Council of Appointm't. It is exceedingly wrong to receive Hessian Deserters in the room of militia to be raised and I expect you will not Suffer it. I am &c.

General Parsons Asks for More Troops.

Robinson's 10th March 1778.

Dear Sir, Your last is fully satisfactory; I shall avail myself of your Licence to procure a warrant for much of my Conduct.

We shall begin to break Ground in Two Days, when we shall be able to employ 500 men more than we now have to great advantage; In Ten Days or a fortnight we can employ 500 more. I must beg your Excellency's attention to this Subject and that you will be pleas'd to order these additional Troops as soon as possible.

Genl. Schuyler writes me he thinks 300 or 400 men may be Spard from Albany, I wish your Excellency to request the Marquis to order them down, and that Col. Putnam's Regt. may be of the number; he will be very useful being much acquainted with the Duty of an Engineer; but I beg you not to Suffer the Congress's own Regt. of infernals to make Part of the Number.

Sylvanus Hait who lives near this House has gone to ye Enemy, and left his Family, One Swim and Sundry other Tories in this Vicinity ought also to be remov'd to make Room for the Troops as well as for our own Safety: I wish y'r Excellency to give the Necessary Orders for their immediate Removal; as they are all upon Robinson's Estate I suppose the Committee of Sequestration will remove them if y'r Excellency directs. The Governor Returns Colonel Sutherland's List to Be Perfected.

Poughkeepsie 10 March 1778.

Sir, I am directed by his Excellency, the Governor, to Inform you that the list of the officers of your Regt. returned by you a few days since is entirely incompetent for the purpose wanted, as the Council of Appointm't cannot discover from it the old officers from those Intended to be newly appointed; His Excellency, therefore, orders that you Immediately return a list of the old officers and of those Intended by you and the other field officers to fill up Vacancies, if any you have in the Regt. and if any of your old officers are to be displaced, you must in your return, assign your reasons for it, and point out particularly, the persons names who are to supply their places so that the Council may be fully enabled to make proper and Just appointments.

THE NEED FOR MORE TROOPS.

The Governor Calls the Legislature's Attention to This and Other Important Subjects.

*Gentlemen, Pursuant to a Resolve of Congress, of the 18th of February last, authorizing and requesting me to superintend the Business of obstructing, fortifying and securing the Passes of the North or Hudson's River, agreeable to their Resolution of the 5th of November, and to employ the Militia of this State, and to call upon the States of Massachusetts-Bay, and Connecticut, for such Parts of their Militia as may be thought necessary, and

*From Journals of the Legislature.

those States can spare, for executing that important Business; a Copy of which Resolutions you will receive with this Message.

I am to request, that you will provide for the raising and calling into Service, seven hundred of the Militia of this State, for those important Purposes, to continue in Service to the first of January next. In Consequence of the Resolutions referred to, I have also requested of the States of Massachusetts and Connecticut two thousand three hundred of the Militia of those States, for the same Service, making in the Whole three thousand Men, which, with such Continental Troops as may be spared, I have judged only barely sufficient for this Service. The States at large, and this State in particular, is so immediately interested in the speedy Execution of this Business, that, I trust, any Arguments to excite the Legislature to a speedy Compliance with this Request, would be unnecessary.

I have only to observe, that I am induced thus far to exercise the Powers vested in me by Congress, to avoid the Delay, which declining it, would necessarily occasion, as the Legislature will readily see, that while they continue sitting, it would be altogether out of my Power to pay that Attention, (which I would wish to give) to the Works, for the Security of the Passes of the River, and which their Importance demands, and the Safety of this State absolutely requires.

You will also herewith receive a Copy of the Resolution of Congress, of the 9th February last, recommending it to the Legislatures of the several States to enact Laws for the most speedy and effectual Recovery of Debts due to the United States of America.

Governor Clinton Calls Commissary Gray to Account.

Poughkeepsie 11th March 1778.

Sir, I am informed by Capt. Benson that you object against delivering to the Ship Carpenters employed under his Direction, their back Rations of Provisions & Rum. You must be sensible it would be very Inconvenient for these People to draw their Daily allowance at Fishkill; it would be equally so to keep a Dep'y Commissary here to supply them. It is, therefore, for the good of the Service that they be supplied in the manner agreed to with them by Capt. Benson at the End of every Month & I expect you will comply with that Method allowing them whatever is now due to them. I am &c.

Geo. Clinton.

Joshua Wells Vindicated.

Poughkeepsie 11 March 1778.

D'r Sir, Genl. Putnam called upon me some time before you arrived to that post, to be informed of the Character of one Joshua Wells whose Effects were Seized in Suffolk County on Long Island and brought off, by a party under your Command and detained until his true Character could be known. I was not acquainted with the man myself and, therefore, I desired some

Gentlemen of the Legislature who lately resided on Long Island, to obtain the Necessary Information respecting Wells in Consequence of which the enclosed Certificate* directed to Genl. Putnam & signed by a Number of respectable freeholders of that County, has been handed to me, which holds up Mr. Wells in so fair a point of View, that I think there remains no doubt but that his Effects ought to be delivered up to him, and that it will be done. I am Sir your Most Obed't Serv't

Governor Clinton Spurs Up Philip Livingston.

Poughkeepsie, 11th March 1778.

Dear Sir. The Legislature being informed by some Persons, who come from your Neighborhood on Monday last, that you had not before that Time set out for Congress, appear to be very uneasy, least by means of your Non Attendance this State at this Important Juncture will be without a Representation in Congress; what adds to their Concern is your being possessed of the Exemplification of their Act for ratifying the Articles of Confederation which ought to have been at Congress on the 10th Instant. They have, therefore, requested me to write to you on this Subject, and to desire that in Case you are so circumstanced as not to be able to commence your Journey for York Town immediately, that you will deliver the Exemplification referred to, To the Bearer Mr. David Barclay, who is employed to proceed Express to Congress & deliver it to some or one of our other Delegates there. The Legislature however wish that this Step

You will please to take Mr. Barclay's Rec't for the Exemplification if you should not be the Bearer yourself.

COLONEL WYNKOOP'S WORK COMMENDED.

Delinquency in Pushing Work Forward for the Gunboat Defences of the Hudson.

Robinson's, 11th March 1778.

D'r Sir, This moment I rec'd a Letter from Col. Wyncoop of ye 4th Inst. He informs me 12 Cannon are at Albany from Ti; the Sleighs gone for ye Remainder & expected the middle of ye following week; and had good Prospects of compleating the Carriages by ye Time ye River opens. That all ye Boards would be at ye Landings by ye End of the next week; axes, Spades &c. he had Sent to New Windsor: in Short his Business has been exceeding well attended to and afords agreeable Prospects. He informs me no Dimentions have been given nor orders for building Gun Boats or floating Batteries. I wish you, Sir, to send him Direetios & direct the Shape & Size of the Boats & Batteries, the number & weight of Cannon in Each. I beleive a floating Battery, mounting about Six Peices from 12 to 24 pounds, will be a better Defence to this Post than any Land Battery, and had better be constructed at Albany before the Gun Boats are began there.

Part of ye Provisions pass ye Ferry this morning, but is Short of the Commissary's Report; of 100 to have been rec'd of Cpt. Hiat at Crumpond 61 barrels are deliverd. I have heard nothing, from Bedford since I left that Place, Mr. Campbell whom I left to forward the Provisions having made no Report.

If you think the Service will be promoted by it, I wish to receive a Line, by which I shall be authoris'd to make Such Contracts & use so much Discretion as is necessary to forward these works until you can attend in person, as much Trouble will be sav'd you which may otherwise arise from frequent applications.

I am with Esteem & Regard Y'r Excellency's Obed't h'e Serv't

His Excellency Governor Clinton. Poughkeepsie.

Dr Sir, Your Letters of yesterday & this Day are received. I will endeavour to have the Torrie Familles you mention, removed to make Room for the Troops and prevent the Misschief they might do living in the Vicinity of the Works. I received a Letter from Colo. Wynkoop simular with his to you, & thereupon wrote him to advise with Genl. Schuyler as to the Size & Construction of the Gun Boats to be built at Albany & follow his Directions. I have wrote to Congress for Part of the Troops from the Northward. I wish I had known Colo. Putnam's Regt. was there before. I will however endeavour to procure it as the Colo. can be usefull man with us. I have requested of your State, Massachusetts & this, 3000 Militia, but it must necessarily be long, eere they can be on the Spot. I begg, that you will do every thing which you conceive, will tend to forward the Works, & rest

assured, whatever you may so do, will be confirmed as far in

GOVERNOR CLINTON DISPLAYS GOOD JUDGMENT.

*Declines to Go to Extremes—Difficulties in the Way of the Defences
of the Hudson.*

Kings Ferry 11th March 1778.

Dear General, Just as I set off from Fishkill, Peter Hughes
returned from the Slitting Mill and brought word that no Nail
Rods could be had till some time in April, in which case the
works will be retarded greatly, if not totally stopp'd. On my
arrival here I find as near as I can compute (some being thrown
into the water) about 100 bundles, which I have ordered to be
seized and sent up the River, for public use, and beg that one,
if not both of the [boa]ts may be dispatched for them & the
remainder of the Grain; there is about 1000 Bushels here yet &
the Enemy hourly expected. Capt. Tyson is sent with this, in
order that there may be no delay; he is orderd also to apply for
an Extra order for the taking the nail Rods, which I hope you
will approve.

Major Kierse tells me that the Enemy to the amount of about
400, were near Tarry Town yesterday & skirmish'd with the Mil-
itia, but knows not the event.

* Lafayette.

I should be happy if you would please to communicate this, to the Gov. as well as what I have done relative to the Nail Rods. I am &c. &c.

H. Hughes.

P. S. I have orderd an exact account to be taken of the Rods, that the owner may receive the value. It is pretty clear that they are the property of Mr. Ogden who refuses to supply us.

H. H.

Copy.

D'r S'r, The forgoing is a Copy of Col. Hughes's Letter. The Nail Rods will be wanted very soon. I wish your Excellency to give proper Directions therein. I have heard nothing of the affair at Tarry Town but what's contained in Col. Hughes's Letter.

Y'r h'e Serv.

Saml. H. Parsons.

12th March 12 o'Clock.

His Excellency Governor Clinton, Poughkeepsie.

D'r Sir, You will readily see the Impropriety of my giving an Order as Gov'r, to seize the Nail Rods, alluded to in your Letter of this Date; nor do I think such an order necessary; the absolute necessity which Colo. Hughes says there is of Nails to carry on the Works for the Defence of the River, his not being able to procure a supply at the Usual Place, or elsewhere, & the concealed Manner he found the Present Bundles, in my Oppinion will Justify, the Converting them to public Use, especially on this present Occassion, taking a proper acc't of them, & paying the owner when discovered, the full Value. I have this Day

wrote to the Marquis for two Regiments of which Colo. Putnam's is one. I fear I shant be able to leave Home for some Days; the Moment I can, I will wait on you at West Point, but if Convenient shall be glad to see you here before. Yours &c.

THE QUESTION OF EXCHANGES.

Hamilton Disposed to Criticise the Methods of Lord Howe.

Head Quarters March 12th 1778.

Sir, Capt. Coleman delivered me your two letters of the 5th & 6th, instant.

The pleasure, I have, in corresponding with you, will dispose me, whenever I have any thing to communicate, that may be worth your attention, or that appears to me so—to trouble you with my sentiments: But I shall not expect you to make an equal return either in quantity or frequency. You will, in this, intirely consult your own convenience.

I had previously flattered myself, that your ideas and mine would correspond, in a certain matter, and I am glad to find I was not mistaken. I doubt not the defects of a certain synod, will appear to you not the subject of speculation only; but as disorders in the state, that require a remedy, and will, as far, as your influence, reaches, contribute to it. Shall I speak what seems to me a most melancholy truth? It is this—that with the most adequate means to ensure success in our contest, the weakness of our councils will, in all probability, ruin us. Arrangements on which, the existence of the army depends, and almost the possibility of another campaign, are delayed in a most astonishing manner; and I doubt whether they will be adopted at all.

A late resolve directs G. W. to fix the number of men under which G. H. shall not send any parties out of his lines, on pain of being treated as marauders. The folly of this is truly ridiculous; but as there is perhaps nothing but folly in it, it may be excused in them. Another resolve made for punishing Kidnappers or

persons who aid the enemy in carrying off the peaceable inhabitants has a retrospective view to those, who have assisted, as well as a perspective one to those who shall assist in such practices. Thus we have gotten into the spirit of making *ex post facto laws*, or rather violating all law. Another resolve, by plain implication, acknowledges a thing not founded in fact, which is very injurious to us—to wit, that we have inlisted prisoners of war. This silences all our complaints against the enemy for a similar practice, and furnishes them with a damning answer to any thing we can say on the subject. This is at least an instance of folly and inconsideration, and serves to prove the general charge.

These men seem also to have embraced a system of infidelity. They have violated the convention of Saratoga; and I have reason to believe the ostensible motives for it were little better than pretences, that had no foundation. I have lately seen some letters from Burgoyne on the subject. There was however a strong temptation for this, and it may be excused, though I cannot say the measure is to my taste. Lately, a flag, with provisions and cloathing for the British prisoners, with G. W's passport was seized at Lancaster. The affair was attended with circumstances of violence, and meanness that would disgrace hottentots. Still more lately—G. W. engagements with G. H., for an exchange of prisoners, has been most shamefully violated. C—s have resolved that no exchange shall take place 'till all accounts are settled and the ballance due the U: S: paid. The beauty of it is—on a fair settlement we shall without doubt be in Mr. Howe's debt; and in the meantime we detain his officers and soldiers, as a security for the payment. The operation of this resolve, though it does not plainly appear upon the face of it, is to put off an exchange—perhaps forever. At any rate it cannot take place all next summer.

It is thought to be bad policy to go into an exchange; but admitting this to be true it is much worse policy to commit such frequent breaches of faith, and ruin our national character. Whatever refined politicians may think—it is of great consequence to preserve a national character; and if it should once seem to be a system in any state to violate its faith whenever it is the least inconvenient to keep it, it will unquestionably have an ill-effect upon foreign negotiations and tend to bring Government at home into contempt, and of course to destroy its influence. The general notions of justice and humanity are implanted in almost every human breast; and ought not to be too freely shocked. In the present case—the passions of the country and army are on the side of an exchange; and a studied attempt to avoid it will disgust both, and serve to make the service odious. It will injure drafting and recruiting, discourage the militia & increase the discontents of the army. The prospect of hopeless captivity cannot but be very disagreeable to men constantly exposed to the chance of it. Those, whose lot it is to fall into it, will have little scruple to get rid of it by joining the enemy.

It is said, not to be our present interest to exchange, because we should endeavour, by and by, to take advantage of the enemy's weakness to strike some decisive blow. If we should fail in this, which I believe we shall—when they get reinforced we shall not think it our interest to add to the strength of an enemy, already strong enough and so on ad infinitum.

The truth is, considered in the mere view of barter, it never can be our interest to exchange; the constitution of our army, from the short term of enlistment the dependence we are obliged to place in the militia, are strongly opposed to it; and if the argument of present interest be adhered to, we never can exchange.

I may venture to assert, there never can be a time more proper than the present, or rather a month or two hence; and go about it as soon as we please the previous negotiations necessary and other circumstances, will, of course, procrastinate it for some time. And I would ask, whether in a republican state and a republican army; such a cruel policy as that of exposing those men who are foremost in defence of their country to the miseries of hopeless captivity—can succeed?

For my own part I have so much of the milk of humanity in me, that I abhor such *Neronian* maxims; and I look upon the old proverb, that *honesty is the best policy* to be so generally true, that I can never expect any good from a systematical deviation from it; and I never can adopt the reasonings of some *American* politicians deducible from their practice, that no regard is to be paid to national character—or the rules of good faith.

I dwell upon the faults of Congress because I think they strike at the vitals of our opposition and of our future prosperity—and with this idea I cannot but wish that every Gentleman of influence in the country should think with me.

We have nothing new in camp—save that Capt. Barry, late of a Continental frigate, has destroyed with a few gunboats—two large ships belonging to the enemy, laden with forage from Rhode Island. He also took an armed schooner, which he has since been obliged to run on shore, after a gallant defence. 'Tis said he has saved her cannon & stores—among the ordnance four brass howitzers. Some acco'ts say the enemy are preparing to evacuate Philadelphia. *Sed credat Judæus Apella, non ego.*

I have the honor to be With unfeigned esteem & respect Sir
Your most Obed't

A. Hamilton.

Commissary Gray Explains His Position to Governor Clinton.

Fishkill March 13th 1778.

S'r, I received yours of ye 11th Inst. respecting Cap'n Benson & Carpenters under his direction.

Mr. White who has the Care of the Issuing Store Informs me, that Cap'n Benson has been supplied with provision for the

months of Decem'r & Jan'y last, and Informed him of the difficulties of supplying him for the month past, unless it should be applied for, on the last days of the month, for which provisions are drawn for, as by resolves of Congress, every Issuing Commissary is ordered to Close his Books at the end of every month & make return of what received, Issued & remaining in store &ca. —and when Cap'n Benson drew provision for the month of Jan'ry, Mr. White then told him it would not be in his power to supply him for the month of Feb'ry, unless he Came within the month, and desired him to do it to prevent difficulty. Cap. Benson made answer, he should draw provision when he thought best, and did not Care for the Resolves of Congress. On the 10th Inst., Mr. Vanzandt bro't Cap'n Benson's order for provision for the Month of Feb'ry. Mr. White Inform'd him it was not in his power to deliver the provision, unless he should procure Genl. Parsons particular order for the same, dated in the month of March, and desired him to procure it. Mr. Vanzandt replied he would not; he had other business to do.

If Cap. Benson will apply or had, with his orders at the end of each month for which provision is wanted, there would not have been, nor hereafter will there be any difficulty in the delivering of which he was Informed in season, and tis his fault & not the Issuing Commissarys, that he has not had the provision, as the resolves of Congress are such that the Issuing Commissarys Cannot Supply Cap'n Benson with provision for past allowances at any Time when he shall be in Humour Call for it.

There was no Rum in store when Cap'n Benson had his provision for the Months of Decem'r & Jan'ry. On the 6th Inst. I received an Order from Genl. Parsons not to Issue any Rum for past allowances without special Order from the Command'g

Officer of this department, a Copy of which order I sent Mr. White, which was the occasion of his refusal.

Governor Clinton Suggests to Lafayette to Utilize Two Additional Regiments in Completing the Defences of the Hudson.

Poughkeepsie 13th March 1778.

Sir, The Want of a proper Body of Troops in this Quarter will occasion great Delay in the Works erecting for the Defence & Security of the Passes of the River. The small Number that are in this Department are many of them under Innoculation for the small Pox, & so many of the well necessarily dispersed as Guards to the Country exposed to the immediate Ravages of the Enemy, that very few indeed are left for the Works. I have requested of the States of Connecticut, Massachussets Bay & this State, three thousand Men, but these cannot possibly be on the Spot before some Time in next Month, till which Time, we shall not without Aid from some other Quarter, have the one third of the Number of Men we could employ to advantage at the Works, in the speedy Completion of which America is so much Interested. These Considerations induce me to suggest to you, the necessity of employing for this Service, Vanschaick's & Colo. Putnam's Regiments now at Albany, or such Part of them as can be spared, & if the same can be done with Propriety & consistent with your Instruc-

tions, I doubt not but you will readily consent to it & give the necessary orders. I am Sir with great Respect Your Most Obed't Serv.

In Relation to Plundered Goods That Had Been Buried and Found.

Caughnawaga, 15th March 1778.

Hon'ble Sir, We the Subscribers, two of the members of the Committee of the Mohawk District in the County Tryon, did in the month of December last past apprehend, and attach'd a Certain Chist of goods, part of which belonged, to one William Wallace, which went over the lines on his Journey to Jojne our Enimy; but before he could reach them was taken, and Imprisoned in Albany, and the Remaining part of said goods belonged to a Certain Jacob Snook, who says he had sworn true allegence to the States, the said Snooks goods we Returned him; and Wallace's part thereof, we Delivered to the Commissioners of Sequestration of this County, which they sold at Publick Vandue for the good of this State. agreeable to their Instructions from Congress, Excepting one Shirt the Commissioners give to the said Wallace, he being then in Goal, and in great want thereof.

This Chist of goods was found by John Van Dewarkin and Dennis Davis (as they say Buryed under ground) who brought it in the Night, to the House of one Jacob Gardinears, and there devided said goods, and Claimed them as their own property, and each took his part of the booty away, and kept the same a Secrete; but by accident it was found out by the said Snook, upon which he Entered a Complaint to us the Committee, who granted him a Search Warrant to find the goods out; part of which was found in the House of the aforesaid Davis, and brought by the Constable to House of Charles Van Eps, Chairman of said Committee; after which we, the said Committee, sent for the aforesaid Van Dewarkin, and ordered him to bring the Remaining part of said goods to the said Charman, which he did, from which we

took, and Delivered them to the Commissioners. The aforesaid Snook Swore, before us the said Committee, that there was fifteen pounds hard Cash in said Chist when it was buryed, but never Could find out what become of it.

This, Sir, is true Representation of this affair as it happened, and begs your Honour's advice, as soon Possible, how we are to proceed further in the matter; as you will perceive by the Inclosed Resolve of the New Committee (alth' Chosen in an unconstitutional manner); and also Confirmed by the Chairman of the County Committee that we must Return the said Goods to the aforesaid Van Dewarkin and Davis, altho they have been sold by the Commissioners three months ago to the Different Inhabitants in these parts—in our opinion, we have done every thing in our power for the good of the state, and to damp the Spirit of our Internal Enimys as fare as our Instrutions and oath Admitted. There are several persons such as the above mentioned, have done a great Deal of damage in these parts by Plundering goods, which ought to have been sold for the benefit of the State; There is also Inclosed from the New Chairman of the Committe of this District, an order to us to Render the aforesaid Van Dewarkin Satisfaction; The whole of this Transaction was done by the Voice of the old Committee and hopes the same will prove satisfactory to your Honour. We are your Honour's most Obedient and Very Humble servants

Schuyler Fears an Indian Uprising.

Albany, March 16th 1778.

D'r Sir, On the 13th Instant I was honored with a Letter of the 10th Inst. subscribed by your Excellency; the president of the Senate and Speaker of the House of Assembly. The Commissioners of Indian Affairs were already gone Home when the Letter came to Hand, so that I could not lay it before them. I have however shewn it to the Marquis De La Fayette and have advised that Detachments of Troops should be sent to such places as would best protect the Inhabitants.

What Effect the firm Tone in which the Commissioners have spoke to the Indians will have on them is hard to say. The Re-

sult of a Council that is to convene on the occasion at Onondaga will enable us to determine. We are however inclined to believe that the Indians will commence Hostilities. This Idea I have conveyed to Congress in the Dispatches which the Bearer hereof carries.

Colonel Wynkoop has requested my Assistance in procuring Gun Boats. Be assured that every Aid I can give will most cheerfully be granted. CONTUMACIOUS TEAMSTERS.

*Obstructions in the Way of Providing Washington's Army—
Clinton Favors Martial Force.*

16th March 1778.

D'r Sir, The carting is so exceedingly bad that tis almost impossible to get the Provisions to Morris Town: about 15 or 20 Teams have pas'd the River with four Barrels each: 150 have been remov'd from Bedford, 135 of which have come on to Peekskill, where some of the Teamsters have drop'd their Loads & gone off with their Teams, about 16 Still remain, determin'd not to cross over without military Compulsion; some have drop'd their Loads on the Road from Bedford & are gone off; about 120 bbl. Still remain at Bedford, in the Hands of Mr. Leek the Commissary; the carting is so very bad & for other Reasons perhaps it may not be best to move it just now: in Short the good Whigs in & near Bedford seem determin'd to do nothing without a mili-

tary Force to compel their movments every mile. The Tories of Cortland's manor are more Submissive. I wish your Directions whether that come on to Peekskill shall be ordered over immediately or wait a little for better Carting and at what Time to attempt removing the Residue from Bedford.

One Jesse Hawly, of Bedford, flaming Whig, has 47 barrels of Pork an Hand; he has sold some on a Contract for 6£ hard money or 24£ Continental Currancy. I am informd Commissary Leek has applied to him to purchase & has offerd him £17 - 10 - 0 pr. Bbl. which is 10/ more than he has given before; or to refer the Price to disinterested Judges, or to the Commis'y Genl. for the highest Price at his Election, all which he refuses; Mr. Leek has seis'd it for public Use, Hawley says he will pay attention to the Seisure, but will sell and the Commissary shall not have it. Under these Circumstances I must beg you to give some Orders to such Persons in that Quarter as you think necessary on the occasion.

I am with Esteem & Regard Y'r Excellency's Obed't Serv't

Saml. H. Parsons.

His Excellency Governor Clinton, Poughkeepsie.

Poughkeepsie 17th March 1778.

D'r sir, I rec'd your Letter of yesterday's date respecting provisions. As I have wrote to Genl. Washington Informing him of the Quantity of pork he might Expect from this Quarter (in which I governed myself by your acc't) I wish if it is possible that it might be forwarded on least it may have been depended on and a Dispointment be attended with fatal Consequences; but if however the Carting is so bad as not to admit of forwarding it we must Submit to the Delay. I cant believe any man, whatever

pretensions he may make, is a real friend to his Country who refuses to give his aid on this occasion, and if Military force is necessary to procure the Teams, I cant see under the Joint Resolutions of both branches of the Legislature of this State we can be Excused in not making use of it. The Case you mention of the Pork in the hands of Jesse Hawly, I will lay before the Legislature as some General provision in such Cases ought to be made. I don't believe that the Commissary in the present occasion will Incur any blame in holding the pork he has seized. I am sir yo'r

MANIFOLD ANNOYANCES.

Colonel Hughes Confiscates Iron Material From a Patriot Who Had Denied Possession.

Col. Malom's, 13th March 1778.

Sir, After I wrote your Excellency from the Village, the 11th, I proceeded to Kingsferry, where I found a Quantity of Nail-rod-Iron, which, on Inquiry I had reason to think was the Property of Col. Ogden, of Boonetown, who had, but a few Days before, sent me Word that he was very sorry he could not furnish the Department with that Article, as I had repeatedly applied, for several Months past, our Stock being nearly out,—Considering which, and the indispensable Necessity there is for Nails in the Service, I order'd them to be taken for publick use, taking an Acc't, and giving a Rec't for such Quantity as should appear on further Inquiry. I also sent up for a Boat to take in the Remainder of the Grain &c. as well as the Rods, part of which, was to be left at West Point, and the Rest as far up as the Ice would permit. In coming up thro' the Clove, with a Person from Boonetowne, he

assur'd me that the Nail-rods were the Property of Col. Ogden, and sent along to be of the way of the Service; as several Tons more had been; and this he learnt from the Gentleman, or some of his Family.

As it is not improbable but that some Acc't of this may reach your Excellency, thro another Channel, before I have the Honour of waiting on you, Sir, it was tho't prudent to give you the earliest Advice that Opportunity would afford.

Since I gaind the last Intelligence, I have order'd Major Kiers, as well as my Asst. at the Village, to make Inquiry for what has been already sent on, and secure them also, at least till further Orders, which I was induc'd to, from being told that the Gentleman did not intend to make any more for a considerable Time.

I must repeat my Application, that the Department may receive assistance of Teams, as it is utterly impossible to comply with the Demands of the Service without. A large Quantity of Salt is now at the Landing, and wanted at Headqrs. Besides, if the Enemy push up the River, it will be in their Power, and may be the Means of the most serious Consequences to the Army. Would not a Recommendation from your Excellency or the Legislature, to the Precinets, or Committees, to turn out, in Rotation, the Number wanted, on a written application from the Q. M. General's Department? However, I mean not to dictate, but only offer a humble Sentiment and beg to be thus understood Sir.

I am, with the greatest Esteem Your Excellency's most Obedt. and very Humble Serv't

Hugh Hughes.

SCHUYLER CAN BE DEPENDED UPON.

Clinton Reluctant to Take Action Against the Indians Until the Legislature is Consulted.

Poughkeepsie, 18th March 1778.

Sir, I am honored with your Letter of the 16th Instant.* With respect to Vanschaak's & Putnam's Regiments I am not authorized to call them from Albany to this Quarter. I only meant by my Letter to submit the Propriety of the Measure to you, as we really need a greater Number of Troops to carry on the Works for the Defence of the River, with the necessary Expedition than we have at present for this Important Purpose.

I am fully of your Opinion that if any Troops can be consistently spared from Albany of which you are the best Judge.

*Not found.

the four Months Militia will be more useful on Fateigue than in the Field, & therefore they may be better spared for this Service than Van Schaack's Regiment. Genl. Ten Broeck ought to have compleated the four Months Militia to the full Complement as ordered him & you will oblige me much by reminding him of this.

I am so little acquainted with the Western Frontiers, owing to the Number of New Settlements since I have been in that Part of the Country, that I am not able to advise on the Posts necessary to be taken there. I dare say Genl. Schuyler will at all Times chearfully afford you his advice on that Subject & I know of no Man more capable or in whom you may more confide. I am clear that it is better to remove the Torry Women you mention, than, to suffer them to continue where they now are, & it will afford me Pleasure how soon it is effected. We have always trusted to the Committees to disarm the Tories; we shall soon have Commissioners who will have Power competent for the Purpose. Sir, In my Answer of yesterday to your Letter of the 16th, I forgot that tho it is only consistent with Principles of Humanity to permit the Wounded Officer you mention go Home on his Parole,

yet in my Oppinion it woud be improper to indulge him with a Sloop to go to New York in, until the Enemy shall cause to be returned a Sloop which went down last Fall with a Flagg under the Direction of one Brooks, with a Number of Tory Families &c. The Sloop I mean belongs to one Capt. Baaf of Albany. Brooks is permitted to stay in the City & I suppose encouraged so to do & claims & holds the Sloop. I also omitted Answering that Part of your Letter, respecting settling the Indians you mention in the Western Country, and I cannot now venture to say any Thing on the Subject, as it is a matter concerning which the Legislature of this State ought to be previously consulted. Sir, The Conversation I have had with you yesterday is of such moment to me, that I Cannot help earnestly requesting your taking it into immediate Consideration, that I may the sooner be enabled to go to New York agreeable to my passes.

The matter stands upon a very serious Consideration in point of Justice, Viz. 1th, Whether I am to pay *ten pence, two thirds* New York Currency for each ration, as is charged in the accounts deliver'd me and particularly stipulated by Dr. Potts, or *trible* the charge, which the Commissary has no authority do" 2dly Whether I may not replace by purchase, wood and rum which are charged at most enormous prices, and which your resolves allow. There are other articles charged at the same rates, but as they

are trifling I shall not make them matter of dispute, but confine myself to the great impropriety of the other charges as I wish to act in the fairest manner. I only desire the favor of your investigating this affair, and doubt not of an equitable decision—but sh'd doubts arise, and you may not wish to decide on it, I shall beg leave to propose, that my receipt be received for the number of rations and sent your commiss'r of prisoners at New York or Philadelphia, to receive pound for pound of equal Quality, and for the due performance of which, I shall bind myself in any security you shall please to require.

I have the Honor to be with great respect, Sir, Your Most obed. humble serv't

And the Answer to Dr. Hayes' Communication.

Albany March 19th 1778.

Sir, I have received your Favour of yesterday, and was in hopes that the dispatches arrived last night from Congress could bring me some light about the affair you wish, and I desire very sincerely myself to see soon settled, but as I am disappointed in my Expectations I wou't loose any Time in making you an answer which could be more particular, was I directed by the Sight of what passed between Maj'r Genl. Gates or any Body from him and you, but my being till this moment in that part of General Washington's army which is under his Excell's immediate command, has made me rather a Stranger to the point now in Question, and I assure you, Sir, if I am cautious it is more by fear of making any Injustice to you than by this of hurting our own Interest.

I am not entitled to ascertain that the Congress of the United States means to grant the Rations to the British Prisoners at the rates which is given to their Troops as a Bounty, tho it costs much more, but I can assure you, that you will not pay by any means a Farthing more in Gold than we have paid in paper. I am very sorry indeed, that the refusing of our Currency paper in the places now under your power, deprives you of the agreement of purchasing or reimplacing in a way which would perhaps be more convenient for you.

Your proposition of giving pound for pound of equal Quality, seems to me more consistent with the Intentions of the Congress of the United States, therefore, Sir, I think I will be able to agree with you in that point, when I will see or the Powers you are invested with, for taking those engagements and the Time stipulated for their performance or the proper Security you will be pleased to give—but, Sir, you will easily conceive that I cant give you a decisive answer, when I do not know yet which have been the particular promises of Genl. Gates about your going to New York, and in the same time I see that you have not heard from him since you have wrote on that Subject and this of the Rations.

I have sent an Express to Congress who will be soon back, but my desire of complying to your wishes is such, that I have dispatched one other to the Governor of this State, who certainly must have known much more upon this affair than myself, who was farther and by whose intelligences I hope to be enabled to propose you several ways of settling the Business, which could be agreeable to you, then, Sir, I should not expect the answer from Congress & it gives me a great pleasure to see that on account of the weather till this Time and the necessary preparations my retarding for a few days a decisive answer cannot detail your going to the place where you wish to be.

According to what you have told me in our Conversation, that our Conduct in this place should regulate this of your Generals I'll only answer that the Time is come, where we have no more Objection to a strict Retaliation on both Sides and on every respect. Sir, very sincerely I've the honor to be Your most obt. Ser't.

The Ice being very bad when the Sleys first went up, prevented their taking up the heaviest Pieces, in Consequence of which ten nine pounders, fourteen six pounders, eight four pounders and one three pounder have arrived, which are all more or less damaged. the heaviest of which I am stocking and putting Trunnions on, for immediate Service and I hope to have the whole completely mounted in fifteen days.

Lient. Perry is just arrived informs me there are four eighteen pounders and one Twelve between Skeensbury and Fort Ann: One Thirty two Pounder, two twelves, and one Six pounder lost in the lake between Skeensborough and Ticonderoga, the rest remain at Ticonderoga. I shall endeavour to get the heavy pieces from Half Moon immediately, in order to have them mounted, and you may rest assured that no Exertions of mine shall be wanting to get the River in a good Posture for defence; altho I have never

received any orders or directions with respect to the disposition of the Cannon before or since their arrival, that, however, has not occasioned me a moments delay.

There are at present in the park two Six Pounders, and five three pounders, mounted on travelling Carriages, fit for immediate Service; also twelve Six pounders, one four pounder and Six three pounders, not damaged which I intend to have mounted as soon as the heavier Pieces are done.

I told the Collo. at that time if I was so used any more, I would by no means Serve any longer; at the State Arrangment, Mr. Wendle was advanced over me who had never been in the Service before. Such usage, in my Humble Opinion, is Sufficient reason for any officer that is fit to do his duty to Decline the Service. Thomas Palmer Puts in a Good Word for Samuel Brewster, Jr.

Sir, Agreeable to the Request of Col. Marvin, Chairman of the Committe of Orange County, which he Informed me was agreeable to an Order to him from your Excellency, and the Hon'ble Senate, I have Bound over the Bearer hereof, Samuel Brewster Jun'r, to appear at the next Supreme Court to be held in this County, to answer the Complaint of Col. Luddington ag't him for Transporting flour out of this State, Contrary to the Spirit of the Embargo Act &c.

Mr. Brewster Seems much Concerned that his Carracter Should Stand Impeached in a matter in which he Says he Conceives himself Intirely Innocent and in Order to Clear the matter up on his part, has applyed to the County Committe for a hearing. I Informed him, that I Conceived that Committe had nothing to do with it as a matter beyond their Power—he alledges, that as not only his Charracter but private Intrust is likely to be much Damaged if his Tryal is put of untill the Supreme Court Sits; he therefore Seems Extreemly anxious for a hearing. Upon which I Informed him that, poradventure, if he waited on your Excellency, you might favour him by Ordering Some Court of Inquiery before whome he may have a hearing. It appears to me If I have

a right Idea of his Intentions from his Representation of the matter, and from the Circumstance of the Bills of Parcels of the Salt he Imported being after the Imbargo Act took place, that he is Really Innocent of any Intention of Foregoing the Spirit of the Act—and if there is any fault it lies in the Commiss'r Mr. Brooks, Either thro Ignorance or design. And, if your Excellency would please to give yourself the Leisure to hear Mr. Brewster's Representation of the matter, I am a good Deal of Opinion your Excellency will be apt to think favourable of his Intentions—and should that be the Case your Excellency being perfectly acquainted with his General Character. I make no doubt your Excellency will favour him in anything Consistent with your honour and the Publick Safety.

I am with all Due Respect your Excellency's most Obed't & most humb'e Serv't

SCHENECTADY DECLARES A GRIEVANCE.

Against Bilcting of Troops, the Discrimination in Favor of Albany and One Man Holding Three Positions.

To the Committee of Schenectady,

Gentlemen, We the Inhabitants of this town & Distract beg Leave to Lay before you a state of Grievences which (in our

opinions) we have Just cause to Complain of, and as you are appointed by us to the Care and management of the public affairs in this District, It is though your Means we Look for and Expect Redress.

In the first place you know that a Barracks was Built Here for the Reception of Such Troops as might be ordered Here from time to time, in order that the Inhabetants Should be free from the Trouble and expence of Having them billeted on them; that notwithstanding this, Last fall the Barrecks was Converted into an Hospital and the troops to be quartered here was billeted on us, which have been Both troublesom and finding them with firewood attended with a Great deal of Expence, which we have not had the Least allowance for but hope you wil indeavour to procure us a proper Consederation for it.

Secondly, the director of the Hospital appointed a Comissary, and under him a Number of other officers for that Department, who are a part Disafacted persons to the States, which we look to be both Verry ungenerous and unjust to appoint Enemy's to the Country to posts of profite while so many true friends are in want of bread; and altho the Sick have been intirely removed from the hospital Some Consederable time ago, a Docter Commessary, Deputy Commessary and their attendents are still keep in pay, which we look upon to be intirely a waste of the public money, and as we Expect to Bear a part of the public Expence we Cannot help Complaining of this abuse and hope that they may be Emediately Discharged.

Thirdly, that Great partiallity hath hetherto Been Shewen to the Inhabitants of Albany, apointing them in preference to us to posts and places in the public Service, tho the far greatest parte of the Citizens of Albany are in Some public posts, there is only

three Inhabitants of this Town Employed in public Service (Exclusive of Soldiers); That they not Settlesfyed with filling all the posts in Albany with their own friends but have Sent a Commisary and Commisary's Clark here to act, while we a^re Confident we have people Enough Capable to fill Such places.

That Upon all Ocations when the Melitia is Called out, we have Sent three men to the field for one that the City of Albany have done, they being Chiefly Exempt By the public Employment they hold; and we have been obliged to do their duty; this we look upon to be unjust and must beg Leave to tell you that we Expect a more Equatable Distribution of public offices will be made; That we at all times are willing to do out part of the public Service, providing we Can Keep Some proportion of the public Benefit, and unless we can have that, we disvice you will not call on us for any further Services, but on those who are filling their pockets while many of us are in Dainger of Suffering for want.

Fourthly, that one of the three Gentlemen in this town imployed in the public Sarvice, held no less then four posts viz A. D. Quarter Master General, D. Commisary, D. Barrack Master, D. Forrage Master, which we look upon to be unjust for so many posts to be given to one man while so many are in want and have none at all.

Gentlemen These are the Greveneces we at present Complain of and in full assurance that they will be redressed as far as in your superior Judgment they ought and in your power to procure we Remain.

Gentlemen with the Greatest Respect your most humble Sarvants

Colonel Francis Barber Notifies Clinton That Washington and Howe Have Arranged for the Exchange of Prisoners.

Hanover, March 20th '78.

Sir, When I left Camp I promised myself the Honor of waiting upon you, but through badness of Roads & other Contingencies the Term of my furlough is so far elapsed as to prevent my traveling farther.

The Season of the Year has prevented any principal events taking place between the two armies, except an Accommodation for the Exchange of Prisoners. Gen. Howe had at length ac-

ceded to Gen. Washington's Terms, and the tenth instant was the day appointed for Commissioners from both to set in Germantown to settle the Exchange.

The army is undergoing another Change I hope, much for the better. The number of Officers is considerably reduced; which will afford an opportunity of dismissing the unworthy. Field Officers are allowed Companies; and the regimental Staff are to be taken from the Line, with an additional pay. Instead of three, there are to be only two Subalterns to each Company, a Lient. and Ensign; and nine Companies in a Regiment, one of which will be Light infantry to be embodied in Battalion during Campaign Service.

From the unsettled Office my brother held in the army, that of Adjutant in one of the sixteen additional Regiments which are to be reduced, I have prevailed upon him to return to his native Province, not doubting, if there should be an active Campaign here the ensuing Summer, that he might obtain an Appointment worthy his Acceptance. I therefore take the Liberty of recommending him to your Excellency's Notice.

I can with safety represent him possessed of merit and Abilities. His Capacity and Education is good; his Industry & Application to the Duties of an Officer has rendered him an exact Disciplinarian; and his Courage & Conduct in Action has ever been approved. In short his Behaviour was such the last Campaign as to induce Gen. Conway to place particular Confidence in him, and I will venture to vouch for his honoring any Appointment adequate to his Abilities & Experience.

I am Sir, with respect your Excellency's most humble Servant

Militiamen Exceedingly Reluctant to Come Forward.

Albany, 20th March 1778.

Sir, Your Excellency's favour of the 9th Instant* I have Rec'd. Agreeable to your Request I have Immediately on the Receipt of your letter, wrote to the Several Colonells of my Brigade & Requested them to point out to me such Officers as are disqualified to serve their Country from disaffection or other Cause; I have pressed them to do it without delay; as soon as I am furnished therewith I will Transmitt it to your Excellency. A few days ago I saw Collo. Williams from Charlotte County; he tells me it is Impossible for them to furnish any men; of the 320 men Ordered to be Embodied out of this County, only 78 Officers Included are come to this Place; there appears a most Shamefull neglect & I am Inclined to think the Officers are to Blame. The manor of Livingston's Proportion was 31, & only three have appeared here as yet. A Militia Law is Exceedingly wanted. I hope it will no longer be delayed. With great Respect I Remain

GOVERNOR CLINTON APPEALS TO THE LEGISLATURE.

He Desires Immediate Action Taken Against Suspects—The Order for the Militia to Proceed to the Highlands.

*Gentlemen, You will herewith receive a Resolution of the Honorable the Congress, of the 12th of March, Instant. The Subject of it is highly important, and demands your most serious Attention. I think it my Duty to inform you, that divers disaffected Persons and Families dwell and reside in the Vicinity of several of the Posts, Forts and Passes in this State, and that there is great Reason to suspect, that they are instrumental in giving the Enemy important Intelligence from Time to Time, of their State and Condition. It is not in my Power to remove them, and, therefore, submit to you the Propriety of speedily devising some Means whereby they may be removed. This Busi-

ness calls for the greater Dispatch, as the Season for military Operations approaches fast. It is also proper, that you should be informed, that there are in this State, certain Persons who have collected considerable Quantities of Provisions of various Kinds, which they refuse to sell at the current Price, for Paper Money. This Evil, unless immediately remedied, may prove of dangerous Consequences, as there is Reason to presume, that those Supplies are intended for the Use of the Enemy.

I think it my Duty to inform you, that some late Accounts I have received of the Movements of the Enemy, have induced me to order a considerable Body of the Militia to the Posts in the Highlands, as well to provide for their Defence, as to forward the Works erecting there to secure the Navigation of Hudson's River. Should the operations of the Enemy render it necessary to call a greater Proportion of the Militia into the Field, I shall think it my Duty to head them; and therefore, I flatter myself, that the more important Objects only of the Legislature, will, for the present, engage their Attention.

Geo. Clinton.

He was sick when I join'd the army last fall, so that I was not in field with him &, therefore, do not speak of him from my own Knowledge—but he acted as Major of Brigade to General Conway who highly praises him, as does the General voice of the Brigade, and many of the officers are very competent judges of military meritt.

I sett out for camp on Thursday or Friday, to make good my promise to Lord Stirling—for any other purpose it woud be needless to go, as the Regiment is or will be annexed to another, in consequence of the new arrangement, I hope to return in three weeks to the plough. General Conway Evinces a Disposition to Co-operate with Governor Clinton.

Albany, the 24th March 1778.

Sir, I have receiv'd yesterday a Letter from General Gates President of the Board of War Directing me by orders of Congress to remain in command at Albany. My Chief object and Desire is to cooperate with your excellency, in opposing the at-

tempts of the enemy upon this state. I should esteem it a particular favour if you would please to advise me; and I Begg you will be persuaded that I will make it a point to comply with your intentions. I have Demanded an exact return of the artillery, small arms and ammunition now at Albany, and will let you know our situation as to these articles as soon as possible. I find with much concern that the troops in this Quarter fall very short of what they were Last November. The Number of furloughs is prodigious. I have Directed the commanders of Regiments to call in their men immediately, and if you think it adviseable I could wish that printed advertisements might be sent to the Diferent committees in the eastern states for that purpose. Coll. Nixon's Regiment Belonging to General Nixon's Brigade is quarter'd at Farmington. Does not your excellency think it would be proper to order that Regiment to repair to Poughkeepsie or to the West Point where I imagine they would be usefull? The artillery and stores at Farmington could be guarded by some militia. I Do not know whether I can with propriety send orders to that Regiment. In this and every other occurrence I wish to be Directed by your advice. I am with Respect, sir, Your most obedient humble servant

Tho. Conway.

P. S. I am told that Mr. Dyckenn at Poughkeepsie has or can procure a Large quantity of shoes to the amount of four thousand pairs; this article is very much wanting for the troops in this quarter, what shoes have been issued out of the Clothier General's stores can not be us'd as they are generally so small that they can hardly fitt Children.

THE ALBANY COMMITTEE AND GOVERNOR CLINTON.
Dr. Hayes's Proposition Vetoed—Disposition of British Prisoners and of the Disaffected.

Albany Committee Chamber, 17th March 1778.

Sir, I am directed by the Committee to acknowledge the receipt of your Excellency's Letters of the 4th *inclosing a List of the Names of sundry Persons enlisted under one Stephen Hooper and that of the 9th Instant, and to inform you that upon the receipt of the former, Capt. Price was dispatched with a Party to

apprehend and secure the Persons mentioned on the List; he was so far successful as to apprehend Hooper and Van Hening the principals and ten of their accomplices who are in close Custody; several of them have been examined but no confession could be extorted from either of them. The Committee will however leave no means unessayed to obtain a full discovery and thereby endeavour to defeat any Conspiracy that may be on foot.

Your Excellency may rest assured that proper Notice will be taken of Huyck and Carpenter upon their return from New York.

The Committee have also directed me to inform you that it is their wish if it can be effected to have Alexander White, late Sheriff of Tryon County, exchanged for some one of our Friends now in Captivity at New York, and they could wish your Excellency would endeavour to Negotiate an exchange in such manner as you shall think proper.

Joshua Bloore has applied to the Committee for their recommendation to your Excellency for leave to go with his Family to England. The Committee have also directed me to inform you that they have no objections to his going but could wish to have him and Family exchanged if such exchange can be effected.

As the River is now opening, and as it is more than probable that the Enemy will endeavour to come up the River—the Committee would beg leave to suggest to your Excellency whether it would not be prudent to have the Tory Prisoners removed from this Place.

The Committee have been informed that Doctor Hayes the Director of the Brittish Hospital, has applied for leave to remove his Hospital to New York. As the Doctor and his Assistants are well acquainted with the situation of our affairs, the Committee conceive it highly improper that his request should be granted,

and, therefore, beg leave to suggest to your Excellency whether it would not be prudent to hint to the Commanding Officer not to permit Dr. Hays to remove the Hospital to New York and that he be advised to order them together with all British Prisoners in this and Tryon Counties to be removed to one of the Eastern States.

If any of the Troops now in and about this City are to go down to the High Lands, it is the Committees wish that the three Massachusetts Bay Regiments may be ordered to that place, as they would feign have Van Schaick and Hazen's Regiments remain here, not only as they are better disciplined but because they are better acquainted with the situation of this and the Neighbouring Counties. I am, with great respect Your Excellency's most Obt. Serv't

*This act was passed February 5, 1778. It authorized the Governor to appoint, by and with the advice and consent of the Council of Appointment, at least ten commissioners for detecting and defeating conspiracies in the state. These commissioners, or any three of them were given authority to send for persons and papers, administer oaths, and to apprehend and confine in such manner and under such restrictions and limitations as they should deem necessary for the public safety "all persons whose going at large shall in the judgment of the said commissioners or any three of them appear dangerous to the safety of the state." They were empowered to take "bonds and recognizances from time to time to the people of this state for the good behavior, safe custody or appearance" of all suspects. It was further decreed "that no judge or magistrate shall bail any of the persons who may be confined by authority of the said commissioners and that no court shall deliver any of the gaols within this state of any person or persons so confined"—"unless such persons shall have been indicted and tried for the offence or offences for which he or she shall have been respectively committed."

Ebenezer Stevens Writes in Regard to Ordnance.

Albany, March 25th 1778.

Honred Sir, Having been favour'd by the Marquiss de la Fayette with a late resolve of Congress which directs me to deliver all the Iron Ordnance repair'd or repairing in the park, and any quantity of Stores you may please to call for or Order,—I thought it proper to inclose a Copy of a return just forwarded to Congress, by which you will be able to determine, or at least form some judgment wheather the quantity on hand will be sufficient for the Use of this department the approaching campaign, or not, and in either case take your directions.

In compliance with my duty and to prevent any delay in forwarding what you may have occasion for, I must inform your Excellency that all orders for Cannon and Stores must be drawn on me, as the whole are at present under my immediate direction, and I am accountable therefor, that so proper receipts may be taken and bussiness circulate through its proper channell. Your Excellency may rest assured that no exertions of mine shall be wanting in my department, but your Orders in every instance in my power shall be expeditiously executed.

Relying on your assistance in the great work we have on hand, for which I am directed to apply, and wishing your Excellency prosperity in your unweaired exertions for the publick safety. I Remain with much Esteem Yours to Command

Dear Sir, Inclosed you have a Return of the Artillery at Albany which in Point of Size fall extreanly short of what I have had Reason to expect & is imagined by the Board of War. It seems few of the Heavy Pieces which alone woud have been serviceable for the Defence of the River have been brought forward. They were it seems sent for but too late. The ill contrived intended Northern Expedition occasioned the Delay.

The Albany Committee Withdraws the Request to Retain Colonel Van Schaick's Regiment in Tryon County.

Albany Committee Chamber 26th March 1778.

Sir, We wrote you some time ago and requested that Collo. Van Schaick's Regiment might remain here as the Officers and Men of that Regiment were well acquainted with the situation of this and Tryon Counties. This request has caused great uneasiness among the Officers, and several of them have absolutely declared that they will resign their Commissions in Case the Regiment is again divided and kept upon the Communication. The Collo. is also very uneasy about it and has earnestly requested the Committee to write to your Excellency upon this Subject.

I am, therefore, directed by the Committee to inform your Excellency that as this matter gives uneasiness they do withdraw the request made to your Excellency, and wish the Regiment may be gratified and put in such a situation as that they may have an opportunity to serve their Country agreeable to their wishes. Colonel William S. Livingston in Distress Over the Loss of His Horse.

Beverwyck, 28th March 1778.

Dear Sir, I most heartily congratulate you on the News of General McDougall's being appointed to take the Command upon the River, being fully convinced that should an Hour of Distress again arrive we shall not want that Assistance which might tend to our relief. General Putnam is an easy, good natured, well meaning credulous old man, but wholly incapable of judging for himself and others in Time of need. His Services in the early period of this Controversy were of some Importance and a genteel Compensation for them accompanying his retirement is all that he now can, or ought to expect. A Friendly Hint of the Kind from some intimate Acquaintance to that purpose would not perhaps be improper.

I have been waiting at Home to endeavour to purchase a Horse but cannot get one in the whole County. In the Fort I lost my Horse Saddle, Great Coat, Sword & Pistols and where I can replace either of them I know not. Walk to the Regiment I cannot. I must have a Horse or Stay at Home. If you will be so obliging if you should hear of any for Sale as to let me know it I will be much oblig'd to you. The Enemy I am confident took no Horses down to York with them, so that I am perswaded the People in that Neighbourhood must be in possession of mine. The Horse I contracted with Col. Shuldon of the Connecticut Dragoons for. He is branded in his Fore & hind Hoof with the Letters A. L. D. He was detain'd there for the Use of the Garrison. Machin rode him that Day and sent him several Expresses. I have not paid Shuldon for the Horse and as he was

purchased by him for the Continent I think they ought to loose him. If you should be of the same Opinion and will Certify to me his Detention I shall be oblig'd to you. Had he not been wanted I would have sent him away with the other one by my Servant. As soon as I can purchase a Horse or find a Tory who I can with Propriety take one from I hope to see you.

The War Board Issues a Circular Relative to Cartridge Boxes and Canisters.

War Office March 28th 1778.

Sir, I do myself the honor to inclose you the resolves of Congress of the 19th instant,* respecting the Troops destined to reinforce the grand Army. Unfortunately, after they were passed, they lay several days before they were handed to this Board; but they demand the most immediate attention & execution. What gave rise to the first, was an apprehension that the recruits might be detained in their respective states 'till they had been inoculated. This, the present posture of our Affairs absolutely forbids. The Campaign will soon open; and with all the diligence practicable it is to be feared the reinforcements will not arrive in time to enable the Commander in Chief to take

*See pages 58-59.

measures the most necessary & advantageous before the Enemy get reinforced.

General Washington has received Intelligence that they are embarking Troops at New York, & Rhode Island; destined (it is said) for Philadelphia; and he is to the last degree anxious to have the reinforcements speedily join him; in the first place, that he may be prepared for defence; in the second, to take advantage of any favorable Circumstance which may happen to injure the Enemy.

The recommendation to provide Cartridge Boxes, & Tin Canisters for Cartridges, is given because of the almost total want of them in the public stores, and the impossibility of making a number in any degree equal to the demands of the Army, in the public manufactories, where the Workmen are few, & it is impossible to encrease them: agreeably to the direction of Congress, the board give the following description of the Tin Canisters.

They are to be six Inches & a half deep, or long; three inches & three quarters of an Inch broad (this breadth receiving the Cartridges lengthways, as they lie in a horizontal position) and two Inches & seven eighths of an Inch thick; (this thickness admitting four Cartridges, to lay Side by Side). A box of these dimensions, in the Clear, will well Contain thirty Six Cartridges with Ounce Balls. A Wire is to be fixed in all the edges at the Top, and then each side turned down (outwards) a full half Inch, and soldered. The Cover is to be a full half Inch deep, so that when fixed on the Cannister, the Edges shall Come close down to the ledge form'd by the Inclosed wire. This Cover at one End turns on a hinge an inch and a quarter long, the wire (fixed as above mentioned) being laid naked, that space, for the purpose. And a piece of tin is run underneath this wire, doubled together,

& Soldered on the inside of one End of the Cover. The Soldier Carries a Cannister by a shoulder belt, as he does a Cartridge Box; and for this Reason the Cannister has fixed to it three loops of tin, each half an Inch wide, with the edges turned back, to be smooth & Strong; one of them is placed underneath the middle of the bottom, and one on each of the narrowest sides, the latter at four Inches distance from the bottom to their lower edges. The loops are to be bent down at each end, and very well soldered, leaving a Space to admit a leathern belt full one inch & a half wide, and nearly an eighth of an inch thick.

The Cover opens against one part of the belt, which causes it to fall down, after a Cartridge is taken out by which means the rest are Secured from accidental Fire. If possible, the Cannisters should be Japanned, or painted, to preserve them from Rust; and all fixed with belts.

The Board are of Opinion that these Cannisters are preferable to Cartridge Boxes, as they will infallibly Secure the Cartridges from rain; and their weight is so trifling as to be of no burthen to the Soldier. And seeing leather is so scarce they will be a most Excellent Substitute for Cartridge Boxes. I am, Sir, with great Respect, Your Most Obed't Humble Serv't

Horatio Gates president.

CAPTAIN JOHNSON'S MARAUDING RANGERS.

Governor Livingston of New Jersey Makes Complaint to Governor Clinton of New York.

Princeton 29 March 1778.

Sir, It is represented to me that one Capt. Johnson of your State commanding a company of rangers is guilty of committing

great Depredations in the northern parts of this State. I have ordered the Justices of the peace in that part of the Country to take Depositions respecting his robberies; but not having yet received them, I cannot charge him with any particular robbery. But it being at all events improper for him to exercise any military authority in New Jersey under a Commission from New York, I hope he will be called from this State by the authority of yours, before more disagreeable measures become necessary. I am with great Respect Your Excellency's most humble Serv.

Wil: Livingston.

His Excellency Gov'r Clinton.

Poughkeepsie 29th April 1778.

Sir, I have received your Excellency's Letter of the 29th of March last. If Capt. Johnston has committed any Robberies or Irregularities in your state or elsewhere it is contrary to the most positive Orders and I shall be well pleased how soon & severely he may be punished for them. I gave him particular Directions if his Scouts should at any Time enter your State (which on certain Occassions might be necessary) & should meet with any of its Inhabitants going to or returning from the Enemy without special Leave, to secure them with the Effects found with them & report them to the nearest principal Officer of your State which he, I trust would not be considered as exercising any undue Military authority in New Jersey under a Commission of this State, especially as the Company was ordered into Service at the Instance of the Commanding Officer of the Continental Army in this Department & was subject to his Orders. I have had Complaints made to me ag't Johnston & I have pressed the Persons

who made them to support them by Proof that he might be punished & removed but have never been able to prevail upon them to do it.

I have had Mr. Peter Fell appointed Major of a Regiment raised in this State for one year. Part of it will be stationed on the Southern Frontiers of this State on the West Side of the River where Major Fell will be stationed in Command. As he is an Inhabitant of your State & a prudent discreet Officer I wish he might also have the Command of such of our Troops as may be stationed in that Quarter, as I am perswaded it woud conduce to the Safety of both & could not fail being agreable to the Inhabitants who know him. Sir, Since I waited on you the beginning of this month, have been at Shawangunck & believe can be able to procure a place to Deposit the Cloathing Stores of the State in. The only thing wanting in that matter is your positive Direction, & woud be extreemly happy to have it immediatly in order that I may govern myself accordingly: You know very well the inconveniency that will arise from haveing any Stores in this quarter of the world, & as the new Supplies are Shortly expected in, it

is highly necessary to have Some place fix't upon before they come to hand; here there is no place, & indeed If there was it is intirely out of the way of doing business with your Excellency or the Regiments which belong to this State.

Therefore woud be glad how Soon my Directions (for my future goverment) Should come to hand. I believe the Stores will be much Safer in the East Side of the mountain then in this indian Side. RECALCITRANT MILITIA.

Governor Clinton Prefers to Dismiss Them Rather Than Allow Them to Make Trouble.

Albany 25th March 1778.

Sir, Lieut. Col. John H. Beekman (who I have appointed to the Command of the four months militia), Informs me has Received Orders to hold himself in Readiness to go down to the Highlands, that this Order comes very Unexpected, that his men

appear very Uneasy, as they Understood they were to stay in or near Albany. In the later part of my Order for Embodying these men (Copy of which I hereinclose)* I make use of the later part of your Excellency's letter of the 1st Febr'y. that in all Probability they will be Stationed in or near Albany; they seem to avail themselves of this, I am well Convinced they will be more Usefully Employed below then in or near Albany yet if your Excellency should be of opinion that the Exception is well founded I could wish you Sir to hint the same to the Commanding Officer here.

Notwithstanding my Orders & Col. Beekman's writing since by my Orders to the Several Colonels he has not got 200 men Officers Included & Several without arms, this, my dear Sir, gives me great pain. Pray be so good as to Suggest to me what farther Steps to take. I hope a good militia Law so much wanted will (if not already) soon pass. Last week I saw Col. Williams of Charlotte he tells me they have no men & and that he has wrote to your Excellency. I have the honour to be with the greatest Respect Your very Obedient Servant

D'r Sir, I am honored with the rec't of your Letter of the 25th Inst. I am much at a loss what farther orders to give you respecting the militia who were to be raised out of your Brigade & the County of Charlotte. It is Clear to me however if they were led to believe when they Engaged in the Service that they were to Continue in the Neighbourhood of Albany, it will be difficult if not impolitic to Send them elsewhere, and if they are not absolutely Necessary there it may be best to dismiss them

from the Service. On this Subject I have wrote fully to Genl. Conway Commanding at Albany with whom you'l please to consult on the Occasion. Believe me with great Sincerity Your Friend & Most Obed't Serv't

GOVERNOR CLINTON WRITES OF THE MILITIA.

*And Utters Several Sound Military Ideas to General Conway—
Guarding the Stores at Farmington.*

Poughkeepsie, 30th March 1778.

I am honored with the Receipt of your Letters of the 24th* 26th & 27th Instant by which I have the Pleasure of learning that you are to remain in Command at Albany. Be assured, Sir, that nothing in my Power shall be wanting to render your Situation agreeable to yourself & extensively useful to the Public. I am sensible that a Number of the Troops which were stationed last Fall at Albany were permitted in the Winter to go Home on Furlough, a practice which is very Injurious to the Service, but in the present Case may be excusable in some Measure as the Men were almost naked & had large arrears of pay due them & which was out of the Power of the then Commanding Officer to discharge & without this Indulgence Desertions still worse might & most likely woud have taken Place. These are the Reasons offered for the Officers in Exculpation of themselves as I am informed and I think they are not without some Weight. No Excuse Can be offered, however, for not collecting the Troops who are thus dispersed & I woud advise that every Officer that

*See pages 78-79 and 89. Conway's letter of March 26 not found.

can be spared be sent out for the Purpose as I am perswaded shoud this Service be left with Committees on Advertisements issued for the Purpose it will be neglected or at least imperfectly executed.

I am clearly of Oppinion with you, that the Artillery & Stores at Farmington may be guarded by the Militia of the State and that it woud therefore be wrong to leave a whole Brigade of Continental Troops there for that Purpose at a Time when their Services are so much wanted in the Field, particularly at West Point where they are by much too weak even to carry on the Works, much less to defend the different Passes shoud they be attempted. It might perhaps be well to leave with the Stores at Farmington one or two Companies of Continental Troops under a Careful Active Officer if for no other Purpose than to prevent plundering & to make the Militia more alert than they usually are when left alone.

If, Sir, you shoud find the four Months Militia such as are represented by Colo. Wynkoop & that they continue to persist in the Oppinion that by the Terms of their Engagement they were to continue the Neighbourhood of Albany I woud rather in that Case wish you to desire Genl. Tenbroek to dismiss them the Service than to have any Difficulty with them; & the more so as I have Reason to believe their Officers encouraged them to hope this shoud be the Case, and in this I am warranted from the Resolve of the Board of War mentioning that they were to replace so many Continental Troops in Albany. And as we are now about making Drafts from the Militia to fill the Continental Regiments it woud be impolitie to dispute with them or force them into Service on any other than the Terms on which they supposed they engaged.

I am happy to find you entertain the same good Opinion of Vanschaik's Regiment with myself. I wish they could be collected & brought into the Field. Men are never so serviceable near Home as at a Distance from it. Albany or Schonectady, therefore, is not the most eligible Situation for that Regiment. Suppose one of Nixon's Brigade was ordered to Albany & Van Schaak's sent to this Quarter.

Genl. McDougal arrived at Fishkill to take the Command of this Department on Saturday last. I will take the Liberty of communicating such Parts of your Letters to him as relate to it. I am perswaded he will be happy in cooperating with you in every Thing which may tend to the Safety of the Country & promote the public Service. I have the Honor to be with the highest Respect Your Most Obed't Serv't.

The Hon'ble Genl. Conway.

I was made very happy in being informed that Major Barber the son of a particular Friend of mine was one of your Family. I hope he is likely to continue with you & merit your good Opinion. I think he has a Military Turn & wish him a continuance the Opportunity of improving it under an Experienced Officer.

real service as I know of, unless it be to give an account of the Number of Men missing out of Col. Allison's Regiment, and that can be ascertained better from the Pay rolls now in the Paymasters office at Fishkill, than I can give it, as the officers of the different Companies who were at the Fort and escaped, have according to your orders entered the Names of those missing out of their respective Companies and sworn to their Rolls. If they should be necessary Capt. Bedlow will find them with the Abstract for November last. The Companies that Suffered were Captains, Humphrey, Faulkner, Jansen, Rose and Person. The Cherry Valley Committee Appeals to Lafayette for Protection.

Sir, When we had the Honor of waiting on your Excellency and Inform'd you of our defenceless situation, you was pleased to Promise us your very Friendly Assistance by sending up to our Settlement some of the Continental Troops, as we told your Excellency there was a number of Friends that was ready to help and Assist in defence of their Rights and Priviledges; but our Number is not able to repel any Considerable Force that may come against us which we have great reason to Expect when ever the Enemy comes, as we have reason to think will be the case by the Intelligence we have received from Friends from Time to Time and shall with our Lives Act in Conjunction with the Troops as far as we are able.

Therefore, we humbly beg your Excellency will be pleased to think on our defenceless situation and as soon as your Excellency can with Propriety send the Troops up to us, shall Act in Conjunction with them as we are in dread every Night of being Attacked by the Enemy.

Several Families has already left the Settlement and many more will leave it without some Assistance is sent us speedily that may enable us to make a stand and hope by the Blessing of God to preserve our Settlement from the merciless Ravages of a Savage Enemy.

On Saturday the 28th Two Men on whose Veracity we can Depend came and told us that two Friendly Indians came and warn'd them to leave their Places as the Enemy would be very soon in their Parts.

Another thing we have to lay before your Excellency is the Want of Arms and Ammunition as many of our Men lost them when they was wounded in the Battle at Areseu [Oriskany].

We shall not intrude on your Excellency's Time but refer you to the Bearer hereof who will inform your Excellency of any other matters relative to the State of this Settlement. And humbly hope your Excellency will be pleased to favour us with a Line what Time we may Expect the Troops up and beg leave to Subscribe ourselves Your Excellency's most Obedient Humble Servants

AN ALLEGED BRITISH PLOT REVEALED.

*Necessity for Transferring British Prisoners from Albany—
Operations in the Highlands.*

Albany 1st April 1778.

Sir, Inclos'd you'll find papers just now Deliver'd to me by the Committee of this place, although one of these papers is anonymous, I Do not think that any precaution should be neglected. I have confin'd the prisoners of war now in this town to their quarters. I am Convinc'd that they have Done much mischief

and in spite of our precautions will Do more if they are not speedily remov'd. I Could wish your Excellency would gett them remov'd as soon as possible, as well as Doctor McNamara Hay, the British Physician. The sooner I gett your Directions and general McDoughall's upon that head the Better.

The troops in this quarter have receiv'd orders from Marquis De Lafayette agreeable to the Directions of General Washington to march to the High Lands. They are getting readdy and I will send them Down as soon as you or General McDoughall Direct.

The Regiments order'd Down by General Washington are Coll. James Levingston's stationn'd at Johnstown, Coll. Vanschayk's at Schonectady and a part of it at Saratoga, Coll. Hazen's in this town. I wrote to general MacDoughall in order that quarters should be readdy for these Regiments when he will Direct them to march to the High Lands.

General Gates writes to the Marquis that I will receive orders to goe to the High Lands. I wait these orders with much impatience being fully persuaded that the ennemy will soon make some attempt upon the North river Very early. I am sorry to see that Both sides of the Mohawk river, the German Flatts and all the upper country from this to fort Schuyler is Left Bare.

I suppose your Excellency will provide in concert with general MacDoughall for the safety of these places.

I should be Very happy to hear as soon as possible from you and General MacDoughall. I am sir, Your Excellency's Most Obed't Servant

Th's Conway.

Albany Committee Chamber, 1st April 1778.

Sir, A few days ago the Committee rec'd information that two Persons had passed this City, and that one of them had lately come out of New York. Upon this information they dispatched a couple of Persons in pursuit of them, who were fortunate enough to apprehend them, but in the night the principal one, Gilead Bettiss, made his escape the other Daniel Bass, who says he lives in Fredericksburgh in Dutchess County, they secured and delivered to the Committee, and upon examination nothing could be extorted from him but that Bettiss had lately come out of New York, offered to enlist three Persons in his presence and had informed him that the Enemy would come up the River in about three weeks time. After a long examination he was put in Irons and confined. Some little time after his Confinement James Hart, a Prisoner requested to be brought before the Committee who upon his appearance gave the information of which No. 1 enclosed is a copy.

Early this Morning a Letter was found at Mr. Beeckman's Stoop in this City, of which No. 2 is a Copy. As this Corresponds with a Letter formerly found in the same manner, and as seven Negroes have lately been detected who had Combined to go off to the Enemy at a day already past, the Committee are enclined to think that there is some foundation in the hints thrown out, but they are at a loss to conceive why the authors of these Letters do not come forth and give their information Personally.

General Conway has been furnished with Copy of the last Letter, and has been requested to Confine the British Officers to their Rooms, the Soldiers to the Fort and to order the Guards to keep a good look out.

The Committee wish your Excellency would favour them with your Opinion and directions on this matter as soon as Convenient.

The information above mentioned induces the Committee again to suggest to your Excellency the propriety of having the British Hospital and Prisoners together with the Tory Prisoners (of which upwards of one hundred are Confined) removed to one of the Eastern States. I am Your Excellency's Most Obt. & Very humble Serv't By order

John M. Beeckman, Chairman P. T.

To His Excellency Gov'r Clinton.

No. 1.

James Hart being ex'd says, That seeing a Person brought in Goal, in Irons, induced him to ask where he came from, and what his name, That he was answered his Name was Daniel Bass that he lived near Croten's and had come up with one Gilead Bettiss, who was lately come out of New York, That after some Conversation Bass told the Examinant that said Bettiss was sent out by Genl. Clinton and Gov'r Tryon to warn the Tories and especially those of the Manor of Livingston; that he was also to enquire how deep the Snow was up the Mohawk River and whether the Indians could come out, and that Bettiss had also told him that the Tories were to rise on the 14th of April next, and disarm as many of the Whigs as they could, That the Row Galleys and Gun Boats were to come up at the same time as far as the Manor, where they were to stop to receive the Tories on Board, and then to come up to Albany, and if the Snow was yet too deep on the 14th they were to postpone their operations till the 24th as they did not chuse to Venture till such Time as

Butler might have an opportunity to Cooperate with them with the Indians, That Butler was to take his Route thro' Schoharry; That the said Bass farther informed the examinarr that Bettiss was to go to Schoharry and the German Flatts, after which he was to return to New York, to give an account of his proceedings and that Bettiss had a Captain's Commission and had offered to enlist People as he came up.

SHIFTING TROOPS FROM ALBANY TO THE HIGHLANDS.

General Conway Thinks he is Better Fitted for the Field—Praises McDougall—Fears he Will be Deceived.

Albany 2d April 1778.

Sir, I am honor'd with your favour of the 30th March. I will communicate your letter to General Tenbrook respecting the militia. I have directed Coll. Lewis, to have sloops readdy for carrying the Troops, when they will be order'd down by General McDoughall. I have also directed the commanders of Regiments, to send their most active and diligent officers, in order to collect as soon as possible the men upon furlough.

It is not Nixon's Brigade that is now stationn'd at Farmington, but Coll. Nixon's Regt., belonging to General Nixon's brigade. I suppose General McDoughall will give orders for said Regiment to proceed to West Point.

In Consequence of an application made to me by Coll. Gay,

who produc'd to me a letter from the Board of War, I had order'd last week, Coll. Warner's Regt. from Benington to Sarra-toga, for the purpose of helping to save the cannon abandonn'd by the Enemy. I inclose to you the extract of the letter of General Gates and the orders I have given in consequence, before I had learn't General McDoughall's arrival. I wish your Excellency would let me know, if you approve of the measure.

I am very happy to learn the arrival of General McDoughall. I do not pretend to be a judge, but he allways appear'd to me, one of the best heads in the army. I am very impatient to join him as soon as possible. I am much honor'd and flatter'd with whatever employment, Congress pleases to confer on me. but as I am a foreigner and not acquainted with the dispositions of the inhabitants of this country, I am afraid of being deceiv'd, and led unawares into measures contrary to the good of the service. I think myself more calculated to command troops in the field and to train them up to the campaign duty.

I mentionn'd to General McDoughall the necessity of providing Quarters bellow for Hazen's, Vausehoyck's and Levingston's as I understand that they have no tents, I can not help repeating to your Excellency that nothing will be left between this and fort Schuyler all that country remains open'd for the Indians and for the attempts of the Ememy. I am with Respect Your Excellency's Most obed't Servant

Th's Conway.

P. S. Major Barber is not with me. I had recommended him to the majority of Coll. Spencer's regiment his Brother in law, for whom I have also the greatest regard.

I would be very happy to have Major Barber with me; he is an exact, Zealous understanding officer; he has a military turn, and has train'd his regiment very well.

I just now receive a letter from Lt. Coll. Safford of Warner's regiment, mentioning that he wants one hundred and twenty arms and accoutrements, although by his return ~~of~~ provisions, I find he does not draw for more than one hundred and forty nine men.

Lafayette's Efforts to Win the Indians.

Fort Schuyler 2d April 1778.

Honord Sir, With this you have a State of this Garris, with a return of the Ordinance Stores wanting to Compleat the ordinance here.

The Regiment is exceeding bad of for Clothing, in particular shirts & Shoes, which render us unable to carry on the Works Necessary to be done at this place, which may be attended with bad Consequences.

Marquis Le Feiatt has sent an Engineer to the Onida Castle with a Speech to the Onidas & Tuscarorars previous to a promise they made him at the Treaty at Johnston, inviting 300 of their young Warriors to come down to Albany & Join him, which if they do, he means with them to Join Genl. Washington, as soon as Possible;—by a Letter from the Engineer to Col. Willett yesterday, he informs him that Indians are Determind to join the Marquis, as soon as a Small Piquet Fort is Completed which he is now at work upon at Onida to secure the families of those & the other Indians who stay behind, in case the Senecas shou'd make any attempts against them,—there is 200 of this County Militia to go to Ondia in a few days to help to build the Fort, which will enable the Indians to go down soon.

Shou'd the Marquis be able to get the Indians down as far as Head Quarters, it is thought it may Answere some good purposes, especially in ambushing the Enemies Forraging Parties, and stop them in some measure from committing so many Depredations in the Country,—my best respects to Mrs. Clinton & Doct'r Tappan & his Wife, & am with due Respect your very Affectionate Humble Serv't

Much Confusion in Pay Rolls.

Dear Sir, Major Newkirk has been with me with Several Pay abstracts for Colo. McClagery's Regiment, some of them for Service before I came into the pay office; as such it is proper I should have some Certificate that pay for that Time has not been received from any other office. The Rations due to the Regiment for said Time I cannot pay, as Colo. Wigglesworth Informs me Colo. Palfrey pays none before the 10th June 1777. The Capts. Pay Rolls must be drawn over again as they do not Exspress the Time of Service commencing and ending at the Head, how many days allowed for return Home. Instead of this some have in a Colum mileage out & Home, some Mileage on Scraps

of paper; in this State I cannot take on me to sign them as Examined by me, neither will Genl. McDugall sign a warrent for payment in their present Cituation. I have persuaded the Major to leave the pay Rolls with me and to wait on your Excellency to get such a Certificate on the Pay Abstracts as may Inable this Office by Warrent from General McDugall to pay them; perhaps you can do it so full as to serve without Genl. Putnam's Certificate, as I am afraid he will be gone before the Major returns and his papers put in proper order. I am In Hast with Great Respect Your Excellency's most Humb'e Ser'vt

SETH WARNER'S "STRANGE REGIMENT."

Carelessness in Handling the Cannon Captured at Saratoga—The Situation at Albany—The Country from Albany to Fort Schuyler Unprotected.

Albany 4th April 1778.

Sir, General Ten Brook to whom I have shew'd your Letter intends to Dismiss the four months militia as soon as some of the parties sent towards fort Anne return and Deliver the arms which they have receiv'd from this store for a temporary use only was the militia Dismiss'd sooner the arms would undoubtedly be Lost.

The Detachment of Coll. Vanschayk's Regiment now at Saratoga being under marching orders to join its Regiment Destin'd for the Highlands, I had order'd Coll. Warner's Regiment to Saratoga to the purpose of saving the Cannon Left at or near

Tyconderoga, but Coll. Warner's Regiment Calls for more arms than they have men fitt for Duty. The Commander of said Regiment has in contempt of the resolves of Congress order'd and Drawn a Double ration of Victuals for his men. I am assur'd by the Deputy muster master of this town that Warner's Regiment was Compleatly armed Last year at Tyconderoga by General St. Clair's orders; that Regiment was fully arm'd Last October; now they have not a single firelock. There is a very small quantity of arms fitt for service in this store, and these are order'd to the southern army. If I issued arms to Warner's Regiment, they Certainly would be Lost as no Dependance can be plac'd in that very Strange Regiment, I cannot find means of Saving the cannon at Tyconderoga. That matter should have been thought of two or three months ago. Coll. Hay and Major Stephens tell me that in supposing that said cannons might be sav'd, they could not be convey'd here, stock'd, and then fix'd in the Batterys at West Point before the Latter end of June next.

When Hazen's Regiment marches from this place, the Garrison will be compos'd of Greaton's and Alden's Regiments, not amounting in the whole to three hundred men; these are hardly sufficient to guard the British, Hessian, Canadian, and tory prisonners, and to protect the artillery and provision stores; therefore under the present Circumstances I Do not think it prudent to Detach any part of Greaton's or Alden's Regiment towards Tyconderoga without your farther Directions.

Considering the Dispositions of the inhabitants in this Neighbourhood and the anxietys not altogether ungrounded of the Committee, I Should imagine that not one moment's time should be Lost in removing all prisonners from this place, I Shall be happy in receiving your Directions and those of General McDoughal upon that very urgent article.

I inclose to your Excellency a Letter from Coll. Gansewort. I Begg pardon for repeating, that when the Regiments of Livingston, Vanschayk and Hazen will be stationn'd at the High Lands all the country from this to fort Schuyler will be Left uncover'd. I am with Respect Your Excellency's Most obed't servant,

Peter Gansevoort Recommends Reinforcement for Fort Schuyler.

Sir, From the return of the Garrison of Fort Schuyler furnished you this Morning you will perceive the number of Troops there, which is not half sufficient to man the intarnal works, tho' I conceive that four Hundred Men in addition to those already there, might be sufficient to hold the Fort if well supplied.

There is at present but half a Company of Artillery at the Fort, I beg that I may have a full Company Commanded by a good active and Experienced officer.

Johnstown and Fort Dayton have hitherto been Garrison'd— Col. Livingston's Regiment being Ordered down Leave those places without Troops.

I submit to you the Necessity of having the reinforcements intended for Fort Schuyler to protect the Inhabitants of Tryon County as to march to the relief of the Fort when I shall see cause to order them. They are not wanted at the Fort untill the Enemy approach and it will be less expensive to supply them with provisions at those places than at Fort Schuyler and they serve as Guards upon the Communication for the supplies to the Fort. This is the plan which was pursued last Campaign. I am

I have little doubt, of the enemy's intention to pay us a visit, because it will advance their views, and no Season more proper, than before our works, and obstructions are finished. Under this Persuasion, I wrote by the last post, to the Commanding Officer at Albany, to quicken the march of the troops ordered to these posts; with all possible Dispatch. His Excellency advised me, that Van Schaik, Hazen's and Colonel James Livingston regiments were ordered down; which will leave Graton's and Alden's at Albany.

I think it will be expedient to inform the Bay and Connecticut States of our apprehensions, and press for the necessary Succours jointly, and that no time should be lost. If I knew what proportion would be proper to expect, from each, of the 2500, I would prepare my Letters. If you have fixed on any in your Letters to those States, I wish to be advised of it. While we look to other States for Militia, I must press for Assistance from this. You are best acquainted with its ability, and as fully informed of the danger which threatens it, as I am. The State of the Stores, and River will oblige me to call up Nixon's Regiment from the Purchase. As Albany is in the Northern Department; I have some doubt, whether I am authorized to interfere in it, or give any orders respecting it: I shall however advise the commanding Officer, to remove such Prisoners of war from thence, as are in a

Condition to be removed, to a place of more Safety, and those of the Convention of Saratoga to their respective Corps; I shall also give the like advice, respecting all the brass Ordnance, and Stores, which cannot readily be used for field Defence; as I consider their being at Albany, till the River is secured, exposed to a Coup de Main, and a temptation to the enemy to come up the River; for I know of no object, they can have, but to destroy L our Stores, and collect Tories to increase their Strength. As I am totally ignorant of the country at and about Albany, I can give no advice about stationing the troops left there; this must be directed by you and the commanding Officer there.

The two Regiments that remain above, will be sufficient for the purpose you mention, and to guard the Stores: And I have no advice of their being ordered from thence. I think it unsafe to order any of the Iron Ordnance from Albany, till the River is secure.

I have been informed by A. Q. Master of Danbury, that the small Pox, is so near and on the road, from thence to the North River, that it is difficult to get teams to bring supplies for the Army; particularly that a tavern on the Road, a little beyond Fredricksborough, has got seven persons inoculated: Cannot this impediment to the public Service be removed? What Laws have you against inoculation in places exposed to spread the infection? I wish not to interfere with any civil Concerns, but if the Mischief resulting from that Disorder cannot be removed, we may not expect to get men or Provisions from the East. To remove the Fears of the Militia in Case of a Call or Alarm, I have ordered inoculation to cease in the Barracks, and to have them cleansed of the Infection as soon as possible. The Letters inclosed to me, are returned herewith.

Should not the best arrangement be made without delay, to get our Militia out, in Case of an Alarm: I shall order my express for Albany to call on you for any dispatches you may have for that City. If the weather is moderate to morrow, I intend to go to West Point to view the works. I have the honor to be
Your humble Servant

Alex'r McDougall.

His Excellency Governor Clinton.

Poughkeepsie 5th Apl. 1778.

Dear Sir, I am favoured with yours of the third Instant. I am clearly of Oppinion that there shoud be some Force as well on the Western Frontiers as towards the Lakes whether the two Regim'ts left in the Neighbourhood of Albany will be sufficient for the Northern Department [if] this service is taken on or not I am unable to determine but I fear not. I shall, therefore, order the raising of three Companies for that Service one to be stationed on the Northern & the other two on the Western Frontiers. Colo. Graham will wait upon you on his Way to West Chester County, by whose Orders you will perceive that I have directed the raising Six Companies to lay in your Front, 5 on the East & one on the West Side of the River, & I shall most chearfully give you any further aid from the Militia in my Power which you may think proper to require. In my Requisition to Connecticut & Massachusetts for 2500 Men for the Defence of the River I submitted it to them to settle the proportion each was to furnish. A Letter from you backing my Requisition may be of use. The 15 of this Month or sooner if possible was the Time I fixt for the arival of those Troops & I suggested the Propriety of holding a proportion of their most Western Militia in readiness to march.

There is a Law to prohibit Inoculation unless under certain Restrictions but I have not Time to have it Copied for you. It will soon be published & I dare say any Steps you may think adviseable to take in the Interum will give no Offence & Rest assured that any Thing I can do to make your Command Honorable to yourself servicable & safe to the Country will be most chearfully done my D'r Sir,

ALARM OVER THE ENEMY'S MOVEMENTS.

To Prepare the Turning Out of the Militia on Both Banks of the Hudson—Need to Impress Teams.

Head Quarters Fish Kill April 5th 1778.

Sir, I received undoubted Intelligence, yesterday, that a Ship and two Gallies of the enemy had appeared in the River, and had come up as far as between Talars Point and Tarry Town. The object of this small squadron, must be to land small parties, to rob the Inhabitants of their Stock, to reconnoitre the state of our works on the River, or to get the best intelligence of our Condition from Tories. I have had no advice to-day from General Parsons. Whatever may be the intention of the enemy, the Militia should be in a State of Readiness in Case of an Alarm. I have directed Colonel Dubois to draw his regiment together at New Windsor, for the Militia on that Side to collect, to the Support of General Parsons at West Point; or to take the enemy in rear, if they should attempt to set down before the works. The General has five Regiments of continental troops with him, which by this day will amount to about 800 Rank and File. The regiment below, and those three coming from Albany, I purpose to

keep on this Side, for the Defence of the Stores and the Country. I think the Militia of Colonel Brinkerhoof, and that to the east of this, should assemble at Fish Kill; there wait orders; and the Poughkepsie Militia, to collect there, for the defence of the town and Gun Boats. I wish to have your opinion on this disposition before the enemy appear in Force on the river. Inclosed you have the Signal of Alarm, which I shall send to the different Posts, mentioned in it. You have herewith a Letter brought here to-day, by a Soldier from Waterbury. The Court of enquiry finished last night: The Business of it prevented my going down to the works yesterday, as I intended to, but shall go to-morrow, if nothing extraordinary prevents. When I return you will be informed of the State of the works. I am Sir, Your humble Servant

Alex'r McDougall.

His Excellency Governor Clinton.

Sir, Since I wrote the above, I have been honored with your favor of this date. Accept of my sincere thanks for the assurance you are pleased to give me, to render my Command honorable and servicable to the Country: As it is my ardent wish to advance and secure her best interest.

Having determined to remove some of the public Stores at this town; I have examined the late act* of your Legislature, respecting the impressing of Forage and Teams; and find that unless we can obtain a warrant from a Justice of the peace, none of the former can be commanded for the public Service.

*This was known as the act for regulating impresses of forage and carriages, and for billeting troops within this state. It prohibited the impressing of hay, straw, barley, rye, oats, Indian corn and buckwheat in this state by the commissary or deputy commissary of forage, or by any forage master of the United States. When forage was not accessible by purchase, authority was given to any Justice of the Peace to appoint "discreet and prudent inhabitants of any town, manor, district or precinct," for the purpose of confiscating the quantity of forage necessary. Certificates were to be given to the owner of the forage for indemnification.—STATE HISTORIAN.

The difficulty of procuring this article before the act passed, has much embarrassed the Service; and as there are but few, if any Justices qualified, the Tories will not part even with what they can spare; the Consequence I fear will be the disbanding this little army for the want of provisions. In Case of invasion or extraordinary movement, you are authorized to issue warrants for pressing teams: I think the necessity I am under from the State of the Post, to remove some of the Stores is an extraordinary movement; if you should be of this opinion, I beg you to issue a warrant to enable Colonel Hughes to press teams for this purpose. I shall be much obliged to you to inform me whether there is a Commissary of Prisoners appointed by this State. I have this evening, received a Letter from his Excellency the Commander in Chief, on a Subject of importance; on which I am directed to take your and General Parson's opinion. When will it be convenient for you to attend to this Matter? I am Sir,
Your humble Servant

Alex'r McDougall.

CONWAY AND CLINTON IN HEARTY ACCORD.

*The Frontier to Be Protected—The Heavy Cannon at Ticonderoga—
Warner's Conduct Reprehensible.*

Poughkeepsie 6th Apl. 1778.

Sir, I am to acknowledge the Receipts of your Letters* of the 1st & 2d & 4th of Instant with their several Inclosures; the Contents of the former I immediately communicated to General McDougal who I conclude has wrote you his sentiments thereon. I am sensible that by the Removal of Livingston's Regiment (unless their Place is supplied by an equal Number of Men) the

Western Frontier will be left much exposed. I have therefore ordered two Companies of Militia of sixty Men each, including non Commissioned Officers to be raised in Tryon County & continue in service for one year for the Defence of the Western Frontier & if two or three Companies of Continental Troops under active Officers were to join these I am of opinion it would give great Safety to that Quarter unless the Indians should commence Hostilities, in which case it would require a much larger Force. I have also ordered another Company of seventy Men to be raised in Charlotte County for the Protection of the Inhabitants of that County. I am clearly of Opinion that the British Prisoners at and in the Neighbourhood of Albany ought to be removed to one of the Eastern States as I am sensible they have done much Mischief where they now are. As commanding Officer in Albany it lies with you to have it done. I can only advise as Governor. I have no Right to interfere, and, as a Continental Officer, you are my superior. Comm'rs for detect'g & Defeating Conspiracies are appointed in Albany whose Business it will be to take Charge & dispose of the State Prisoners now confined in the Goal there.

I am unhappy to find that there has been such Delay in getting the heavy Cannon from Ticonderoga; the Number Colo. Gansevoort mentions may I think be allowed in the Lighter Pieces for Fort Schuyler but to take the heavy ones now stocked and ready for Service would be to leave the River without the most necessary Obstructions to the attempts of the Enemy.

It is not probable that the Enemy will form any Expedition ag't Fort Schuyler early in the Season, but if they make any attempt up the River there are many obvious Reasons to induce them to do it soon; the Garrison at that Post, as it is an Impor-

tant one, ought to be compleat & well provided; & it is at least probable the heavy Pieces yet behind may be brought on & fixed Time enough for Fort Schuyler, for the River they cannot.

I discovered my Mistake respect'g Nixon's Brigade; soon after I wrote you I found that it was Nixon's Regiment and that they were already to the Southward near Horseneck.

Colo. Warner's Conduct as mentioned by you, as well in Respect to arms for his Regiment as his Drafts for Provisions is very reprehensible and ought not to pass unnoticed. The arms must have been sold and embezzled and double Rations, were they allowed, could not be consumed by the Men. It will not answer to continue that or indeed any other of our Regiments in the Neighbourhood they were raised; it would destroy the best Troops under our best Officers & this Regiment it will render worse than none at all. If Troops are necessary in that Quarter as I suppose they are it will be best to replace this Regmt. by another.

I shall be happy on your Receipt of orders which will place you in this Quarter tho at present I am persuaded your Presence in Albany will be of most infinite service. I have the Honor to be Your most obed. ser.

Three Notorious Felons Recaptured.

Blooming Grove 6th April 1778.

May it Please Your Excellency, I Received the Civil Commissions for this County last thursday Evening but have been unable to do any thing towards qualifying the Majestrates &c. for want of the Act mentioned in the Dedimus Potestatem. I went to Goshen yesterday expecting to get it there as Col. Nicoll told

me he thought it would be sent down by Mr. Joseph Wood on Saturday last, but as he had not Returned I despatched the Bearer for it and would be glad the act* for Regulating Elections could Also be sent.

Inclosed your Excellency has the Examination† of three Persons brought to Goshen and confined in Goal yesterday; they were taken by some of the Faithful Inhabitants of this County below the Mountains on Friday last on their way to New York—there was four of them in Company at the Time they were taken; but Peter Dolson who had been confined in Goal Some time ago for Stealing Publick Stores and Private Property was killed by the Persons who took them, Daniel Field, one of those now in Goal was concerned in the Felony and confined with him—they were let out of Goal on Saturday Night of the 29th Ultimo by Matthew Dolson (of Susqueanna) Matthew Dolson (of this County) Benony Drake, William Finton and Anthony Clark in the manner mentioned in their Examinations.

And as they are a Set of notorious villains I leave it with your Excellency to Judge whether it would not be best to have them tried immediately. If they come within the Jurisdiction of a Court Martial it may be shortly determined—but if they are to be kept any considerable time it will be necessary to guard the Goal or in all Probability they will be let out again.

They deny that they know any thing about the other Prisoners but suppose they are gone to the Enemy with Finton and Drake; an officer was sent for Clark last night and I suppose he is now in Custody. I am Your Excellencies most obedient and very Humble Servant

Thomas Moffat.

THE GOVERNOR WITHOUT A CLERK.

His Subordinates all Take a Vacation upon the Adjournment of the Legislature—The Law Relating to Impressments.

Poughkeepsie 6th April 1778.

Dear Sir, I am favoured with your Letters of the 5th Instant. I conclude the present Business of the Enemy's Vessels up the River is to amuse us by making Alarms of that kind familiar & of Course disregarded as well as to plunder & Gain Intelligence. This was the Case last year and I hope we have sufficiently learned the Moral that is to be drawn from the Fable of the Shepard & the Wolf and that we wont be found Remiss a Second Time.

I like the Dispositions you have made very well and inclosed you have my Orders to the Militia agreable thereto one Copy whereof you will deliver to Colo. Brinckerhoof, your Landlord, who as eldest Colonel is to transmit Copies immediately to the Commanding Officers of the other Regts. on the East of the River. The other Copy Please to send to my Brother Genl. Clinton, who will make & transmit Copies to the different Regiments on the West Side of the River, as at present I am without a

Single Clerk or Express, all Hands are taking a little Relaxation on the breaking up of the Legislature which they much need.

With Respect to Impresses, on the present Occassion, by perusing the Act with a little Attention, you will find every Difficulty removed, for if it is such an Imergency as woud warrant me to cause Impresses to be made & I think it is; you are in that law vested with the same Power as a Genl. Officer in active Service in the State that I have & I trust you will execute it when warranted by Law.

If I can possibly break out I will wait upon you Tomorrow or next Day at Fishkill. I am Your most Obed't Serv't

GOVERNOR CLINTON REPORTS TO MR. LAURENS.

He Discusses the Vermont Case—Suggests that the Federal Cause Will Suffer by New York's Protecting Her Own Interests.

Poughkeepsing 7th April 1778.

Sir, Your Excellency's Favor of the 24th Ulto. covering two Resolutions of Congress one of the 16th* & the other of the 21st March† last have been deliverd to me. Be pleased, Sir, to assure Congress of my attention to those as well as every other of their acts.

The Laws lately passed by the Legislature of this State are now in the Press and Copies of such of them (when published) as were made in Pursuance of Recommendation of Congress shall be transmitted to you by the earliest opportunity.

From the enclosed Copy of a Proclamation issued in Compliance with the joint Resolutions of both Branches of the Legislature your Excell'y will perceive the Disposition of this State towards its revolted Citizens. A Law has likewise been passed remitting to them all Pains & Penalties incurred by their former

* The resolution adopted by Congress on the 16th of March, requested the Governours and Presidents of the states, to transmit to Congress as soon as possible, attested copies of the acts passed by their respective legislatures, in pursuance of recommendations of Congress.

† Resolved, That the command of all the troops which now are, or shall be collected and stationed in the state of N. York and in the whole northern-department, be vested in one general-officer; that this officer have in charge all the forts, posts and passes therein, and authority to erect and make such fortifications as he, with the advice of gov. Clinton and the general-officers there, shall judge necessary for securing the same, and to execute all the powers lately given by Congress and the board of war relative to the defence of the North-River:

That gov. Clinton be requested to yield to the said general-officer all the aid in his power, in erecting and making the fortifications and obstructions aforesaid:

That, for the more speedy defence of the North-River, the said general-officer, or, in case of his absence or sickness, the officer next in command, in the district above-described, be directed forthwith to draw together, at the Highlands, such of the troops therein as he shall deem expedient.

And as the works would be greatly expedited if most of the continental troops now at Albany were employed therein; to enable him to do this, the said general-officer is hereby authorized to ask of the government of the state of N. York such numbers of their militia as he shall judge necessary, to serve at Albany for the security of the arsenal and magazines there, until the obstructions at the Highlands are in such condition as to render any sudden attempt upon Albany by that pass impracticable:

That for manning the gun-boats and floating-batteries built or building on the North-River, the said general-officer have power to engage the necessary officers and men for such time and on such terms as he shall judge proper.—Journals of Congress.

unwarrantable Proceedings a Copy shall also be shortly forwarded to your Excell'y.

There was Reason to presume that Measures so strongly marked with Justice, Humanity and Conciliation would have been effectual and if Justice only had been the Object of these People they doubtless wo'd have been. But I am well informed that their attempts to seperate from this State continue unremitted and that they have proceeded to the Election and appointment of Magistrates & other Officers. As there are so many of them who adhere steadfastly to this State and daily demand its Protection I fear the Duties of my Office will shortly constrain me to adopt such Measures for their Relief and for maintaining the just Jurisdiction of this State in that Quarter as will deprive the United States of Part of the aids they expect from us against the Common Enemy. I extremely regret the Necessity of being driven to these Extremities especially considering the Influence which at this Critical Season they may have on the Common Cause. It affords me however some Consolation to reflect that all Demands on this State for Justice are now fully satisfied and that every evil Consequence must be imputed to those by whose sinner arts Connivance or Encouragement the Delusion of those People is fostered and promoted.

The Resolutions of Congress disavowing the Facts stated in a Publication of Doct'r Young have had less Effect than was expected. They were explained away and ill use has been made of their containing no express Disapprobation of the intended Separation or Recommendation to relinquish that Design. The Publication by order of Congress at York Town of Copies or Extracts of certain Letters dated at the State of Vermont containing Matters of Intelligence have also given Occasion to In-

ferences in their Favor. In short, Sir, nothing less than an explicit and unequivocal Declaration of the Sense of Congress on this Subject will remove an Opinion which these People universally entertain and have been taught to believe well founded to wit: That their Proceedings are by no means disagreeable to Congress altho prudential Reasons may prevent an Interposition in Favor of their Measures. I have the Honor to be &c.

THE SITUATION BY NO MEANS ROSY.

McDougall Discourages the Proposition to Introduce Spies at West Point—Putnam's Carelessness—He Asks Clinton to a Conference.

Head Quarters Fish Kill 7th April 1778.

Dear Sir, I am favored with three Letters of yours of yesterday. The Orders for the Militia are put in the Train you directed. Copies of those for the Colonels who are to assemble here, have been made out, & Letters covering them, that my Landlord might not retard them from a Disinclination to write, I have caused Enquiry to be made for the Commissary of Prisoners, for General Putnam has given me no minutes or Returns of the Officers of the Department. Whenever the former is found, and I can furnish him with a Guard, your desire respecting the Removal of the Ensign will be accomplish'd. The State of the works will not admit of trying the Spies at West Point; I shall therefore be obliged to defer it till the Regiments from above arrive. I have directed Colonel Dubois to send you the Captain and men you wrote for, without Loss of Time. The Delay of raising the Levies to fill the army has involved us in

numberless Difficulties; and I fear will be productive of misfortunes fatal to our Country. I have been prevented from going to West-point to-day. The Business on which his Excellency wants our Opinion, would be best determined by our being together; and as soon as possible. But I fear the Machinations of the Tories, will prevent your attendance to a joint Consultation on that Subject. The State of these posts requires I should go to West-point, to-morrow, which I intend if something of the greatest moment does not prevent. If you could go down, it would enable us to determine the Question desired by the Commander in chief. I will wait for you till nine in the morning. The Militia are applying to me for ammunition. I am not clear whether I am properly authorised to issue it to them. Besides they are so careless with it, that they will waste it; almost as fast as I can get it made up. Has the State provided none for them. The Bearer must wait your answer. I am Dear Sir Your very humble Servant

Alex'r McDougall.

P. S. General Parsons writes so very pressing for me since I finished the above, I shall be obliged to leave this very early. His Excellency Governor Clinton, Poughkeepsie.

Poughkeepsie 7th April 1778.

Dear Sir, I am favoured with your Letter of equal Date. If I possibly can I will wait upon you Tomorrow at Fishkill by nine o'Clock, tho It is more than likely I may be prevented, in which Case I shall be at Fishkill early next morning & if the Wind be Northerly Genl. Parsons may be safely spared to meet me then. I am Yours sincerely,

Governor Clinton Sends a Gossipy Letter to Francis Lewis.

Poughkeepsie 8th Apl. 1778.

Sir, I am obliged to you for your Letter of the 20th Ulto. The Legislature of this State sensible of the Disadvantages the Con-

tinent labours under for want of a more ample Representation in Congress and of the great Fatigue their Delegates have sustained by their close Confinement to Business, have appointed Genl. Schuyler as an additional Member and I expect as he has been notified of his appointment he will soon take his seat with you.

The Legislature having passed many Laws during the Course of a long Session adjourned on Saturday last.

The works for the Defence of the River at West Point are now carried on with Spirit. I have large Detachments of Militia daily employed in this Service who with the Continental Troops exert themselves on this Occasion from which I have Reason to presume that were we well provided with Cannon we should soon be in a tolerable State of Defence there. Very few of those left by the Enemy at Ticonderago have yet arrived at Albany nor can they now be brought forward stocked & mounted fit for Service before the first or middle of June which will be too late for our use. What has occasioned this intolerable Delay I am unable to determine. I am Sir Your most obed. serv.

SITUATION IN SCHOHARIE CRITICAL.

Conway Notifies Governor Clinton that the British and Hessian Prisoners Have Been Sent off to Hartford.

Albany 8th April 1778.

Sir, I Just now receiv'd your excellency's favour of the 6th inst. I expect Livingston's Regiment to-morrow, and will immediately send it Down with a party of Vanschoyk's this Day

arriv'd from Saratoga. I receive repeated petitions from the inhabitants on the Mohawk river. Their situation is allarming. I have shew'd part of your Letter just now to two members sent me from the Committee of Schoary; they persist in Believing that at Least some small party of continental troops should be without Delay Stationn'd at Harperfield and Schoary-Kill, to quiet the minds of the inhabitants, prevent them from moving, and to give time for Collecting the militia that is order'd to be rais'd. Capt. Alexander Harper from Harper's field proposes to raise a Company of rangers, and shew'd me the names of a good many who have already subscrib'd to serve under him; he only wants a warrant and proper orders; if your excellency approves of the measure, I think that the sooner the warrant Could be sent from the state to Capt. Harper. the Better.

As soon as I have Dispatched Levingston's and the remainder of Vanschoyk's, I mean to goe to Bennington to see if I can do any thing with that inconceivable Regt. of Warner's. I will Strive to move them to Saratoga, and employ them in saving at Least what Cannons were Left in the Neighbourhood of fort Anne. I would propose to send also a party of forty men from this place to Harperfield.

I this Day sent off to Hartford the British Hessians and Canadian prisoners in this place. Major Stevens has ten Cannons ready to send Down whenever you order.

I must strive all means to have horses for transporting the military stores in this place in case of accident, Your answer and advice upon these matters I will be very happy to receive. I am with respect Sir Your Excellency's Most obedient Servant.

Th's Conway.

*Governor Clinton Reports to Gates of the Progress of the Works at
West Point.*

Poghkeepsingh April 8th 1778.

D^r Sir, I am favored with your very obliging letter of the 23d March last.* I am sensible that the Public Service has met with many Obstructions arising from the Reasons mentioned in your Letter but with you I trust that by a well directed Perseverance we shall be able to overcome every Obstacle to the Establishment of our Freedom & Independency.

The works calculated for the Defence & Obstruction of the Hudson's River are now carried on with a Degree of Spirit that promises their speedy Completion, to accomplish which I have large Detachments of Militia daily employed none of those from the Eastward having yet arrived tho we may now soon expect them.

There has been some unaccountable Neglect in getting the Cannon forward from Ticonderoga. Only two or three of the heavier Pieces are yet at Albany. The Residue even tho now on their way, cannot be here stocked & mounted fit for Service before the first or middle of June which will be much too late for our Purposes. I am &c.

Gloriana Sterenson Makes an Eloquent Appeal for Assistance to Governor Clinton.

May it please your Excellency, to attend the complaint which sad Necessity induces me to Lay before you; I Left my house and estate at Frogs point, when the troops from Great Britain Landed there; my sons are in the service of their country, and I am in Circumstances Extremely disagreeable to a person accustomed to so Different a method of Living from what I am at present constrain'd to endure: the small sum of money I could collect at the time I quitted my home is near Expended. It is absolutely Requisite that I should attempt some scheme for A future subsistence. With this view I made application to the commissioners of Sequestration, for the house Mr. Townsend formerly inhabited, as it is A convenient situation for the Bussiness I intended to pursue, which was that of publick entertainment, I Jug'd (Rationally I imagine) that having Lost all in the

contest subsisting between Great Britain and America, I was intitled to some peculiar priviledges, and being A person once possess'd of valuable and Large demesne I might hope the greatest indulgence, and paternal care of the Government; Especially as my sons are active in the cause of Liberty and virtue. It is not possible for me to exist without some such method of support, as I have propos'd; my Request to your Excellency is that some decent house proper for the purpose I have mention'd, be assign'd me by some persons nominated by your Excellency, as the Commissioners have seen fit, why I cannot determine, to Refuse the house I apply'd for; it is taken up by one of the commissioners, who has Another farm, which he Rents out, his family is small, and he stands in no need of so Large A tenement. I can look to no person for assistance so properly as to your Excellency, and from you alone Expect Redress, I hope you will compassionate the circumstances of A Gentle woman, A widow, with three daughters, Depriv'd of those sweet and agreeable conveniences, an ample fortune enabled them to Enjoy, now thrown out upon the world for means of subsistence. Do not my calamities Loudly Demand commiseration? Will not the breast of A Gentleman, A patriot, feel for me the tender sensations of humanity? CONNECTICUT AND MASSACHUSETTS COOPERATE.

*In Defence of the Hudson—Governor Trumbull Suggests a Movement
Against New York.*

Lebanon 10th April 1778.

Sir, In Consequence of your Letter to me, request'g a Proportion of men from this State & Massachusetts Bay to compleat 3000 for Defence of Hudson's River—this State have complied to raise 1000—the Massachusetts have agreed to 1300—which, with your 700 makes the Number mentioned—our Quota is forward'g—Massachusetts, I suppose, are in equal forwardness.

By Resolution of Congress of 21st March I am informed that "Gov'r Clinton & Gov'r Trumbull are requested to give every Assistance in their Power to Genl. McDougall for perfect'g the Defence of the North River"—to effect this most necessary Purpose let me Quere—whether, in addition to such measures as are already tak'g an effectual & vigorous Effort upon N. York would be one salutary measure for the Prosecution of which, the N. England States, under the Direction of Generals & officers, in whose Abilities & Resolution for push'g an Enterprize, they can confide, I make no Doubt, but would be willing to turn out with their most vigorous Exertions. I doubt not also the utmost Exertions of your State—a measure of this kind would at least prove a Diversion in Fav'r of Genl. Washington & perhaps draw good Part of the British Army more Eastward, where it is in our Power to meet them perhaps with better Effect to the general Cause than in their present Situation. I hint the matter only for your Consideration—think upon it—if on Digestion, it happens to meet your approbation, you will please to hit on such measures for forward'g its accomplishment, as you think proper.

In this, or in any other Projection for the Purpose mentioned in the Resolution of Congress I shall be ready to assist & cooperate with my utmost abilities. With great Esteem I am Sir Your most obedient humble Servant

WESTCHESTER PETITIONS FOR RELIEF.

*The Gaol Removed to Bedford Since the Burning of White Plains—
A Guard of Thirty Necessary to Look After Prisoners.*

Bedford 12th April 1778.

To his Excellency George Clinton Esqr. Governor of the State of New York, General and Comander in Chief of all the Militia and Admiral of the Navy of the same.

May it please your Excellency The petition of the Good people of County of West Chester Humbly Sheweth, That whereas by the deperadation of the Enemy in this County, the Court House at the White Plains together with that Village have been totally Consumed by fire,

The good people of this County have erected a small Goal or Guardhouse in the Town of Bedford in order to Confine offenders, and for the further securing more effectually the Liberty of the well affected of this State in general.

And whereas the general Committee together with the Field Officers of this County did rais a small guard by virtue of a Resolution of Convention, for the better securing of prisoners in the said Place of Confinement Whose times of Enlistment are now expired, and the Committee and Field Officers do not think themselves properly authorized to revive the same.

And whereas the Town abovesaid has now become the place where all publick business is transacted in the abovesaid County, We pray to inform your Excellency that the Civil authority of said County will never be able to carry the Laws of the State in execution, unless a small guard be allowed them, and for the better securing those persons whose conduct do not entitle them to run at large.

We whose Names are hereto affixed for ourselves, and in Behalf of the rest of the inhabitants of this County humbly pray your Excellency once more to extend your kind hand of protection to us by enabling us to raise, under some proper Officer, a Guard of Thirty men in such manner as your Excellency shall think most expedient to serve one Year from the time of their Inlistment.

And whereas the Guards heretofore raised were allowed and payed at the Rates following (Viz.) Officers continental pay and rations or in Lieu of Rations twenty one Shillings pr Week, Sergeants Seven Pounds pr Month and Sixteen Shillings a week for Rations, Corporal and Drum Six Pounds Ten Shillings Pr Month and Sixteen Shillings pr Week Rations, Privates Six Pounds Pr Month and Sixteen Shillings pr Week rations.

And whereas we think it will be impossible to raise a Guard at this Season of the year for less than heretofore given, we hope your Excellency will enable the Officers heretofore mentioned to rais a Guard on the same footing as before, assuring you that it is impossible to do justice in any point without such necessary Guards being raised.

Your petitioners further beg leave to observe to your Excellency that there are almost daily instances in which the administrators of Justice are obliged to convey offenders to different parts of the Continent, which at many times has left our Guard consisting of only Twenty five men, that the Committee themselves have often been obliged to Guard the prisoners themselves.

Relying therefore on your Excellency's great Goodness to do as you in your great wisdom shall think fit, your petitioners will as in duty bound ever pray.

COLONEL HARDENBERGH RUNS CLOSE UP TO MUTINY.

Governor Clinton Overlooks the Offence and Administers Diplomatic Advice.

New Hurly April 9th 1778.

May it please your Excellency, I Recce'd orders from your Hon'r dated 19th Instant, for one third of Colo: Hasbrouks Regt. of militia to march Imediatly to West Point, To Join the Troop under the Command of Genl. Persons, for Two weeks, To assist in Carring on the works.

Mr. Wisner as Commissioner appointed to Carry on the said works, apply'd To me for one third of our Regt. for one week, which I Complied with, Knowing the Necessity of it being of much Consequence, when our Country is in Such a Defencelas Situation as at present, But Expected wou'd be Relieved at that Time, by our Northeren Regt. of Ulster, Albany and Dutches Countys & Take an Equil Turn.

I think our Regt. is heavy loaded with military Dutys, by what our Neighbours are. Remember, after the Reduction of fort Montgomery, when Esopus was Consumed, where was Collo. Pawlings & Snyders Regt., they were not To be Seen. Remember the Six weeks Service in Nov'r Last at Nickols's Point—where was Pawlings & Snyders Regts., Even Orange County militia which were Equilly ordered in that Service with us, but did not attend, when our Regt. attended in full,

This winter, there was not a week, but we where Called upon by the Q. M. To Carry Stores from Newburgh To Sussux, when our Northeren Neighbours where all at home; and Now againe, what is become of our Northeren fellow Subjects? Are they Toly Ex-empted or burried in the Oblivion?

I Immediately Complyed with your orders, I had in Consequence of Mr. Wisners Request. Ten Days before, Draughed one third of the Regt. For three weeks, our men Turned out with much Spiritt. Wee have Now, and had, one Hundred & Sixty men, including Twenty men in New Marlburgh precinct Giting Logs for the Chain, in Consequence of these orders.

We are informed that by a Law of this State, are Obliged To Rais, out of the militia, men to fill up the State Regts. in Continential Service, that your Hon'r is Entituled To a Discretionery power to Rais them in any part of the State. We humbly Beg leave to acquaint your Hon'r, that Considering the great Distress & Difficulty under which our Regt. has Laboured, Being the main Defence of the Passes in the Highlands, & always Ready to Defend it, that your Hon'r wou'd be pleased to Exempt our Regt. from Raising any Part of them, Because we Believe there is not a men in our Regt. can be prevailed upon to Enter in any of these Regt. Because Collo. Dubois & his officers have had freequent op-

portunity within a Course of this year past To Inlist them. These & many other Reasons Convincies of that fact That if your Hon'r Considers these facts Candidly, I flatter myself will Excuse our Regt. from Raising any part of these men. These are matters Great Importance and Beg it may obtain your Hon'r attention & aprobaton. I am Hon'r S'r with much Respect Your Verry Hum'e & Obed't Serv't

Joh's Hardenbergh, Ju'r.

To his Excellency George Clinton.

Poughkeepsie 13th April 1778.

Sir, I am this Moment favoured with your Letter of the 9th Instant. I am sensible your Regiment and Colo. McClaghry's & some other Regiments from their peculiar Situation were burthened with an extraordinary share of Duty last year, for which whenever it is in my Power consistent with Law & my Duty, I will most readily consider them. In the present Drafts to be made to fill up the Continental Battalions, I have it is true, Power to grant Exemptions to certain Regiments, who have furnished or are destined to furnish Men for other Services since the 1st of January last; but I have no authority to give Exemptions for Services performed before that period. The Regiments I exempt are principally Frontier Regiments & they are in Consideration thereof to furnish 700 Men for the Defence of the State to continue in Service for one year from the 1st of January last. The Drafts for the Continental Battalions are every fifteenth Man & in the whole will ammount to about 500 Men only. Those for the other Service on an average, will be at least every 7th Man & will ammount to 700 to serve for as long a Period. One third of your Regiment were ordered by me into Service for 2 Weeks at

West Point & so has the other Regim'ts South of you & Colo. Brinckerhoff's of Dutchess County. The other Regiments who have not performed equivalent Service must yet take their Turns there of elsewhere. Two of the Regiments in this County are to raise 60 Men each for one year. Colo. Southerland's has now an Equal Number in actual Service in this County erecting Block Houses to confine the State Prisoners in & as Guards over them to continue for one Month. Albany County was ordered to raise 400 Men for last Winter, four Months agreeable to a Resolve of Congress, which I suppose you will judge equal to your present Service at least.

You may rest assured, Sir, that as soon as I can get regular Returns of the Different Corps of Militia the Duty from Time to Time shall be as equally shared among the different Regiments as in my Power, and if at any Time one Regt. or County from their Situation should be called to do a greater Share then another, they will have due Credit & be considered for it on some future Occassion. Upon the whole I trust you will readilly see that It is not in my Power to exempt your Regiment on the present Occassion, without exempting every other Regiment having performed like Services, which woud entirely defeat the Design of the Law. I am with great Regard Your Most Obed't Serv't

Geo. Clinton.

I trust you Consider yourselves as Volluntiers when out at Mr. Wisner's Request without my orders. I am sure it was out of real Zeal in the Cause of your Country.

Sir, you may Remember that you ordered Into Confinement, Last Winter at N. MILITARY AFFAIRS IN THE NORTH.

General McDougall Opposed to Large Commissary Depots as Offering Inducements for Raids from the Enemy.

Fish Kill 15th April 1778.

Dear Sir, I have been favored with yours, of this date, covering sundry Letters, and a petition from Cherry Valley. All my enquiries about the Commissary of Prisoners, have proved ineffectual. I suppose he is gone to furnish the Commissary General with such information, as is necessary, preparative to the general exchange of Prisoners. As I have no Command of the troops, in the northern Department, and a total Stranger, to the Geography of Cherry valley, and Albany, I can give no decisive advice where it will be proper, to station the troops above, or to deposit the Flour purchased by the Commissary. It however appears to me inexpedient, to collect any more of it at Albany than will be sufficient for the support of the troops, which may be stationed there; as it will only serve to increase the enemy's attention to that City, should a Misfortune happen on the River. Such quantities of the Flour as may be near the River, should be removed from it, and stored in small parcels out of the reach of a Coup de main. When the difficulty of Carting is considered, the enemy will not risque a march into the Country, to destroy or collect small parcels, but if a considerable magazine is collected, it may prompt him to run more hazard. It would frustrate the end of purchasing stores, to put them in State of absolute Security, unless they were in fortified places, near the army, but as we are not possessed of such holds, our Stores will always be in some danger, if they are at Command for use.

The impatience of Dr. McNamara Hayes, to leave Albany indicates an intention to serve his master at our expence; but he should know or be taught it, that his giving receipts for necessaries furnished the Hospital, does not come up to the resolution of Congress; the money must be paid for those articles, if every other impediment was removed, before he and his fellow prisoners are exchanged.

It is a pressing Season to dismiss the Militia at West Point, but it must be done. You are ready with our joint opinion to answer the important question put to you by Governor Trumbull: It is therefore unnecessary for me to say any thing on that Subject. Has our State made no provision of Ammunition for the Militia? If not can it be conceived, that I am authorized to furnish any but to those who shall be in actual Service? I have the honor to be with esteem Your humble Servant

Alex'r McDougall,

His Excellency Governor Clinton.

LOYAL TO NEW YORK.

Representatives from a Number of Towns of Vermont Oppose the Creation of a New State at This Particular Time.

In a Convention of Committees from the Towns of Hinsdale, Brattleborough, Guilford, New Fane, Putney & Rockingham held by adjournment at Capt'n Sarjeant's in Brattleborough the 15th April 1778.

Resolved that Copies of the following Letter be signed by the Chairman, and forwarded to the several Towns in the County of Cumberland, who have or shall, either by themselves or agents, agree to and sign the Protest this Day entered into by the above

mentioned Committees; and that he also send Copies, thereof, to such Towns as have a respectable Minority who are opposed to the New State, that such Minorities may elect Persons to represent them in the Convention of Committees proposed to be held the thirtieth Day of June next.

Brattleborough 15th April 1778.

Gentlemen, As we are warmly interested in favour of American Liberty we can not view with Unconcern, or remain silent Spectators of the present disorderly attempt to seperate the New Hampshire Grants from the thirteen United States;—a measure directly tending, in our Opinion, to weaken the Opposition made by the Continent to its European Oppressors, and introduce the utmost Confusion, at a time when good order and Unanimity are essentially necessary.

The final adjudication of the King of Great Britain in privy Council (the only proper Court which could then determine matters of this nature) that this Territory was within the Jurisdiction of New York; our peaceable acquiescence in that Judgment, and Representation in Continental Congress and the Convention of New York, both before and since the Declaration of Independence; are undoubted Proofs that our allegiance is justly due to the State of New York, until Congress shall otherwise determine. The Resolutions of Congress of the 30th June last, and the Articles of Confederation, are convincing to us that that honorable Body disapproves of a measure so extraordinary. The present Government of New York engaging to remove such Grievances as we really laboured under, from the Iniquity and bad Policy of our former Governors, we hope will quiet the Complaints arising from those Grievances.—And the Confusion that erecting a new State, without the Consent of Congress, has already & will more abundantly introduce; the present Inability of the People to support a seperate Government, however frugally the public Monies are managed; and the great, very great, Scarcity of Men properly qualified to make and put in Execution a wise System of Laws, plainly demonstrate to us the wretched Policy of so extraordinary an attempt at this time.

We have therefore agreed upon, and shall forward to the assembly of the pretended State of Vermont, a Protest against erecting the Grants into an independant Government in the present time; and also one Copy thereof to his Excellency Governor Clinton, and another to the Press for Publication, that the World may know our Disapprobation of the present irregular Proceedings.

We think it the Duty of every Friend to the Independance of America, more especially in the Grants, to use their most strenuous Efforts to suppress or check this offspring of anarchy in its Infancy. And as preserving Unanimity amongst the Number who chuse not to assist in dividing the Continent, in this momentous Crisis, may have a Tendency to answer that End; and is essentially necessary as well for the public Good, as for the Security of their Persons and Property; we beg leave to recommend to you to elect a Committee in such time that they may meet at Capt'n Sarjeant's in Brattleborough on the thirtieth Day of June next at eleven o'Clock in the Forenoon, to exist for six Months; and to authorize them to consent to such measures as they shall think most likely to restore to this divided County internal tranquility, and Submission to the just and necessary authority of those who by order of Congress are regularly appointed to rule over us; from time to time to transmit to the Government of New York, accounts of all such matters as may be material for them to be acquainted with; and to take such Steps as they think best, for relieving those who may suffer in their Persons or Properties by any authority pretended to be derived from the State of Vermont. We are Gentlemen, Your very Humble Serv'ts

Signed by Order

Governor Clinton Gives the Reverend Mr. Mason Reasons for Not Appointing Two Men to Office.

Poughkeepsie 16th April 1778.

D'r Sir, I received your Letter of the 4th March five Days ago. It woud give me great Pleasure to serve the Persons you recommend, Mr. Earnest & Mr. Brown, as I know them to be worthy Citizens who have suffered much by the present Contest and I dont in the least doubt but the other is equally deserving. I am unhappy, therefore, in not having any Post in my Gift which woud enable them to earn a Support for themselves & Famillics. In the State there are very few Offices for which they are qualified but such as, in these Dear Times, woud be a Burthen instead of a help, the Perquisites or Salaries annexed to the Offices not affording an adequate Compensation for the Trouble of the Of-

ficer. The few that are worth holding were granted by the Convention to Refugees equally distressed who still hold them. In the Course of last year while I was in the Military Line, I had the Pleasure of relieving the distresses of some, as Vaccancies frequently happened on the Staff of the Army, and the Commanding Officer generally filled them up with Persons I Recommended. You may rest assured, Sir, should an Opportunity Offer by which I may be able to serve these good People it will be most cheerfully embraced. In the Mean Time I will recommend them to Genl. McDougal's attention, who now Commands in this Department & is most likely to have it in his Power to serve them. Please to present my best Respects to Mrs. Mason & believe to be with great Regard Rever'd Sir Your most Obed't Serv't

Military Commissions First.*

Poughkeepsie 16th April 1778.

Sir, I find it the prevailing Opinion among the Militia Officers appointed by the Council that they are not authorized to act until they receive their Commissions in due form & on the other Hand the old Officers are willing to consider themselves superseded, from which I fear great Inconveniencies will arise in making the Drafts for filling up the Continental Battalions & other Military Service. Let me, therefore, intreat that the compleating the Military Commissions be the first Business in your Office. I am Sir with Respect Your Most Obedt. Serv't

The Albany Committee Protests Against the Removal of the Troops.

Albany Committee Chamber 16th April 1778.

Sir, We are just now informed that the Continental Troops stationed in this City are ordered to Fish Kills. This Step however right it may be, alarms us much. We would beg leave to observe, that near one hundred and forty Tory Prisoners are at present Confined in this City and are daily encreasing, and upwards of fifty Regular Prisoners together with a large Quantity of Public Stores, Provisions, a Laboratory and other public buildings, all of which require Troops to Guard them, the number of disaffected Persons in and about this City, who would readily embrace any favourable opportunity that should offer to distress us of which their present Conduct evinces.

Warner's Regiment consisting of one hundred and thirty Men, Officers included, who are ordered here we are induced to believe are not sufficiently disciplined to discharge the trust that will be reposed in them. Our Northern Frontiers in a defenceless situation and no Troops to Succor them,—such is the situation of this County at present; of which we hold it our indispensable duty to inform your Excellency & suggest to you the propriety of Continuing Alden's or Greaten's Regiments in this City or devise such other ways or means for the protection of the public Stores &c. as shall appear necessary to your Excellency. Mrs. Schuyler expects to lay in about the first week in May, but that is not the only Reason which would prevent me from

repairing to York Town immediately. Some Time ago I carried all my Family to Saratoga intending to have resided there altogether, as soon as I should have resigned the Employments I held under Congress, which will be whenever an Enquiry into the Cause of the Loss of Tyconderoga shall have taken place. I was determined to this Resolution on a Supposition that Troops would have been posted to the Northward for the protection of the Country, but as not a single one is left, I shall be under the Necessity of drawing my Family from thence, especially as all the Country above me, and even far below are preparing to leave their Habitations, and will certainly do it, if no Troops are sent there by the first of next Month. I do not however mean to bring away my Servants as I shall erect a picket Fort round my House and let them if possible, keep it. In this exposed State of the Country, I cannot divest my Family of that Assistance which I apprehend they will need when an Incursion of the Enemy takes place, which will probably be soon as the drawing all the Troops from this Quarter is a Kind of Invitation for them to come down. Daniel Cornell. Because we are informed and believe that his Confession, by which alone he was convicted was extorted from him by force. He is about nineteen years of age.

Gideon Simkins. Because we are informed and believe that his Confession was made on a Promise of the Committee of Fredericksburgh Precinct to save him.

Samuel Jenkins. Because it appeared in Evidence and we believe that his Behavior heretofore hath always been innocent and his Character reputable. There is also reason to believe that he was deluded by the Arts of William Smith a notorious Villain his Demeanor on his Tryal was candid and decent.

ALBANY IN A STATE OF SEMI-PANIC.

The Governor, However, Promises to Call Together the Council of Appointment to Expedite Militia Appointments.

April 16th April 1778.

D'r Sir, I have your favor (without Date I Suppose of the 13th) Before me with the [———]* Included.

I am happy to find that the Fortifications in the High Lands are in so Promising a way.

Being sent for and now with the Committee; who are alarmed at the Situation this County is to be in when the Continantle

Troops (now under orders) are gone: above 140 Prisonners in the Goal and in the Fort, Besides a Number of British the Physical Part thereof have already render'd themselves verry Suspectious by their former Conduct.

The Stores in and about this City will be Left open to the Intrigues of the disaffected who are Continually Robing the well affected, and should they be able to Risque the Prisonners out of the Goal, and Fort, the Consequence might be Dreadfull. The militia Rased under Coll. Beekman (the State militia) Consist of about 140 Rank and file all upon Command (Except 19) Either to Hartford or on Fetigue Parties. The Committees preparing to Resign the Business; the Civil Magestrates not Qualified for want of the oath act and the militia Law not yet arrived. From Such a Complication of Difficulties: they I find are preparing to give you a State and to wait your Direction.

Was you to Receive a letter from the Committe of Tryon County I Suppose they would Express their apprehensions in Terms Equally Shocking.

I feel for you & know that you have Trouble Enough for Six Good Heads: was I able I would advise but it is my misfortune Seldom to think right in military matters. I Beg leave, however, to Suggest to you wether it would not be proper to Inlist a parcel of light militia (or Rangers) in this and Tryon County to be under the Direction of the Commissioners for Detecting Conspiracies to be march'd out to Quell the Tories.

As to-Troops Necessary to be kept in this city you may be your Judge when you Call to mind that all the Stores and Prisonners are here.

Mr. Blaar Shewed me your answer to his Petition in which you mention you will Exchange Mr. *White* for *Miller*. I Suspect you

made a mistake in writing *White* when meant *Blare*, if so please to Inform me—if not wether you mean to Suffer Blaär to be Exchanged and the famely you will have in Return. I Remain Your very Humble Ser't

Ab'm Yates Jun.

His Ex. George Clinton.

Poughkeepsie 18th April 1778.

D'r Sir, As Judge Hobart who is to be the Bearer of this Letter is to set out early in the Morning for Albany, I will not be able to answer yours of the 16th Instant as particularly as I could wish, which oblidges me to refer you to the inclosed to your Mayor as Chairman of the Committee of Albany which I have left open and begg when you have read it you will Seal and deliver it. I trust you will be of Oppinion that I have hitherto omitted no Means in my Power for the Safety of Albany & the Northern & Western Frontiers. And you may rest assured that every future Measure which may be in my Power for their Safety shall be punctually attended to. I flatter myself you have at least the Oath Bill by this Time & if the Militia Law is printed it shall be forwarded to you by Mr. McKesson who also sets out for Albany Tomorrow. The seven hundred Men I am authorized to raise for the Defence of the state being already ordered out it will not be in my Power to raise a Company to be under the Commissioners of Conspiracies but if Greighton's or Alden's Regiments are left in Albany it will not be so necessary. I am your most Obed't Serv't

[G. C.]

The Honble Mr. Yates.

So many Inconveniencies arise for want of the Militia appointments being compleated, that I am constrained to summon a Council to meet at this Place the first Day of next Month for that Pur

pose and must request your attendance accordingly. And let me begg of you to procure & bring with you the Returns of Tryon County Militia & the rem'r of Genl. Tenbroeck's Brigade. I wish you also to notify Mr. Webster of this Meeting.

P. S. I meant to exchange White for Miller & Blare & his Family for any other Person & Family for which he could have an Exchange settled, tho I do not mean to give myself much Trouble about the Matter as he is little entituled to it, having on his Way hither been guilty of blabing Tory Sentim'ts little becoming a Man suing for favour.

Governor Clinton Calls General McDougall's Attention to the Situation.

Poughkeepsie 18th April 1778.

D'r Sir, I am not a little surprized and alarmed to learn by Genl. Conway who is now with me & will deliver you this that all the Continental Troops at Albany & in that Quarter are ordered from thence this Way, Warner's Regiment at Albany, & Gansevoort's at Fort Schuyler excepted. By which means the large stores of every kind which we have there & our Extensive Frontiers will lay much exposed not only to the Common Enemy who, if they should be joined by any of the Indian Tribes, & the Contrary is no ways certain, will be too formidable for the Militia to resist, but also to Internal Enemies who abound in that Country. I observe by the Orders for the Removal of these Troops, Col. James Livingston's Regt. who are now with you was to have continued at Johnstown. Considering this I am clearly of Oppinion that either Alden's or Greighton's Regiment now ordered down ought to continue in its Stead and I am by no

means clear that both might not be well employed in that Quarter. There are above 150 State Prisoners confined in Albany Goal, besides there are a Number of British Invalids at that Place. I refer you to Genl. Conway for further Particulars, relative to the state of our affairs in that Part of the Country & begg your answer as soon as may be on this Subject as the Inhabitants are greatly alarmed at the Order for removing all the Troops from Albany on whom they can place any dependence. CLINTON TO CONWAY.

Fears the Frontier People Will Move in, Unless Troops are Sent to Protect Them—Position of Food Supply Depots.

Poukeepsie April 18th 1778.

Sir, I am favoured with your Letters of the 8th & 11th Instant with their Inclosures. I am apprehensive the Inhabitants on the Frontiers of Tryon County and Schohary will move in, unless a Company or two of Continental Troops under good officers are sent there to act with the Militia I have ordered to be raised for their Protection. I think, therefore, some small Part of the Continental Troops shoud be assignd for that Service as a Desertion of the Frontiers will be attended with many bad Consequences.

The Flour purchased by the Commissary in Ulster County had better be stored in that County in small Parcels, some Distance back from the River, where, as the Inhabitants of that County are generally well affected, it will be safe, nor will it so disposed

of be an Object worth the Enemy's attention. I think no greater Quantity of Provision should be collected and stored in Albany than sufficient to support the Troops which may be stationed there; whatever more the Commissary shall have purchased & now lying near the River should by all means be removed to Places Places of safety at a distance from it but not so far as unnecessarily to increase the Cartage when wanted. I have consulted Genl. McDougal who agrees with me in Sentiments respecting this Matter.

I have directed the Commanding Officer of the Militia of Tryon County with the advice of the other Field Officers to set about raising to Companies immediately for the Defence of their Frontiers & to point out to me such Officers as will be the most proper to Command them. It will give me Pleasure should Mr. Harper be one of them; but as I have referred the matter to the Field Officers & it is necessary the People should have the greatest Confidence in the Men appointed, I would not wish to make any appointments until I have their answer.

We want four long 12 or 18 Pounders for the Gun Boats at this Place. They are not to be mounted on Trucks but Sliders. If Major Stevens has any such I wish they may be ordered down to this Place as I expect the Boats will be ready to receive them next week.

Mr. Hays the British Surgeon has not so complied with the Resolutions of Congress as to entitle him to Leave to Go to N. York and as I believe him to be an artful man, his anxiety to go in is a strong Reason with me why he should not at present. Indeed it is not prudent to suffer any Communication between the Country & City & therefore, he or any other Person will not be suffered to pass our Posts for some Time to come. These

Gentry must be contented to remain in the Country untill a genl. Exchange takes place. I am Sir with great Regard Your most Obed't Serv't

THE GOVERNOR WRITES ASSURINGLY TO BARCLAY.

Militia Officers Responsible for Delays—Disposition of the 700 Men to be Raised for the Defense of the State.

Poughkeepsie 18th April 1778.

Sir, Your two Letters both dated the 16th Instant were delivered to me this Evening by General Conway. I am no less surprized than concerned to learn that all the Continental Troops Warner's Regiment excepted are ordered from Albany and I have this Moment wrote to Genl. McDougal requesting that Greighton's or Alden's Regiment or both may continue with you, representing in the strongest Terms the exposed State the Stores in your City & and the Northern & Western Frontiers will be in, as well from the Common Enemy, as the hostile Indian Tribes & Internal Foes should my Request be not complied with. Of the 700 Men I was impowered to raise for the Defence of the State I have ordered one Company of 60 men Including Non Commissioned Officers to be raised in Charlotte & stationed in that Quarter, two to consist each of the same Number to be raised in Tryon County & stationed on its Western Frontier, & one other of 34 in Schohary to be stationed in that Neighbourhood, which I trust you will be of Oppinion was doing as much for your safety as in my Power. I have long since wrote my Opinion to the Commanding Officer at Albany that the British

Prisoners should be removed to the Eastward which I am happy to learn from Genl. Conway has been done & that none but Invalids not proper to remove now remain among you. I have also advised the Removal of the principal Stores & Magazines.

The Neglect of the Militia Officers in making Returns to the Council of Appointment has prevented making the necessary appointments and has left the Militia in the same bad Condition it has hitherto been by which we shall continue to be deprived of a Strength with which we ought defy Danger on any Sudden Emergency were it properly Officered & aranged. You may rest assured, Sir, that I will continue attentive to your Safety & that no means will be neglected by me for that Purpose. I have the Honor to be Your most Obed't Serv't

As I do not think myself authorized to meddle with it, unless it be by your Excellency's Order, I have referred him to you Sir, and beg leave to acquaint you that, if I have your Excellency's Order, in Writing, I can settle it with Certificates, on being reimbursed by an Order on the Military Chest. P. S. Capt. It seems they have made some Confession, or impeach'd each of them to Capt. Post, which I acquainted the General of, who requested that Post might be sent for, to give such Information, as the case may require & he

THE WYOMING MASSACRE.

*Evidence to Show it was Planned as far Back as February, 1778—
Tory and Indian Plots.*

The Deposition of the following Persons made before the Committee of Mamacotten Precinct April the 17th 1778: Josiah Parks being Duly sworn, Deposeth and saith: That about the middle of Feb'y Last past Cap't John so Called—a Tuskarora Indian was coming thro the woods to go to one Robt. Lands at Cashittown and being overtaken with fear, turn'd about from Said Lands to Shohauken and imploy'd one John Harris to go to said Lands with an Express of Letters for said Land to go to York with, and soon after said Land went off and is not yet appear'd Home or been seen here since, and that the Tories says the said Land is gone to New York and they are afraid he is taken. The said deponent farther saith that by the best Information he can get of one Dav'd Vaneveran of Shohaukan is, That the Indians and Tories mean to strike first on Sisqueannah about Wyomah [Wyoming] and take that place first; with the Number of four thousand men, and then come through to the North River. The same Deponent farther saith that Francis Elswert told him not to tell the Damn'd Rebels at Cashittown about the plot for fear they would move off. Said Elswert sells provision to the Indians and takes Orders on the Kings Quarter-master for pay. The said

Deponent farther saith that Francis Elswert; Nathan Parks; Garton De Witt; and Hank Bush, are gone to the Indians.

The Evidence of Joseph Gordens is as follows. He says he heard Francis Elswert and Joseph Gooding—Both of Shohawken—Say that they would Come about five Weeks hence with the Indians and Tories to take all the Wigs at Cashittown,—Name-ly—Bezaleel Tyler; John Lashly; in short all the Wigs. And the persons which would not be hurt that were Kings men. Viz. Joseph Ross, Nath'l Michel, Brian Cain, one Allan, Robt. Land, Dan'l Skinner, Jonas Wood, Haggai Skinner. The said Deponent farther saith that the said Elswert and Said Gooding are going Back and forwards to the Indians Greatest part of the time: And the Indians are among them Great part of the time and that he has seen the Indians among them—they seem to be of one mind and opininon and agree very well.

May it please your Excellency, We of the Mamacotten Precinct and part of Goshen Precinct that took the Deposition of the aforesaid Deponents took it under Character of Committee 'tho we are not certain wether the power and use of Committee be not expired now the Magistracy has taken place. Nevertheless we thought it our Duty to the State, as well as Safety to our selves to take from under Oath the Deposition of persons filled with the Greatest Anxiety and fear of their Persons and Familes falling a Prey to their worse than Savage Neighbours. And we Beg Leave to Lay before your Excellency this their and our Situa-tion from this Diabolical Plot which we have Reason to beleive For it is the opininon of most of the Inhabitants both of this and Orange County about the Minnisink that our Enemy is more

formidable and our danger Greater than from last Years Design. One of the Deponents Declared on Oath that 300 Men would not be sufficient to take them, so great their Numbers and Beg'd it to be kept Secret for Should it Transpire before help they would be on them and us before we could Remove. We Beg you Excellencys acceptance Judgment and Consideration of the Premises.

And beg Leave to assure your Excellency we are Devoted to your Commands.

General McDougall Not Disposed to Concede All Governor Clinton's Demands.

Fish Kills 19th April 1778.

Sir, I am honored with your Favor of yestarday. The Letters I received from the Commander in chief, preceding the one on which your Opinion was asked informed me of Vanschaick's, Hazen's & Livingston's Regiment being ordered to this Post. When Graton's & Alden's were ordered to repair here, 'tis probable that which directed Livingston's from Johnstown, was forgot; or that the last Order from the Board of war was founded on General Washington's importunity to have them all down, with a view to the Question stated to us. If I should be mistaken in this Construction, & any misfortune should happen to this Post,

by the Absence of those two Regiments, my Superiors will make me answerable for the Event. I cannot therefore consent to let both those Corps remain at Albany. But as Livingston's is here, the Spirit of the Order & the Condition of Albany will justify me in leaving Alden's Regt. there, till Livingston's can be sent up. This is the safest Line of Conduct I can pursue, which I hope will give Satisfaction as far as it is in my power. I am Sir your humble Servant

West Point 19th April 1778.

D'r Brother, Inclosed you have a Letter I rec'd from Col. Hathorn relative to a certain Caleb Hayett who was taken the begining of last Winter, by some of our Guards near Bergen, when he says that he was leaveing the Enemy and comeing to us; as I belive nothing more will appear against him than what has concerning the Crimes he hath allready comemited, I think he had better be with his Family than where he is; however you will act as you Judge best; the bearer I belive waits on you to try to have Hayett set at liberty.

The Militia were discharged yesterday agreeable to orders. The Enemy weigh'd Anchor on Friday last about 4 O'Clock P. M. and with a fair wind soon went out of sight. Yesterday our Guard Boats proceeded down to Tarry Town. I expect the earliest notice of the Enemy's motions by them. Our Fort is now allmost at a stand since the departure of the Militia. I hope you'll not detain them long; the different Regts. are at the

May it please your Excellency, We had the honour of receiving a Letter some time since under your Signature with an inclos'd Copy of a Resolve of Congress for erecting a Monument to the Memory of our Late Brave General, & also a Copy of a Letter from the Honbl. John Hancock, president of Congress to your Excellency respecting the same. Our sorrow at the loss of that Gallant Gentleman seems somewhat alleviated when we consider the Honour done his memory by that Honourable Body.

We Cordially concur with the honourable president of Congress in thinking that such marks of distinction shewn to the memory of those Heroes which sacrifice their Lives in the cause of their Country may tend to animate others to tread in their paths.

We are highly sensible of the honour done us by your Excellency in Referring to us the determination of the manner & spot of erecting it. Agreeable to your recommendation we have consulted the Widow & Friends of the General (which necessarily occasion'd our delay in answering) & find it their opinion to have it erected Nigh the Yellow Church in Connejoharrie. As to the manner of erecting it they & we are so little acquainted with

things of the kind that we must refer it to the Superior Judgment of your Excellency & the Council the Time & manner of his sacrificing his Life You are doubtless acquainted with as it was published in the News Papers. We have the honour of being

GATES IN COMMAND OF THE NORTHERN DEPARTMENT.

*The Alleged Proposition on the Part of England to Recognize the
Independence of the Colonies.*

York Town 20 April 1778.

Sir, My last was dated 31st March by Green. This morning I had the honour of presenting to Congress Your Excellency's favor of the 7th Inst.* together with the Proclamation which came inclosed—these are referred to a special Committee.

Under this Cover Your Excellency will be pleased to receive an Act of Congress of the 15th Inst. for appointing General Gates to the Command of the whole Northern department & authorizing him to call for Militia from New York & the Eastern States &c. In the General's Instructions he is directed when convenient to confer with & take Your Excellency's advice & assistance.

General Howe is now circulating as far as his own & the power of his Emissaries extend a Paper said to have been received by the February Packet, but printed in Philadelphia, 'titled

* See pages 145-146.

“ Draught of a Bill (Private)

for declaring the intentions of the Parliament of Great Britain concerning the exercise of the Right of imposing Taxes within His Majesties Colonies Provinces & Plantations in North America.”

“ Draught of a Bill to enable his Majesty to appoint Commissioners with sufficient Powers to treat consult & agree upon the means of quieting the disorders now subsisting in certain of the Colonies Plantations & Provinces in North America.”

“ Whereas the exercise of the Right of Taxation by the Parliament for the purpose of raising a Revenue has occasioned disorder, &c.—It is expedient to Declare that the K & P. will not impose any Duty &c. for the purpose of Revenue, except for the Regulation of Commerce &c. the N’t produce to be applied for the use of the Colony in which the same shall be respectively levied—Commissioners to be appointed by His Majesty & authorized to treat with Body & Bodies political & Corporate with Assembly or Assemblies of men—Person or Persōns—to proclaim a Cessation of Hostilities—to suspend the operation of the Act of 16th Geo 3d prohibiting Trade & Intercourse—to suspend for time all the Acts relative to the Colonies passed since 10th febry. 1763—to grant pardons to any number or description of persons to fill up Vacancies in the Offices of Governors & Commanders in Chief in the Colonies ” &c. &c.

The last article is nugatory & must have arisen from their ignorance that every place is full.

I need not trouble Your Excellency with my sentiments on this attempt nor on the proper means for exposing it to complete contempt & ridicule.

I differ with Gentlemen who suppose the performance originated under authority in England; it appears to me to be destitute of the most essential marks; if the MS., crossed the Atlantic it must have been the production of a Jacob Henriques or a Moses Lindo. I believe it to be of Philadelphia manufacture probably under hints from the other side of the Water & sent abroad like a Sibyl's Letter—'tis not improbable I may be obtruding a subject, which before this can reach Your Excellency will be known at large; be that as it may, if I can possibly obtain a Copy of the whole draught it shall accompany this for although I think it should be treated with contempt—yet not silent contempt—it is at present in the hands of some Gentlemen who will exert their Talents in stricturizing.

Your Excellency will have heard of the seperation of the Commissioners for establishing a Cartel, the conduct & determinations of the Gentlemen who appeared on our part is highly applauded by Congress,—will do themselves honour & our Cause, service. I have the honour to be with the greatest Esteem & regard Sir Your Excellency's obedient & most hum. Serv't

THE DIFFICULT MILITARY PROBLEM AT ALBANY.

General McDougall's Specific Orders to General Conway in Regard to the Disposition of His Force.

Head Quarters Fish-Kills April 21st 1778.

Sir, The important Stores at Albany; and the present State of the works on Hudson's River will not give them Security. And the bringing down Graton's and Alden's Regiments to these Posts

would so expose the Stores of various Kinds in that City, that it is inexpedient now to remove those Corps to the Highlands. These Considerations together with the apprehensions from the Indians and other Emissaries of the Enemy render it necessary for the general Service, that you repair to Albany; to pursue the measures recommended by the Board of warr respecting Colonel Warner's Regiment and Whitcomb's Rangers, as well as to take the Command there, untill Congress shall order an Officer for that Department; For I am not advised whether its their Intention to keep the Northern Department separate from this or not. But the peculiar Circumstances of that part of the Country and the public Stores, obliges me to give this attention to them, altho it deviates from the strict Letter of the Orders of the Board of warr; least I should be charged with Want of Discretion to the general Concerns of the Continent; Altho my present Force demands the Assistance of those Corps. You will please to take the most effectual measures to call in the Officers and men of those two Regiments, and not suffer any Furloughs to be given to either, but in cases of the most urgent Necessity. If any Emergency should arise which will render it necessary, to detach for the Relief of Fort Schuyler; or to make small outposts, it must be done from Colonel Alden's Regiment, as if Colonel Livingston's was above; as this Corps was ordered here by the Commander in chief and arrived before the last arrangement to detain it at Johns-Town. Colonel Graton's will be kept at Albany and in Readiness to embark or march here as Occasion shall require on the shortest Notice. At all Events Colonel Graton's must not be sent from Albany unless its ordered to the Highlands. From the Information you gave me of the lax manner in which Provision and Rum are delivered out at Albany and the Posts above, I must beg your

attention to remove those abuses, as farr as it shall be in your power. It will greatly contribute to the Defence of the Country, should the Enemy make any Excursion into it, to consult in Time, with the Officers of the militia, and those who are well acquainted in the Country, where it will be proper to assemble and order the different Corps of Militia, as Occasion shall require.

Sir,—The Bearer hereof, Capt. He will Inform your Excellency that he has a Vessel with a Small Cargo of Salt in Norfolk Harbour in Connecticut which on acc't of an Imbargo law against the Transportation of Provision of any kind out of that State he is Oblidged to apply to this State to Barter the Same for Provisions Such as flour &c. His Coming by water (however honest) may Cause Suspicions; it, therefore, would be rather Imprudent for any Commissioner to Licence him to Carry out flour altho he Should Bring in the Salt. I am of Opinion that in Such Case it ought to be by Special Licence from your Excellency. He has therefore Requested me (as he is a Stranger) to write to your Excellency in his Behalf. General McDougall Sorely Troubled Over Military Perplexities.

Fish Kill April 22d 1778.

Dear Sir, I was honored with your favor of the 19th current covering General Schyler's Letter and others for Congress &c. These were forwarded yesterday. I have determined to send Genl. Conway to Albany for the reasons contained in the inclosed copy of his orders. If any accident Happens to these posts, my reputation will be ruined, and if the stores above,

*Walter Butler belonged to a particularly brutal type of man. He was the son of Col. John Butler, who, at the outbreak of the war, was Lieutenant Colonel of Guy Johnson's Tryon County Militia Regiment. Col. Marinus Willett, who was named "the devil" by the Indians, because of the rapidity and success of all his movements, had succeeded, with Major Stockwell, in passing through the enemy's lines and works before Fort Schuyler, and covered some forty or fifty miles, through swamps and trackless woods, in order to reach Fort Dayton, which was then commanded by Col. Weston. Willett, learning that Gen. Schuyler had ordered Generals Arnold and Larned with a Massachusetts brigade to the relief of Col. Gansevoort, who was beleaguered at Fort Schuyler by St. Leger, started for Albany in order to meet General Arnold, who was to command the relief expedition.

During his absence, a secret meeting of Tories gathered at the residence of a Mr. Shoemaker, who had held a commission under George III. Weston promptly detached a small body of troops who surrounded the premises and captured every one of the conspirators. Among them was Lieutenant Walter Butler, who with fourteen white soldiers of St. Leger's army and a similar number of Indians, had gone among his old acquaintances on the German Flatts to persuade them to join the King's forces, then before Fort Schuyler. At the moment the American troops entered, Butler was delivering a violent harangue. Arnold regarded him as a spy and ordered a court martial of which Willett officiated as Judge Advocate. Butler was convicted and sentenced to death, but owing to the influence of a large number of officers who had met him while he was studying law at Albany, his life was spared by a reprieve. Butler was taken to Albany and closely guarded, until the following spring, when in consequence of his ill health, and through the influence of many Tory friends of the Butler family, he was transferred to a private residence, where he gave his parole. From this place he was permitted to escape, through treachery, it was alleged, as the guards who were watching him fell asleep from the effects of over indulgence in intoxicating liquors. After a career of bloodshed unparalleled in the history of the Western Hemisphere, Butler himself was shot by an Indian friendly to the Americans and scalped, despite his piteous appeals for mercy—mercy that he was never known to bestow upon the luckless captives who fell into his hands.—STATE HISTORIAN.

which are very capital, should be destroyed, if I suffered the Troops to come down I would be Censured. In short, my situation in this command make me exceedingly miserable; and I fear will end in my destruction. If leisure permits I wish to see you on some late intelligence of a very important nature, from New York. It is with reluctance I send you the Prisoners mentioned in the inclosures, but our Prevost's Guard is full. Time will only permit me to add that I am Dear Sir, Your affectionate H^ble Servant

Governor Clinton Reports to Washington the Danger and Uncovered Condition of Albany.

Poukepsie April 22d 1778.

Dear Sir, Tho' the removal of a considerable Part of the Troops that were stationed at Albany to the Posts in the Highlands appeared to be a Measure expedient and absolutely necessary, I am nevertheless very apprehensive, that the withdrawing all the Troops from that Quarter (Gansevoort's and Warner's Regiments excepted) which I learn by a Resolve of Congress is to be the Case may be attended with bad Consequences, especially while the Disposition of several of the Indian Tribes, if not known to be hostile, is at least very doubtful, and from our weak State there may be fixed against us. We have large quantities of Stores of every kind in Albany and its vicinity. The Enemy are not without some Troops in Canada. They are Masters of the Lakes, and should they, aided by the Indians, be disposed to make Incursions into this State, they might do us infinite Mischief before a force, sufficient to oppose them, could be collected. Gansevoort's Regiment is stationary, and Warner's, weak undis-

ciplined and, as General Conway informs me, unarmed; The Militia, therefore, is all we have to rely on, and they consider themselves as deserted & are already moving in, and leaving the most fertile Parts of the Country uninhabited. That Department being also without any particular Person to command in it contributes greatly to the Discouragement of the Inhabitants. I have ordered out about 300 militia in that Quarter, but the Northern & Western Frontiers are so very extensive that this small force must necessarily be much divided. I am with great Respect Your Excellency's most Obed't & very humble Serv't

Sir, I am just favored with the Sight of a Line from Major Allen who commands a party of one Hundred Men belonging to the Grants and about 12 miles from Ticonderoga last Saturday about 10 O'Clock in the Forenoon. Also an Officer informs me it may be depended on that there will be 700 of the Enemy in this Town, by Saturday night. He informed me that he was bound not to divulge the Informer, but he was certain it may be depended on, & as my Informant is to be depended on I imagine we may expect them.

My Regiment is now under arms & about to raise the 70 men ordered to range on the Frontiers of this Country—but it will be impossible to get them—There being so many moved off by reason of no Succours on the Frontiers. However we must do the best we can. I shall go out with a Party to reconoitre to morrow and make no doubt but you will hear in a few days of our Proceedings.

I could wish some Troops might be ordered up with all Speed or we must inevitably fall a Victim to the Enemy as it is a Season of the year we cannot possibly move off with that Expedition it will require if the Enemy should come down—and what is still worse there's a scarcity of Ammunition amongst us—therefore must beg you would immediately send me 100 lb. of Powder & 300 lb. of Lead by the Bearer, and I will be answerable for the Like Quantity till we can receive it from the State, & beg you w'd forward a Cobby of this to his Excellency Governor Clinton with all Speed. Poughkeepsie April 24th 1778.

Sir, I have received the Petition signed by you & others the Inhabitants of Saratoga & Cambridge Districts. You must be sensible that I have no other force under my command but the militia of the state; that to send a Body of Troops to be stationed at the several Places you mention & to give equal Protection to every other Quarter which may be in like manner exposed to the incursions of the Enemy, would be altogether out of my Power, unless I was to call the greater part of the militia into the field. The Legislature passed a Law for raising 700 men for the Defence of the State, a due proportion of which I have ordered to be raised in Charlotte & Tryon Counties & at Schoharie; the Residue in the Southern Parts of the State where the Inhabitants are much exposed to the incursions of the Enemy from New York & its neighbouring Posts; and I have exempted all those Regim^{ts} from Drafts to fill up the continental Regiments in order that

they may be the better enabled to defend themselves. I was sensible notwithstanding that the withdrawing all the Troops from the Northern Department would leave the Inhabitants of the Northern & Western Frontiers too much exposed. I therefore wrote to Genl. Washington on the Subject & have prevailed on Genl. McDougall to permit Greighton's, Alden's & Warner's Regts. to remain for the present where they are, and I trust, this force with the Spirited exertions of the militia will give you security against the small force that the Enemy can send against you. I think it would be inexpedient to keep large bodies of the militia out in the field as this would prevent the cultivation of our Lands & much distress the Inhabitants. The Cont'l Troops & the Companies I have ordered to be raised will be sufficient to guard the Frontiers ag't small Parties or oppose any sudden Incursion & if the Enemy should come with greater force they must of course move slow, and afford Time for the militia to be collected, which the command'g Officer on such occasions is empowered to do without wait'g for further orders.

You may rest assured that every Succour & Protection which I can give you will at all times be afforded & that I will be attentive to your Safety. I am &c.

A Bartering Transaction Involving Flour and Salt and What Followed.

Sir, The Committee of this District sometime last winter purchased a Quantity of wheat which was manufactured into Flower, and Bartered for Salt, for the Inhabitants of part of the District

and are now under the necessity of troubleing your Excellency for a permit. The Salt is laying beyond the State Line, and the Person who made the Contract will not suffer it to be removd, untill a permit is obtained for the Flower. Our Inhabitants are greatly distressed for the want of that necessary article having put their whole dependance on the above mentioned Salt. The Quantity of Flower is 400 Barrels. Your Excellencies compliance with their request will much oblige your friend and humb'e Serv't

COLONEL JOHN WILLIAMS CHANGES HIS TONE.

No Cause for his Alarming Letter of April 22nd—Danger to the Frontiers—A Disappearing Militia—His Appcal to Governur Clinton.

White Creek, April 25th 1778.

Hon'd Sir, Yesterday I return'd with my Regiment from near Sceensbrough. The reason of my March I mentioned to you in my last. It appears the alarm arose from Major Allen's Party Cleaning out their Arms after being out in the wet, a Gentleman hapen'd at the time to be in the rear & hering the Firing, took it to be an Engagement with the Enemy, and alarm'd the People in the Frontiers, and it gives me Pleasure to Inform you that the people never so Universally Turn'd out so well before.

By the best Information There is Two of the Enemies Ships at Ticonderoga, but no Troops have as yet Landed. However by Certain Entilgence which I have Procured from the Commissioners to Detect Conspiracies, and some of the Disaffected, we

may expect The Following Plan is the Enemies Design. The Enemy are to present themselves in the Frontiers in order to Receive the Disaffected that will Joyn them and then return to St. John's and as Soon as the militia are returned home, they are then to Return and Penetrate into the Country by Parties in order to Detect as many as they Can, and return, Then to remain Quiet, till the Shipping comes up the North River at which time the Indians are to be let loose upon Our Families, and to Burn and Destroy all they can. In the first Instant it seems to be their Design, for as Soon as the Ships appear'd Some of the Disaffected went of to them.

I am sorry to Inform you that Capt. Barn's Company goes on but Slowly. The Act I was Refer'd to in your Letter Respected the Raising the men I have not been furnished with. The Two Lieutenants are appointed and about eighteen Enlisted. But there's nothing mentioned about amunition or Provision. I sent to Albany and Procured One Hundred weight of Power & Two of Lead, and Two Barrells of Beef and Two of Flour. I should be glad to be Inform'd how they are to be Supplied—and also be furnished with the act respected the raising of the men.

As we Stood in need of a Guard and Scouting Parties before this Company could be raised, I tho't it prudent Together with the Opinion of my other Officers, to Class Militia in Six different Clases & to Serve week about. This seems to take with the Inhabitants, but before it could be done the alarm was given & Three Companies are allmost mov'd off. Nor do I imagine they will return notwithstanding all the arguments Us'd which I am master of. This being the Case I have not at present, Twice Seventy men, therefore, it will be Impossible to Fill the Company, as the District of Cambridge is Contiguous to us and our Removial from

our Farms (which will be the case unless timely Assisted) will leave it a Frontier. I would Sugest whether it would not be good Policy for them to Assist in filling up the Company. I have mentioned this to them which they would Concur in, was it not for their raising men to Join the Continental Troops. For my own part, I am Ignorant of the Forces we may expect to guard the Frontiers; but this I am well assured that if some Succour is not sent us Soon, the People will undoubtedly leave this County, as they Cannot Subsist having lost allmost their all, unless they can raise a Crop this Season.

The Enemy can land at Skeensbrough & be to the Southermost part of the County in one day, and excepting the men under Capt. Barns and my Small number of Militia there is none to Interrupt them; this being the Case the people are at a lost whether to put in their Crop or not.

A few days Since, the Civil Majestrates appointed for the County mett and by Reason of my Refusing the Commision being Superseded, they all objected; when this Dificulaty first began I know not. If my Constituents would be Satisfied and my name obliterated from the List I should be Contented, but to be Superseded, without any reason given, and the only person Struet at in the County, I must confess, I feel my self Injured, and untill the matter is clear'd up, I must Resign from taking any Commision either Civil or Military. For my own Part I never Solicited any Commision, and would as soon go out to defend my Injured Country in a private Station, as a Commander-in-Chief.

I am Informed by the Committee of Kingsbury That one Mr. Dotey who hath been an officer, and lives Contiguous to that District, but is in Albany County hath offered to raise 20 or 22 Good men, greatest part of which he can Engage in Two days, in order

to defend their Property it being in the Frontiers provided he can get a lieut. Commision. I Inform'd them, that I would acquaint you of it. Could this be done it would necessarily draw more force to the Frontiers and as Mr. Dotey is a man well acquainted with the woods round lake George, and a good Soldier it may be of great service to the County.

In my letter to you the 21st Inst., I mentioned of requesting the Commanding Officer at Albany to Supply me with Amunition which was Granted. I should be glad to know how I am to replace it; & also we are in great want of Flints. I should be glad to be Informed by the first Opertunity, and also to be furnished with the Militia Law. I am with Sentiments of Esteem Your most Obed't & Most Humble Serv't

Jno. Williams.

P. S. Should be glad to know how I must Conduct with the militia or whither I can be Justified in Sending out the militia in Clases if wanted.

D'r Sir, We have form'd a Board of Commissioners here & are Employed in Searching into the Conduct of Such as have been with the Enemy—our Greatest difficulty is in Convincing many who Term themselves Zelous Whigs of the Justice & Propriety of our Proceedings, & as no Court or Majistrasy Exists to Supress & keep in order the Whigs, as well as the Tories, who are as Ungovernable, we find it attended with many Difficulties. PATRONAGE COMPLICATIONS IN CHARLOTTE COUNTY.

Colonel Williams Obstreperous—His Grievances—Trials of the First Governor of the State.

New Perth, Charlotte County April 25th 1778.

Sir, I acquainted Col. John Williams & Mr. Webster of their appointments to the office of Judges for this County. Col. Williams refused to accept, because of the Injustice he thinks done him by his appointment to the office of Third Judge instead of Second, as in the ordinance—he Says he knows of no Complaint being entered to the Council ag't him, why he Should be Super seded by a Person who was not in the former appointments & further Signified his Intention of not accepting of his Colonel's Commission untill his griefence is redressed in the above appoint ment. He also desired me to acquaint you of the above Reasons for his declining & that he will rite You largely on the Subject.

Mr. Webster declines also Upon the Principle of not being even Passively the means of any Confusion as Col. Williams makes So great objections of his appointment before him and is willing to accept (if agreeable to the Council) of the Station of Third Judge.

I also acquainted the Sherref, & the following Justices of their

appointments viz: Mr. Rastle, Mr. Masters, Mr. M'Collister, Mr. Hopkins, Mr. Moss, Mr. Baker, & Mr. Fuller, who are all willing to accept, but not until the Judges be Qualified (thinking it necessary that all the wheels of Government will be more than Sufficient to Command that obedience necessary among a People who have So long Enjoyed the liberty of a Loose Reign without Control.

I am pained at the Thought of opening our Courts being so long delayed, no man's Property is Secure the Committes are dissolved, the Power of the Commissioners is weak, for, unless the determinations of the Commissioners run in the Same Channel with the Judgment of some persons who Esteem themselves zelous freinds to the Common Good, the Commissioners are Reflected on & the Persons dealt with are (yable to be Be Judged & Punished & none to Control them.

I beg Your Excellency for Instructions if any alteration should be made. I Cant omit Suggesting that Mr. Webster's appointment seems agreeable to the People in (General), that I have had opportunity of Converseing with. Wishing You all Posable felicity I am Your Excellency's most obt. & very limb. Serv't

President Laurens Forwards Copies of Acts of Congress to Governor Clinton.

York Town 26 April 1778.

Sir, When I did myself the honour of writing to Your Excellency the 20th Inst. by Messenger Browne, I had taken some pains to procure the Copy of " Draught of Bills " &c. which accom-

panied my Letter, supposing I was then transmitting a thing which would be new at Poughkeepsie, but from the measures which, I now know have been pursued by the late Governor of New York, it is highly probable he had before that date attempted to Insult Your Excellency with a packet of printed Copies of that paper Certified by himself & ushered by a modest Injunction upon Your Excellency to dispose them—such has been Mr. Tryon's conduct towards Governor Livingston, Gen. Washington, &c. &c.—an expence & trouble which might have been spared, since Congress from the first appearance of the Stratagem had determined to expose it in the most effectual manner to public view—in pursuance of such Resolution I have now the honour of transmitting within the present Inclosure twelve Copies of an Act of Congress of the 22d Inst. confirming the Report of a Committee on Gen. Washington's Letter of the 18th containing the said Draughts, to which is prefixed Lord North's Speech at the introduction of the Bills into Parliament.

Your Excellency will also find inclosed an Act of Congress of the 23d* for granting pardons to certain characters therein described & Recommending to the several States to enact Laws or issue Proclamations for that purpose—in a seperate packet are 50 Copies of this last mentioned Act which Your Excellency may judge necessary to disperse immediately. Congress were induced to this measure from well founded suggestions that great advantages would follow. I have the honour to be With the highest Esteem & Regard Sir Your Excellency's Obedient & most humble Servant

DETERIORATION OF THE CONTINENTAL CURRENCY.

Massachusetts Reluctant to Pass a Regulating Act Fearful of Its Effect on the General Cause.

State of Massachusetts Bay, Roxbury April 27th 1778.

Sir, The General Assembly of this State in pursuance of a Resolution of Congress of the 22nd of November last appointed Commissioners to meet those which might be appointed by the States of New Hampshire, Rhode Island, Connecticut, New York New-Jersey, Pennsylvania, and Delaware at New Haven on the 15th of January last for the purpose of devising the most prudent and effectual measures for promoting those valuable purposes mentioned in said Resolve of Congress. The Commissioners met accordingly and reported that it was Expedient that Laws should be made Regulating the prices of Labor, produce &c., and their proceedings have been laid before this Assembly, who were much divided in their Sentiments with respect to the measures, many apprehending (from a Recent and unhappy experiment of a Regulating Act) that the Carrying such an Act into execution was impracticable. However upon mature Deliberation (as it was Recommended by Congress) a Vote was obtained, appointing a Committee to prepare a Bill for that purpose, but before the Com'ttee could prepare and report it, the small Pox broke out in Boston and this Court oblig'd Suddenly to rise. The Consideration of this matter has been reassumed the present Session and a Bill reported, tho' the Assembly were not less divided than before; it is still urged, that if a regulating Act should be attempted, that the effect would be so far from aiding the other measures proposed by Congress for giving Stability and Value to the Continental Bills that it would render

those measures fruitless, for the possessors of Goods would thereby be induced to part with them on no terms but those of Barter and thereby the Circulation of the Bills being obstructed they would become (in a great measure) useless in the Hands of the needy Possessor, who having nothing else wherewith to purchase the necessaries of Life, would at least in a private manner offer any Sum which he might Suppose would tempt the possessor to part with his corn &c. which the buyer needs, and further that these objections are not built on mere Speculation but upon unfortunate experiment. Should the mode pointed out by Congress for reducing the Quantity of circulating money be punctually complied with in the Several States (which we presume it Will) it is conceived it will have a happy tendency to give Stability to the Currency and to Reduce the prices of Articles both of Produce and merchandize; this Government has (agreeable to the Spirit of the Resolves of Congress) put a final Stop to the Currency of all the Bills emitted by this State, Small change under a Dollar only excepted, and being fully appraised of the bad consequences which would accrue by any further emissions of money, have levied a Tax of three hundred thousand pounds LM'y upon the people, to be paid into the Treasury by the first day of Jan'y 1778, and have Since levied another tax of about Two hundred and fifty thousand pounds LM'y to be paid in by the first of June next and are determined to Support the War by Taxation as far as the Abilities of the People will admit. These measures have already had some happy affect by lowering the price of Imports, and had not the Troops of the Convention been Quartered in this State it is presumed the price of our produce would have been reduced proportionably. Upon the whole this Assembly and

the people at large were so much divided on this Question—the fixing the Price of produce Labour &c. so as to give Satisfaction to the Various parts of this State was so very difficult—but above all, the danger of obstructing the Circulation of the money, and thereby reducing its Value to such a Degree as greatly to affect the Common Cause, was so exceeding great—and fearing least the evils Which We feel should be increased instead of being removed by the measure, We have upon a full discussion and Consideration of the Subject thought proper to Suspend passing such an Act for the present and inform Congress of the motives which influenced us so to do. Accordingly We have candidly and Justly Related in few Words the mode of our Proceedings and the Principal motives which have influenced us to Suspend passing the Bill, which We Submit to the Consideration of Congress, and hope that if it should be their Opinion that our Objections are not Sufficient to Suspend passing such an Act that they will take the earliest Opportunity to give us the information which will be immediately attended to by the General Assembly.

In the name & behalf of the General Assembly.

General Conway Proceeds to Half Moon and Finds Everything Quiet in the North.

Half Moon the 27th April 1778.

Sir, I arriv'd here this Day with Coll. Graton's and Alden's Regiments and had sent orders to Warner's Regiment to join me to morrow at Saratoga. I Just now receiv'd the inclos'd Letter from General Schuyler with the account given by Coll. Williams. I fear the News which came by the Channell of Capt. Allen stationn'd at White creek cannot be much Credited.

I will send Back to morrow Graton's Regiment to Albany. Will Keep here Alden's Regiment, untill I return from Saratoga where I will proceed to morrow in order to Connect with General Schuyler, and to be able to give you and General McDoughall some more positive account. I pray you will be so kind as to send me the Letters of General Schuyler as I had not time to take copies thereof. The fear of Detaining the express Causes me to write but one Letter, which I pray your excellency will transmitt to General MacDoughall. I hope General MacDoughall will not find fault with it, as you Both must be acquainted with what passes here and as you are on the way this Letter can speedily be convey'd to him.

I will write to you and to him as soon as I return from Saratoga and Let him Know what measures I have taken what intelligence I have obtain'd, and ask his orders for my future conduct.

*From Poughkeepsie, April 28, 1778, 10 o'clock P. M., Robert Benson wrote to John Barclay, Albany, N. Y.:

His Excellency, the Governor, having been absent since Saturday, returned home this evening, when your letter together with that of Mr. Yates, was delivered to him. He has ordered Genl. Ten Broeck to march as many of the militia as Genl. Conway may deem necessary, to oppose the enemy, and prevent their penetrating into the country. 'Tis a strange thing that your northern gentry can't let us enjoy all the good reports we receive daily in this quarter, without being disturbed by the disagreeable sound of the enemy's appearing on the northern frontiers.

Capt. Deane (brother to our Ambassador at the Court of France.) passed through Fishkill yesterday, (under an escort of light horse,) with despatches from France to Congress. We remain ignorant of their contents; but from report, we apprehend some very interesting treaty to have taken place between that Court and the United States. What think you of the lowered tone of Lord North's speech, and the present temper of administration? Does it not savour strongly of their jealousies of an alliance prejudicial to their measures? The politicians here, have no doubts on the subject. I send by this express a parcel of the militia laws, to be disposed of as you may judge proper. Mrs. Clinton is much indisposed; all other friends, are well.

P. S. If any thing that may be depended on relative to this news, should transpire, I'll send it you.

Dear Sir, I wrote you last night since which I am favoured with yours of the 27th Instant. I am happy to learn that the Accounts from the Northward are not so alarming as they were at first represented. I will forward Copies of your Letter with its inclosures to Genl. McDougal Tomorrow Morning; Genl. Schuyler's Letter I return inclosed.

Lord North's speech* I sent some Days since to Mr. McKesson

*The speech alluded to, was delivered by Lord North in Parliament, February 17, 1778. He declared that from the beginning he had been uniformly disposed to peace; that the coercive acts which he had made were such as appeared to be necessary at the time, though in the event they had produced effects which he had never intended. That since he found they had not the effect which he intended he proposed a conciliatory proposition before the sword was drawn. He thought then and he thought still that the terms of that proposition "would form the happiest, most equitable, and most lasting bond of union between Great Britain and her colonies. That by a variety of discussions, a proposition that was originally clear and simple in itself, was made to appear so obscure, as to go damned to America; so that the Congress conceived, or took occasion to represent it as a scheme for sowing divisions, and introducing taxation among them in a worse mode than the former, and accordingly rejected it.

"His idea never had been to draw any considerable revenue either in that way or any other from America; that his idea was they should contribute in a very low proportion to the expences of England. He had always found that American taxation could never produce a beneficial revenue; that there were many sorts of taxes that could not at all be laid on that country and that few of them would prove worth the charge of collection; that the Stamp Act was the most judicious that could be chosen for that purpose, as it interested every man who had any dealing or any property to

Clerk of the Sup'r Court at Albany to be communicated to you. The two Drafts of Bills aluded to in the Speech I send by this Conveyance to Chief Justice Jay.

Capt. Deane, Brother to Mr. Silas Deane, one of our Embassadors at the Court of France arrived from thence at Fishkill on his Way to Congress in forty Days. He came in a French Man of War & has brought very Important Intelligence, the particulars whereof are not transpired. This much I have heard & may venture to tell as a Truth, that an Alliance between that Court & these States has taken Place as favourable & generous as could be expected to the Latter. A Knowledge of this has undoubtedly occasioned the late Measures in the English House of Commons. I am with much Esteem Your Most Obed't Serv't

defend or recover, in the collection of the tax and the execution of the law; but notwithstanding the high rate at which that duty had been formerly estimated, he did not believe its produce would have a very considerable object; and if the people had confederated as they seemed in general disposed to do, and in some places had actually done, to go on without stamps, it would produce nothing at all but would increase the confusion of the country if any attempts were made to disturb the transactions which were carried on without stamps. That accordingly he never had proposed any tax on America; he found them already taxed when he unfortunately (as he still must say, whatever use has been, or might be made of the word) came into administration. His principle of policy was to have had as little discussion on this subject as possible, but to keep the affairs of America out of Parliament; that accordingly as he had not said, so did he not think it advisable for him to repeal the tea tax, nor did he ever think of any particular means for enforcing it. * * * One of the bills he proposed to move was, to quiet America upon the subject of taxation and to remove all fears real or pretended of Parliament's ever attempting to tax them again and to take away all exercise of the right itself in future so far as regarded revenue."

It was impossible to repeal all the acts in dispute since 1763, for some which had passed in 1763 were beneficial to the colonies. As to the late acts, such as the Massachusetts charter, the fishery and the prohibitory bills, "as they were the effect of the quarrel" he promised them to cease, and that "as to complaints of matters of a various nature, authority should be given to settle them to the satisfaction of America." He stated, that "all these matters consisting of a great variety would be better left to the discussion of commissioners than to be established by act of Parliament."

He believed that, "the commissioners should be instructed to negotiate for some reasonable and moderate contribution toward the common defence of the empire, when reunited, but to take away all pretence for not terminating this unhappy difference, the contribution was not to be insisted on as a sine qua non of the treaty."

As these terms were the same which he was disposed to offer when he believed the British arms in America were invincible and before he knew of Burgoyne's misfortune, he now repeated them "to prevent the protracting of the war, the effusion of blood and the immoderate expense."

In conclusion, he said, "on the whole his concessions were from reason and propriety, not from necessity; that we were in condition to carry on the war much longer."—STATE HISTORIAN.

Dear Sir, Yesterday I received a Letter from General Gates of the 21st, covering Sundry resolutions of Congress, by which He is to take the Command here, and in the Northern department. General Starks to command at Albany; and its vicinity. At the desire of the Former, I give you this information. Its unnecessary for me to make any observations on this arrangement, as they will occur to you on the bare recital of it. General Gates may be expected here early in the next week, and perhaps Tomorrow. I am Dear Sir, Your affectionate Hbe. Servant

Alex'r McDougall.

Governor Clinton.

Poughkeepsie 29th April 1778.

Dear Sir, I now send you inclosed a Copy of a Letter from Genl. Conway with a Copy of one it inclosed from Genl. Schuyler to Genl. Tenbroeck. Genl. Conway's Letter was left at my House the 27th Instant but being from Home I did not receive it or yours of the 26th Instant before my Return last Night.

If it was possible to ruin us by unwise & injudicious Measures it must have er'e now been effected. I trust therefore it is not & that that good Providence which has hitherto provisioned will continue so to do in Spite of all our Folly. On this believe me I build my Greatest hopes.

I return you the Copy of the Permission granted by Genl. Robertson to Capt. Carson which was handed me by Major Fell with my Sentiments at the Foot of it. If you can Effect an Exchange of your Wench for the one ment'd in the Permission it will be very agreeable to me but it woud be wrong to permit the

Women mentioned in it & who live in the Neighbourhood of our Forts to go into N. York at present. I am &c.

Mrs. Ludlow whom I mentioned to you will wait-upon you on her Way down to N. York to-morrow & take your Orders.

General McDougall Notifies Governor Clinton of His Transfer to Washington's Army.

Fish Kill 29th April 1778.

Dear Sir, I received your favor of this date, and one from General Conway some days ago, of the Same import with that addressed to you. It is fortunate those regiments were not ordered down from above; but it is very Lamentable those corps are so weak; which must be occasioned by undue Furloughs. But the orders Transmitted to me, respecting the Disposition of the Troops will not warrant me to Spare any more for the Service above. I approve of your denial to the Flag, and shall not open a negotiation for my wench If I never see her. Mr. Silas Dean's brother from France in a French man of warr, passed thro' here two days ago with the Counter part of a Treaty with that Crown, very favourable to America. It is far exceeding my most Sanguine expectation. Time will not permit me to mention the particulars. It must be a knowledge of this Alliance that gave Birth to the two draughts of Bills Sent out from New York. As I am directed by the commander in chief to join the Grand Army, when General Gates arrives; I wish to communicate to you in Conversation, what I received in Confidence from Mr. Dean. I am Dear Sir, Your affectionate Humble

Alex'r McDougall.

Governor Clinton Gives Commissary Jacob Cuyler Pertinent Instructions as to Permits.

Poughkeepsie 30th Apl. 1778.

Sir, I am favoured with yours of the 13th Instant with the Pease for which I thank you.

On Receipt of your Former Letter I wrote Genl. Conway my Sentiments respecting the Removal of your Stores to Places of Safety at a Distance from the River, as I conceived it most proper that the Commanding Officer should take upon himself the Direction of that Business. Such Articles as the Embargo Law is silent about, not being included under General Terms, I conclude may safely be exported. As to Permits for the Transportation of Flour or Grain, General ones can't be granted, the particular Quantities must be specified in each Permit, which will make it so troublesome a Business, that without neglecting the more Important Duties of my Office I shall not be able to attend to it. It is necessary too in obtaining Permits to have the Concurrence

of two Members of the Legislature which renders the Duty still more difficult & Tedious. I am Sir Your Most Obed't Serv't

THE NEW CHAIN IN POSITION.

*Necessity of More Troops for the Defence of the Hudson—The
Contemplated Expedition Against New York City.*

Poughkeepsie May 1st 1778.

Sir, I am favoured with your Letter of the 10th Ultimo by which I have the Pleasure to learn that we may soon expect the Aid required from your State & Massachusetts Bay for the Defence of Hudson's River. The Chain which exceeds the old one in Point of Strength was drawn a Cross the River at West Point on the 30th of the last Month but the Works for its Defence at that Place, tho in good forwardness are far from being compleat and at present the want of a sufficient Strength prevents their being carried on with Vigour. Your Men will therefore be a most welcome reinforcement.

An Expedition ag't New York for the same Reasons mentioned in your Excellency's Letter was suggested by his Excellency Genl. Washington & the Practicability of it submitted to Gens. McDougall, Parsons & myself. Genl. Parsons who soon after our Consultation on that Subject went into Connecticut, will have acquainted your Excellency with the Result & the Obstacles which prevented the carrying such Expedition into immediate Execution. These will soon be removed. The Fortresses in the Highlands may soon be compleated or at least rendered defensible ag't a sudden Assault. Grass will supply the Want of Forrage & sufficient Magazine of Provisison I am perswaded can be collected And the Militia wish to engage in the Service. This being the Case I conceive that at the End of a few Weeks there will [not] be any Objections against a Measure, which if successful will be Attended with the most salutary Consequences, & if

not fully executed may be so conducted as At least to serve as a Diversion favourable to Genl. Washington. I expect Genl. Gates to take the Command here in a Day or two when I will take the Liberty of suggesting the matter to his consideration. I am with very great Respect Your Excellency's &c.

Poughkeepsie 1st May 1778.

Sir, I have rec'd your Letter of equal Date. By the Law for raising the 700 Men for the Defence of the State the Officers are to be taken from the Militia. If, therefore, Capt. Townsend is to Command the Company you must have him appointed a Capt. in your Regt. & the other Gentlemen a Lieut., otherwise it will be impossible to give them the Command tho' I wish to do it. I have convened the Council of Appointment to meet at this Place this Day to compleat the Military Appointments. I must, therefore, again call upon you for the proper Returns of your Regiment, agreeable to former Orders to enable us to perfect the Appointments therein. Governor Clinton Directs Colonel Cantine to Keep Out Scouting Parties for the Protection of the Ulster Frontier.

Poughkeepsie 1st May 1778.

Sir, From the Accounts contained in the inclosed Depositions transmitted to me by the Committee of Mammacotting & some Intelligence lately communicated by a Person from Passaking to the Bearer, Mr. Andries Bevier, the Frontier Inhabitants of your County are very apprehensive of Danger from the Torries & Indians which they are made to believe are collecting at Aquago, Shohawken & Koohtje. The different Accounts when compared together do not appear to me sufficient to evince the Truth of any formidable Design of the Indians against us. Small Parties of them however influenced by Deserters & the disaffected Inhabitants, for the Sake of Plunder may be tempted to commit Depredations on the Inhabitants. To prevent which and to collect the earliest Intelligence of any Movement among them, It is my Desire that you keep out Scouting Parties from your Regiment on the Western Frontiers and the whole of your Regiment in Constant Readiness to march on a Moment's Warning. Tho the Parties in my Opinion need not be large they should be under the Direction of a prudent Officer. The Numbers they ought to consist of & the Places they ought to occupy, I leave to be determined [by] yourself & your Field Officers with the advice of Judge Pawling. The Expences will be paid out of the Monies allowed by the Legislature for paying & subsisting the Militia when called into Service. I submit to you whether it would not be prudent to exempt two or three Persons best acquainted with the Woods &

the Indians from Militia Drafts & ordinary Duty upon their serving as Spies & Intelligencers. I am &c.

Palatine, May 1st 1778.

Honored Sir, Some considerable Time ago I was ordered by the Marquis de Lafayette, who then commanded the Northern Department, to draft eighty Men to be sent to Oneida for a Month to build a Fort to protect the Indians of that Village, and have since received your Excellency's Orders to raise two Companies of sixty Men each. And, as the Militia of this County have never been backward on any occasion to do Duty equal to other Counties, and in the Course of last Summer have suffered very much, not only in Action but also in their Crops, I cannot help representing to your Excellency the Hardship of raising more Men then mentioned in your orders, as your Excellency must be convinced that at this busy season of the Year, when every Person is engaged in sowing their Lands, we can ill spare so many Men, and that as there has not been as yet the least Appearance of any Danger from the Westward, that a sufficient Number of Men might be spared from Fort Schuyler for that Business. I have however in Obedience to your Excellency's Commands of the 6th Ultimo had a Meeting with the Field Officers of the respective Regiments of Militia, who have unanimously agreed to recommend the following Persons for Commissioned Officers in the two Companies of Rangers, viz.

John Bradbick Capt.

} Lieuts.

Sir, Yours of the 14th Instant with the inclosed order is duly come to hand, and am oblidge to your Excellency for the confidence you have of my zeal for my country; it's my earnest design to serve my country for the Libertys of Freedom. The two gentlemen who are appointed with me, sent me a plan of which I approved, in putting the Law in execution for forwarding the drafts of the Militia. Col. Wemple of the Regiment of militia of this district, spoke to me this day whether it could not be that

the drafts out of the said Regt. could not be delivered to Colo. Gansevoort's Regt. which is stationed at Fort Schuyler and is one of the five Regiments raised in our state. Your Excellency's letter, in answer to the subject will be very necessary with all convenient speed, that I may govern myself accordingly. The drafts that are to come out of the aforesaid Regt. will not compleat Col. Gansevoort's Regt. Should your Excellency think proper that Col. Gansevoort's Regt. be compleated out of the drafts of Albany County, I would be glad to know as I have the management of this County. I am with due respect Your Excellency's most Obed't Humble Servant

Henry Glen.

His Excellency George Clinton Esqr. Governor & Commander in Chief of State of New York, Poughkeepsie.

Poughkeepsie 2d May 1778.

Sir, I have received your Letter of the 26th Ultimo. By the Law for making Drafts from the Militia, for filling up the five Continental Battallions raised in this State, you will observe they are to rendezvous at Easttown so that it is not in my Power to comply with Colo. Wemple's Request by permitting those of his Regiment to Join Colo. Gaansevoort's as I could wish to do. I expect you will loose no Time in forwarding the Drafts to the Place assigned for their Rendezvous & am Your most Obed't Serv't

Geo. Clinton.

Robert R. Livingston Requests the Exemption of Six Mechanics from Military Duty.

Rhine Beck 2d May 1778.

Dear Sir, Mr. Cantine affords me an opportunity of writing to your Excellency to know whether you still retain your design to exempt Mechanics. As the draft is now over in the Manor & at this place to fill up the regiments, I must beg the favor of exemptions for three men for my mother & as many for me, as our work is at a stand for want of them. Indeed, I have been deterred from beginning till I should receive it.

John Strang talked to me this morning about the place of surrogate for the County of West Chester; as he is a deserving lad, & it is probable there will not be many candidates for this place I take the liberty to mention him to your Excellency.

I congratulate you upon the good news from France, which, tho' it has induced Lord North to alter his language, has not been sufficient to teach Tryon good policy, or good maners; the Idea that the present leaders in this controversy are the Authors of the mischiefs & misfortunes of the Country being inconsistent with both. The Tories among us, promise themselves much from this plan of administration & think that the people are so weary of war as to compel us to a peace—happily it works contrary to their expectation & will be under heaven one means of securing our independence. I am D^r Sir with the greatest esteem Your Excellency's Most Ob't Hum. Serv't

General McDougall Forwards Packets from Congress to Governor Clinton and Questions the Actions of Captain-Rosovelt.

Head Qurs. Fish Kill 2d May 1778.

Dear Sir, I send you by Bearer five Packets from Congress; some of them contain the Draughts of the Bills with remarks by Congress; copies of which have been inclosed to me. A Captain, John Rosovelt a Parade captain of Col. Lasher's Battalion, quited the service before the Enemy Landed on Long Island & remained in New York. He is now I am informed at Reed Hook; and I fear he may have been sent out by Governor Tryon for no good purpose; he came out some time ago via San ——. His character by his conversation is very suspicious. As he is a Citizen he falls more immediately under your cognisance. Certain it is that the rout, and the manner of his coming into this state is very exceptionable; for I do not learn that he has called on any officer civil or Military in this state. I am Dear Sir, Your Humble Servant

Colonel Robert Van Rensselaer Requests that a Part of His Regiment Remain to Protect the Claverack District from Tories.

Claverack 2d May 1778.

I received his Excellency's commands this day for one fourth of my Regiment to march to Fish Kills as a reinforcement to Genl. Gates's army. In consequence of which have ordered my

Officers to have their proportions ready for the March agreeable to your Orders.

I thought it prudent to acquaint your Excellency that yesterday, I received an Order from Genl. Ten Broeck for one fourth of my Regiment to march to the relief of our Friends at Schohary, who are to march to-morrow morning, a Copy of which is inclosed. Thinking he might not be apprised of it, and that this Neighbourhood is infested with a Number of Villains who plunder the Houses of the well affected inhabitants, in pursuit of whom my Regiment has been employed for several weeks. one eight part having been in rotation upon duty for five weeks past, by which they have been exceedingly Harrassed, if his Excellency upon these considerations should think proper, to exempt us from this Tour, it will be very agreeable to the Inhabitants of this part of the District, as they are very apprehensive of having their Houses pilfered, shall Order the men to march unless countermanded by his Excellency. I am his Excellency's most humble Serv't,

THE EXTREME NORTHERN FRONTIER.

*Governor Clinton Supplies Colonel John Williams with Sound
Military and Civil Information.*

Poughkeepsie 2d May 1778.

Sir, I have received your Letter of the 25th April & 'am happy to learn that the apprehensions of Danger from the Enemy in your Quarter was without Foundation & that the Militia mani-

fested so good a Spirit when they had Reason to believe the Enemy were advancing. I hope you will be able to raise the Company in Charlotte for the Defence of your Frontiers without the aid of any other Regiment. It was from the Encouragement you gave me in a former Letter, I was induced to confine the raising of that Company to your County, and is now too late to make any alteration without disconcerting the whole arrangement made for raising the Men directed to be called into active Service from this State. If however the Gentlemen you mention can procure a Number of Vulluntiers out of any other Regiment there can be no Objection to his so doing & I shall have none, to his having a Command in Capt. Barnes Company equal to his present in the Militia Regt. to which he belongs. I flatter myself that Capt. Barnes Company when completed & such Continental Troops as may be stationed in your Quarter will give Security to the Inhabitants & enable them to sow & reap in Peace. I inclose you one of the Militia Laws by which you will observe it is your Duty to order out all or any Part of your Regiment on the approach of the Enemy without waiting for Orders, reporting the same immediately to the Commander in Chief, the Militia who are able are to equip & provide themselves with arms & ammunition.

I am sorry to hear that your Civil Magistrates have not yet quallified. The Reasons to which you impute it, I mentioned to the Council of Appointment at their first meeting after you left this Place, but as they did not see fit to make any alteration in the appointments they had made, the Commission was of Course forwarded to your County in the Order it first stood. The Reasons you offer for declining to Quallify & Act as a Civil Magistrate, however good they may be, will by no means

Justify a Resignation of your Military Command when you cant pretend any Injury has been offered you—might it not be well to consider this before you determine. I will again mention your Case to the Council. If I can procure a Copy of the act for raising the 700 Men for the Defence of the State it shall be forwarded to you. I am your most Obed't Serv't

[G. C.]

Since Writing the above I have thought it adviseable to issue the inclosed Orders which will enable you to fill Capt. Barnes Company. I have not yet been able to procure a Copy of the act for raising the State Regiment.

Albany 3d May 1778.

Sir, As soon as I Learn'd that no enemy had Landed at Tyconderoga I sent Back Greaton's and Alden's Regiments to Albany. I proceeded to fort Edward and having Learn'd that several pieces of Cannon fitt for service and mostly eighteen pounders Lay Between Skeens Borough and fort Anne and Could with some industry and intelligence be sav'd and Brought to this place, I stationn'd sixty men of Warner's Regiment at fort Edward in order to help the Batteau Men and other artificers in carrying of and conveying these Cannons to fort Anne from whence Said Cannon can be transported by water to this town As the militia at Otter Creek were to be in service only till the second Day of this month, I got that post occupy'd by the re-

mainder of Warner's Regiment amounting to about forty or fifty men.

The two Regiments now in this town will goe Down to West Point as soon as order'd By General Gates.

Ebenezer Clark Accuses Colonel Williams of Blocking the Entire Civil Machinery of Charlotte County.

New Perth, County Charlotte May 4th 1778.

Sir, By this time I hope Your Excellency has received my last Confus'd Serape about the Gentlemen appointed to the magistracy of this County refusing their Commissions, but receiving no answer must beg leave to Trouble You with this line.

Col. Williams refusing to accept on account of Mr. Webster's Preference, has Prevented the whole Machine of Government from motion in this County. Altho I have heard no person Object to Mr. Webster's appointment Except Col. Williams.

Mr. Webster would not Scruple accepting if a Peremptory order of Your Excellency would Issue, so as to Exculpate him from the groundless reflection of Soliciting an appointment to the office of Second Judge in Preference to Col. Williams, which his being a member of the Council of Appointment gave him an opertunity to do, and his Rival Suposes him to have Improved.

I Received a letter from Mr. Brunson, the fourth Judge, Containing his Refusal of the office as he Considers himself a Subject of a different State.

I am afraid that by reason of Some neglects, & the alarms we have had about the Time our Elections Should have been held—that we will be disapointed of a Representation in the Legislature the ensuing Year. Mean time with Esteem & regard I am Sir Your most obt. & very Hum'ble Serv't

The Humble Petition address or Remonstrance of John Cunningham Most Humbly Sheweth,

That your Petitioner is a true subject of the United States, being in the service thereof from the Beginning of this Present War and Suffered much thereby Both by sea & land.

And may it please Your Excellency, the Prisoner Cunningham has been warned two Days Before trial to Employ a loyer, he being Closly Confind among a num'r of people of an Opposite Principle, & no man admitted to visit him, being also a stranger & an Illeterate man & not able to Speake in his own deffence, tho his defence Ever so just, and also, deprived of the benefit of a loyer to plead his Case, are thereby Condemn'd to die.

The Judge of the Court told the Prisoner yt he might Petition Your Excellency for a Reprief till the Next Assizes.

The Prisoner under the afforsaid difficulty & not thereby able to Employ a Suitable Person to write his Petition, is Compelled by fatal Necessity to take this method to Inform your Excellency, that he has also Petitioned the judge for a Copy of the Proceedings of Court, but has not obtained it.

Will your Excellency therefore according to your well known Wisdom & Humanity Grant his Petition, the prisoner pleads Entirely Innocent, and by all accounts is Innocent before the allseeing eye of God in whose hands are all human Events. The God of peace will be your Excellencies Reward Which as in duty bound shall ever be the prayer of Your Excellencies Humble Petitioner.

Captain Van Keuren's Company Petitions for the Appointment of David Monell, Instead of William Watson, as an Officer in That Company.

May it Please your Excellency, We your Excellency's most faithful Constituents intreat your Attention to this our humble petetion; that in consequence of an order from Maj'r New-Kirk to return persons for two vacancies which remained unfilled in this Company. In Compliance with said orders, two persons were returned, one of which, we find have been left out; and William Watson entered. The Consequencies of it we dread, as we must represent him to your Excellency as a troublesome man and in the highest degree unworthy an appointment; Knowing to what violent resentment and incurable disorder it will throw this company into: We are thus called upon to address your Excellency and pray that you may interpose in our behalf. We would humbly beg leave to recommend to your Excellency's notice

David Monnell, as a proper person and worthy the appointment to which Watson is returned. We shall earnestly deplore an Event that has a tendency contrary to this our humble petition.

DISSENSIONS IN THE HAMPSHIRE GRANTS.

Colonel John Williams Requests Governor Clinton to Circulate His Proclamation.

White Creek May 4th 1778.

Hon'd Sir, I have been on the New Hampshire Grants these four days Past and am exceedingly Sorry to find that notwithstanding my Utmost Endeavour your Late Proclimation & Overtures have been Secreeted or kept from the Inhabitants in General in such manner as they have not been made acquainted with them, by which they are now become very uneasy, and I believe if a little pains were taken they may be easily brought to their

allegiance to this State. I wrote to you some time since Respecting this matter, Requesting you would Send me some of the Proclamations and must again remind you of it. You Inform'd you [me] that you would lay the matter before the Legislature in order to ascertain the manner those Inhabitants were to apply & to whom they might send there names. I can easily conceive that the Inhabitants are getting into disentions; and make no Doubt if they knew how to proceed in Sending their names in a Secreet manner, but one half would do it in a few weeks, was the Places affixed Contigious to them—numbers hath lately applied to me for that Purpose as you will See by some who requested me to Send the Inclosed to you. I was with some of their Pretended Council a few days Since; who Inform'd me that if the Overture meant, that where a Township having been granted under New Hampshire, and Possession taken in Consequence thereof, before granted under New York should be Confirm'd To the Inhabitants that this State would gain the Point. I inform'd them that I was of the Opinion If the Overtures was not altogether what they wanted, they ought to Inform the Legislature of it and I believe you may expect an answer Soon.

Two Diserters came in Last Friday night into Dorset, have been Sixteen days from St. Johns, Informs us that the Enemy are moving the Cannon over the Carrying place towards Monntreall, That there was a general talk of the French being in the mouth of the River St. Lawrence. That Governor Charlton had ordered a number of the Canadians from every Parish to take up arms, and on their Refusal Sent the German Troops to Compell them, on which an Engagement Ensued and fifty Germans Fell. That a Great Sickness had attended them and Scearce any Savages was with them.

There is no Enemy now Nearer than about Twelve Miles this Side Point Lefair. The Rangers are Out on the Frontiers, but they Recruit Very Slowly. However Since I received your letter of the 24th Ult. the Inhabitants Seems to be well pleased, and are all hands Getting in their Crops.

Very Unfortunate no advertizments hath appeared for a new Election nor did I see the Act till too late, and I believe that only one District Voted on the day appointed, where the fault lies I know not. The Commissioners for Detecting Conspiracies &c. goes on well and I hope we shall be at peace again (in the County) soon. I am with the greatest Respect & Esteem Your most Obed't & most Hum'le Serv.

TROUBLES OF THE TWELFTH ALBANY.

Crops Lost by the Burgoyne Campaign—Families Threatened by Sarages—They Ask to Be Exempt from the Draft.

To his Excellency George Clinton Esquire Governor of the State of New York, General of all the militia and Admiral of the navy of the Same.

The Petition of the field Officers and Captains of the 12th Regt. of Militia of the County of Albany, in behalf of themselves and the other Officers, Non Commissioned Officers, and privates of Said Regiment

Humbly Sheweth.

That last Summer when the enemy under General Burgoyne were coming down the North River, the most of your Petitioners

were obliged to move from their Habitations at Such Short notice, that they lost the greatest part of their Crops, and a great part of their Stock and other Effects; And it was So late in the Season before they dared return that very few of them were able to Sow any Winter grain; which makes it the more immediately necessary for them to exert their utmost endeavours to procure Summer grain for the Support of themselves and Familys; And as Some of them are immediately exposed to the inroads of the Savages Shoud they be again let loose on the frontier Inhabitants; they expect (Shoud the war continue to be frequently alarmed, and taken from their business, if nothing worse Shoud happen) and by that means be dissenabled, to find their familys even the necessarys of life. That your Petitioners understand by an act of the legislature of this State passed the 1st of April last, that there is a draft of the 15th man orderd from certain Regiments of Militia, to fill up the five Continental Battalions raised under the direction of this State. That your petitioners further understand by said Act, that your Excellency has it in your power to Dispense with the Same So far as it concerns Such Regiments as have since the 1st of January last furnished, or have been or Shall be orderd to furnish men for any Service, or to Lessen the number of drafts to be furnished by Said Regiments, as to you may Seem meet.

That your Petitioners have furnished above a fifteenth man Since the Said 1st of January for a four months Service which wants a considerable time yet of being expired.

This Consideration added to our Distressed circumstances we hope will induce your Excellency to favour us in the present draft; either by discharging us altogether therefrom, or by lessening the number of men we are to furnish; or if neither of these can

consistently be done, by allowing us to raise a few men for the Defence of our own frontiers in lieu of said draft. And your Petitioners as in duty bound will pray.

Genl. Orders.

The Company ordered to be raised for the defence of this State to continue in Service for the space of one Year to be computed from the 1st Day of Jan'y last & to be commanded by Jno. Barnes is to consist of eighty men includ'g noncommissioned officers instead of seventy as heretofore ordered.

The Regt. of militia in the County of Albany commanded by Colo. McCrea & the two Companies of the 12th Albany Regt. of Militia in Balls-Town are to furnish quotas of men for that Company according to the strength of the diff't Corps from which they are to be raised, to be proportioned by the command'g Officers of the same who are to meet for the purpose; in consideration whereof the s'd Regt. & Companies shall be exempted from furnishing Drafts for fill'g up the 5 cont'l Battalions raised in this State agreable to the act of the Legislature passed last Session for that purpose.

One of the Subaltern Officers for Capt. Barnes' Company to be taken from Colo. McCrea's Regt. or from the two Companies of Balls-Town & provided the greater proportion of the men be raised from that Regt. & the s'd two Companies then they are to give both the Subaltern Officers.

The Company when raised is to be divided into two Parts; the one under the immediate command of Capt. Barns to consist of 50 men, is to be so disposed of as to give protection to the Inhabitants ag't the Enemy that may penetrate by the way of Lake George or Skeensborough—the other under the command of a Subaltern, so as to cover the Western & Northern Frontiers of Saratoga & Ballstown, or to be employed in such other Services as his Excell'cy the Gov'r shall think proper.

Governor Clinton Consents to Exempt Mechanics from the Draft Conditionally.

The Drafts for filling up the Continental Battallions being by this Time compleated, I mean to grant Exemptions from ordinary Militia Drafts such as the Person administring the Govern't of his own authority may make for a Number of Mechanicks who will agree to work at Reasonable Wages for such of the Inhabitants as were burnt out by the Enemy last fall & are rebuilding on proper Application being made to me for the Parpose. Governor Clinton Decides that Drafted Men Shall Be Assigned to Any Post Within the State. —

Poughkeepsie 4th May 1778.

Dear Sir, I have received your Letter of the 2d Instant together with a Petition from Capt. Gardner's Company to be exempted from furnishing their Quota of Men for Capt. Bell's Company of Colo. Graham's Regiment or rather that they may be stationed in that Neighbourhood as a Guard on their own Shore. In answer to which I can only say that it is my Intention, that the Men raised in your Regiment shall be employed as a Guard to the South End of the County of Orange unless the Service of the State may absolutely require them elsewhere and the Situation of affairs in your County such as will admit of it; & It is my design to station them from Time to Time where they will afford the Inhabitants of your Regiment in general most safety & prevent the Enemy obtaining Supplies. By the Law authorizing the raising of this Regiment it is expressly declared to be for the Defence of the State. You will readily perceive, therefore, the Impropriety of my Entering into any Promise or Engagement to station any Part of it at a particular Place—which you will please to mention & explain to the Petitioners. I am sensible they have been greatly harrassed & distressed by the Enemy but so have their Neighbours to the Southward of them, & the People of West Chester, Charlotte & Tryon Counties, yet they have furnished an equal Proportion of Men for the present Service without stipulating as to the Place at which they should be stationed. I have not a Quire of Paper in the World so that I cannot order you a supply nor can I direct you where to procure any. I am your most

Dear Sir, The Bearer Mr. Hunt, Adjutant of Colo. Putnam and various Committees of different Districts in this State & Connecticut. I have opened one of them, which was directed to the Committee & find inclosed the late Conciliatory Bills of the British Parliament & two late York Papers printed by Robertson to serve the same Wicked Purpose of deceiving the People. The several Bundles directed to this State I have locked up. The others will be delivered to you by the Bearer to be disposed of as you shall Judge proper. Is there not a degree of Insolence & Impropriety in Mr. Tryon's Conduct in this attempting to circulate through the Country under the Sacred Sanction of a Flagg Printed hand Bills evidently calculated to seduce & Intimidate the Subjects of the United States from their Duty & Allegiance? Sir, Your Favor of the 3rd Instant came to Hand in my absence. Major Platt informs me he has sent the men you wrote for. But I beg the Corps to be raised for guarding the Prisoners

may be expedited, as Colonel Dubois's Regiment must be collected to compleat a work at Kings Ferry to secure it in all ordinary Cases. For in its present State, a single Galley cuts off the Communication and the certain use of the Ferry. It is vain for me to ask for the assistance of the militia for some Time, altho the works advance but slowly; as I find the Draughting and new arranging them prevents it. But the works will require their assistance as soon as it can be obtained. The two inclosed Papers from Mr. Weisner will inform you of Impediments which he finds prevent their coming out. Cannot some of them be removed? If my memory serves me the Resolutions of Congress subjects the Iron ordnance above intended for the Defence of the River to your orders. I have therefore to request you to back the order for sending them down in the Inclos'd Letter to Major Stephens, seal it and send it by the Express. The small pox is still kept in this Town; I wish to have the Law that puts the Inoculation under Restrictions. If I take any violent measures to prevent it, a Clamour will be raised. General Gates is not arrived. I am Sir Your humble Servant

Alex'r McDougall.

His Excellency Governor Clinton.

May 6th 1778.

Dear general, Since I Saw you I have had an opportunity of Speaking to Coll. Hathorne who tels me that our Late malitia Law is so Constructed as to Render it Necessary for the Exemts of this State to form them Selves into Companies and Batalions and that within a Certain number of weeks, which time will very Soon Expire I am all most Shure that nothing will Be Done in Consequence of that part of the Law till the governor gives particular order for that purpose. I therefore Beg the favour of

you to mention this Sircumstance to his Excellency who I am Shure will doe Every thing in his power to promote the general good.

Youl Be good Enough to Excuse my writing on this small piece of paper as it is all the paper that I have.

I am Sir your Humble Servant

Henry Wisner.

P. S. I am informed Since I left West Point that the Exemts amount to full one half of the whole number, two thirds of which is fit for actual Servis in the five Batallions of malitia Commanded By Colonels Woodhull, Hathorn, Tusteen, McClaghry and Hardenbrugh, and I Expect it to Be the Case with the other Batallions of this State that a great part of the men, I Believe more than one third part Claim an Exemption from military Duty: Some from their having formerly worn Commisions, Some from their having Been voted into offises through not haveing had Commisions, and a Considerable number are Exemted By the Different taners, who under pertence of their taning some hides for the use of the publick Say, that they have orders from the Commasary of hides to Exemt from milatary Duty all Such persons as they may need for Carreying on their Buisness, many others are Exemted But for what Reasons I am not able to Say.

Richard Thomas Appeals for an Exchange to Governor Clinton.

Provoost, N: York May 6th 1778.

May it Please Your Excellency, As Necessity is the only Appology I can make, I hope your Excellency will the more

Readily Pardon me for intruding upon you. We have this Day had a visit from Elias Boudenot, Esqr., Commissary General of Prisoners for the United States of America, who I am Informed has nothing to do with those who are called State Prisoners, so that many of us are excluded from the Benefit of an Exchange that is now likely to take place, so that we have now no hope but from the Governour's Councils and Assembly of the Respective States to which we belong, whose Zeal and humanity we firmly confide, not doubting but what they will use every Effort, to procure an Exchange for such as have, and still are True and Loyal Subjects of the States.

I Served as a Clerk to Colo. Henry B: Livingston, of the Fourth New York Regiment, and as my Time of Service was expired, I Returned to Long Island where I formerly lived, to take some care of my private affairs, before I engaged in the Publick service for an unlimitted Time, but was unfortunately Captivated and have been close Confined in the Provoost of this City ever since the Twenty Eighth of May, One Thousand, Seven Hundred, and Seventy Seven, and if I could be exchanged, I should (as I was before Determined) enter into the service of the United States either in the Army or Navy, and doubt not but there are many more of the same mind. I Desire your Excellency would Remember me to Colonel Will'm Floyd, Ezra Lhomedieu Esqr., and Will'm Smith, Esqr., each of which Gentlemen belong either to the Council, Assembly or Senate of the State of N: York and who are well acquainted not only with mine but with the Character of several Prisoners belonging to the State of N: York now in confinement here.

I therefore Humbly beseech Your Excellency (not only for myself but for several others,) to procure an Exchange for us, by

Proposing for that purpose What Your Excellency's Wisdom shall Dictate.

I Am with the most Perfect Respect and Esteem Your Excellency's and the United States Most Obedient Subject & Servant,

Richard Thomas.

President Laurens Sends Official and Unofficial Information.

York Town 8th May 1778.

Sir, My last was the 26th Ulto. by Jones since which I have received none of Your Excellency's favors admitting the Secretary's returns to be right, but I feel a kind of remembrance that I have, which shall be further examined into.

The present will Cover an Act of Congress of the 1st Inst. recommending an exemption from Militia Duty of such persons as shall be employed in manufacturing Military Stores &c. for Public service.

An Act of the 6th & several printed Copies in the Pennsylvania Gazette publishing such parts of the Treaties of Paris of the 6th Febr'y. as are necessary for Publick information & the government of conduct in particular Cases.

I congratulate with Your Excellency on this great event which may by Wisdom on the part of America be improved to the most happy purposes.

A Gentleman just from Philadelphia reports, there were great appearances in that City of a general embarkation of the Enemy—the foreigners were to return to Europe—that he read, in an English News Paper Lord Geo. Germaine's Speech in Parliament advising the House to confirm the Independence of these States & to form an Alliance against France.

Your Excellency will receive this only as Report.

Congress have Resolved upon an Address which is now in Press which will discover no present disposition in that Body to such a confederacy. I have the honor to be With perfect Esteem & Regard Sir Your Excellency's Obedient humble serv't

Governor Clinton Discusses the Draft and Militia Problem with Washington.

Poukeepsie May 8th 1778.

Dear Sir, I have rec'd your Excellency's Letters of the 24th & 30th* of April last. In consequence of the first I have given

* Neither letter has been found.

Colo. Cooper (who lives in the neighborhood of Capt. Lieut. Crane) directions to use every means in his Power to recover the Box alluded to with its Contents.

I shall be happy if my apprehensions of Danger from the Enemy on the Northern & Western Frontiers of this State should prove groundless, so that the whole of the continent'l Troops may be employed in this Quarter for this purpose I have made the best disposition of the militia there in my Power. The Drafts for filling up the 5 Cont'l Battalions of this State are nearly compleated & some of them already on their march for East Town. Many of them (could they have been permitted to choose their Regts. immediately on being drafted) would have enlisted to serve during the War; which would have been very much to the public advantage. Some few, who were very solicitous upon the Occasion have had my consent so to do.

Colo. Malcom waited upon me two Days since to know whether something could not be donè in this State towards filling up his Regt. The Legislature conceiving themselves in honor bound to use every Exertion in their Power towards compleat'g their five Battalions, even which from the weak condition of the State might be difficult to accomplish, could not think it expedient to give the same Encouragement to any other Regiment untill those were compleated. I am nevertheless persuaded that if Colo. Malcom's Regt. was in this Departm't, from the Connection & Influence of his officers, he would be able to get a number of Recruits from the Militia who are frequently called into Service & I have not a Doubt but that Colo. Cortland's Regt. (had it continued here) might have been compleated in that way; as I find the People of Westchester County much disposed to join his Regt: Every service which I can render Colo. Malcom tow'ds recruit'g his

Regt. will be most chearfully granted to him. I am with great
Respect & Esteem Your Excellency's most obed't Serv't

That this Deponent refused to deliver it and asked them by what authority they proceeded. That the said George Countryman shewed him written orders of which the Goaler took a Copy which original orders the Deponent read & they were in the words & Figures following for to the best of his Remembrance the said Copy was rightly taken:

That this Deponent did accordingly appear on the Thursday afd before the said pretended Committee of which one William Wills called himself Chairman. That they asked him how he came to issue a writ against Melchert Van Deursen he said the Law was open & he had a right to do it, to which Wills replied that the Law was not open. They then proceeded to try the Cause between him & the s'd Van Deursen, that he objected to it, that they nevertheless proceeded, cast the Dep't and ordered him to pay the Costs which he refused. Congress Issues a Proclamation Requiring Our Armed Vessels to Respect the Rights of Neutrals.

A PROCLAMATION.

Whereas Congress have received information and complaints, "That violences have been done by American armed vessels to neutral nations, in seizing ships belonging to their subjects and under their colours, and in making captures of those of the enemy whilst under the protection of neutral coasts, contrary to the usage and custom of Nations." To the end that such unjustifiable and piratical acts, which reflect dishonour upon the national character of these States, may be in future effectually prevented, the said Congress hath thought proper to direct, enjoin and command, and they do hereby direct, enjoin and command, all Captains, Commanders and other Officers and Seamen belonging to any American armed vessels, to govern themselves strictly in all things, agreeably to the tenor of their Commissions, and the Instructions and Resolutions of Congress; particularly that they pay a sacred regard to the rights of neutral powers, and the usage and custom of civilized nations, and on no pretence

whatever presume to take or seize any ships or vessels belonging to the subjects of princes or powers in alliance with these United States, except they are employed in carrying contraband goods, or soldiers to our enemies; and in such case that they conform to the Stipulations contained in Treaties subsisting between such princes or powers and these States; and that they do not capture, seize or plunder any ships or vessels of our enemies being under the protection of neutral coasts, nations or princes, under the penalty of being condignly punished therefor, and also of being bound to make satisfaction for all matters of damage, and the interest thereof by reparation, under the pain and obligation of their persons and goods. And further; The said Congress doth hereby Resolve and Declare, That persons wilfully offending in any of the foregoing instances, if taken by any foreign powers in consequence thereof, shall not be considered as having a right to claim protection from these States, but shall suffer such punishment as by the usage and custom of nations may be inflicted upon such offenders.

Governor Clinton Unable to See His Way Clear to Appoint Albert Pawling a Lieutenant Colonel.

D'r Sir, Believe me, it is not from Negligence nor for want of a proper Sense of the Honor done me by your offer, that I have not long before this given a final Answer. I dare say you well know

the deserved Attachment I have for the Officers of this Corps, and will affirm with Reluctance should I leave them, did not your generous Offer point out future Advantage to me. We have been for months past in hourly Expectation of a new Arrangement. I knew not how far it might affect my Determination or the propriety of my leaving the Line. Under these Circumstances I was unwillingly obliged to defer writing you from Day to Day in Hopes of being better able to decide. The renewed Request of my Father in his Letter a few days ago received and the uncertainty of something decisive from the Committee of Arrangement determin'd me to wave the matter no longer.

I have consulted the Officers of the Regt., and am happy in their unanimous Approbation of my Accepting your polite Offer. The General whose Approbation I have likewise consulted has consented to it. If the Birth is still vacant I accept it and will repair to the Duty the moment Circumstances will admit. At this Juncture Colonel Burr has obtained Leave of Absence for 6 Weeks, and the General has particularly requested me not to leave Camp till Burr returns. I cannot refuse him. If it meets your Approbation, I should be happy to have it from under your own Hand by the first Opportunity.

Dear Albert, I was favoured with your Letter of the 10th April, 11 Days ago. I am sorry that it is not in my Power to give a satisfactory answer to your Request. The Berth of Lient. Colo. in the Regt. raised for the Defence of the State I have kept vacant,

but a Doubt now arises on the Law by which that Regiment is raised whether any other than the Officers of the Militia can be employed in it, tho at the Time the Law was before the Legislature I mentioned to several of the Members my Intentions to have others appointed, Conceiving it woud promote the public Service and actually had Major Fell appointed accordingly before the Law passed so to do. I summoned the Council of Appointment to meet as of the first of this Month to compleat the Militia Appointments, & intended to have had their Sentiments on this Subject & the Appointm't made in your Favour if it coud consistently be done; but owing to Genl. Scott's Indisposition, (or Laziness), he did not attend & a Council without him coud not be formed. I have repeated my Summons for the first of next Month & till then I cannot give you a decisive answer. I can only add shoud you incline to quit the Service you are in at present (which however I cant take upon me to advise) nothing in my Power to serve you shall be withheld, and I doubt not but Opportunities may offer. I am with great Esteem Yours sincerely

[G. C.]

P. S. I was at your Father's about 10 Days ago the Family were all well. On my Return I spent an Evening with your Friends near Hurley who were also in perfect Health. Mrs. Clinton &c. desire to be remembered to you.

COLONEL ALLISON'S WIFE REQUESTS A FLAG.

And Governor Clinton Believes Greater Restrictions Should Be Placed upon This Privilege.

Poughkeepsie 10th May 1778.

Dear Brother, I am teized with the repeated applications of Mrs. Allisson for leave to go to New York on a Vissit to her Husband. She says it is his Request, and that he has the assurances of the Commanding Officer at New York that she shall have Permission to return immediately. I am loath to refuse Mrs. Allison considering her Husband's Situation and yet I fear this Communication with New York will prove Injurious in the End. I have wrote to Genl. McDougal on this particular Occassion, and if he consents to Indulge Mrs. Allison Desired him to signify his Approbation thereof to you with this Letter, & you will thereupon grant her a Flagg for the Purpose. I am perswaded there are many who sollicit to go to New York with no other view than that of getting little Articles from thence, preventing therefore their bringing any Thing out will be taking away the Inducement, and for this End you will lay every Person who may be permitted to go in to the City under the most absolute Restrictions not to bring the least Article out, & give the Guards at the Out Post West Side of the River, orders to prevent it accordingly, by searching them on their Return.

James Mathews applied to me for leave to go with Mrs. Allison his Business is to get some Title Papers as he says from his Brother David. I think they may be sent out by Mrs. Allison & on your giving her Permission to bring them, they will come safe & his Purpose (if that is all) fully answered. I however submit to Genl. McDougal the Propriety of giving him any further Indulgence. Yours affectionately,

G. Clinton.

P. S. Pray send me Mr. Paterson's Parole & the papers respecting him & the Letter of one James Doyle to one _____* that we took from Miller last Fall at New Windsor.

AGAIN THE FLAG QUESTION.

Governor Clinton Distrustful of Women Who Apply for Them and in a Postscript Displays Considerable Humility.

Poughkeepsie 10th May 1778.

D'r Sir, By the inclosed Letter to my Brother you will learn the Nature of my present Business. If you think proper to Indulgence Mrs. Allison with Liberty to vissent her Husband, Colo. Allisson, who was taken at Fort Montgomery & is now a Prisoner on Long Island, you will please to signify it to my Brother with my Letter to him, which I begg you to forward before Thursday next, as I appointed Mrs. Allison to apply to him for an answer on that Day.

Mrs. Gardner passt through this to her Father's yesterday. I did not pretend to stop her, as she had your Pass but I am of Oppinion that it woud have been best at least to have changed her Drivers at the Out Post; shoud have done it here coud I have procured others whom I coud trust. I wish this might be a general Rule. It is what the Enemy [constantly do &] † the Business of the Flagg sent to II Qurs. before they are suffered to advance.

Mrs. Ludlow's Waggons also Returned yesterday with Mrs. Shaw & another Lady in them. They just stopt at my Door pretended to be much Fatigued & went on. I was out & did not see

them. Pray did they call on you. I fear these Women coming out will do us misschief. They are most probably charged with Papers & Messages to distribute in the Country, & have artful Fellows with them as Drivers, one of whom has already been detected (I am informed) in Close Conversation with some disaffected Persons. I have sent for him.

You may rest assured not a Moment's Time shall be losst in compleating the Block Houses. It was a heavy Job, but I hope this Week will finish it. The Moment I can have the Prisoners removed from this Place I will order the Guard now here to Join the Regt., to which it belongs. I was in hopes before this to have waited on you but Business woud not permit. Cant you call & see me. I woud be happy to see you here.

Some Time since I rec'd a Letter from Mr. Mason recommending Mr. E. Mathew Earnest, Peter Sim & John Brown for some Employment in the State as they are Refugees, honest Men & much distressed by the Times. I woud wish to serve them but it is not in my Power. It is not [improbable] perhaps some little Berth in the Staff of the army may offer for which they are fit.

I am D^r Sir Yours Sincerely

G. C.

Since writing the above I re'd yours of this Date. I am happy to learn that by a Coincidence of Sentiments that Part of it respecting Flags is already answered. I am sorry to learn that you are not pleased with the Construction of the Batteries at W. Point. If I can possibly break out I will wait upon you in a Day or two at farthest. It is not common for large Bodies to use Individuals well. Genl. Gates is a great Man. Little People like you & me must submit to Insults. I have examined the Evidence ag't Ensign Adamson of the N. think him clear of Horse Stealing altogether. But as he is exchanged if you think proper I am ready to deliver him to the Com'y of Prisoners.

Dear Sir, The night before last Mrs. Gardner with her wench, Mrs. McFaran and daughter, Mrs. Shaw and maid came up to my Quarters with Flags. Mrs. Gardner and Mrs. Shaw I suppose have waited on you. As they arrived here before I had any previous advice of it, I was at a loss what to do with them. I have however wrote Colonels Graham and Hammon not to suffer any Flags for the future to come here under any pretence whatsoever; but to send up their business, and return the Flag.

I requested Mr. Benson to procure me five Lottery Tickets if you had any unsold. If he has got them, tell him I wish to know the Numbers. I am far from being pleased with Mr. Korsuaso's [Kosciuszko] constructing the Batteries, and Carrying on the works, and I fear they will not answer the expectation of the Country. I wish therefore to have an Hours conversation with you on this Subject, as soon as you can spare one. You know my Condition here or I should wait of you. Colonel Hay Asks for a Copy of the Militia Law and for the Exemption of Mr. Campbell from Military Duty.

Haverstraw May 12th 1778.

Dear Sir, Agreeable to your Directions I have enquired concerning the Orange Town Companies and find that it would be best to divide the Company commanded by Lt. Sickles between Captains Blauvelt and Bell.

Capt. Aary Smith desires to resign his Commission. I for my own Part have accepted of his Resignation with pleasure and have promised him to request that you would do the same; the Field Officers have meet and have appointed Dow Tallman in his Steed; if you will be so obliging as to accept of Smith's Resignation, our appointment is liked by the Officers of that Company. As I could not procure the Act for raising the Company I am ordered by you, I have ordered the same number of militia out (under the Officers that are to command the Company when raised) to relieve one another every week untill I can get the Act; if it is in print, I beg you will be so kind as to send two or three Copies of it down by the Bearer Mr. Aary Campbell, who intends to wait on your Excellency to procure an Exemption from turning out with the militia, as he has got a poor distressed Brother, who if he leaves will dye a miserable death, and he is such an object that he cannot hire any one that will attend him.

I think it will be an Act of Charity to exempt him. I am D^r

Orange Town May ye 13th 1778.

Sir, Some Days since some of my Neighbours residing in the State of New Jersey have been at Horse-Neck in Connecticut, and made a Contract for salt; they were to pay for it in wheat; accordingly the wheat was afterwards brought as far as Hudson's River, whereupon they were informed that the Legislature of this State had passed an Act prohibiting the transportation of wheat thro or out of this State without a permit from ye Governor whereupon they have Stored their wheat.

If such an Act has Actually passed, I beg that your Excellency will be pleased to Grant a permit to Capt. Abr. Haring to Transport the said wheat, (provided it can be done Consistent with the Directions of said Act) the Quantity of salt they want is about 50 Bushels and they are to give 10 Bushels of wheat for 3 of salt; about 20 Families are Concerned, and I can answer for their attachment to the Cause of Liberty. TRYON'S MACHINATIONS FAIL.

Governor Clinton Declares to President Laurens that Sir Henry Clinton's Objective is the Hudson River.

Poukeepsie May 13th 1778.

Sir, The Last I did myself the honor of addressing to your Excellency was of the 7th Ultō., since which I have been honored with your Letters of the 20th & 26th of that month & of the 8th Inst. with their several Enclosures. Mr. Tryon tho' he did not think proper [to] Trouble me w'th any of his addresses on the occasion he had endeavored to circulate the Draughts of Bills mentioned in your Excellency's first Letter by open'g a Correspondence with the Committees & command'g Officers of the Militia of the diff't Districts of this State, but being under the Necessity of conveying his Dispatches under the Sanction of a Flag they fell into the hands of the commanding Officer of the Department & his attempts in that way were defeated. He nevertheless so far succeeded in his Designs by some more secret means as to occasion a pretty general Report to prevail in the Country of something in agitation more favorable to his views than if the whole had been published. This induced me to intrust Copies of the Bills, accompanied with Lord North's Speech, with several Gentlemen in diff't Parts of the State, to be read to the People with proper Coments; and I am happy in being able to assure your Excellency that even before we were favored with the Sense of Congress upon the Subject the People in general instead of being divided by the insidious arts of our Enemy or inclined to Listen to any Treaty with Great Britain, were more united & animated in support of their Independency. I

have made it my Business to distribute Copies of the Act of Congress of the 23d Ulto. enclosed in your Excellency's Letter of the 26th recommend'g to the several States to enact Laws or Issue Proclamations for granting Pardons to Persons therein described; but as the Executive authority of this State is not invested with Power to issue Proclamations for the purpose & the Legislature after a long Session of four months have adjourned to the 2d Tuesday of June next, & before which time it will be impracticable, if not impossible, to convene them; the Intentions of Congress, therefore, in that particular, cannot take Place in this State unless the Day of Grace may be prolonged. Be assured, Sir, that a due attention will be paid to every other of the matters recommended by Congress.

If the Report of an Embarkation of the Enemy from Philadelphia should prove true; I am apprehensive it will only be to change the Scene of action. The favorite Plan of Sir Henry Clinton, for subjugat'g America, is to possess Hudson's River & thereby destroy the communication between the Eastern & Southern States & I should not be surprised to hear that their whole force was collected & employed for that purpose.

I do myself the honor of enclosing to your Excellency such of the Acts of the Legislature of this State as were passed in consequence of recommendations of Congress and am with the greatest Respect & Esteem, Your Excellency's most obed't Serv't

Geo. Clinton.

P. S. I take the Liberty of enclosing to your Excellency an Extract of a Letter just now received from Colo. Williams on the Northern Frontier of this State.

CONGRESS ISSUES AN ADDRESS.

*And President Laurens Forwards a Copy of it to Governor Clinton
Together with Other Matters.*

York Town 11th May 1778.

Sir, By the common Post this morning I directed a packet to Your Excellency containing about ten copies of an Address by Congress to the Inhabitants of the United States of America & I believe, two or three copies of a proclamation forbidding certain malpractices of Captains Commanders & other Officers & Seamen belonging to American Armed Vessels.

Under the present cover will be found ten other copies of the former & two of the latter Acts both dated 9th Inst.* Your Excellency will be pleased to take such measures as shall appear most effectual for communicating a general knowledge of these Papers to all the Citizens of New York. I have the honor to be With very great Regard Sir Your Excellency's Obedient humble serv't

Henry Laurens, President of Congress.

*The address to the people was prepared by a committee of Congress and was adopted May 8, 1778. It called upon all Americans for "strenuous and unremitting exertions" to attain success for the cause in which they had embarked. It was resolved that the address should be read by "ministers of the gospel of all denominations," "immediately after divine service" to the inhabitants of the United States "in their respective churches and chapels and other places of religious worship."

The proclamation issued by Congress forbidding certain malpractices of captains, commanders and other officers, urged that the officers should pay a sacred regard "to the rights of neutral powers and the usage and custom of civilized nations, and on no pretence whatever presume to take or seize any ships or vessels belonging to the subjects or Princes or powers in alliance with these United States, except that they are employed in carrying contraband goods or soldiers to our enemies."

In such case it was provided that the officers conform to the stipulations contained in treaties. They were prohibited from capturing, seizing or plundering any ships or vessels of our enemies sailing under the protection of neutral coasts, nations or Princes "under the penalty of being condignly punished therefor and also of being bound to make satisfaction for all matters of damage and the interest thereof by reparation under the pains and obligations of their persons and goods."—STATE HISTORIAN.

12th. I have just received a Letter* from His Excy. Gen Washington inclosing one of the 10th from Sir Wm. Howe; renewing proposals for exchange of Prisoners, his present ground is, danger of Peutrid fevers from confinement in hot weather. This circumstance gives much scope for conjecture.

14th. I add a Postscript to the Pennsylvania Gazette containing Interesting Intelligence.

His Excellency George Clinton Esquire Governor of New York.

*The correspondence between Washington and Sir William Howe, relative to the exchange of prisoners, was opened by the British General, who, writing from Philadelphia, February 5, 1778, expressed himself as follows:

"Sir, By advices received from Rhode Island, transmitting to me a copy of a letter from General Heath to Lieutenant General Burgoyne (copy of which is inclosed) I am informed that it is determined to detain General Burgoyne's troops in New England, until all demands for their provisions, and other necessaries, are satisfied, and that this determination is grounded, not only upon a requisition of mine for provisions to be sent in for the subsistence of the prisoners in my possession, and for the purchase of other necessaries, but upon a forgery by my agents, emissaries, and abettors, of what are called continental bills of credit. This last allegation is too illiberal to deserve a serious answer. With regard to the other, I know not from what expression, in any of my letters to you, it has been understood, that I made the requisition alluded to. You know that the allowance of provisions to prisoners from the beginning of my command, has been equal in quantity and quality to what is given to our own troops not on service. If you had thought this insufficient, you might have directed a farther supply from the markets, and were likewise at liberty to send in whatever articles you thought proper from the country. The allowance of fuel has been also regulated, as well as our means would admit, and a similar permission of purchase or supply from you, has never been refused. My letter of the 21st of April last, explained to you the extent afforded to the prisoners; cloathing, and some other necessaries, they had a right to expect from those who had been the occasion of their being exposed to the chance of captivity, and that idea I have ever understood to be mutual. But notwithstanding the remonstrances I made to you upon that point, finding that supplies were not sent in, my humanity interposed on behalf of the unfortunate men in our possession; and on a late representation of their distress, I permitted in this city, the purchase of blanketting, and such other necessaries as the severity of the winter required, and without which they most absolutely have perished.

Confident, as I am, that you will acknowledge this to be a just recital of facts, I cannot but think it unnecessary, to say any thing farther, either upon the cruelty falsely alledged to have been exercised against the prisoners, or the unjust reflections you have been so often induced to transmit to me upon that head.

In consideration, however, of the real and unavoidable distresses of the prisoners on both sides, as well as to put an end to all fruitless altercation on the subject, I shall consent to an immediate exchange of all prisoners now in our possession, as well officers as private men, so far as the number of the latter, and parity of the rank of the former, will admit. In the mean time, I shall wait the arrival here of the British officers, whom you have released upon their paroles, and shall, without delay, send an equal number to you in return.

With regard to the account for provisions and other necessaries, which I find by General Heath's letter, is become a pretext for infringing, if it is not intended as an absolute breach of the Convention of Saratoga, I do readily agree to the immediate appointment of commissioners, on your part and on mine, to settle that account, together with all other accounts for provisions, &c. furnished the prisoners on either side, and to make payment of the balance.

You have only to name your commissioners (two will, I think, be sufficient) and appoint a convenient place and time for their meeting two gentlemen on my part, to terminate the business. The exchange of prisoners, and the accommodation of the difference that has so long subsisted between us upon that score, may be adjusted at the same time by the same commissioners, upon an equitable plan as formerly proposed by yourself.

These propositions, founded as they in great measure are, upon your own suggestions, I consider as now mutually agreed upon between us, and therefore I must hope to find, that you are capable of carrying them finally into execution, without permitting any set of men to interfere, at their pleasure, with such authority as has been vested in you, for the exchange of prisoners, and for the decision of all matters relating to them.

As I have no objection to the earliest meeting of the commissioners for completing the exchange and liquidating the accounts, I trust there will be no new impediment to the release of General Burgoyne's troops, but that you will give immediately such orders for their embarkation upon the arrival of the transports at Boston, as will remove every difficulty.

P. S. Your letters of the 20th and 30th January are received, and shall be answered in a few days."

In reply, Washington, under date of February 10, 1778, wrote to Sir William:

"Sir, I received yesterday the favour of your letter of the 5th instant.

In answer to whatever it contains concerning General Burgoyne's army, and the measures adopted relative to it, I have only to inform you, this is a matter in which I have never had the least direction. It lies wholly with Congress, and the proposals you make on this head must be submitted to them. I have accordingly transmitted a copy of your letter, and I shall be ready to forward you any resolutions they may take in consequence.

I shall omit animadverting on your observations, with regard to the allowance and treatment to prisoners in your hands; it is a subject which has been freely discussed in the progress of our correspondence, and the necessity of a further investigation is superseded, by your now meeting me on the ground I have so long wished.

The powers under which I act, are entirely derived from Congress, and must of course be subjected to such modifications as they may think proper, according to the circumstances, to prescribe. But holding myself fully authorized by their instructions and intentions, to avail myself of the reasonable terms you are at this time willing to adopt for the mutual relief of prisoners, I shall explicitly close with your propositions to the following effect.

That an exchange of all prisoners now in our possession, officer for officer, soldier for soldier, citizen for citizen, so far as number and rank will apply, be carried into execution as expeditiously as the nature of the case will admit, and without regard to any controverted point, which might prove an impediment to so desirable an end. And here, as I may not clearly understand your meaning, when you say, "In the mean time I shall wait the arrival of the British officers, whom you have released upon their paroles, and shall, without delay, send an equal number to you in return." I take occasion to request you will be pleased to favour me with an explanation, whether you intend to consider such officers on both sides, as still continuing under the obligation of a parole, or as absolutely exchanged, in pursuance of the general cartel. I see no reason why an effectual exchange should not at once operate with respect to them.

I also agree, that two commissioners from me, shall meet a like number from you, on the tenth day of March, in German Town, at the King of Prussia Tavern, eleven in the forenoon, to adjust upon equitable terms the difference you mention, and such other matters as they may be severally empowered to determine.

With respect to a general settlement of accounts, as it comprehends points with which I have no authority to interfere, it is not in my power to concur in the measure you suggest for that purpose. I am under the necessity of referring it to the decision of Congress.

Considering a general exchange as finally agreed on between us, I shall, without delay, order the prisoners, in our hands, to places in the vicinity of your different posts, as their respective situations may render most convenient, and shall give you notice as they arrive, that you may return a number equal to those sent in from time to time."

This correspondence was closed by Sir William Howe, writing under date of February 14, 1778, from Philadelphia, to Washington, as follows:

"Sir, I have received the favour of your letter of the 10th instant, in consequence of which I shall send two commissioners to meet those on your part of German Town, on the day appointed.

The distresses which from too good authority I understand the lower class of prisoners labour under, induce me to request you will give such directions as may expedite the exchange of the non-commissioned officers and private men, in the mode you have proposed; and as the foreigners and British must be equally desirous of their liberty, and equally considered in the general release, I trust you will direct that the prisoners sent in, are proportioned as nearly as the numbers of each in your possession and their situation will admit.

With respect to the exchange of commissioned officers, you will permit me to premise, that this must be governed by the release of the Hessian field officers taken at Trenton, and Lieutenant Colonel Archibald Campbell of the 71st regiment, who have not only been longest confined, but have hitherto been the objects of particular exception. The exchange for those gentlemen, as well as for the other officers, will then take place, as is agreed upon. This will explain the meaning of the paragraph in my letter quoted by you, with respect to the release of officers upon parole, prior to the arrival of Lieutenant Colonel Campbell, and the Hessian field officers—I desire to be understood, that in this general exchange, the officers and soldiers belonging to the army commanded by Lieutenant General Burgoyne, who were taken prior to the Convention of Saratoga, are to be considered within the description of prisoners, equally with those of the army more immediately under my command.

It seems necessary, with regard to citizens, to postpone the exchange of them, until the meeting of the commissioners, who by a personal discussion, may finally ascertain the distinctions and equality of the persons to be exchanged."

From Philadelphia under date of March 24, 1778, Sir William Howe had written to Lord George Germaine:

"I have the honour to inform your Lordship that the enemy's intended invasion of Canada by way of the Lakes, as mentioned in my last dispatches, has failed from disappointments in collecting the troops and stores proposed for that enterprise. The Marquis de la Fayette, I learn, is returned from Albany to the army in this province, and General Conway remains in New England to command, as it is said, an army on that side, which is designed to act either against New York or Rhode Island. The Generals commanding at those posts are apprized of the intention, and as the troops stationed at those places, with the navy co-operating, are in my opinion adequate to their defence, I have not any apprehension for their safety.

If I may judge from the late proceedings of the Congress, relative to General Burgoyne and the troops under the Convention of Saratoga, there is little doubt of a determination being taken to detain them, even under the most frivolous pretences. That your Lordship may be fully informed of every transaction relative to General Burgoyne since his arrival in the neighbourhood of Boston, I have the honour to inclose copies of the most material papers that have passed between him, myself, and others on the subject of his situation, and as this business has been unavoidably blended with the state of prisoners in general, I have ranged the correspondences relative to both in a regular succession, by which your Lordship will observe the difficulties that may be expected in reconciling the objections which are made, and in the adjustment of a general cartel. The time appointed for the meeting of the Commissioners being postponed by General Washington to the 31st of this month, without assigning any satisfactory reason, leads me to believe that neither he, or those under whose authority he acts, are sincere in their professions to carry an exchange into execution at this time. The Admiral is daily expected here from Rhode Island; but as his arrival may be retarded, I have thought it advisable to dispatch the Sandwich Packet for England, and waiting in humble expectations of his Majesty's commands."

May 26, 1778, the House of Commons considered the state and condition of Burgoyne's army, which was surrendered at Saratoga, and "also by what means Lieutenant General Burgoyne, who commanded that army, and was included in that convention, was released, and is now returned to England."

In the course of seconding the motion, John Wilkes said:

"I rejoice that the honourable member is now among us, for I hope to obtain from him that information, which ministers have denied to this House. I think that information ought to include every transaction of moment from the General's leaving Europe to his embarking from America. Truth will, I am persuaded, at length reach the public ear. I do not, however, Sir, in this fair and full historical detail mean to include a relation of the military operations of the last campaign. The House may not be competent to a decision on those subjects. But, Sir, I would go much farther than the honourable gentleman who made you the motion. I would closely pursue the steps of those who with unhallowed feet invaded America. A nice sense of national honour calls upon us to enquire into the causes of the loss of an entire British army by a disgraceful capitulation, into the particulars of the treaty with the savages, their conduct during the campaign, the imputed cruelties, and particularly the setting fire to villages and houses of the country people, without any apparent necessity from military motives. These important considerations, with many others, are not comprehended in the motion of the honourable gentleman.

Sir, I desire it may be understood that I do not rise to bring a charge against the commander in chief; but as a public man, to ask that information which can best be had from an intelligent officer of high rank, just returned from the great scene of action. I am sure he will most willingly give it to the House. Every gazette of Europe and America has published the disgrace of our arms at Saratoga, the ignominious terms of the convention, the charges of frequent murders and massacres of the defenceless inhabitants, and the wanton devastation and burning of the country by the British troops."

General Burgoyne delivered on this occasion, a memorable speech, from which the following extract is taken:

"Sir, in regard to the call made upon me by the same honourable gentleman, for explanation respecting the burning of the country during the progress of the army under my command, I am ignorant of any such circumstance; I do not recollect more than one accident by fire; I positively assert there was no fire by order or countenance of myself, or any other officer, except at Saratoga. That district is the property of Major General Scuyler of the American troops; there were large barracks built by him, which took fire the day after the army arrived upon the ground in their retreat; and I believe I need not state any other proof of that matter being merely accident, than that the barracks were then made use of as my hospital, and full of sick and wounded soldiers. General Scuyler had likewise a very good dwelling-house, exceeding large store-houses, great saw-mills, and other out-buildings, to the value altogether perhaps of ten thousand pounds; a few days before the negotiation with General Gates, the enemy had formed a plan to attack me; a large column of troops were approaching to pass the small river, preparatory to a general action, and were entirely covered from the fire of my artillery by those buildings. Sir, I avow that I gave the order to set them on fire; and in a very short time that whole property I have described was consumed. But, to shew that the person most deeply concerned in that calamity did not put the construction upon it which it has pleased the honourable gentleman to do, I must inform the House, that one of the first persons I saw, after the convention was signed, was General Scuyler. I expressed to him my regret at the event which had happened, and the reasons which had occasioned it. He desired me to think no more of it; said that the occasion justified it, according to the principles and rules of war, and he should have done the same upon the same occasion, or words to that effect. He did more—He sent an aid-de-camp to conduct me to Albany, in order, as he expressed, to procure me better quarters than a stranger might be able to find. This gentleman conducted me to a very elegant house, and, to my great surprise, presented me to Mrs. Scuyler and her family; and in this General's house I remained during my whole stay at Albany, with a table of more than twenty covers for me and my friends, and every other possible demonstration of hospitality; a situation, painful it is true in point of sensibility at the time, but which I now contemplate with some satisfaction, as carrying undeniable testimony how little I deserved the charges of the honourable gentleman; and I leave it to his feelings, whether, after this explanation, some farther apology is not due to me."

This part of the speech was omitted from the original report and was delivered separately upon a second call of Mr. Wilkes.—STATE HISTORIAN.

GOVERNOR CLINTON PRAISES JAY AND McDOUGALL.
*News from France Pronounced Interesting—Disturbed Over the
 Vermont Business.*

Poughkeepsie 14th May 1778.

Dear Sir, I am favoured with your Letters of the 15th April & 1st Instant. The News from France* is indeed most interesting & agreeable and arived very seasonably to assist in filling up our army & to give new Life to the Militia who began to be rather languid.

I enclose you the arangements returned to me by Colo. Du Bois & James Livingston of their respective Regiments. The latter is far from being perfect and as I have not the least Knowledge of any of the Officers I am not able to make it so or even to add to it. The former is compleat, tho there are some Officers left out

*March 13, 1778, the Marquis de Noailles presented to Lord Weymouth, the English minister at Paris, the following:

“The under-signed ambassador from his most Christian Majesty, has received express orders to make the following declaration to the court of London:

The United States of North America, who are in full possession of independence, as pronounced by them on the fourth of July, 1776, having proposed to the King, to consolidate, by a formal convention, the connection begun to be established between the two nations, the respective plenipotentiaries have signed a treaty of friendship and commerce, designed to serve as a foundation for their mutual good correspondence.

His Majesty being determined to cultivate the good understanding subsisting between France and Great Britain, by every means compatible with his dignity, and the good of his subjects, thinks it necessary to make this proceeding known to the court of London, and to declare at the same time, that the contracting parties have paid great attention, not to stipulate any exclusive advantages in favour of the French nation; and that the United States have reserved the liberty of treating with every nation whatever, upon the same footing of equality and reciprocity.

In making this communication to the court of London, the King is firmly persuaded he will find new proofs of his Majesty's constant and sincere disposition for peace; and that his Britannic Majesty, animated by the same sentiments, will equally avoid every thing that may alter their good harmony; and that he will particularly take effectual measures to prevent the commerce between his Majesty's subjects and the United States of North America from being interrupted; and to cause all the usages received between commercial nations to be, in this respect, observed, and all those rules which can be said to subsist between the two crowns of France and Great Britain.

In this just confidence, the under-signed ambassador thinks it superfluous to acquaint the British minister, that the King his master, being determined to protect effectually the lawful commerce of his subjects, and to maintain the dignity of his flag, his

I wrote to Colos. I shoud have addressed myself on this Occassion officially to your Committee on this Subject had the Returns been more perfect.

Jay is attending the Duties of his Office at Albany; he fills the Bench with great dignity & pronounces the Sentences of the Court with becoming Grace. It is to be lamented that he has had already so many Opportunities to display his abilities in that Way but it is unavoidable. Livingston attended the Council of Revision pretty steadily. Majesty has, in consequence, taken eventual measures in concert with the United States of North America."

March 17, Lord North presented this document to the House of Commons, and also the following message from his Majesty George III:

"George R.

His Majesty having been informed, by order of the French King, that a treaty of amity and commerce has been signed between the court of France, and certain persons employed by his Majesty's revolted subjects in North America, has judged it necessary to direct, that a copy of the declaration, delivered by the French ambassador to Lord Viscount Weymouth, be laid before the House of Commons; and at the same time to acquaint them, that his Majesty has thought proper, in consequence of this offensive communication on the part of the court of France, to send orders to his ambassador to withdraw from that court.

His Majesty is persuaded, that the justice and good faith of his conduct towards foreign powers, and the sincerity of his wishes to preserve the tranquility of Europe, will be acknowledged by all the world; and his Majesty trusts, that he shall not stand responsible for the disturbance of that tranquility, if he should find himself called upon to resent so unprovoked and so unjust an aggression on the honour of his crown, and the essential interests of his kingdoms, contrary to the most solemn assurances, subversive of the law of nations, and injurious to the rights of every sovereign power in Europe.

His Majesty, relying with the firmest confidence on the zealous and affectionate support of his faithful people, is determined to be prepared to exert, if it shall become necessary, all the force and resources of his kingdoms; which he trusts will be found adequate to repel every insult and attack, and to maintain and uphold the power and reputation of this country.

An acrimonious debate followed the presentation of these messages.—STATE HISTORIAN.

Colonel Livingston Places the Loss of His Horse and Equipment at Three Hundred Dollars.

Fort Arnold 15th May 1778.

My good Friend, Col. Hughs informed me yesterday that you had spoke to him respecting the Horse I had lost in Fort Montgomery—and that he thought it just I should be paid for him. He desired me to procure a Certificate from you and he would pay me immediately. How to estimate the Value of him I know not. I could wish to have another in his Stead. The Horse stood me in a Twelve month ago forty Pounds. Treble that money will not purchase me so good a One at this Day. And when I take into Consideration the Saddle & Bridle both of which were plated with Silver and Cost me Eight Pounds in New York, for which I am to be paid, I know not what Price to set. The loss of my great Coat, Sword, and Pistols I shall never retrieve. Considering all things I think 250 Doll'rs for my Horse and 50 for the remainder will not be too much. If you should think 300 Dol. for the

whole too much, make such Deduction as you think proper and you will satisfy Your ever Affectionate Friend

Wm. S. Livingston.

P. S. I long to see you but cannot obtain permission to come up. The Works here want much alteration, and demand your Inspection, otherwise we shall be again Kidnap'd.

[The following in Governor Clinton's handwriting.] N. B. I gave Colo. Livingston a Certificate Dated 20th May 1778 of which the following is a Copy.

This is to Certify that Colo. Livingston's Riding Horse, Saddle & Bridle were by my Order detained for the public Service in Fort Montgomery and were there taken by the Enemy. There being no Horse at that Post fit for Expresses, but such as were actually employed, rendered the Detention of Colo. Livingston's absolutely necessary.

SECRETARY OF STATE SCOTT STILL ILL.

Suggests Hurley as a Proper Meeting Place for the Legislature Instead of Poughkeepsie.

Hurley, May 16th 1778.

Sir, I send you inclosed the three Copies of Acts wanted. I should have sent them sooner, but had no opportunity. I beg you will let Mr. Benson see to the printing of them. In a very few days I shall have all the rest ready for the press. My Daughter when on the other Side of the River, was informed that Mr. Sharpe intended to send me out a few necessaries by the first water Flag. Should they reach me they will prove the first Instance wherein I have indulged myself. I hope, Sir, you will not think it too

great a Liberty to request your protection of them for me. I should not trouble you with this Request, but absolute necessity compels me to it.

If you have determined where the Legislature shall meet, I should be glad to know it, because in that Case I will notify, by circular Letters, the place to the joint Committee for Elections, as they are to meet only one week before the Sessions, the place where that is to be held, will be most convenient for them. The absolute want of all Necessaries at Poghkepsie and the General aversion of the Legislature to meet at that place will in my opinion render some other place more eligible. This place, beginning at the hither End of Esopus & extending to the Widow Bevier's, taking in the Houses on the other Side of the Kill will, in my opinion after the removal of the Esopus people which is now effecting every day, lodge the whole Legislature, & that now more diffusively than they must be at Poghkepsie. However I do not pretend to dictate. I was in hopes to have been there this week, but my Rhenmatism will not yet permit me to go so far abroad. But I flatter myself with the prospect of visiting you next week. In the mean Time, I am Dear Sir with great Respect
Your Excellency's most obedient Servant

Jno. Morin Scott.

Permit me Sir to trouble you with the inclosed to Genl. Gates. His Excellency the Governor.

P. S. Since writing the above I have not had an opportunity of sending to you. I, therefore, now send my Deputy with this, and all the acts together with Commissions for Colonel Cantine's regim't which your Excellency will be pleased to have sealed & returned to me, and I will countersign & distribute them. Yours most respectfully

21st May 1778.

*Congress to Punish British Officers Who Abused Their Privileges
After Burgoyne's Surrender.*

York Town 16th May 1778.

Sir, I had the honor of writing to Your Excellency the 11th Inst.—by Messenger McKlosky.

This will cover an Act of Congress of the 15th for obtaining proofs of infractions said to have been committed on the part of the Conquered in the Convention of Saratoga & for requesting Your Excellency to take the necessary measures for ascertaining Facts, so highly Interesting to the honor & welfare of these States.

Congress have this day ordered the Treasury Board to remit to Your Excellency the Sums specifically, which are provided, by the last Resolve of the Act, for this service. I have the honor to be With very great Regard Sir, Your Excellency's Obedient hum: servant

Henry Laurens, President of Congress.

His Excellency, Governor Clinton, New York.

In Congress May 15, 1778.

Congress having received information that divers infractions have been made by officers in the service of the king of great Britain upon the convention of Saratoga particularly by compelling some of the prisoners to bear arms against these United States since their return to Canada:

Resolved That his excellency governor Clinton of New York be requested to take such measures as he shall deem most prudent and effectual for ascertaining the truth of this information and to transmit to Congress the evidence, which he may obtain.

Resolved That the sum of two thousand dollars in specie, and ten thousand dollars in continental money be advanced to governor Clinton for defraying the necessary expences of executing the foregoing resolution.

Governor Clinton Writes Colonel Gansevoort in Regard to Ordnance and Clothing.

Poukeepsie May 17th 1778.

Sir, I have rec'd yours of the 9th Inst. I am not directed by Congress to forward any heavy Caannon to Fort Schuyler nor indeed do I know a single Piece that can possibly be spared for that Post. Very few if any of the heavy Pieces were bro't off from Ticonderoga, either owing to the neglect of the officer charged with this business or the impracticability of doing it, & on them we placed our principal dependance for supplying the Posts for the Defence of the River; Genl. Conway writes me however that he is in hopes of having them brought forward. If this should be the Case, on proper application to the command'g Officer of the Departm't, I presume part of them will be ordered to Fort Schuyler.

The State Store in the Care of Mr. Henry, is the only Place I know of from whence Cloath'g for the New York Battalions is to be procured. On the 9th of March last there were 2428 Shirts & 93 P'r Stock'gs with some very small quantities of other articles in the Store; at that Time I issued an order in favor of your Regt. for one fourth part of the whole; which nearly compleated your Return, as to the article of Shirts; since which orders have

been issued in favor of three of the other Regt. and as I have not heard of any new Supplies coming into the Store I conclude there can be little if any Cloathing on hand. However, on your making me a proper cloathing Return, which I shall expect on every application, I will issue an order on the Commissary in favor of your Regt. for its proportion of Cloathing on Hand, as I am determined to make an equal distribution among the five Regts. of this State, having a due regard to their respective numbers & former Drafts, as far as I may be able to have them ascertained. I am with great Regard Sir Your most Obed't Serv't
 Colo. Gansevoort. [G. C.]

*And Private Secretary to the Governor Benson Follows with
 Additional Instructions.*

Poukeepsie May 17th 1778.

Sir, Since his Excellency the Governor wrote his Letter of this Day to you, an officer of your Regt. waited on him with a Return of cloathing said to be wanted for your Regiment. Lest you may not fully comprehend that part of his Letter which respects Returns, he has directed me to inform you that he expects to be furnished with a Return as well of the Cloathing already drawn out of the Store as of the cloathing wanted for the Regiment; to the end that the ballance due to the Soldiery from the State may be ascertained. This measure is absolutely necessary that Justice may be done to the respective Regim'ts as some of them may have drawn more than their proportion of cloathing while others are put off with less than they are justly entitled to his Excellency does not mean to stint the Soldiers to the allowance of cloath'g ordered to be provided by the State. Yrs. &c.

*Thomas Palmer Reports to Governor Clinton Regarding the
Movement and Progress of the Drafts.*

Sir,—The Superintendants with the Drafts from the Counties of Ulster and Orange punctually met at Goshen agreeable to appointment on Wednesday the 13th Instant, and marched from thence the Same Day at 3 o'Clock in the afternoon towards Easttown, in good Order and high Spirits, Except a few which are Since Chiefly Come up and gone forward. The Same Day, 74 of the Drafts from Dutchess County and the Manor, made up of parts of the Drafts from their Different Regiments, also went forward and on Fryday the 15th, 52 more from the Same Different Regiments marched from New Burgh. Out of the whole that have marched, 31 have Inlisted during the war, Chiefly with Capt. Gragg of Colo. Gansevoort's Regiment and the Rem'dr in Colo. Dubois's Regt. (That is): 31 Exclusive of those marched, and as near one fourth of the Drafts from Dutchess County and the manor are Still behind and those that Come, come in So Scattered a manner, I have appointed one of the Superintendants from that County to attend at New Burgh to Receive the Drafts as they Come in. Capt. Boarum, another of the Superintendants from that County, I have Sent with full power to Collect the Drafts from the Different Regim'ts and after all, I am doubtfull wheather he will be able to Collect the half of what is now Deficient; for it Seems they have been under the necessity of Drafting Some, and others who have Inlisted and taken the Bounty are Deserted; 3 is already deserted that I am Informed of and have advertised them accordingly. I fear Some of the Superintendants of Dutchess did not well understand, or Otherwise have been too Neglectfull of their Duty; which may in Some Measure be the Means of their coming up in So Confused a manner. Not a

Single Draft has yet arrived from Albany; nor have I received any accounts from Mr. Glen or Either of the Superintendants from that County; and as the winds have been favourable the Chief of the week past, and Still Remain So, I am Doubtfull wheather there is not Some Obstructions in their way more than I Can account for. I Therefore thought it my Duty to Inform your Excellency of that, as well as of the Circumstances above mentioned. The Bearer I have Ingaged to go forward to Albany in Case you may be of Opinion it is necessary. I have Omitted writing any thing To Mr. Glen on my own part. Leave that to your Excellency; in Case you think it necessary to Order the Express forward as a line from you in Case of any Difficulty will no doubt be received with Greater attention as Coming from the proper Authority.

Another Circumstance I beg leave to mention, and that is, I am Informed that Colo. Vanderbergh's Son Inlisted for one of the Classes of his Regiment, and took a Bounty of Upwards of 100£; that Soon after it appeared he had an appointment for an Ensign in one of the Companies of Colo. Duboises Regiment. Wheather he knew of the appointment when he took the Bounty I am not Certain; however wheather he did or not, I Conceive he ought to return the money to the Class or hire another man. But the Single point with me is, wheather if he met with the appointment after he took the money, (if he has not Honor Enough to return it) he can or ought to be Obliged to do it. Your Excellency's Opinion on this, by a line to me or Colo. Vanderbergh would no Doubt be a means of Reducing young Vanderbergh to a proper Sense of his Duty. I am with all Due respect Your Excellency's Most Obedient and most humb'e Servant to Command

The Case of James Hartt Accused of Stealing a Horse.

To his excellency George Clinton Esqr. Governour of the State of New York, Captain General and Commander in chief over the Militia thereof and vice Admiral of the same.

The Petition of James Hart now a Prisoner in Albany Goal. Most humbly sheweth. That your Petitioner having been born in this State, and educated with those generous Sentiments which constitute the real Friend to the Rights of Mankind, He embraced the earliest Oppertunity of drawing his Sword in defence of his greatly injured Country, was appointed a Lieutenant in a Rhode-Island Regiment, commanded by Colonel Varner, and with his utmost Power opposed the Enemy when they landed on Long-Island.

That your Petitioner then had his Wife and Family in New York whom He removed from the power of the Enemy there, to Pitts-Town in the County of Albany, where He laid out his all in the purchase and improvement of a Tract of Land, and soon after He became an Inhabitant there, was chosen Captain of a Company of Militia in a Regiment commanded by Colonel Knickerbacker, with which Company & Regiment your Petitioner proceeded to Fort George to oppose the Enemy then expected from the Northward.

That the sudden and unexpected evacuation of the Garrison of Ticonderoga enabled the Enemy to make so rapid a Progress to the southward that their Savages committed several Outrages in the Neighbourhood of your Petitioner 'ere He could possibly remove his Family and Effects, which constrained your Petitioner for the first time to hearken to the Advice of several Per-

sons to avail Himself of the Advantage & benefit of the Protection so freely offered by General Burgoyne—that with that View your Petitioner went to Burgoyne's Camp; but judging from their embarrassed Situation that He could scarcely protect his own Army, much less the Inhabitants, your Petitioner applied for a Pass to General Fraser to return Home—that when your Petitioner made that Application, General Fraser represented the Danger of his being intercepted and perhaps massacred by some of the several Parties of Savages then in the Woods, to prevent which he proposed to send some of them from the Camp as an Escorte to your Petitioner—but not chosing to go Home among the Inhabitants in such Company, your Petitioner obtained permission for a white Man who had some command among the Indians to accompany Him and preserve Him from danger and insult—that this Fellow contrary to every Argument your Petitioner could make use of forceably took a Horse from a young Lad, Son to one of the Neighbours, made the Lad his Prisoner and took both to Burgoyne's Camp.

That the absolute want of some Necessaries for Himself and his Family which were plenty in the Enemy's Camp induced your Petitioner to return there with some hard money, bought what Things he wanted and returned Home, where He hoped to live in Peace without interruption; But having Reason very soon, to apprehend Trouble from the Malice of some of his Neighbours, Members of the Committee, your Petitioner threw himself into the Arms and Protection of his Colonel, Mr. Knickerbacker, Who advised your Petitioner to go to the Committee of this City, and sent his Son with your Petitioner, to declare the part He had acted—that your Petitioner accordingly came to this City related to the Chairman what is herein set forth,

and was not laid under any Restraint, 'till the malice before mentioned reached Him even here, when your Petitioner was put into Close Prison; that what has been your Petitioner's misfortune is now imputed to Him as his fault, by being charged and convicted as Accessory to the taking the Boy, and Horse, which your Petitioner has proven before the Court He endeavoured to prevent.

That your Petitioner has been convicted on the Testimony of a single Evidence, entering into his Sixteenth Year whose incredibility was evident by his own Confession in Court of his frequent deviation from the Truth.

That your Petitioner thinks it very hard his Life or that of any other Person should be sacrificed on so flimsey an Evidence,

On that Justice, Mercy and Humanity with which your Excellencies Breast is replete and for which you are conspicuous, doth your Petitioner entirely rely for his preservation. May it, therefore, please your Excellency to take into your humane Consideration, your Petitioner's Case and to grant Him a Pardon or such other Relief as your Excellency may judge right and just, and your Petitioner as in duty bound shall ever pray.

James Hartt.

I do hereby certify that the above Petitioner James Hart did deliver himself up to me and that he was committed to Prison.

said Frederick De Reemer, Jun'r, say, that Captain Lyons had made him Prisoner, and took him from the Horse by the Arm, and that this Deponant has heard the said De Reemer say, that if Lyons could have been got He never would have taken the pains to prosecute James Hart, but since Lyons could not be got, Hart should suffer in his Stead, and further saith not.

To his excellency George Clinton Esquire Governor of the State of New York, Commander in chief of the Militia thereof, vice Admiral of the same.

The Petition of Mary Rogers, the Wife of William Rogers, of the District of Hosick in the County of Albany, Yeoman, Mary Fairbanks, and other Subscribers in behalf of the said William Rogers.

humbly sheweth, That the said William Rogers, (entering into the seventyeth Year of his Age) is confined in the Goal of the City of Albany, and convicted for having forceably taken away four Horses the property of Jonathan Morrel, John Morrel, William Shaff and Henry Shaff all of the District and County aforesaid,—that the Prisoner in the Course of his Trial proved that He was in a manner compelled to demand the said Horses from the Owners, through Threatnings of some Officers of General Burgoyne's Army, who came to his House in the Night, and insisted upon the Prisoners procuring them Horses, to facilitate their Flight after the Defeat at Benington,—that the Owners of the said Horses who appeared as Witnesses against the Prisoner on his Trial, did confess that He had given a Reciept or Order to some of the Owners for the said Horses when He took them, and that all the Horses were returned to them, (by the Person who was with the Prisoner and carried them off) within two or three Days after He took them away—and the Prisoner did also prove on his Trial that Money was given to the Person who went to return the Horses aforesaid, to pay the Owners for the Use or hire of them—from which Premisses your Petitioners are induced to believe, that tho' the Prisoner may have used Threatning Language to obtain the Horses from the Owners, that yet the Prisoner had no Intention to divest the Proprietors thereof, entire & convert them to his own Use or benefit.

Your Petitioners do therefore judge the Prisoner to be an Object of Mercy, and as such humbly beg leave to recommend Him to your Excellencies Clemency for a Pardon.

New Perth May 19th 1778.

Sir, I wrote your Excellency Some Days ago the State of my Company. I have ben the other day at Albany and General Conway ordered me to go to Skeensborrow and Scout to Ticonderoga &c. and Give him the Earliest Notice if any danger was in that Quarter wherfore, my head quarters will be at that place or fort Ann unless otherways ordred by your Excellency. I am Sorry to Inform your Excellency the New Schene of Trouble that is arisen up among us, which if not Stopt will rewn our Settelment; the New England people Ever Since the first Settelment here hath been opposed to the old, and Last year hath Given them an advantage over many poor weak timed Cretures who was distrest to the Last degree and fled in to the rear of Burgoyne's Camp for Safty intairily out of fear of the Indians, barbariously murdering and massacreaing many and threatning to do So to all that would move Southward &c., and Now, Collo. Williams, is fining at his will and pleasure from 4s to 30£ and most of them hath

lived pecably on their farms and been ready to assist when Ever Called upon in Evry allarm and as good frinds for Liberty as any on the Continent. Crims for remaining at home on their farms— altho they have never Supplid the Enemy in any way or manner. I was mostly among them all the time a Scouting and they gave us Intilligence and provisions at the risque of their Lives. I have Spoken to Collo. Williams at Diffrent times not to fine the poor people that was too much distrest already; this he did without Ever Calling them before him or Giving them any Notice to Speak in their own defence, which in my opinion is Contra to all rule & order. The Bearer Mr. John Rowan Can Give your Excellency an Exact Account of Evry particular. Neither Collo. Webster nor me was warned or knew any thing of the Court Martial, till it was over and I Can account for this in No other way than this, (for fear of doing the people Justice); it Sems the Collo. has it in Vew to ruin the Settelment; if he is not Inmedety Stopt he will Diss-affect more people then In this County then Burgoyne and all his Agents. This is a short rehersal of facts. I Make no dobt but your Excellency in your wisdom Will Give relief in the premises. I am D'r Governor your Excellency's Very Obident and Humble Serv't

Black Creek May 19th 1778.

D'r Governor, The Acts was So long Delayed that we have had no Election; within a few Days after I Came home we was alarmed and all Turned out to oppose our Enemies but we was

happely disapointed. No Enemy appearing we all returned home, and no real trouble Since, but what is among our selves; at my arrival here the Committe had ordred a-number of poor deluded Creatures off their farms down the Country for this reason, because they wear at Burgoyne's Camp, but it is pretty Evident; from other Circumstances that they reather wanted what they had, (then from real Zeal); How Ever they had got So high We did not Chuse to Enterpose at that Instant with those they had Ordred of at that time, but Immeadetly formed a board of Commissioners, and then the Committees dropt and Indeed We find more Difficulty with the whigs then the Tories. We was last week Up at what we Call Kingsbury near Lake George and had Great Success. We had between 40 & 50 persons before us, that have Mostly taken the Oath of allegiance to the State and a number of them that is boands and Sue writs for good behaviour and appearing when Call upon; the whigs Sent us word before we went up that if the Tories was not taken from among them they would move of, but we was so hard on them and told them that if they were Impartely tried they would hang and any we was for Committing. The whigs Came bound for them. Collo. Williams I am told is fining a great many of our poor Distrest Inhabitants for Diffrent reasons, Some for not appearing at Williams Town in New England, and Some for Going home without Leave to Visit their poor distrest families; how Ever this I have by report, for I was not Invited to the Court Martial; but I have got many Complaints made to me, but am Unable to releive them and I here they are Going to petition your Excellency for redress of the Grivance. I am afraid if your Excellency dos not Enterpose we Shall have bad work. I can acco'tt for the proceedure in no other way then this, that he is taking the New England's

peoples part, who are Determined to root out the old Country people if they Can; how Ever the bearer Can Give your Excellency a more acurate account then I, as I have been much hurried and mostly taken up In Making peace in our frontiers. When I Came home we Expected Evry day to be attacted by our Enemies from the Noret; & Collo. Williams Said if he was Superseeded by being Made third Judge he would Leakways Give up his Commission as Collo. I thought it might do hurt in So Great Confusion to Do any thing that might hurt our present Exertions in opposing our Enemies. I told him not to be Uneasie, for we ought to be agreable in opposing our foes and not to be Quarreling about places, for I Should not Accept, & indeed in my humble opiúion in our present Situation our Courts Could not be of much use to us, and as I have not accepted non of the Justices has Quali-fyed. I Shall be much oblided to your Excellency for your advice. I am your Excellency's Very obident and Humble Servant

The Albany Authorities Protest Against the Remoral of the Troops from That City and Give Their Reasons.

Albany 20th May 1778.

Sir, The Mayor Aldermen and Commonalty of the City of Albany being convened in Common Council in Consequence of your Honour's Letter to Genl. Ten Broeck of this Date, informing him that the Troops are ordered from here to Fish Kill and requesting him to relieve the Guards in this City.

The Common Council beg leave to observe that they consider themselves in duty bound to inform you, that, from the weakness of the Militia of this City (owing to the Number in the public service) it will not be safe to Leave the Stores, Provisions, Hospitals, Sloops, Vessels Regular and other Prisoners, the latter amounting to at least one hundred, besides the disaffected, in and about the City to so small a number as 150 Men, being the whole number of Militia that are subject to Military Duty—for should an accident happen by means of the disaffected, either in destroying the Stores or in discharging the Prisoners (ten whereof are now under Sentence of Death) it would not only distress this City but the service of the Continent in General.

The Common Council farther beg leave to observe, that about Six weeks ago the Troops were also ordered down, but upon the Committees representing to the Hon'ble Major Genl. Conway, the above matters, and the necessity of having a Body of Troops in this City, to Succour the Northern and Western Frontiers in Case of an attack, the General Wrote upon the Subject to Major General McDougall and his Excellency the Governor, who thereupon ordered the Troops to remain here.

The Common Council farther beg leave to observe that in Case your Honour cannot detain one of the Regiments stationed here that at least 150 Men ought to be detained and they doubt not but your Honour will concur with them in opinion.

The Bearors, Mr. Recorder and Alderman Cuyler, Members of this Board can inform your Honour of many other reasons for the detention of part of the Troops. I am &c. By order of Common Council

The Corporation thereupon wrote to Genl. Stark requesting him to detain one of the regiments a Copy of which they do themselves the Honour to Enclose.

General Ten Broeck Reports General Stark's Orders to Governor Clinton and Asks for Advice.

Albany, 21st May 1778.

Sir, The Inclosed is Copy of a letter I Rec'd yestarday in the afternoon from General Stark. On Communicating the same to the mayor, Aldermen & Commonalty they Judged it proper to write General Stark a letter of which they Inform me they send your Excellency a Copy P'r this Express. I waited on General Stark on the Subject matter of his letter & Represented things to him much in the same way as Stated in the letter of the Corporation—he told me he did not Expect the Citizens only to do the Duty he Requested but that he Expected it from my whole Brigade, I answered it would be Exceeding Distressing to the People to be called from their farming Business at this Season, for Reasons very obvious & also very alarming to leave their Families & Effects at a time when Robbery's by Parties of armed men are so Frequent. After Considerable Conversation the General was good Enough to say he would detain one of the Regi-

ments in Town & send an Express to Fish Kills to General Gates, Represent the matter to him & wait his farther Order.

I thought it my Duty to acquaint your Excellency of this & at the same time mention a doubt arising in my own mind, whether I am authorized by Law, to Order the whole or part of the Brigade under my Command to do the Duty Required of them by General Stark. I have not mentioned my Doubts to the General & would have Complied with his Request had all the Troops marched, I shall be much Obliged to your Excellency for Direction herein & Remain with great Esteem Your Excellency's most Obedient & Humble Servant

Mayor Barclay Presents the Case Forcibly to General Gates.

Albany 21st May 1778.

Hon'd Sir, The Mayor Aldermen and Commonalty of this City were last night convened in Common Council in Consequence of a Letter from Brigadier General Stark to General Ten Broeck, acquainting him that the Troops in this City were ordered to Fish Kills and requested him to order a sufficient number of Men to

relieve him the Guards. The Common Council, thereupon, wrote a Letter to General Stark representing to him the necessity of having a Body of Troops in this City, which Letter the General intends to enclose you P'r express, and to which the Common Council beg leave to refer you as part of the reasons why the Troops should be detained here.

The Common Council would also beg leave to observe, that the many Robberies and Murders daily committed on the Inhabitants of this County by deserters and Prisoners from Burgoyne's army and the disaffected, who are drove to desperation, renders it indispensibly necessary to have a Body of Troops here to go in quest of the Villains, for unless the Militia can remain at home this Year and properly manage their Summer Crops, little or no support of Flour can the Continent derive from this part. Last Year more than one half destroyed and not more than half the usual Quantity sowed.

These reasons together with those already assigned in the Letter to General Stark induce the Common Council to suppose that you will on the Receipt hereof order at Least one of the Regiments to remain here. I am &c. By order of the Common Council.

*A Matter of Illegal Balloting for a Draft Which Involves
Lieutenant Cole.*

Goshen May 22: 1778.

On complaint of Thom's Oakley concerning the Illegality & Injustice of a Ballot made by a Class to which his Son Thomas Belongs—it appeared on a full fair and impartial Hearing that the Ballot was Illegal in that, there was but one List of the Class deliverd before the Ballot was made & that list was not a True one, because the s'd Thomas Oakley, Jur's, Name was not inserted wheras the Law expressly declares that Lists shall be deliverd to at least two of every Class.

The Ballot appears unjust with regard to the s'd Thom's Oakley, Ju'r in that he was not till after the Ballot Notified that he belonged to the Class who claims him nor was he warn'd to appear at the time when the Class met for the Purpose of furnishing their man whereby he was excluded the benefit of an equil voice with the rest of the Class in determining on the most Proper mode for raising their man bnt was consider'd by the Class (& that

without my direct Information) as a Person not choosing to associate in hiring a man. The Balot therefore having been mad before the Class was furnish'd with an exact list & without the knowledge or aprobaton of the S'd Thom's Oakley, Ju'r, whereby he is subjected, contrary to his Inclination, to serve as a Draft in the Continental army for the Space of Nine Monthes. I do therefore consider the Ballot as Irregular not being founded on the Principals of Eaquil Justice & the common rights of mankind, tho I must do the Commanding Officer of the Company & the majority of the Class so much Justice as to say that it does not appear by any Evidence or Circumstance that they intended any injury or unfairness to the s'd Thom's Oakley, Ju'r, but what has hapned has been the effect of mistake & chance which no man ought to suffer for.

I, therefore, order that the s'd Ballot be set aside & that s'd Class be orderd to make a second Tryal to furnish a man for the Purpose above s'd.

May it Please your Exelency, We being appointed a Committee by the persons who have the privelidge of associating themselves

into Companies in Bedford, Salem and this Quarter, to write to your Excellency, Respecting the militia act, beg Leave to mention; there are Some Doubts touching the Duties or Obligations of the associators mentiond in the act, Upon which they would be much obliged to your Excellency for an opinion as the Commander in Chief of the militia.

There are many Exempts who are not Under the necessity By the act, of associating themselves, and are nevertheless Extremely willing of associating, provid they by Such association are not bound to go in Service on Detachments for a Limited time or out of the State, in Every respect as the Enrolled militia are, They would, therefore, Esteem it a particular favour to know from Your Excellency, whether they have by the act any greater Priviledge then the Enrolled militia, other than being under the Immediate Command of their own officers and not annexed to any other Regim't when Called out in Detachments. Gent., I have rec'd yours of the 15th Inst. I think the only construction which can be put on the Clause of the militia Law, respect'g the Exempts associating themselves into Companies, is that they are to do Duty agreeable to the Tenor of their associations and are not Subject to be called out in Detachment for a limited time in manner as the enrolled militia are, except in Cases of actual Invasions Incursions of the Enemy or Insurrections. Colonel John Mead Furnishes General Gates with Startling Information—If True.

Greenwich May 23rd 1778.

Honoured Sir, I would acquaint you by Intelligence I received yesterday from New York, which I believe may be depended on: that the Enemy have ordered all their Troops from Long Island and those at New York and part of those from Staten Island, with all the Horses they can get, to march to the Lines at Kings Bridge and as there is a large Body of Hessians, as is said have lately come from Philadelphia, it is expected there a forming an Expedition into this part of the Country for Plunder, and as there is a great Want of fresh Provision—I expect Necessity will drive them out. I am informed likewise that they have obliged all their Refugees to enter their Service. If, Sir, they should take their Rout into this Part of the country, as is expected I shall not be able to muster but very few to oppose them—hope your Honour has better Information, but for fear, you might not, have sent you this—and am your Obedient Humble Serv't

Honoured Sir,—I am just informed by a Person from below that there were twelve hundred Men ordered some days ago from New York to Kingsbridge, and that they arrived there yesterday. If they come out with a large Party, which I suspect they intend, we shall be able to obstruct them but little, as we have not more Ammunition, with what I have just rec'd from General McDoug-

all than will furnish the Men with twelve Rounds each. The Information given your Honour by Col. Mead in the Inclosed (if given by the Person I am informed it was) I think it may be depended upon—the Communication being so much obstructed for several Days at Kingsbridge has prevented my getting direct Intelligence—but it is my Opinion they intend making a Diver-sion this way, while they are embarking at New York.

On Wednesday last there was a general Order for stopping the Communication with Long Island and the main, when I am credibly informed the Press-gangs were sent out, apprehending the Refugees, and seizing all the Crafts, and were at it yesterday. That the Inhabitants were not suffered to stir out of the respective Streets in which they live. I am with respect your Honour's most Obt. and very Hble. Serv't

Hon'd Sir, This your Honour will Receive by Mr. Oliver Delancy who was taken prisoner by a party of the Continental Troops, for what Reason I cannot Imagine, as all reports from our Friends in the Enemies power agree that he has always acted friendly. Since I have Commanded at this Post, Mr. Delancey has never kept out of the way; so far from it, he sent me word when I first came here, that if he was any ways Suspected and I would acquaint him with it, he would appear.

I Can assure your honour many things may be said in his favour, some of which I am personally acquainted with. Out of

Governor Clinton Gives General Scott Advice and Explains Why the Legislature Should Convene at Poughkeepsie Instead of Hurley.

Poughkeepsie 23d May 1778.

Sir, I am favoured with your Letter of the 16th Instant. As most of the Laws which were immediately wanted are already printed Woud it not be best to furnish the Printer with all the Acts & Directions to print them in the Order they passed. I think it woud save Expence & upon the whole expedite the Business of publishing the Laws to the People at large.

The Officers Commanding the Out Posts have positive Orders to seize every Article going into the City & coming out without special Permission and to Detain & Report the same. These Orders were absolutely necessary to destroy a Communication with the Enemy for sake of Trade that was growing very dangerous. But you may rest assured, Sir, that any Article sent out to you which shall come to my Knowledge will be faithfully taken Care of & forwarded.

My Proclamation fixing this Town as the Place for the next meeting of the Legislature issued the Day before your Letter came to Hand. The Place you propose, or Claverack, which is

mentioned by another Gentlemen of the Senate, woud have been equally as agreeable to me, but as I conceive the only Reason the Legislature did not determine as to the Place as well as the Time of their next meeting, was because the Operations of the Enemy might in the Mean Time render the Place so fixt on by them, improper. Taking the Matter, therefore, in this Point of View, it appeared to me most proper for me to fix on the old Place as nothing had happened to render it more Inconvenient than it formerly was, & leaving it to them to adjourn to whatever new Place they may judge more Convenient & proper when they meet. Lafayette Extricates Himself from a Perilous Position by a Clever Manoeuvre.

York Town May 24th 1778.

Sir, I take the liberty to inclose three Letters which my father requests you will be kind enough to forward by the first opportunity. He was taken ill two days after his arrival at this place (near a fortnight ago) his disorder is of a complicated nature. He has a palpitation at the stomach and an oppression on his bowels. It is impossible to tell what turn the disorder may take.

I left camp on the 21st Instant, I was on a Detachment with the Marquis Le Fayette on the East side of Schuylkill. The Enemy advanced from Phil'a on the evening of the 19th* and by a circuitous Route were next morning in rear of the Marquis's party, expecting to cut off his retreat, but they were disappointed. He extricated himself by crossing Schuylkill at the nearest ford. The enemy returned to the city the same day and the Marquis recrossed Schuylkill next morning. General [Sir Henry] Clinton has the credit of this manoevre.

The Enemy are making every preparation for the evacuation of Phil'a an event which it is generally thought, will soon take place. I have the Honor to be, with the greatest respect & esteem, Your Excellency's most obed't Serv't

Henry Philip Livingston.

His Excellency Gov'r Clinton.

*This is known as the affair of Barren Hill. Washington reported it as follows, to the President of Congress, under date of May 24, 1778, Headquarters, Valley Forge:

"On the night of the 19th the enemy moved out in force against the detachment under the Marquis de Lafayette, mentioned in my letter of the 18th, which made a timely and handsome retreat in great order over the Schuylkill at Matson's Ford. Our loss was nine men in the whole. The enemy's loss is supposed to be something more. Their march was circuitous and rapid, and I should imagine many of their men suffered from it. General Clinton, it is said, commanded in person."—STATE HISTORIAN.

WASHINGTON HOLDS HIS ARMY READY TO MOVE.

Believes Howe Will Start Across New Jersey if he Changes His Position.

Valley Forge 25th May 1778.

Sir, I was yesterday favour'd with yours of the 21st instant, the Enemy have been constantly busy since my last in embarking their cannon and Stores. I do not yet find out that they mean to attack this Army before they go off but I rather think if they move at all by land that it will be across Jersey. Under this uncertainty I cannot alter my Position untill they change theirs. I hold the Army ready to move at the Shortest notice towards the North River Should circumstances require it. In the mean time I would have you make yourself as respectable as possible by Stopping all the recruits and calling in as many militia as you can feed. I cannot account for the evacuation of King's Bridge and Fort Washington if they mean to keep the city, as they are the Keys to the Island.

I would have you by all means exchange the British Convalescents and I would have you direct our Deputy Commiss'y of Prisoners to receive those in return who have been longest in captivity. You will undoubtedly take the proper precautions when the Prisoners pass our Posts upon the River.

You may depend upon having constant intelligence of the Motions of the Enemy in this Quarter from me & I shall depend upon the same from You. I am Sir Your most Obt. Ser.

EFFORTS TO CONCILIATE THE INDIANS.

James Duane ^{Esq} *Notifies General Schuyler of His Efforts for Harmony—
Hostility of the Senecas.*

Oneida May 25th 1778.

Sir,—I have deferred writing several Days after the Return of the Sachems from Onondaga in Hopes of being able to give you a just Account of the Situation of Affairs among the six Nations. But the Intelligence I receive is so various and contradictory that it is impossible to determine what are their real Intentions. It is however now publicly known that three different parties of Quiyogas [Cayugas] are already gone to War upon the Frontiers of Virginia and Pennsylvania. It is also said that Joseph Brant is at the Head of a fourth, and that he is to collect his Friends upon the Susquehannah & attack Cherry Valley. The party of 124 Senecas mentioned in my last are since returned from War. They have taken thirteen scalps and two prisoners with the loss of several of their party. From the best Accounts I have been able to collect, it appears that the Onondagas are much divided in Sentiment and that a party of the Senecas have observed a Neutrality since the Beginning of the War and still wish to live in Friendship with the United States. Upwards of twenty, mostly of this party arrived here yesterday on their Way to Albany to procure an Exchange of prisoners. I expect them to leave this to Morrow. They are determined to proceed to whatever part of the State you shall please to direct them to effect their purpose. They were ordered by their Sachems to go no farther than the Boundary Line and procure an Exchange there. But the Oneidas presuming upon their Interest and Influence with the Commissioners encouraged them at the late Council at Onondaga with Assur-

ances of personal Safety to proceed to Albany or whatever place the prisoner they are in quest of may be confined. The other part of the Senecas, which is by far the most considerable, seem resolved to make no Terms with us, tho I believe there is no Danger of their attacking the Frontiers of Tryon County, while so large a party of their people are down in our Country. The Onondagas have sent three Runners successively to the Quiyogas and Senecas to call them to the intended Meeting, but hitherto to no purpose. They have, therefore, declared their final Resolutions not to address them again upon the Subject But to return the Commissioners Belts at Albany. All the Quiyogas not gone out to war are now attending a Conference with Mr. Butler & the Senecas at Kanadasege.

Upon the whole there appears but very little prospect that any Council will be held to deliberate upon the Commissioners speech—or should such an Event finally take place I do not expect they will make such satisfaction for their repeated Violations of Treaties as can be accepted.

Your Speech of the 11th Inst. I have communicated to the Oneidas and Tuscaroras to their great Satisfaction and yesterday repeated the same to the Senecas now here. The Oneidas have of late been under great Apprehensions of Danger. Not long since two of their young Men were fired upon by a party of the Enemy not far from this Village. But as it was in the Dusk of the Evening they both fortunately made their Escape unhurt. They are much concerned that there are no Troops near their Country to march to their Assistance in Case of a sudden Invasion. I have just received an Intimation from the Sachems that they determine to address a Speech to the Commiss'srs as soon as they can find Liesure & opportunity from whence you will be able to collect

their Sentiments upon the present Situation of Affairs here. I have not been able to procure any more Warriors to join General Washington's Army. Their Apprehensions of Danger is such that they think it their Duty to stay & protect their Women and Children.

For farther particulars I must beg Leave to refer you to the Rev'd Mr. Kirkland who is the Bearer of this and to subscribe myself Sir &c.

Honoured Sir, This moment I received the following Intelligence by a person that may be depended upon.

That Brown's Corps embarked last Sunday at Hellgate—Fanning's were to march yesterday and embark at the same place, that all the Troops at and near the Bridge are under marching Orders, and one British Regiment had lately come to the Bridge and is encamped on Hyatt's Hill.

Col. Emerick who lays on this Side the Bridge, has taken great pains within a few days to make us believe he intends an Expedition to Tarry Town by Water, by reporting it to people, who he supposed would convey it to us.

The Tories impressed at New York and sent on Board the Shipping, amounted to near one Thousand Men last Sunday.

Yesterday Morning I went with the Regiment within Sight of the Fort, and they knew of my being there, but never attempted to draw near us. I am Your Honour's most Obedient and very Humble Servant

CHARLOTTE COUNTY'S CHAOTIC CONDITION.

Governor Clinton Assures Ebenezer Clark That the Subject Will Be Submitted to the Council.

Poughkeepsie May 27th 1778.

Sir, I rec'd your Letter of the 18th Inst. yesterday by Mr. Rowan. Your former Letters respect'g the refusal of the Judges & magistrates to qualify & take upon them the execution of their offices were also some time ago delivered to me. The repeated Complaints from your County of abuses committed by Committees & military Officers gives me great Pain and it is much to be

regretted that those who are appointed to the civil magistracy should deprive them of the only legal means of obtaining Redress in the Courts of Justice where alone Suits might be commenced & satisfaction obtained for every grievance they complain of. By a little attention to the militia Law you will discover that it is only for neglect or refusal to perform Duty that I can try & punish Militia Officers by Courts Martial for every other Offence or abuse committed by them they are subject to prosecution in the Courts of Justice.

It is true the Council of Appointment have a Right to remove all Officers at their Pleasure & it is their indispensible Duty to remove such as Missbehave. The Petition & Complaints of the People, therefore, shall be faithfully laid before the Council who are to meet this day but even tho on a Hearing, the Complaints Should appear to be well founded & the Persons complained of removed from Office yet in this Way no Compensation is made to the Person injured. Your Courts must therefore be opened or your People want Justice. I am Sir Yrs. &ca.

Geo: Clinton.

Eben'r Clarke Esqr.

And Notifies Alexander Webster that the Courts Must Be Opened.

Poukeepsie May 27th 1778.

Sir, I have rec'd your Letter of the 19th Inst. I am exceeding sorry to hear that you have been deprived of hold'g Elections in your County for want of the Law. I understood by the Sec'y. that they were sent to the County in Season. It gives me great Pain to hear of the Complaints ag't the militia Officers. I shall lay them before the Council of Appointm't who meet this Day & I doubt not that proper notice will be taken of them. This is the

only thing in my power to do for the Complainants. To enable the Persons injured to obtain proper redress your Courts of Justice must be opened. It is, therefore, absolutely necessary that the Judges & other civil magistrates of the County qualify & enter upon the Execution of their offices without Delay. It gives me Pleasure to hear that the Board of Commiss'rs are likely to be useful in your County; but tho' that Institution is well calculated to detect & defeat Conspiracies & awe the Disaffected yet the ordinary Civil Magistracy is absolutely necessary to maintain the Peace of the County & administer Justice among the well affected Subjects. NEW YORK AND THE HAMPSHIRE GRANTS.

Opposition to the Appointment of a Sheriff—Efforts to Hold Vermont to New York.

To his Excellency George Clinton Esqr. Governor of the State of New York, General of all the Militia, and Admiral of the Navy of the same; and to the honorable the Council of Appointment of the said State.

At the Request of a number of respectable Inhabitants of Brattleborough in the County of Cumberland, I do certify as follows, to wit, That on the eighteenth of May instant I saw Simon Stevens, Esqr. of Springfield, in this County, who informed me that he was elected a Lieutenant Colonel under the New State. That he had not then received his Commission, and was not determined to accept it. That he had nevertheless, since his Election, written Letters to several Captains to furnish their Quotas of Men, (which

I understood of Men directed to be raised by the Government of the pretended State of Vermont). That his reason for giving the Orders was, that he thought it necessary the Men should be raised, and did not think best to be too critical in examining by what authority (or words tantamount). That his Sentiments were the same as formerly, respecting the New State. That he declined signing the Protest agreed to by several Towns against the pretended State of Vermont, because he had promised not to act in favour of New York, until the Return of the Agents, which the Council of the New State were about sending to Congress.

That upon what Capt'n James Clay had said to him, about being appointed Sheriff of this County under the State of New York, he had concluded (if appointed) to write to the Assembly, and if they would engage to indemnify him against any Damage he might suffer by accepting the office, he would execute it; otherwise not.

Micah Townsend.

Brattleborough 27th May 1778.

* * * *

The Inhabitants of the Town Brattleborough, in the County of Cumberland, having understood from Captain James Clay, that the Government of New York intended to appoint Simon Stevens, Esqr., Sheriff of the said County, that the Inhabitants thereof, who are well affected to the State of New York, may have an Oppertunity of sending Representatives to the Assembly at their next sitting, if the Advocates for a new State will peaceably permit an Election to be held; and from the Information contained in the inclosed Certificate, as well as from common Report, apprehending that if Mr. Stevens is appointed to that office, the Voters

in the County will be once more deprived of their Priviledge of electing Representatives in Assembly, and giving their voices for a——* and imagining that your Excellency, and the honorable Board, by reason of your Distance from us, are so little acquainted wth the attachment of particular Persons, in this part of the Country, to the State of New York, that a Recommendation to that Office, by this Town, although not strictly regular, (yet being the best that can in so short a time be obtained) may not be displeasing:—We take the Liberty of Recommending Major Hilkiah Grout, of Weathersfield, in this County, as a Person well attached to the Government of New York State, and as the most proper of any in the County, that we have heard of, who are willing, in this difficult day, to accept of the Sheriff's office.

Signed by an unanimous Order of the Town Meeting held in Brattleborough 27th May 1778.

Sam'l Warriner, Moderator.

P. S. The Committee of the Town of Hinsdale, having been consulted upon the Subject, approve our recommending Major Grout to your Excellency & the honorable Board for the office above mentioned.

Brattleborough in Cumberland County May 27th 1778.

May it please your Excellency, We were directed by a Convention of Committees from several Towns which met here the last month, to send one Copy of a Protest which they had signed to your Excellency, one other to the Press at Hartford, in Connecticut, and another to the assembly of the pretended State of Vermont. Having a Convenient Oppertunity, we forward the one to your Excellency before the signing is fully completed.

We also inclose a Copy of a circular Letter sent by the Convention to several Towns in this County, recommending the Choice of Committees; the principal Design of which we apprehend is to preserve Union amongst the Friends of New York State, & enable them to act with Unanimity as Occasions offer, for increasing the Number of the Friends of New York Government, & with Expedition to carry into Execution such Directions as they may receive from your Excellency.

The Assembly of Vermont, at their Session in April last, directed a Body of Men to be raised to compleat Colo. Warner's Regiment; the Council have since, we are told, altered the Plan and propose to have the Corps for the Defence of the Grants only. It is with Pleasure we can assure your Excellency, that in this part of the County no Soldiers have been raised for that Purpose, even in those Towns who are the warmest advocates for a new State; the People not thinking proper to obey their Rulers, when it is inconvenient for them to do it. Nor do we hear of any being enlisted or drafted in any part of the County, although the time fixed upon for beginning their Service was the 1st instant.

It is with real Concern we are able to acquaint your Excellency, that it is too general a Topic of Conversation, among the Enemies of New York State, that they will maintain their New State, even if Congress should be opposed to it—because they had as good a right to declare themselves independant of New York, as the Congress had of Great Britain. To what Lengths this Doctrine will lead them may easily be seen. It appears absolutely necessary to the Friends of New York State in this part of the Country, that Congress should, in an explicit manner, recommend to these People to yeild their allegiance to the State

of New York, before they have time to reason themselves out of their Senses:—if it is not done soon, it will perhaps be omitted till none of them will pay any regard to the Recommendations of Congress. Besides, as we are not likely to be troubled this Summer with any considerable Body of British Troops, it seems to be the most favourable Season for settling internal Tranquility, and enabling this extensive part of the Country to act in the Common Cause with Vigour and Unanimity, when the Circumstances of the Continent may require it.

Those who have taken the Oath which the Constitution of Vermont requires to be administred, previous to voting at Elections, are in this part of the County, and by the best Information we can get throughout the Grants, a very inconsiderable Number compared with the Inhabitants at large.

We are pleased to have it in our Power to acquaint your Excellency, that your Proclamation, of the 23d February last, has been productive of some Good in this County, notwithstanding the many unmanly artifices made Use of by the New Statesmen to prevent it. We are Your Excellency's most obedient Servants,

Micah Townsend.

Israel Smith.

COLONEL UDNY HAY SUBMITS A GREAT PLAN.

*Which Governor Clinton Promptly Crushes—In the Interest of the
 Farmer.*

Fish Kill, May 27th 1778.

Sir, As we are beginning to form an Army which will make it
 necessary to have a Number of Waggons from this State to be
 kept Constant for the Ready removal of the Baggage on all Occa-
 sions when the General shall think it necessary from a desire to
 observe a Strict Impartiality in my Demands on the Different
 parts of this State for Waggons or any thing Else which it be-
 comes my duty to procure & they by law are obliged to furnish,
 I take the liberty to beg your Excellency would Reecommend to

me, some person well acquainted with the Resources of Every District to whom I would for the Time he might be wanted, allow a generous Price in Compensation for his Trouble. Otherwise we Shall be Apt from our Ignorance of the Country to make our demands Cheifly from the vicinity of the Camp which I am sensible would be an act of Injustice and which by the assistance of such a person as I have described might be easily avoided. Permitt me further to Inform you of the Great inconvenience which arises from so few Justices of the peace being Sworn into Office, the nearest to this place is Thomas Storm Esq. Distant Ten miles. Would Time have permitted, I should have done myself the pleasure of waiting on you myself. I have the Honour to be with due Respect Hon'd Sir Your most obed't humble Ser't

Udny Hay.

His Excellency George Clinton Esqr.

Poughkeepsie 28th May 1778.

Sir, I have received your Letter of the 27th Instant. To have the Teams of the Farmer constantly in the Field for the removal of the Baggage of the army appears to me to be a new and very extraordinary Measure. I know of no Law to warrant Impresses for that Purpose, and I am sure, however, impartially managed it woud prove very distressing to the Country & tend to the Discouragement of Husbandry. The Farmer has hitherto chearfully furnished his Team for transporting Stores & Provision for the Army on extraordinary Occassions, & for the removal of Stores on any sudden Emergency, But the stated Number of Teams wanted for the ordinary Use of the Army have always been furnished by the Quarter Master Genl. or his Depnties at the Expence of the Continent. I must decline recommending any Per-

son to act in the Quarter Master's Department as an Assistant. It is my Duty to Correct Abuses committed by them & while I execute that Trust faithfully I will at the same Time grant you every Aid in my Power. I am Sir Your most Obed't Serv't

I will endeavour to have a greater Number of Justices qualified in your Neighbourhood.

Gouverneur Morris Submits a Questionable Plan for Regimental Promotion.

York Town 28th May 1778.

Sir, I take the Liberty of observing to your Excellency that as the appointment of Officers to a Colo., is in the several States, so after the arrangement of the army which I hope will soon be completed, some mode Should, by the State, be adopted to keep the Regiments full as to Officers, and some Line of Promotion chalked out for their Satisfaction. What I have to propose is, that the General, or the General who may command in a separate Department, be invested with the Power of filling up vacancies in the following manner, to wit: that from an Ensign to a Major exclusively the Promotions shall be in the Regimental Line and from a Captain upwards in the Line of the State. That generally Seniority shall be regarded but that a Power be given in extraordinary Cases of merit or Demerit to vary from that Principle. These things, Sir, I take it are within the Province of the Council of Appointment, and they will doubtless see the Propriety of giving to the General under whose Eye our troops may be placed the Power of rewarding their Bravery and Conduct or of punishing

by neglect the want of these necessary Qualifications. This will give Zeal and Energy to the Service but I will not dilate upon a Proposition of which you will at the first Glance discern the Propriety. I am with great Respect Your Excellency's most obed't & humble Servant

Gouv'r Morris.

Colonel Hardenbergh Appeals to Governor Clinton for Advice and Writing Paper.

New Hurly Ulster County May 29, 1778.

May it please your Excellency, I this moment Rece'd Orders by your Hon'rs Command, that the officers Commanding Corps of

militia, are forthwith to See that their Different Corps are properly provided with arms &c., agreeable to the militia Law; and that Such of the Exempts as have not associated themselves agreeable to the said Law, are to be forthwith enrooled in the Company of the beat wherein they Rispictively reside.

Which militia Law we are unacquainted with, not haveing had Oppurtunity of obtaining the said Law, because they were not to be had, & of Course Do not Know to act agreeable.

I wou'd Remind your Hon'r, that about Last Fabr'r Collo. Hasbrouk (by your order) made a Return of the state of the Regt., and Lodged it, in your Office, wherein was noted the Several Vacancies of officers and Expected then, as it was (by your Hon'rs urgent order) that the Regt. wou'd have been fill'd up with Officers & Commissions, the officers in Genl. Looks on their former Commissions to be out of Date, & of no effect, and expects their New Commissions.

I Dont think it is in the power of the Officers of this Regt. to perform the Duties Imposed on them by the said militia Law, untill the Vacancies in the Regt. are filled up & the Others Served with new Commissions—therefore wou'd beg your Hon'r to Endeavour the forwarding the said Commissions that the Regt. might be in perfect Order. Your Hon'r will perceive by the Return From Collo. Hasbrouk, that the Capts. Lieuts. & Ensigns, made a promise to Except of the Commissions as he Returned them, but the field & Staff Officers did not Ingage to Except of New Commissions. Collo. Hasbrouck then Laid down the Command of the Regt. & Indeed Ever since Refused to act, the Rest of the field Officers, In perticular Maj'r Dubois, Seems to Decline, what he may do (if Offered) I will not say, Who Ever I hope your Hon'r will Endeavour to Complet that matter as soon as Possible.

I will Endeavour to answer the purport of this order as far as is in my Power. I Remain with Great Esteem Your Verry Humble Obedient Serv't

* There seems to be as much uncertainty over the date of this affair as there was for many years over the date of the burning of Kingston. If the date of document No. 1447, printed above, is correct, Cobleskill was attacked on Saturday the 30th of May. But this date disagrees with that given by a number of historical writers. Stone, a very careful writer, has mentioned two dates in his life of Brant. The second date he fixes as the Saturday preceding Whittsunday, which in 1778 fell upon May 31st. Brown, in his pamphlet history, erroneously places the date as the 1st day of June or July in the year 1776, but in a subsequent interview, admits the error but erroneously makes the date Saturday, June 1, 1778—June 1, 1778, having fallen on Monday. Campbell, another trustworthy historian, is far out of the way as he gives the date as May, 1779. Saturday, May 30, 1773, is unquestionably the correct date.—STATE HISTORIAN.

I shall send them all the Relief in my power, but I assure you it will be a slender Reinforcement.

I have apply'd to General Tenbrooks for his militia, & he has promised to assist me as soon as Church is over; he cannot do any Business before, for fear of Frightning the Town into fitts.

Should be glad to have some few field pieces for the protection of this Quarter, as we are weak in men, and weaker in artillery; If you could spare me one Regiment more, I think it wou'd be highly necessary for the benefit of the United. ALBANY SURE ENOUGH ALARMED.

*The Mayor and General Ten Broeck Present Its Unprotected
Condition to Governor Clinton.*

Albany May 31st 1778.

Sir, We enclose your Excellency Copy of a Letter received from Schoharry; alarming as the accounts from that Quarter are, we apprehend farther danger not only from the Indians collecting at Kanasedego under Mr. Butler, an account whereof General Schuyler informs us he has transmitted your Excellency, but from the numerous Tories which we are informed have within this fortnight past gone of, to join either the Enemy that have destroyed the Settlements on Cobus Kill or those collecting at Kanasedego, and at other places for Hostile purposes. Many of our Militia, Sir, are employed in the public service as Carpenters, Blacksmiths, Batteaumen or Waggoners,

and it is to be lamented that we still have too many Tories, and as it is probable that the affair of Cobus Kill will oblige all the Inhabitants on the Mohawk River to be in arms, the utmost distress must Inevitably take place from so many Hands being taken from the necessary Husbandry. We have, therefore, most earnestly to intreat your Excellency to use your Influence to procure a Body of Continental Troops to be sent up to our relief. Many other reasons might be urged to inforce the necessity, thereof, but we humbly apprehend what we have observed to be fully sufficient. Not a single Field piece is left us, nor any artillery Men, nor any fixed ammunition.

We have requested Genl. Starke to send down all the British Prisoners to Poughkeepsie to be thence sent to such place as Genl. Gates shall direct. We are your Excellency's most Obt. Serv'ts By order of Common Council.

GENERAL SCHUYLER'S SPY.

His Successful Mission to Crown Point—His Statement Given to Governor Clinton.

Albany, June 2d 1778.

D'r Sir, I have the Honor to inclose your Excellency a paper containing some Information given me by a person, whom I sent as a spy to Crown Point about the Middle of last Month and who returned to me yesterday.

I have the fullest Confidence that what he has related, has been communicated to him, but whether as the real Designs of the Enemy or not I cannot pretend to say.

It is however certain that the Spirits of the Tories in this quarter are greatly raised; that they are full as audacious as ever; that they are seen going to the westward in considerable Numbers, and that some have hinted that an Army will soon appear on Hudson's River.

The Letters to Congress and General Washington contain Copy of the Information—will your Excellency please to forward them by the first Conveyance and, if you think proper, advise General Gates of the Information? I have the Honor to be with great Respect and Esteem Your Excellency's most obedient humble Servant

Ph: Schuyler.

His Excellency Governor Clinton &c.

J. F. of —— Informs that agreeable to his directions he left —— on the 17th of May, that on the Saturday morning following he arrived four miles north of Crown point, that about noon a gun boat from one of the Ships came on shore, that he went Into It and was carried on board one of the ships, that there were three ships at anchor; that he saw about 7 or 8 Gun Boats, and

two ships or vessels about three or four miles farther down the Lake; that one of the three ships had three masts, the others two; that he was on board of that which had three masts; that she had sixteen guns on board; that he does not know how many the others had; that some of the Gun boats had no great gun but had swivels; that when he came on board the captain asked him from whence he came, and what business he had there; he answered that he came to see If any of his friends were there and to Inform them how their families were; and he told him from what place he came the Captain said he believed he was a rebel and a Spy and would send him to Canada; upon which the Informant told him who they were he wanted to see, and If any of them were on board they would know that he was a loyal subject of the King. That soon after three men came Into the Cabbin and the Captain asked If he knew any of them, he said he did not, but believed he had seen one (pointing to a small man) In Gen: Burgoyne's Camp at Saratoga; that the Capt. then asked If he knew Capt. Jonathan Jones; he said he did upon which the Capt. ordered him to be sent for, that when the person was coming Into the Cabbin the Informant said that was not Jonathan Jones but John Jones; that he shook hands with Jones. The Captain asked Jones If the fellow might be depended upon, Jones said he was a true man and had always been a friend to the King. The Capt. then enquired what rebels were at Skensborough or lake George he answered from what he could learn about one thousand; he asked what news was Stirring amongst the Rebels; he answered they were In high Spirits that they said Great men were coming over to Settle all matters but that they would not, that they had made an agreement with France. The Captain asked him If he had heard that the army was coming from Philadelphia to New York; he said he had

not; the Capt: replied they will soon be there; and asked what the Rebels intended by building batteaus at Saratoga; he said he did not know, but believed for carrying provisions to Fort Edward for their men; after a variety of other questions of no Consequence he was sent Into the Steerage where they gave him dinner, Late In the afternoon was sent for Into the Cabbin and the Capt: told him that none of the people he had particularly inquired for were on board any of the ships, but that Jones would Inform them of what he had to say; that he might go back and tell such of the King's friends as might be depended upon to keep themselves In readiness, for that the rebels would soon be In several quarters; That the army from Philadelphia was to come up Hudson's River; that the Indians were to attack the frontiers and that two thousand men Lay at Isle-au-noix ready to Imbark on board of Batteaus whenever the orders should come; that one thousand of these would land near Castletown to alarm the Grants, and the others at Skensborough and march to Fort Edward to keep the Inhabitants In this Quarter In alarm; that the King's friends on the Grants would join those that landed there as soon as they were Informed that the fleet was coming up the river, and the King's friends In this quarter, those at Skensborough. That he saw no Soldiers except about ten or twelve; that there were only nine Tories on board the Ship he was on and was told very few on board of the other Ships, that he knew none but Jones and two men who used to work at Jones's; that he thinks he has seen one of the others whom they called Capt. Adams;— that he was furnished with provisions Shoes & Stockings and Set of from the Shipping on Sunday accompanied by two Indians as far as near to Jessups patent. That the Capt. of the Ships name is Robinson. That they

seemed to have plenty of fresh provisions, that there were Six Indians on board,—further sayeth not.

GOVERNOR CLINTON AND THE FRONTIER.

The Militia Must Be Dependd Upon—Too Many Details for Staff Departments.

Poukeepsie 2d June 1778.

Gentlemen, I received your Letter of the 31st Ultimo this Evening by Express. A copy of the same Letter which it inclosed giving the mellancholly account of the Desolation of the Settlement of Cobus Kill & the Defeat of the Detachments of Continental Troops & Militia there was transmitted me by Genl. Stark and received this Day at Noon. A copy of the former Letter wrote by the Order of the Corporation of Albany requesting me to use my Influence with Genl. Gates to leave a Regiment of Continental Troops in Albany to Guard the public Stores & Prisoners there, with the Papers accompanying the same, was forwarded to him as shall also a Copy of your present Letter with its Inclosure. Tho I Cannot entertain the least Hopes that Genl. Gates will or can send a Body of Troops to the Northward on the present Occassion, however alarming, since it is not longer ago than the 30th Ultimo he made a Requisition of 2000 of the Militia of this State to reinforce the Army under his Command in which he was warranted by General Washington's Order, and by a variety of accounts of extraordinary Preparations making by the Enemy in New York & Concurring Circumstances, which indicate an Expedition most against this Quarter & Strengthened by preparations of the Enemy to evacuate Philadelphia in which

Case they might with their whole Force united be able to act ag't us, before our Main Army could arrive to relieve us. Under these Circumstances I conceived it my Duty to issue my Orders of the 30th Ult. for calling into actual Service Detachments from several Militia Regiments of the Southern Parts of the State including four of your County a Copy of which I transmitted to Genl. Tenbroeck.

The only Hopes I can, therefore, entertain of Safety for our Frontiers is, from the spirited Exertions of the Militia, as I need not mention to you that they are the only Force which I have authority to call upon for this Purpose. I flatter myself that a Proportion of the Militia of Albany & Tryon Counties equal to that called into Service from the other Regiments in the State for reinforcing the Army under General Gates, will make so respectable a Force as not only give safety to the Frontier Inhabitants but be able to expell the Parties of Torys & Indians collecting & collected to disturb their Peace. For this End I have issued my Orders to Genl. Tenbroeck which will accompany this.

I fear the great Number of your Militia said to be employed in public Service is rather an abuse in the Quarter Master & Commissary's Department, affording many an Excuse to screen themselves from Militia Duty, whose Employments are merely nominal and it is my Desire that this Matter be strictly inquired into by the Commanding Officer of the Brigade & the Abuse if any reported to me that it may be corrected. When I was favoured with the Account from Genl. Schuyler aluded to in your Letter I immediately wrote to his Excellency Genl. Governor Clinton Diverts Colonel Cantine's Command from West Point to Schoharie.

Poughkeepsie 2d June 1778.

Sir, By my Orders of the 30th Ultimo which I sent you by Genl. Scott, one fourth Part of your Regiment & Colo. Snyder's, The Kingston Companies &ca. excepted, were called into actual Service to reinforce the army under the Command of Major Genl. Gates to rendezvz for that Purpose at Fort Arnold (West Point) & there

measures you have taken to recover the box.† I am happy to find, by a letter from General Schuyler, that the Indian nations, which had discovered an unfriendly disposition, seem to be well affected, and to afford grounds to hope for a friendly alliance between us. If this can be effected, or if we can only keep them from falling upon our frontiers, it would be a fortunate circumstance; as we may not only then employ nearly the whole of the Continental force, wherever Sir Henry Clinton's movements require it, but also derive greater aid from the militia in cases of exigency. Our treaty and alliance with France, when well understood by them, I am persuaded will have a favorable influence on their conduct.

That the enemy mean to evacuate Philadelphia is almost reduced to a certainty. It is as much so, as an event can be, that is contingent. Their baggage and stores are nearly if not all embarked; and, from our intelligence, there is reason to conclude, that many days will not elapse before they abandon it. All accounts concur, that New York will be the place of their first destination. Whether they will move by sea or land cannot be ascertained; but the weight of circumstances is in favor of the latter. I have sent a brigade to Jersey, which, with the militia I expect will collect under General Dickinson, I hope will give them some small annoyance; more cannot be done. If the States had furnished their quota of men, or any thing like it, and the great departments of quartermaster and commissary had not been in a state of almost inextricable confusion, a more favorable opportunity could not have presented itself for giving the troops in Philadelphia a decisive stroke. After the enemy have passed through Jersey, if that should be their route, or embarked, the brigade, which is there, is ordered to proceed with all possible expedition to Newburg; and the main body if not the whole of this army will move immediately after the same way. This I mention for *your own* information. I thank you much for your exertions to complete your battalions. Colonel Malcom's regiment will proceed with the rest of the army, and will then have an opportunity of recruiting."

† In the battle of Princeton a small box was taken from the enemy, which was supposed to contain hard money. It was put into an ammunition cart, and disappeared. Suspicions had recently rested upon a subordinate officer in the army, who was at this time in the State of New York. Governor Clinton's aid in detecting the theft, and recovering the box, had been solicited.

wait further Orders The Intelligence contained in the inclosed Copies of Letters which I have this Moment received of Depredations committed by the Indians & Tories at Cobus Kill, near Schohary, induce me to urge the getting the Men out with all possible Expedition, and Instead of marching them to Fort Arnold, station them on the Frontiers in such manner as most effectually to protect the Inhabitants from the Ravages of the Enemy till further Orders. I have not Time to write to Colo. Snyder Tho I mean his Regiment shoud be included in this Order. I must, therefore, begg you to transmit him a Copy of this Letter. I am your most Obed't Serv't

P. S. I think it woud be adviseable to bring off the Disaffected Persons, their Families & Effects, on the Delaware which will prevent their Harboursing those in arms, giving them Intelligence, or Supplies of Provision but woud have you advise with Genl. Scott & Colo. Pawling before you attempt this.

LEAD MINE EXPLORATIONS A FAILURE.

Expert John McDonald so Reports from Work in Ulster and in the Present Columbia and Dutchess Counties.

Marble Town June 3d 1778.

Agreeable To your Excellency's advice I have Continued McDonald in the business of exploring mines. Your Excell'y will perceive by the inclosed reports the progress he has made, From the whole every circumstance Considered I do not Conceive it will turn out to any advantage to Continue the works upon the present plan any longer; indeed the Sum ordered to be expended by the Late Convention in this business is altogether insufficient to prosecute the works to any Effect, and the Sum we have drawn tho not the full amount of the sum we were authorized to draw, is expended. However, I thought fit to Send McDonald to your Excellency before I discharged him, that your Excellency might

be enabled to obtain from him a True State of facts relating to this business, and to advise your Excellency of my determination to decline doing any thing further in the matter. I have the honor to be Your Excellency's most Obedient hble Serv't

McDONALD'S REPORT.

Rochester Lead Mine June 3d 1778.

Sir, In Consequence of your advice of the 5th May last have Cleared & Search'd the pit lying next to the Top of the Mine mountain in which could not discover but the Tract of a Vein—have opened the Ground in two different places where it had not before been opened, out of which digg'd 2 ht Weight of ore, the Veins of said places is almost Run out; therefore I Dropt pursuing them. As to my Searching by Blasting with Powder into the Large pit, would be so precarious with Green hands, when my Setting a fire to the Matches in the Bottom therein, might, through their Ignorance in the hurry fetching me up, get themselves so Entangled handling the tools, that thereby getting lost both them & I Besides it would be under all Manner of Disadvantage to Sink the Public Money without doing proper Execution, owing to the Water prevailing; but making a form of Communication between the Level & the pit Would prevent all the Obstructions of the Water. At the Top of said pit, Discovered ore in Six different places as are to be seen Yet. And by my Exploring Since, may to hitherto have in its Course of alteration, found out the only plan of Working into this Mine for making the proper tryals of Experiments, if otherwise Declined from putting in Execution my hearty advice in the Behalf of the Public is to give up prosecuting thereat. The 1st tryal is to begin where the ore found in Six places at the Top of the large pit pursuing to the Extent of 12 yards to the South East, 6 feet in Depth & 3 feet in Breadth or more if Occasion requires.

The 2nd tryal is to form Compleatly a Communication between the Level & the Pit. 3d Tryal is after the Passage is accomplished to drive 12 yds. from the Bottom of Said Pit to the South East upon the Tract of the Vein and keeping the height & Breadth conform to the Vein & advantages for Working. 4th Tryals in four different places & Each to Extend 6 feet in Length, 6 feet in Depth & 3 feet in Breadth with Allowing 120 Days to be Spent by 3 Miners & two Lab'rs and that actually in Searching & opening Where Supposed the Veins of ore do Lye in the Mine Mountain the said four tryals I Allow to be made where Veins are found Crossing the Line where all the other tryals must properly Keep their Courses. Now without accomplishing the above Tryals to its full Extents as mentioned Whether Barren or Yielding ore it will be an Entire Folly to proceed any further in Exploring thereat. Therefore, I shall Express my Utmost advice to you in few Words (that is to say) Before you or any other undertake the Management of working this mine, be first Impower'd by his Excellency the Governor, with Four thousands on purpose to be Laid out in making Experiments here; otherways it is not worth while to Employ Smith & Workmen with Building houses, together with all such Articles as the Mining Bussiness Requires, You know I disdain to Flatter Contrary to my Conscience, Whereas I had many Oppertunity's to do it, but having always given up my Contracts when I found it to be the publics Disadvantage &c:

I have Discharged the Labourers Untill your further Determination Concerning this Mine or any other Mine or Mines. I Expect an answer immediately after your Reading this. I am under all Disadvantages of wanting a house, Garden, Corn, planting, & a Cow Grass because I did not Chuse to wrong the public Wholy to the least of my self Interest. Sir, I am Your Most Obedient And Most humble Servant

John McDonald Miner.

To Matthew Cantine Esqr. at Marble Town.

Concerning the Lead Mine of New Canaan of Kings District, Albany County: In Febr'y. 1776, there I found a Vein of ore

which appeared about 60 Rods in length in a ledge of Limestone, Mixed with White flint & Lying South & North, at the South end of which the Ground falls about 30 feet, below which the Water cannot be Drawen by a level; Which Vein has been Opened about 18 feet in Length, in Which found the ore in Bodies, in Different Shapes about 4 Inch Diameter lying about 3 feet Distance. The only & prudent plan in the first Rule of Mining is to Sink a pit of 30 feet in Depth, Extending the same 18 feet & 6 feet in Breadth. Where the Best Vissible prosspects are to be found, there is ore to be seen in 16 Different places. Where I would advise to begin the said Sinking and if Successful, after accomplishing the same, the 2nd Rule is to Drive a Level from the said falling of the Ground; 3d Rule is to Drive Cross Cutting when meeting Veins Crossing the Line of said Level; Also to Make proper Searching in all the Bounds where supposed to Make a Discovery by opening the Ground. Mat: Adgate who then was a Chairman of the Committee of said District, Conducted me to said Mine by order of the Late Congress at New York. I Explained to him the above Particulars; he perfectly understood the Methods and Wrote to the Congress Concerning its Circumstances.

Relative to the lead Mine in the Nine Partners in Dutchess County: there the Veins of ore are Lying West & East in a Ledge of fine Limestone, mixed with White flint; there's near to 60 Veins to be found within 400 yards in Length from North East to South West, Severals of Which I opened and found Each yielding a little quantity of ore at the North East end, the Ground falls about 34 feet, Which Requires Sinking two Pits and afterwards Useing Equally the same Rules & Directions, as Described by me.

Relating the above New Canaan Mine, I mean after finding at the accomplishing of Sinking two pits, 34 feet in Depth, 12 feet in Length & 4 feet in Breadth, the appearances therein to prove Successful for the Public;—there is Reports of Mines in Several other places Within this State, but without proper authority I

dont incline taking Inspection of them. Jonathan Landon, & Lewis Graham Esqrs. knows, as Spoken of the Nine Partners Mine Especially, Ezra Thompson there. The Mining Business will absolutely require its proper Supply of Good Conduct to point out the proper Rules of Working according to the Circumstances of the Bounds, wherein Such mine or Mines Shall or may be Explor'd.

The New Canaan Mine is in a tract of Land which never been Granted or Patented to any person. The Inhabitants holds it by Possession only.

Agreeable to Orders this an Extract from the True Copy's of the former Reports of the aforesaid Mines.

THE HAMPSHIRE GRANT DISPUTE.

*Governor Clinton Advises the Friends of New York to Stand Firm
and to Recommend for Office Only on Merit and Ability.*

Poughkeepsie June 3d 1778.

Gentlemen: I acknowledge the receipt of your Letter of the 27th ultimo with the several Papers inclosed in it.

It is with pleasure I find that a considerable Number of the Inhabitants on the Grants, are so Attentive to the Dictates of Reason and Justice, and possessed of so much Spirit as publickly to Oppose the ridiculous and destructive Scheme of erecting these Lands into an Independent State. I was in hopes that in consequence of the generous and equitable Terms held out in my late Proclamation, the whole Country whatever Injuries they might have received from the former, would be convinced that

the present Government, was Disposed to do them Ample Justice, and consequently that they would again have Acknowledged it's Jurisdiction.

What will be the Event of this Affair, it is impossible for me to presage, Yet as the Legislature Appear to me, equally Determined "to decide every Case respecting these Contraverted Lands according to Justice and Equity without adhering to the strict Rules of Law" and to Assert and Maintain their Authority over them at all Events, I may Venture to Declare, that should these Imprudent People still persist in their Ill judged and Unjustifiable measures that the Consequences will be Serious and Maloncholly, and to them particularly Ruinous and Destructive.

The Papers contained in your Letter, will be laid before the Legislature, at their next meeting, but whether they will have time to Enter upon the Business is doubtfull, as the Sessions will continue only a few days, and their Attention will be wholly Ingrossed by Matters that respect the Operations of Warr, and, consequently, will require immediate Dispatch, but from the very favourable Prospects, that have lately presented themselves, I trust We shall be in such a Situation, when the New Legislature is convened in the Fall, that we may be Able to turn our thoughts, to the Settling our own internal Affairs, without prejudice to the common cause, when you may be Asured, that measures will be Adopted to Inforce a due Obedience to Government, throughout every part of the State. In the mean time let me recommend it to you, and every other Person Attached to this State, to persist in your Opposition, and upon every Occasion to bear your Testimony against those, unwarrentable Proceedings. I daily expect to recieve from Congress a full and explicit Resolution upon this Subject, and have not the least doubt but that

they will Condemn the Conduct of these People, and Consider the Faith and Credit of the whole Continent as concerned in Supporting the Authority of every State, over all its Members.

It would be Adviseable for the Friends to this State, as soon as possible to form a Roll of Judges, Justices, and other Magistrates for the County, and let it be Transmitted to me immediatly to be laid before the Council of Appointment—As we shall in all Probability, be utter Strangers to the Persons to be Named in the Roll, and shall Appoint them to the Magistracy solely upon the Recommendation of our Friends—I hope the Roll will be formed with the Utmost Candour and Impartiality, and that none will be recommended, but only in Consequence of their Merit and Abilities. I am with due Respect

Geo. Clinton.

P. S. It will be well also to make out a List of Persons most proper for Militia Officers in your County & let it Accompany your Civil List.

To Michah Townsend and Israel Smith Esqrs.

Governor Clinton Notifies General Gates of the Fact that Reinforcements Have Been Ordered to Him.

Poughkeepsie 3d June 1778.

Dear Sir—In Compliance wth your Letter of the 30th Ultimo I have issued Orders for Detachments from several of the Militia Regiments of this State to reinforce the army under your Command equal to your Requisition (including those under Colo. Graham). But I fear the disagreeable Accounts contained in the inclosed Papers, which I presume have already been transmitted to you by Genl. Stark, will call the Attention of great Part of

them to a different Object, especially those ordered from four Regiments in Albany County & the two Regiments in the North End of Ulster, the latter having a Frontier equally exposed to the Depredations of the Savages & the Apprehensions which it appears the People of Albany labour under Will prevent the others marching this Way. The Residue shall Join you with all possible Expedition & in Case of any sudden Emergency which may require a greater Force, be assured no Pains shall be spared to render your Strength more Formidable. I am very apprehensive the Savages & Tories who are collected & collecting on our Frontiers will lay waste great Part of the Country so that even those who are not in real Danger will on this Sudden alarm move in & neglect their Farms nor do I believe they will have such Confidence in any Force of Militia we could send them as to induce them to continue. Yrs. &c.

Governor Clinton Sends the Statement of General Schuyler's Spy to General Gates.

Poughkeepsie, 5th June, 1778.

Dear Sir, I send you inclosed a Copy of a Paper I just now received from Albany containing Information given by a Person who was sent out as a Spy to Crown Point about the Middle of last Month & returned the 1st Instant. I believe the fullest Credit may be given to the Informant's Account so far as it respects himself, but whether the Real Designs of the Enemy have been communicated to him must as yet remain uncertain. There are some Concurring Circumstances which in my Opinion gives it a Degree of Credibility such as the Spirit of the Tories on the Northern Frontiers being greatly elated, considerable Numbers of them going to the Westward supposed to Join the Indians, The Appearances of an Intention of the Enemy to Evacuate Philadelphia their Movements and Preparations in New York.

I have nothing else new from the Northward & not a Word from any other Quarter. Believe me Yours Sincerely

DEFENCELESS TRYON COUNTY.

*Colonel Klock Urges the Governor to Adopt Measures for Protection—
The Governor's Reply.*

Palatine, in Tryon County, June 5th 1778.

Hon'ble Sir, Upon Notice from Colo. Gansevoort, Commandant at Fort Schuyler that Joseph Brant (a Mohock Indian of Note) was on his way from Achquage to make an Attack on the German Flatts, I marched a considerable Part of the Militia to Cherry Val-

ley thinking it more probable that Brant's Attack would be on that Settlement, and left Colo. Bellinger with his Regiment at the German Flatts for its Defence.

Your Excellency has I doubt not already been informed that the Enemy to the Number of between 300 & 400 came to Kobels Kill where they burnt nine Houses; at which Place some Continental Troops and the Militia from Schohary attacked the Enemy, but through Inferiority of Numbers were obliged to retreat with the Loss of 16 Men killed and five or six burnt in the Houses. After which a Party of the Enemy came to Durlach a small Settlement near Kobels Kill where they plundered one House only. On Tuesday Afternoon Messrs. Matthew Warmood and Peter Sits both Officers were killed and scalped by the Enemy on their way from Cherry Valley, to which place the latter had been sent Express. Yesterday Morning I received undoubted Intelligence by my Scouts that Brant had the Day before retired from Kobels Kills probably to Unadilla upon which I discharged the Militia except about 150 Men whom I left in Cherry Valley to be relieved weekly by the same Number.

I should be happy to draw your Excellency's Attention a little to this frontier County, as I beg leave to represent that, unless a Body of Troops is marched directly to Unadilla in order to drive the Enemy from thence and destroy the place, the Enemy will constantly make such Depredations upon the Settlements that it will of Course (which in some Measure is already the Case) necessitate the Inhabitants to leave their Places and prevent, not only them but all others to pay that Attention to their Farms which is so necessary for their Subsistence; besides, considering that this County is one continued Frontier, exposed on all Sides to the Inroads of the Indians, it is impossible to defend any Part of the

out Settlements, as it is out of our Power at most Times to obtain any Notice of the Enemies Motions till they are ready to strike their Blow. The Blow being struck before the Militia can come up, they leave the Place and go to another.

Unadilla has always been and still continues to be a common Receptacle for all rascally Tories, and runaway Negroes. This being the Case I intreat your Excellency to afford us all the Relief in your Power as we have Reason to expect that otherwise we shall be in one continued Alarm all the Season. The Consequence of which is very alarming to us.

June 6th. Since writing the above I received Intelligence by Express from Colo. Fisher who was left at Cachnawage for the Defence of that District, that the Enemy had appeared to the Northward of Johnstown, where they made Prisoners of fourteen of the Inhabitants & carried them off. Upon which I marched down immediately with the greatest Part of my Regiment.

I had not been three Hours at Cachnawage untill I had an Express that the Enemy had broke in near Stone Arabia & appeared in the upper Part of Palatine District near the Little Falls.

Upon the whole, Sir, from all the Information I have been able to obtain, the Enemy are divided into at least five or Six Parties, who appear & attack us in different places, to divide and distract us; So that by endeavouring to defend all, we are obliged to weaken ourselves in such a Manner as to be able to defend Nothing.

In this deplorable Situation I must again intreat your Excellency for all the Assistance in your Power. I have the Honor to be Your Excellency's Most Obt. & Hble. serv't

Jacob Klock.

His Excellency Gov'r Clinton.

June 11th 1778.

Sir, I have received your Letter of the 5th Instant. I am unhappy to hear of the Distresses of the Frontier Inhabitants of Your County, and you may rest assured that I will exert myself to the utmost of my Power to afford them Protection ag't the Depredations of the Enemy. I have procured Genl. Gates's Consent, that Alden's Regiment continue to the Northward & he has called for the Aid of the Berkshire & Hampshire Militia for your Relief. I have ordered Genl. Ten Broeck to call into actual Service one fourth Part, or any greater Proportion (if he shall conceive it necessary) of his Militia for that Purpose; And as I agree with you that the only effectual Means that can be pursued to afford durable Safety to the Inhabitants is to march against this Banditi to the Places they assemble & Rendevouz, & route them, I, therefore, have wrote to Genl. Tenbroeck and the Commanding Officer at Albany advising it to be done, & I trust your Militia will exert themselves on this Occasion in the accomplishment of which they are so deeply interested. The Force which can be collected will be amply competent for the Purpose. Your Most Obed't Serv't

then Encamped at Mayfeil and their Strength between three and four hunderd men, and that we might Depend upon it, they would make another Blow before they went off; this news was given by one of our Enemys to an Old and Intimate Acquaintance of his; Likewise this morning, Hans Cline, the Indian, had Inform'd Myndert Quackenboss that their had not been Danger last Evening on the River, but from this time we must take good Care, for they, our Enemy, would not go of untill they had Compleated more Mischief; so we have nothing Else to Expect but Blood Shead, and Destruction; three Small Companies of my Regiment who have been Stationd on Vroman's Creeck, have Returnd Last Evening, but, Sir, I am not able to keep them together; it seems to be the anxious Care of too many to go home to their Familys, and Indeed some principle Familys have gone from this, this morning, and will not obey any Orders; and what Discourages our men is, that their Seems to be no help or Succor to be had for them from any parts which will Releve us at present.

THE ENEMY REPORTED 500 STRONG.

Jelles Fonda and Mr. Van Horne Appeal to Henry Glen—They Represent Their Helplessness and Charge Treachery on Neighbors.

Caghnawaga, 5th June 1778.

Dear Sir, I Received your letter by Express, with the Letter from General Ten Broeck, and am very sorry it is not in your power to send us relief in our miserable situation, but I hope you will with all possible speed, send us all the assistance in your power; as I am much afraid we will soon be attacked by the Enemy; Last night about 12 O'Clock John Little from Johns town came to the Church, and Informed us that he heard sundry persons of that place say, that the Enemys place of Rendezvous was at the Fish House at Sacondaga, and by the best Accounts they are about five Hundred Strong, and a great many of our Neighbours amongst them, who have been actually seen acting against us. The above mentioned Little's Father in Law is a suspected Tory, and says that all the people at Caghnawaga and all round these parts are to be taken and their Houses burn't this day or at night. We have so many different Accounts to this purpose and from good authority that I make no doubt of the Truth thereof, but would take up too much time to mention the whole, You may depend that they have taken Charles Marinus and Son, George Coch and Son, Johannis Eckler and Family and John Reese; and all their Houses plundered and every thing destroyed. Isaac De Graef our Commissary, the aforesaid John Little, Thomas Butler and John Higgens have been there and seen all the above. A certain Henry Kelly's wife from Sacondaga, is now come into us and says that her Husband was shot dead at her side and the mills burn't there. I have also

sundry certain Accounts that John A. Putnam and twelve Families more, all living on my Lands, in that Quarter are taken and many more with them.

John Reese's wife says that the Enemy had a list with them who they were to go to and destroy. We formerly wrote you that our militia were dispersed in different Quarters, say Cherry Valley &c. a few of them are now returned, but so Fatigued that we have not yet been able to send any Scouting parties out to reconnoiter the Enemy's motion; we have had but about twelve Old men with us and some of them sickly, all our Mohawk Indians are missing, Except four Old men and are of Opinion (and almost sure) they are with this party. We wrote to Coll. Klock, where he was with the Militia for assistance, but our letter to him was brought back to us without shewing to him through a mistake. We sent this letter with the one we received from Genl. Ten Broeck to John E. Van Eps, to be forwarded to him by Express, that most the convenient side of the River to Travel in; where this mistake arises from we can't yet learn, but was obliged last Evening to send off another Express with the same Letter to the said Coll. This was the Occasion of our not having any relief sooner, as we will be Oblidged to have our militia together for some time and Mr. De Graaf has no provision nor Orders to procure any, You'll, therefore, please to send us Orders to provide for the militia during their stay, You'll please forward this Letter to the Commanding Officer in Albany and General Ten Broeck, as I have no time to write more at present, or any part of the Letter you think most proper to send them. I believe Coll. Fisher has wrote to Genl. Ten Broeck to this purpose how ever would be glad you would

send this or such part of it as you think best. We are, Sir, in

THE SITUATION AT CHERRY VALLEY CRITICAL.

*Major Samuel Campbell and Samuel Clyde Notify General Stark of
the Dangers Menacing Tryon County.*

Sir, We take this oppertunity of writing to you by Coll. John Harpur, laying before you our dangerous Situation; the Enemy on every Side of us; So that it is the hazard of men's lives; every Express we sent having lost two men already that was on that business. The inhabitants of Bowmans Creek have left their habitations, Springfield likewise, the people of Newtown Martin have come into our Settlement, and Join'd with us to make a Stand against the Enemy. They have brought their Cattle with them and families, So that in all we may reckon on a moderate computation there is 6 or 700 head of Cattle, and they all feeding within the Circumference of about $\frac{3}{4}$ of a mile, which must inevitably fall into the hands of the Enemy, if some immediate help is not sent us; and our wives and children massacred by a Savage Enemy; we have made the utmost Efforts to Stand the Enemy and Protect our Lives, and Liberty; but cannot Stand it much longer without very timely assistance; and if we Should be obliged to Give up this Settlement, consider what a quantity of provision is here for the Enemy; which would Enable them to harrass the other Settlements continually as they would hav no provision to look for.

Brandt lays but about 20 miles from us upon Charlotte River and as one party comes in, the other goes out, to the destruction

of the Smaller Settlements. The militia that is with us is quite out of Patience; and are afraid they will leave us; and was we to be attack'd in the place where we have made a Stand, Sorry we are to think so but more to Say it, there is not over 30 men that would Stand their Ground, this, Sir, is our present Situation and without help the Chief part of Tryon County must fall into their hands. Therefore, if no help can be Sent us to make a Stand, I hope You will be so kind as to order a proper force up here to Enable us to Escape with our families and bring off the Cattle, So that they may not fall into the Enemies hands; but if possible would rather have a body of men that would Enable us to drive them out of these parts, as for any further particulars we will not Intrude on Your time by writing, but refer You to Coll. Harpur, the bearer, and he can give you a General detail of our proceedings here. We are, Sir Your h'ble Serv'ts

Survivors Are Destitute.*

Schoharie, June 6th 1778

Dear General, I have taken the Inclosed Affidavit * since my last to you; the Amunition is safe, arrived yesterday afternoon, Escorted by Major Taylor and Capt. Groot with about Ninety men. I have Scouts out to all Quarters; the man whose Affidavit is inclosed I sent to a Branch of Susquehana River where it is supposed the Enemy are assembling. Soon after him sent two more to that quarter after they return, shall give you further Information of the movements of the Enemy.

I have Buried the dead at Cobus Kill, which was 14 in number; found five more burnt in the ruins of the House of one Yurry Wainer, where the Engagement has been; they were Butchered in the most Inhuman manner; burnt 10 Houses & Barns Horses, Cows, Sheep &c. lay dead all over the fields.

My Regiment has found out that the other Regiments have drafted and every fourth man is come out, which makes them uneasy. If you thought proper, should give them the same chance, but should $\frac{3}{4}$ of my men go home, my force would be small, too small I fear to stop the enemy in their Career. I shall leave a guard of 70 men at the lower part of Schoharie, all the rest of my force I shall keep at the upper part of the Settlement. Please to send by the bearer 2 quire of paper. APPROACHING FROM THE NORTH AND WEST.

The Enemy Divided into Several Parties in Order to Attack Several Places at the Same Time.

Caghnawage June 6th 1778. 11 o'Clock A. M.

Sir—I have this moment received undoubted Information by Express that a party of Indians were seen on the North side of the River nearly opposite the late General Herkemers, & that a party of the Enemy had broke into a Settlement called Dillenburgh near Stone Arabia & were destroying that place.

From the above & what already has been wrote you—you see that the Enemy are divided into several parties & attack us in different places. It is impossible for us to defend the County, for whenever we march from one place to defend another, the places we leave are attacked, in this distracted situation we once more

call upon you for the assistance we owe each other, and intreat you to send us what Assistance you can as soon as possible.

You will please to Communicate this to General Stark. Inclosed you have an Affidavit of a man who was taken by the Enemy, for your farther Information. Your Hn'b Serv't

TO THE NEW YORK DELEGATES IN CONGRESS.

*Governor Clinton Calls Attention to the Rebellious Spirit in Vermont
and to the Dangers Along Our Frontiers.*

Poughkeepsie June 6th 1778.

Gentlemen, I wrote to Congress on the 7th of April last requesting "an explicit and unequivocal Declaration of their Sense" with respect to the Conduct of the People of the State of Vermont and expected eer this to have received a Resolution upon the Subject.

From the enclosed Papers* which were lately transmitted to me from that Quarter you will readily perceive we cannot long remain quiet; for, independant of every other Consideration, Justice requires that our Friends should be supported, and consequently we must very soon have recourse to coercive measures: I am however not without hopes that a Resolution of Congress not only disavowing, but expressly condemning the Proceedings of these People, might still have a good Effect and prevent the disagreeable Consequences that will attend a Determination of the Controversy by force of arms. Many of their Adherents in the eastern States, as I am credibly informd, since my Procla-

mation, no longer espouse their Cause, but admit that as the present Government of this State has testified a Disposition to do them Justice, they ought to submit to its Jurisdiction. I must, therefore, intreat you to press this Business in Congress and to embrace every Oppertunity of calling their Attention to a Matter of the utmost Importance to this State, and in which I conceive the Continent to be greatly interested: For it is evident that a Scheme so destructive of all kind of Government and so dangerous in Precedent must effect every other State and must have a dangerous Influence on the public Credit of the whole Confederation.

Lest it might not have reached you I enclose the Constitution of the State of Vermont. The Application of the Principle contained in the 17th Section of their Bill of Rights (even admitting it to be true) to their Case ought to be particularly attended to.

I have also transmitted to you Copies of Letters I received, informing of an Irruption of the Indians and Tories upon our western Frontiers which you will please to communicate to Congress. As there are few continental Troops stationed in that Quarter I have ordered into Service part of the militia for the Defence of the Inhabitants.

I cannot conclude without again recommending it to you to obtain from Congress a Determination upon the Vermont Business as soon as possible. Until we are favored with their Sentiments we shall not be able to determine what measures we ought to pursue ourselves.

Our Legislature meets next week, and possibly among others, this matter will be the Subject of their Deliberations and could, therefore, wish to receive an Answer from Congress before the

end of the Session, which I do not suppose will continue above three weeks. I am &c.

Geo: Clinton.

P. S. Since writing the above I have received accounts from Minisinek, that indicate a troublesome Spirit among the Tories and Indians at Cashington, where they had committed Robberies & threaten greater mischief.

DUANE HOLDS GATES RESPONSIBLE.

He Urges Governor Clinton to Visit Albany—Exposed Condition of the Western Frontier.

Albany, 6th June 1778.

Sir, Your Excellency has been furnished as I am assur'd by the proper Officers with the Intelligence from the westward. It is certain that at least two parties of the Enemy have entered the Country for the sole purpose of ravaging and murdering the defenceless Inhabitants. They consist of the Indians under Brandt's Influence and our own Tories. If they had any fixed object in View, they would not be formidable but in an Enterprize merely predatory & conducted with every mark of the most execrable Barbarity, they inspire Terror & can commit infinite Mischief. I entertain'd no doubt long since, but that this Irruption would take place. I warn'd Congress of it and urg'd the necessity of leaving some Troops in the Department. My Letter was transmitted in Time to General Gates as the President informs me: but to the misfortune of the Country it has not been attended to.

I will not enlarge as I flatter myself with the Pleasure of soon seeing your Excellency here: if your other avocation admit of so long an absence from your present Residence, I am confident it will revive the spirits of the frontier Inhabitants and prevent their abandoning their Settlements. General Starke can do nothing for he will not have a continental soldier at his Command, all being orderd away. The garrison of Fort Schuyler with respect to the present Irruption, might as well be in the moon for the Enemy take Care to leave it at a sufficient Distance. Warner's Regiment is of little service being statiend on the Northern frontier: & there I am persuaded they will find sufficient Employ from the Enemy in Canada who from several accounts we may soon expect on the same infernal Errand.

I have no time to enlarge; but beg your Excellency will present my Compl'ts to Mrs. Clinton —and believe me to be—with great Respect Sir Your Excellency's most obedient & very humble Servant

Jas. Duane.

THE SITUATION IN VERMONT.

Gouverneur Morris Notifies Governor Clinton that the Vermonters Are Determined and Firm, and that Gentle Measures Are Best.

Phila'a 6th June 1779.

Sir, Agreeably to my wishes we went thro the Business of Vermont on Tuesday last. Your Excellency will perhaps be surprized that the Resolutions of Congress are so moderate in their Completion. For my own Part I am apprehensive they will not be agreeable to our Legislature. Others more pointed, might have been obtained and hence it may be concluded that the Dele-

gates of New York were inattentive to her Interests. But it must be considered:

1st That it is easier to lead men than to drive them at all Times & consequently that more may be hoped in general from gentle & perswasive measures than from Force.

2ly That Dispatch was of much greater Importance on this Occasion than on most others.

3ly That unanimity was very desirable & particularly an union of the Eastern States.

I confess I am not so sanguine in my Expectations from this Committee as some others nor indeed do I think that any step which could have been taken would have been effectual. This one promises to be most so. Those People appear to me to be determined on establishing Independence and I doubt whether they will be diverted from it but by Force. This is a Remedy which cannot at present be exhibited nor will it at any Time be agreeable to see Americans embruing their Hands in the Blood of each other. On the whole, therefore, it must certainly appear that lenient measures were most proper to be pursued.

This Letter will go by some one of the committee who are Colo. Allee, Doctor Witherspoon, Mr. Elsworth, Mr. Edwards & Mr. Root; the two former are now here, the three latter are at Home. Colo. Allee is a Delegate of this State appointed by the present assembly. As I am told that there are some Persons who pretend to beleive many Reports which have been circulated to my Disadvantage I should not be sorry that a Conversation were turned towards that Subject. I am respectfully, Sir, Your most obed't & humble serv't

Gouv'r Morris.

STARK AND TEN BROECK DOING WELL.

But Governor Clinton's Presence Desired in Albany, Owing to Scarcity of Troops and Precariousness of the Situation.

Sir, Your Excellency's favour of the 3d Instant I have Received. In a former letter I mentioned to your Excell'y that I had ordered into actual Service one fourth part of Eleven Regiments of my Brigade, but omitted the names of the Colonells, they are, Whiting, Van Ness, Robt. Van Rensselaer, Van Alstyn, Kill'n Van Rensselaer, Wemple, Schuyler, Nicoll, Van den Bergh, Van Bergen & Van Schoonhoven; the City or Coll. Lansing's Regim't, Knickerbacker's, McCrea's & Van Woert's, I have not ordered out. Genl. Stark was of opinion I ought not. The first

mount Guard in the City, the three last to be Ready to Act in the northern Quarter if necessary. I sent your Excellency a Return of Col: Wemple's Detachment at Schohary, since which about 100 more of the militia have joined Him; Yestarday 214 of my militia marched from this for Johnstown, Inclosed you have the Return. The Remainder of those ordered into Service, as soon as they come in, I shall send to Tryon County. The militia come on very Slow Indeed.

On Consulting General Stark he advises the Detaining the Detachments of the Regts. of Whiting, Van Ness & Robert Van Rensselaer, ordered by your Excellency to Fish Kill, I have accordingly ordered them to be in Readiness to march to this place at an hour's notice, Intending, as you advised, to Relieve those already out from these Regiments, as also those from the other Regts. After some short Period I had also order'd $\frac{1}{4}$ part of Col. Livingston's Regiment to this place, but with Genl. Stark's approbation, have Countermanded the order & have Urged him to send to Fishkill the Detachment by you ordered.

The Inclosed are Copies of Papers I have Rec'd. However short the Enemy may be of the number Reported, they are Sufficient to Inspire Terror and Commit murder & Depredations in too many of our defenceless Settlements, It is the misfortune of our people in General, to sink under the approach of the Indians. In many places they begin to Fly and from every Quarter call aloud for Help. I Really fear the Country will be greatly Injured by this alarming Invasion, & it Requires the Speediest & most vigorous measures to Stop its Progress; the loss of the Cattle alone which have & must fall into their hands must be Distrissing to the Publick & the Ruin of Individuals in great numbers seems Inevitable, Under these Circumstances I sub-

mitt it, whether it will not be advisable for your Excellency to Repair to this City & give the necessary orders for the Preservation of the Country. General Stark is not only a Stranger but without Continental Troops, tho I am Convinced he is heartily disposed to do every thing in his power for our Security—he has Requestd 100 men from Berkshire & 100 from Hampshire but they Cannot be Expected for some days. I am kept in Continual hurry & fatigue but shall do the best I can. I am with great Respect Your Excellency's most Ob'dt & hum'le Servant

Ab'm Ten Broeck.

His Excellency Gov'r Clinton.

This day personally appeared before me one of the Justices of the peace, Hendrick Matthias, who being duely Sworn on the Holy Evangelist of Almighty God, deposeth and saith—that his Son in Law David Brass had wrote a Letter to his Wife wherein he tells her, that he is in a good place, and that she must have good Courage, and that she should not go further from her father's house than to Migheel Brown; & further said that one Howard told last Thursday, that the Enemy was within two hours travel from his house, and he might see them if he choosed; and that the people from the Fishkill to Harpersfield had laid down their arms—and said Matthias further said, that Hannes Kneeskern told him, that all the Tories that were gone from Schohary were all with the Enemy except Nielaas & Philip Trey-meyyer; those were with Butler, and that Frederick Bouks wife told him this morning, that next Saturday the Enemy would attack Schohary, and that the Enemy laid no further than what he could go and come back in a day and a half.

THE INVASION OF TRYON COUNTY.

*Albany County Unsettled by Robberies, the Uncertainty of the Tories
and Discontent of the Militia.*

Albany, 7th June 1778.

Sir, We acknowledge the Receipt of your Excellency's Letter of the 2nd Instant with its enclosures, and thank you for the care and attention you have paid to the getting a Body of Troops to secure the Frontiers of the Northern and Western Parts of our State.

Melancholy as the accounts transmitted in our former Letter were, they are now the more so by an actual invasion of Tryon County by a Body of about 200 Indians &c. The Ravages by them already committed near Sacondago (an account of which will be transmitted your Excellency by Genl. Ten Broeck), in addition to that of Cobus Kill, has so struck the Militia of Tryon County that few of them can be Collected together, the principal part of them being employed to secure their Families from that Barbarity which is to be apprehended from a wanton, Cruel and Savage Enemy.

We have just now received information that a Party of about five hundred of the Enemy have lately landed at Gillilands Creek, and that immediately upon their landing, they divided into two Parties, one of which is supposed to be that at Sacondago; and where the other will strike is uncertain, but it is to be feared they are gone farther westward.

The Robberies daily committed in this County, and the dangers the Friends to the Country apprehend from the disaffected, renders the turning out of the Militia dilatory and uncertain, But we presume were your Excellency to favour this part of the State

with your presence it might revive the Spirits of the People and have a good Effect.

The inclosed Letter from Lieut. Coll. Yates* will inform your Excellency of the Inhumanitys committed by the Enemy at Cobus Kill. We are with the greatest Respect and Esteem Your Excellency's Most Ob't Serv'ts By order of Common Council.

GOVERNOR CLINTON UNABLE TO GO TO ALBANY.

The Meeting of the Legislature, Expected Hostile Movement from New York Require His Presence at Poughkeepsie.

Poukeepsie June 8th 1778.

Sir, I enclose you a Letter which I wrote this morn'g in answer to yours of the 3d Inst. Your favor of the 7th with its inclosures together with Letters from the Mayor, Genl. Schuyler & Mr. Duane on the same Subject were Deliv'd to me this Evening.

I immediately wrote to Genl. Gates acquaint'g him of the Distresses of the frontier Inhabitants in Tryon & your County, & at the same time sent to him, by his Honor, the Lieut. Gov'r, the Mayor's & your Letters with their enclosures, for his perusal & requested him to inform Congress & Genl. Washington of the Contents. Could I believe that my Presence in Albany would be of any real advantage & the Situation of affairs in this Quarter would anyways admit of it, I would most cheerfully repair thither. My personal Influence on the militia in your Quarter, where I have but a small acquaintance, cannot be equal to yours who reside among them & have extensive Connections. Your authority to call them out is amply sufficient & I trust they are disposed to obey your orders. The acc'ts we Daily receive from New York are, that the Enemy continue their preparations for an Expedition which it is believed will be ag't this Quarter; This has induced Genl. Gates to request my Assistance in the Field. The militia (your Brigade excepted) have no other Genl. Officer to command them; and of course I am under the necessity of issuing my orders to each respective Colo. on every Occassion. Under these Circumstances, I cannot see how it is possible for me, consistent with the Duty I owe to the State at large, to quit

this part of it at present and leave the militia without a gen'l command.

Add to this, that tomorrow is the Day fixed for the meet'g of the Legislature at this Place which renders my attendance here absolutely necessary. Under these peculiar Circumstances I must, therefore, in this Critical Juncture beg, that you will exert your Influence & authority in getting out the militia for the protection of the Frontier Inhabitants agreeable to my Orders for that Purpose, and you may rest assured that I will use my utmost Influence to procure you some aid of cont'l Troops if any can possibly be spared. In all probability a few Days will determine with certainty what the Intentions of the Enemy at New York are, & if they should not be against this quarter I shall immediately set out for Albany. I am &ca.

Governor Clinton Requests General Gates to Notify Washington of the Situation in Albany and Tryon Counties.

Poughkeepsie 8th June 1778.

Dear Sir, I have this Moment received a Letter for you from Albany which I now forward to you by Lieut. Gov'r Cortland. I suppose it contains the latest Accounts of the Depredations committed by the Enemy on the Frontiers of Albany and Tryon Counties, but least it should not, I have delivered Mr. Van Cortland the several Papers transmitted to me by Genl. Ten Broeck on that Subject, which when you have perused you will please to return to him for me. The People in that Quarter are much alarmed at their Situation & whether the Enemy are as strong, or the Danger as great as is apprehend[ed] or not, it will occas-

sion great Distress to the Inhabitants & a Desertion of that Fertile Country, unless their Fears are speedily removed by a respectable Force appearing in that Quarter for their Protection. I have given Genl. Ten Broeck orders to call out as many of the Militia as with the advise of Genl. Starke he may conceive necessary for that Service, but I find few have yet taken the Field. I wish to have these Accounts transmitted to Congress & Genl. Washington & will rely on your doing it. I thank you for your Letter of this Date with the Inteligence it contained and am, Dear Sir, in great Haste Your Most Obed't Serv't

Geo. Clinton.

COLONEL WILLIAMS AS AN ORGANIZER.

Distributed Governor Clinton's Orders and Reports that a Party of the Enemy Landed at Crown Point and Proceeded Westward.

White Creek, June 8th 1778.

Dear Sir, I received yours of the 4th & 25th of May ult. and have been carrying it into Execution with all Possable Dispatch. I sent Major Armstrong to Collo. McCrea, with a Copy of your Orders. He informed me that the Inhabitants Could not as much as inform him who was their Commander, but at length found one of the Captains, to whom he gave the orders in order to be forwarded to the Commander, and I have not heard any thing from them since.

The major part of the militia is Classed agreable to the new act; the others are to be Classed in a few Days; at which time proper Returns will be made. I have taken Care to see their arms in good order, giving to some the arms formerly belonging

to the Disaffected; & lent to others, arms which I have bought out of my own Pocket; as to fines I never received any.

I received a Letter Signed by Jno. Morin Scott, the Contents of which fills me with astonishment. I am exceedingly Sorry to hear of such Disentions, at a time the Enemy are about attacking us. Capt. Allen who left our advance Guards on the Grants last Thursday informes me, of 21 Boates, heavy loaded with men, Landed at Crown Point Four day before he left his post, and are gone to the westward but his Scouts could not learn their Rout. If they attack our Guards I know not what will be the Consequences; the people here are very uneasy about it, particularly as we are Called down to the Legislature. I expect to leave this to morrow, & if Possable to See Collo. McCrea in order to gett out the men—however I shall make no more stay than a day or two (except the Enemy heaves in Sight) by reason of my attending at the Meeting of the Council. It much surpriseth me, that men who never appeared in the field in defence of their Country, dare to presume to Dwindle Gentlemen Character in such manner or that they should in the least be Countenanced.

We are very unfortunate in this place; our County Divided our District Divided by Two Contending Parties; it seems the Disaffected hath two many friends.

I am informed That Mr. Rowan Says, you told him General Schuyler had no authority for ordering the Inhabitants off with their Cattle & Carriages—and that as soon as the Civil Law takes Place The people who hath plundered the Tories will be oblidged to be accountable for it. This hath alarmed the people in Such manner, Together with these proceedings against the Court Martial, that ware the men Called out, one half would not go. Could not these proceedings be Stop'd till a more leasure

time. Suppose the Enemy presents themselves before I leave this side Albany, could I be Justified if I did not return back— on the other hand Censured for not appearing at Poughkipsie. I can assure your Excellency, that on my return with a party at White Creek when the Enemy were at Stillwater I called the persons who had staid, Contrary to orders, together, & told them, in case they would behave themselves for the future, I should look over what was Passed and also would assist the Inhabitants who were oblidged to move away with the necessaries of Life at the Old Price, to which they consented, but afterwards refused & have Screw'd the Inhabitants that were well affected to the last farthing, So that they would not let them stand in the Ranks till they were Tried for their Disobedients of orders, Those who were fined, I informed them if they would Enlist, their fines would be omitted; and if the Son enlisted, the father's fine would be omitted, & if any one was fined, having no armes, they had libety to put their fines towards Purchasing armes and what was wanting I would give them.

As to pay Rolls, Those officers who left their Companies before their Discharge, I ordered the Volunteer officers who hath been in Commissions to take their place, and have been paid out of the money so drawn for the Standing officers in the militia. Upwards of Thirty never was returned which hath Draw'd pay & a number I gave some five Dollars from that to Ten of the money Drawed for the Delinquents. I have proper Receipts, from most all I paid, by which it will appear in what manner the money hath been Disposed off; some money is yett on hand which the people have not as yet called for, notwithstanding I gave public orders for their attendance. These proceeding hath been carried on in many Regimental pay Rolls or I should not

have done it. I am, Sir, with respect, your most obedient & most Humble Servant

Jno. Williams.

P. S. I must beg you will inform the Council that, I will be at Poughkipsie next Saturday, if the Enemy do not appear; if they should appear I must go out with the people should the Consequences be what they will, and I trust if that should be the case, the Evidences will be ordered to be examined in this County by persons appointed by your Excellency & Council.

The Tories was all whip'd in Camebridge, but nothing is mentioned about that, These that are fined, would have been served so here, was it not for my Insisting to the Contrary.

His Excellency Governor Clinton, Poughkepsie.

Governor Clinton Sends Instructions to General Ten Broeck Relative to the Handling of the Situation and the Militia.

Poughkeepsie 8th June 1778.

D'r Sir, I received yours of the 3d Instant. I have suggested to Genl. Gates the Propriety of continuing Alden's Regiment in your Quarter & I believe it will be permitted to remain there at least for a Time. It is impossible for me to determine on the Number of Men necessary to be kep out for the Protection of the Frontiers, or along the Places most proper to station them, as in these Maters we must be governed by the Strength of the Enemy (of which I have not as yet received any Account to be relied on) and their Movements. And as you are near the Scene of action & will be able from Time to Time to receive the necessary Information, I submit them, therefore, to your own Judgment, assisted by the Commanding Officer at Albany & have only to advise, that while

on the One Hand you are attentive in keeping out a competent force for the present Service, you will carefully avoid Unnecessarily distressing the Militia by calling out a greater Number than shall be absolutely necessary.

I am Your most Obed't Serv't

[G. C.]

Brig'r Genl. Ten Broeck.

PRESIDENT LAURENS FORWARDS THREE LAWS.

For the Establishment of Our Army, that Subsistence Money Be Extended to Officers of the Militia and Laying an Embargo on Certain Articles.

York Town 9th June 1778.

Sir, I had the honor of addressing Your Excellency on the 23d Ulto. by Barkley.

The present will be accompanied by the under-mentioned Acts of Congress.

1, of 27th May—for an Establishment of the American Army.

2, of 6th June—for extending to Officers of Militia subsistence money in lieu of extra Rations.

3, 8 June—Laying a general Embargo on certain articles of provision—this measure appears to be so absolutely necessary as leaves no doubt but that each State whence Exportation might otherwise be made, will immediately adopt & strictly observe the Act—had this bar been laid to furnishing the Enemy with provision twelve months ago, St. Augustine would probably have been abandoned, the West Indies driven to great necessity & possibly our Invaders from the Continent.

I shall add a printed Paper containing Lord Abingdon's Speech & protest in the British House of Lords which does honor to Mr.

Morris of N. York—to him may be fairly ascribed the merit of the Act of Congress 22d April.

I am with the highest Esteem & Respect Sir Your Excellency's

Extracts from the Minutes,

In Congress, June 6, 1778.

RESOLVED, That the Resolution of Congress of the 2d of June, relative to the Subsistence Money to be allowed to officers in the Continental Service, be extended to all Militia or other Troops which may from time to time be called into the Continental Service, or which may be raised in pursuance of a special Resolution of Congress.

Extract from the Minutes,

CHARLES THOMSON, Secretary.

In Congress, June 8th 1778.

Whereas the exportation of provisions from these States hath occasioned much difficulty in procuring supplies for our Armies; and by the capture of vessels concerned in such exportation, the armies of the enemy have been freed from distresses, that would have greatly embarrassed their operations; and whereas for the easy supply of our armies, and to embarrass and distress the enemy the ensuing campaign, it is absolutely necessary an embargo should be immediately laid, to prohibit such exportations;

and as, from the distance of the States from Congress, & the different periods of assembling their legislatures, the good end of such embargo would be wholly frustrated, should Congress not proceed to impose the embargo; therefore

Resolved, That an embargo be, and it hereby is laid, to prohibit the exportation of wheat, flour, rye, indian corn, rice, bread, beef, pork, bacon, live stock & other provisions from any of these United States from and after the tenth day of June instant, until the fifteenth day of November next, unless sooner revoked by Congress. Provided that this embargo shall not be construed to prevent the taking on board such provision as shall be necessary for the stores only of any ships or vessels of war or others trading to & from these States.

Resolved, That it be earnestly recommended to the respective States to take the most effectual measures for carrying the foregoing resolution into immediate execution.

Guard at the Poughkeepsie Jail.*

Poughkeepsie 9th June 1778.

Sir, I must request that out of the present Detachment of Militia under your Command you send to this Place a Subaltern & 20 Men including Non Commissioned Officers. They are to relieve an equal Number of Colo. Du Bois Regiment now as a Guard over the Prisoners confined at this Place; of Course you will Return them on Command; they are to draw their Provisions from the Store at Fishkill, therefore it will be best that they bring for one Week with them. It is necessary that the Officer & Men be active at least trusty considering the Nature of their Business. Capt. Conkling tells me that a Number of the Men in the present Class are out as Teamsters & are led to believe by the Quarter Master that they are to be exempted which is not to be the Case for any longer Time than they are actually in that Service. I am your most Obed't Serv't

THE MILITIA TO MARCH TO FISHKILL.

*George Clinton Suspects a Number of Tories will be found Among
them.*

Poughkeepsie 9th June 1778.

D'r Sir, I am favoured with your Letter of yesterday. The Contents with respect to Major Hamil will be duely observed; I could wish, however, to be favoured with the additional Evidence the Genl. has received of his Guilt, to lay before the Commissioners as they may doubt the Propriety of continuing him long in Close Confinement upon bare Suspicion nothing else hitherto has appeared to them.

The Militia ordered into actual Service from this County are to march this Day or Tomorrow Morning. By my Orders, they are to rendezvous at Fishkill & there wait for further Orders which I expect they will receive thro' you. As these Drafts are indiscriminately made, doubtless you will have a proportion of Tories among them. I would, therefore, recommend a Separation of the Clean from the unclean. The later will answer better for Fatigue at the Fort than in the Field. Colo. Hopkins is to command those from this County with whom I wish you to advise on this Subject. They are to be relieved at the End of the Month after their arrival at the Place of Rendezvous by an equal Number if necessary. Those from Ulster & Orange are to rendezvous at the Fort under Colo. Malcom.

I have a Number of Spears belonging to the State which if wanted at the Fort as I think they will the Continent I believe may purchase. Your Most Obed't Serv't

Governor Clinton Writes General Gates in Regard to Captain Machin's Pay Roll.

Poughkeepsie 10th June 1778.

Dear Sir, Capt: Machine who (with my Advice) was appointed by Genl. Putnam to the Management & Direction of fixing the Chain & sinking the Cheveaux Defrize for the Obstruction of Hudson's River, called upon me to examine & Certify the Pay Rolls & abstracts for the Artificers employed in that Service, which he tells me, understood was necessary in order to their obtaining a Warrant for Payment: I have Inspected the Pay Rolls & tho I have no Reason to doubt, but that they are just & ought to be paid yet as I have not had the immediate Superintendance of that Business. The Accounts can derive no Authenticity from my Certificate & no Returns have been made to me of the Artificers from Time to Time employed. I conceive there woud be an Impropriety in my Certifying them. I flatter myself, Capt. Machine must have misunderstood you & a Certificate only as above of his having been duely appointed to the

Management of the Business is all that was required for if any Certificates are necessary in the present Case they were equally so for the Payment of the artificers employed at the Fort, yet these accounts & other Expences incurred there have been paid without any.

The Artificers employed under Capt. Machin have large arrearages due & are thereby greatly distressed and discontented. I am perswaded it will promote the Service to have them paid off and if when I shall have the pleasure of seeing you & conversing on this Subject it should appear that there is any thing Necessary & proper for me to do in this Matter it shall be done.

I thank you for your Letter of the 9th Instant. I cant see what more you could possibly do for the Frontiers. Genl. Ten Broeck has my Orders to call out as many of his Brigade as he, with the Advice of Genl. Stark may conceive necessary, to repel the Incursion of the Enemy & afford Protection to the Inhabitants. The fourth Part of two Regts. in Ulster County are also ordered for this Service. This will of Course diminish the Reinforcement I meant for you which on the approach of the Enemy I must endeavour to make good from some other Quarter.

Yours Sincerely

Geo. Clinton.

Stephen Barns Assistant Commissary of Purchases Complains to the Assistant Commissary of Issues.

Sir, As I am embarressed by Engrossers from the West side of the North river; If there Cannot be a stop made to that trade, I shall not be able in three weeks time, to furnish you with one pound of Beef. Last week, thirty head of Cattle were drove off

where I had been and encouraged the people to put their Cattle up to fat, and I hear that they are a buying this week again.

You Can stop their Cattle at the Ferryes; all Cattle that have not the Continental brand on them belong to these engrossers.

We have long had bad beef; I have taken pains to encourage the people to fatten their Cattle, that we might have the beef made better for being fatter. But if these men Can't be stopt, we must go without any beef; they have raised the prices of beef more than 30 pr. Cent. last week.

Whether they Carry their Cattle to store, or where I know not; but they have no rite to Purchase any Cattle on the East Side of the North river: I shall rely that you will use your Influence to stop their trade. Remain your Most Obedient Serv't

Poughkeepsie 11th June 1778.

D'r Sir, By the inclosed Copy of a Letter* from Genl. Gates you will learn that Alden's Regim't is to continue in your Quarter and the Measures which are taken to get an additional Force for the Security of the Western Frontiers. I am perswaded, however, that no Force that can be collected will be able to afford full Protection to the Inhabitants unless the flying Party by whom they are distressed can be routed at the Places where they usually rendezouz. This I am informed is Unadilla. I woud, therefore, advise an Expedition against that Place if you

BRANT AT HIS OLD TRICKS.

Ambushes a Party from Fort Schuyler and Escapes With Scalps.

Fort Schuyler 11th June (10 o'Clock P. M.) 1778.

May it please your Excellency; A very melancholy Affair, that has this day happened here induces me to write to you, sir, by this opportunity as possibly the Intelligence might not come so early by another Hand. Myself and Ensign Spore had parties on Fatigue to Day; my party was employed in the Garrison &

Mr. Spore's (which consisted of 26 men) was providing Timber for the Works, between the place where my misfortune happened and Fort Bull about 3 miles from the Garrison: He had two Waggons in his party, one of which belonged to an Inhabitant of the German Flats who drove it and had his son with him a Boy of about 14 years of age. Mr. Spore sent this Waggon off with a Load, and with it was one Jeremiah Smith a Soldier who with the Boy and Waggoner made 3 persons all unarmed. The Waggon had not proceeded far before it was attacked by a party of Indians, supposed to [be] headed by Brant, that Infernal Savage that lately massacred the Inhabitants of Jacobus Kill. Smith was shot thro' the Body, Tomahawked & Scalped and must have died immediately. The Waggoner was shot through the Flesh of the left arm near the Shoulder and the Buller came out at his Shoulder Blade; after which (as Dr. Woodruff supposes by the appearance of the Wound) he was scalped, and then Tomahawked on the back part of the Scull, which is fractured so bad that the Dr. has little hopes of his recovery, tho he still retains his senses. He immediately when the party came to the place inquired for his Son. The son run off while these Hell Hounds were busy scalping the Father and escaped unhurt. There was two parties sent out immediately after them but to no purpose; they returned this Evening without any Intelligence. These Indians (as is supposed) have been lurking about here some Time—three Days ago two of them was discovered by one of our Centinels as he said but was not then believed. I am suspicious that more of the like barbarity will be perpetrated at this place as these Infernals seem to watch every opportunity to murder us. I am sir your most Obedient

J. Gregg.

Peter R. Livingston Suggests a Company of Rangers for Protection Against Robbers.

Manor Livingston 12 June 1778.

D'r sir, I Rec'd your Orders by Capt. Ten Broeck and am exceeding glad you have sent a party of men up to force the Drafts down, as without there is no makeing them sturr. I have given only two men that were very unwell, leave to stay home till such time they were better than to join their Corps. There were 10 or 12 permitted before I came home by Majors Ten Broeck & Jansen, for the same reason to stay till they were better, the rest so as to make at least a full Company of 60 men; hope to Comple to go down as unless these two Classes are forced to attend or made examples of the next will not do any duty in rotation; you may depend I shall leave no stone unturned to force every Soul to go. Have immediately Issued Orders to the Adjutant to Order out all the Companies and have Ordered the Capts. to Inform the Drafts that if they will immediately attend, they will not be punished, but if they oblige us to apprehend them they must expect the rigour of the law.

We have these two days past had out the greatest part of the Regt. scouring the woods for Robbers; three very considerable ones have been Committed upon my nearest neighbours and every

man fears it will be his turn next. I wish the Governor would permit a Company of Rangers to keep in this District; it would be of very great aid to the Cause and keep our Enemies in good order; wish the Governor may see it in that point of light. The Speaker will explain matters to him on that head. Your Verry Hu'le ser't

MILITIAMEN AVOID THE DRAFT.

Colonel Peter R. Livingston Submits His Complaints to Governor Clinton.

Hermitage 13 June 1778.

Dear Governor, In Obedience to your Excellency's Order, the one fourth of my Regiment being the Class No. 1 and 2, were immediatly Ordered out together with such Officers whose duty it was to take the first tour of Service; altho' every man was duly warned to attend only 21 marched from the Parade with Capt. Ten Broeck; upwards of 80 men, besides the four officers were in this first tour, two of which on Acc't of their real illness I permitted to stay till they were better, upon their promising to join as soon as they were better. Ten or 12 more were excused by the Majors, Ten Broeck & Jansen by the advice of their respective Captains; all the remainder being upwards of 60, were ordered to join the next day on the Post road. Sorry I am by Capt. Ten Broeck's return to find so very few have attended. By the orders now Rec'd by Capt. Ten Broeck and by the Aid he has with him, hope to be able to compleat his Company. Your Excel'y may rest Asshured we shall exert ourselves to the utmost

to make them all go; no man shall be excused by me except the above two on acc't of their Sickness. Have ordered every Capt. to call out his Company and to acquaint the Classes whose tour of duty it is now to go to Fishkill, that your Excellency will forgive them if they immediately attend; if not and they continue obstinate that they must expect to be dealt with according to Law and to have every one apprehended and sent down under Gaurd.

Our District has been in continual allarm by the repeated and dairing Robberies that have been Committed around us. I have had out the greatest part of the Regim't these two days but to no purpose. I am obl'd before I can git any man to sturr a step, to become security for their pay without which can git no man to leave his house. If your Excele'y would let us have a Company of Rangers to keep in our Woods it would have a good Effect on our bad fellows and make them do their duty when called upon and prevent in a great measure any future Robberies. Mr. Moore one of my nearest neighbours that was robbed told me that they informed him that in 14 days they would see something else.

We are fearful of an attact again; in short, hope the men that are now here may do some good. There goes one Wandle Yager that has been taken up by this party and is in one of the classes, that has constantly refused to do any Duty whatever; he was drafted for a four months man but refused going and has been concerned in many bad schemes, and unless some example is made of him, others will act in the same way; he has a universal bad Charecter. Your Excellency's Verry Humb. Ser't

Peter R. Livingston.

THE ONEIDA INDIANS ALONE FRIENDLY.

Futile Effort of General Schuyler to Induce the Six Nations to Join a Conference.

Fort Schuyler June 15th 1778.

Sir, I have just received an authentic Account that the Belt some time since sent to the Cayugas and Senecas to call them to the proposed meeting at Onondago was returned last Satur-

day; what reply the Senecas made to it, I have not been able to learn. Most likely they took no notice of it, as of several others which have been sent for the same purpose; the Cayugas replied that they could not attend the meeting nor did they assign any reason for their Conduct, Yesterday the Onondagos sent an Express to Oneida with this Account and further desired the Oneidas and Tuscaroras to repair immediately to Onondago, that they might consult together about returning the Commissioners Belt at Albany, The Oneidas replied that if they were determined to make no further Efforts to bring the other Tribes to a sense of their Duty but to return the Belts, it would be needless for them to go to Onondago, but proposed their coming as soon as possible to Oneida where they might confer upon the Subject and thence proceed to Albany; the Substance of Mr. Butler's late Conference with the Indians at Kanasadaga was to desire them to attend him on his proposed Expedition which the Senecas refused to do, because so large a party of their people were now down in our Country. He has however collected a considerable party of Indians of various Tribes with which as he gives out, he is determined to join Jos'h Brant upon the Frontiers of this Country. It is supposed he is by this time as far on his way as Onohogwage.

A Cayuga Chief who commands a party now with Brant has sent an Express to the warriors of his Tribe informing them that he is Surrounded by the white people and in danger of being cut off, unless they afford him a speedy relief, This message it is expected will very soon bring a considerable reinforcement to Brant's party. The Oneidas expect nothing but that a vigorous war will be commenced between the United States and the Six nations immediately upon the return of Com-

missioner's Belts, and as Congress have resolved to give them all the assistance and protection which has been promised, they beg the Commissioners to think of some means for their safety either by removing them down among our Inhabitants or marching a body of men beyond them, but this they mean to submit to your Determination; they wish to hear from you as soon as possible, I have an Account by an Onondago Indian, lately returned from Canada that Sir John Johnson & Coll. Claus had marched a body of men for Oswego, but were recalled by an Express which overtook them on the way below Oswegatche, I have nothing farther to add only that I am Sir Your most obed't & very humble Servant

Schenectady 15th June 1778.

Honoured Sir, The distressed situation of Tryon County, Schoharie and indeed the whole of our western Frontiers, seem to call so loud for relief that we think we should be wanting in our duty, if we did not acquaint your Excellency, of the real danger our frontiers are in; Your Excellency may depend on it, that it is no sham to frighten the people, but a thing in real existence, for the people are flying and crowding into this town in great numbers, and by the best information the enemy are really round about there, and are determined to destroy, and burn up that whole county, and unless soon relieved we undoubtedly believe they will

affect it, and the loss that will arise therefrom to the unhappy individuals of that part of the country will be nothing, in comparison to the loss of the United States, as it is one of our principal wheat countrys, the Enemy having already taken & killed a number of men horses, & Cattle and burned up several houses, in and about Sakondaga; being in full confidence of your Excellency, (on receipt hereof) taking such steps, as you in your great wisdom, shall see most fit for the releif and preservation of this unhappy and distressed country

Difficulties in the Way of Providing Supplies for the Army.

Albany June 16: 1778.

Sir, The Distresses of the Grand army and their frequent applications to me for assistance for a Supply of beef, of which Considerable Quantities can be procured in the Course of two or Three weeks in this State, but not at the prices the regulating Act has Prescribed, and which in a Great measure must prevent me of Given a Speedy supply, has induced me to address your Excellency upon the Subject, that such ways and means may be adopted as the Wisdom and prudence of the Legislature may think Proper. in order to Enable me speedily to Give all my assistance to the relief of the armies of the United States.

And at the same time to Inform your Excellency that large quantities of flour are now held In this state, with which article I

stand under the same Difficulty, though It is not so Immediatly wanted. Yet It would be prudent to secure all I Possibly can, before to much of It is carried to the Eastward, for which Purpose I am informed purchases are dayly made; the wheat in the Country is not intended to be manufactured into Flour soon, in Expectation of obtaining a Better Price, Although the Law Gives full authority upon Proper application to Seize any article that is withheld, it is however attended with Great Exspence, uncertainties and great Delay in the busyness, and with so many Inconveniencies that would make large Purchases almost an Impossibility.

George Clinton Calls Colonel Wadsworth's Attention to a Case of Gross Injustice.

Poughkeepsie 17th June 1778.

D'r Sir, The Bearer, Mr. Stephen Howell, an Inhabitant of this State informs me that he with two other Persons, his Neighbours, lately purchased in the County of Berkshire, in the State of Massachusetts Bay, 42 Head of Cattle and after having paid for them and drove them into this State some Miles on his way Home, he was pursued by a Company of armed Men of the Neighbourhood, in which he made the Purchase (some of them being the very Persons who had sold the Cattle to him) who forcibly took the Cattle from him detaining the Money also, which they received from him for them. To Justify this Conduct they produced a Copy of a Paper signed by you, setting forth that a Number of Trantient Persons from New Jersey, are purchasing Cattle in that State to the prejudice of the United States & that

there is Reason to apprehend they were intended for the Use of the Enemy & requesting the Magistrates & Inhabitants to exert themselves to prevent the Wicked Designs of those People. A transgression of Law on such Occasion may be justified from the necessity of the Case & the Wickedness of the Measure which it is intended to prevent; but when I assure you, as I now do, that Mr. Howell and his Neighbours are by no means men of Suspicious Charecter, on the Contrary Zealous Friends to America, whom I have the greatest Reason to believe meant to promote the public Service as well as their own Interest by purchasing these Cattle to improve & sell for public Use, I trust their Cattle will be returned to them & they might reasonably expect a Compensation for their Expence & Trouble, occasioned by this extraordinary Proceeding ag't them, & more especially as their bringing Cattle out of the State of Massachusetts Bay, is not (as I have learned) prohibited by any Law of that State, & even if it was, the Seizure, in this can not be justified.

I can only add that the Neighbourhood in which Mr. Howell & his Neighbour, Mr. Mathew Carpenter, lives in Orange County, is a Grass Country well calculated to Improve Cattle, from which the army on the West Side of the River last Year drew Considerable Supplies, particularly the Posts in the Highlands to which it is contiguous. THE GOVERNOR AND THE FRONTIERS.

He Assures the Schenectady Committee that he has done all that was Possible to be done.

Poughkeepsie 18th June 1778.

Gentlemen, I have received your Letter of the 15th Instant representing the distressed Situation of our Western Frontiers. Ever since the first Accounts, I had of the Depredations committed by the Enemy at Cobus Kill, I have considered the Inhabits in the greatest Danger & have accordingly exerted every Means in my Power to afford them Protection. For tho Genl. Gates at the Time had required of me a large Proportion of the Militia of this State to reinforce the Army under his Command, & one fourth Part had my Orders to march for that Purpose, I immediately revoked my orders as far as they respected Genl. Ten Broeck's Brigade, and directed him to call & continue in Service such Proportion of the Militia of Albany County to join those of Tryon as should be amply sufficient for the Defence of the Frontiers. I also changed the Destination of the fourth Part of two Regiments in Ulster County, & part of one in Orange, who were to have joined Genl. Gates' Army & ordered them to the Frontiers of those Counties which I considered as exposed to the Enemy.

I also immediately, faithfully represented the Situation of affairs on the Frontiers to Genl. Gates and solicited the Continuation of Alden's Regt. (who were under marching Orders in your Quarter for Fishkill) which was not only complied with, but Considerable Aids of the Militia of Massachusetts Bay & New Hampshire were requested by the Genl. for your Assistance. When you are informed, Gentlemen, that at the Time, one fourth of the whole Militia of this Part of the State are in actual Service with

Genl. Gates, That The Militia of Albany Tryon & Ulster County (one Regt. of Albany not to be trusted on the Frontiers excepted) are exempted from that Duty, & destined for the Defence & Protection of the Frontiers, I am perswaded you will agree that proper attention has been paid to the safety of the Frontiers, & considering the Militia as the only Force whose Services I can command, more could not have been done by me for their Protection.

And I take the liberty of adding four of this days Gazettes containing Intelligence important & Interesting to the public.

BRANT AND HIS ALLIES ON THE WARPATH.

*Colonel Jacob Klock's Description of Their Recent Depredations on
Otsego Lake.*

Cona Johary this 22d of June 1778.

Sir, Tryon County has once more experienced the Cruelty of a restless Enemy. Springfield, Andrewtown and the Settlements on Lacke Osego [Otsego] were at once attacked and destroyed last Saturday the 18th of this instant. Houses, Barne, even Waggons, ploughs and the Hay Cocks in the Meadows were laid in Ashes. Fourteen men are carried away prisoners and eight killed. All the provision taken on Horses and carried off. Two Hundred Creatures (Horses and Chiefly Cattle) were drove down the Susquehanna; last Sunday morning the Enemy sett off with this Booty from the House of one Tunnicliff. All this has been done, that the garrison at Cherry Valley did not know any thing about an Enemy; tho' Springfield is not above four Miles Distant from the said Place. As soon as the News came, I ordered imediately the Militia to march to stop the progress of the Enemy. The same Instant I received a Letter from Coll. Peter Bellinger of the German Flats, that the Enemy was burning Houses within four Miles of the Flats praying for Assistance. I did order up five Companies of the Palatine and Cona Johary Battallion; The rest I marched straight to Andrewtown; ordering Coll. Bellinger to join me in order to intercept if possible the Enemy. But on my March thiter I learnt that he the Enemy was gone; and nothing was left, as to scour the woods, as I got information, that still a strong party of the Enemy was left to do mishief. As soon as the Flats Militia was on their March in the woods, the Enemy fell out at the Flats took two prisoners and killed one Man. Several People, who have been prisoners and

did Escape, affirm, that Brandt was the Comander, and that his party consists of about five hundred. So much is certain, that his Number encreaseth dayly; many very lately did run off moved by Disaffection; others join him moved by fear, and severall are forced to tacked up Arms against us, or to swear Allegiance to the King of Britain. We are informed and Brandt boasted openly, that he will be joined at Unately, by Buttler, and that within eight Days he will return and lay the whole County waste. The dreadfull Sight of Springfield and Andrewtown heightened with these Reports puts the people of the County into the greatest Consternation; they speack of nothing but flying off; Harvest time is at Hand & no prospect of a speedy Assistance; the officers and the principal Inhabitants meet with the greatest Difficulties, to persuade the People to stand out only but a few Days, untill it should be in the power of the government to sent us relief. Last Sunday Morning I dispatched an Express to general Ten Broeck, and desired his recomendation of the Situation of our County to your Excellency & to gen Starks, but did not receive an Answer. Your Excellency, the comon father of the good People of this State, upon whose fatherly Exertions the People of this County relieth, and which keepeth the many poor, the numerous widows and the fatherless still in hopes, will, we fervently pray, grant us such speedy relief, as your Ex'lley in your wisdom shall see meet; & In case it should be an impossibility; to afford us any Assistance with Batteaus, to bring off wives and Childern, that they might not be a prey to a cruel Enemy. Having tacken the Liberty to macke your Excellency acquainted withe the Situation and Sentiments of the people I remain as in duty Bound Sir Your most obedient and most humble Servant

Jacob Klock.

THE GOVERNOR'S LEGISLATIVE ADDRESS.

Dwells Upon the Military Situation, the Dangers that Menace the Country and the Machinations of the Enemy.

*Gentlemen of the Legislature, The Duty of my Office requires my laying before you the several Papers which accompany this Message, together with Copies of some Letters written by me, respecting the Affairs of this State.

By the Resolutions of Congress, of the 19th of March last, you will find it among other Things recommended to the several States, to make suitable Provisions for supplying their respective Quotas of Troops with the necessary Accoutrements. The continual Waste of those Articles, by the Accidents of War, naturally recommend a due Attention to the proper Means for repairing the Losses thereby occasioned.

The Resolutions of Congress, of the 23d of April, and of the 1st of May last, I lay before you, merely for your Information; the former being expired by its own Limitation, and ample Provision being made for the Matters recommended in the latter, by the Law for regulating the Militia of this State.

The Resolution of Congress, of the 22d of May last, recommending an Exemption and Disqualification of Deserters and Prisoners from military Service, justly merits your Attention, and a due Consideration, whether it should in Part, or wholly be carried into Execution. It is, doubtless, sound Policy, and a Practice justifiable by the Rules of War, to encourage Desertions from the Enemy; and it would, at the same Time, be manifest Injustice to compel Prisoners into Service: But the Cases of Deserters from the regular Troops of the Enemy, and of those from their new Levies (which are composed of our disaffected and rebellious Inhabitants) are by no Means similar. To compel

*From Journals of the Legislature.

the former to Militia Service, would, by exposing them to capital Punishments, discourage Desertions; and to encourage them to engage as Volunteers, would be unsafe and impolitic; Because Desertions generally arise from the Want of Principle in the Man, which forbid any Dependence on the Integrity of such a Soldier; nor can faithful Service be expected from those, who, against Principle, are compelled to it. With respect to the latter, it may not be improper to consider, whether an Extension and Application of the Resolutions to their Case, would not only operate, as an implicative Pardon of their offences, but also as a Reward for their Crimes, by exempting them from those Duties which good Subjects owe to their Country, and thereby give just Cause of Umbrage to the virtuous Citizen.

I submit to your Pernal, the Establishment of the Continental Army; the Resolution of Congress thereon, of the 2d Instant; another of the 6th, extending the Benefit of it to the Militia, which may be called into Continental Service. These Resolutions, communicated to our Constituents, will naturally excite them to engage in the Service with greater Cheerfulness and Alacrity.

The Affairs of America are now drawing towards a serious and important Crisis. The late Treaties of Amity and commerce between the United States of North-America, and his Most Christian Majesty the King of France, on Terms so distinguishedly generous on the Part of his Majesty, and so highly honorable to the United States; the many ignominious Disappointments of our cruel Enemy, and the Smiles of a kind Providence on the Justice of our Cause, promise greatly in Favour of the Establishment of American Liberty and Independence on the most solid and lasting Foundation.

As the Prospect of Deliverance approaches, our Exertions should become more vigorous. A State of Security, consisting chiefly in flattering Views, would have a fatal Tendency to expose us to Surprise, when Danger is least apparent: We are to expect another active Campaign; and besides discharging our public Engagements, in supplying our full Quota of Continental Troops, the Militia of this State should stand cheerfully ready, on the most sudden Call, to reinforce the Continental Army; on the Success of whose Operations depends the Fate of America. Let this Year distinguish us then, more conspicuously than ever for our spirited Efforts, in so noble, so exalted a Cause. What an insidious Foe has not been able to affect by Arms, will now be attempted by Art and Circumvention; should these fail, Recourse will doubtless be had again to open Force: The Vanity and Pride of Britain will not permit her to cede the Empire of America, without one more violent Effort; which can only injure us by finding us unprepared. Delusory Laws of the British Senate are now tendered by Commissioners, appointed for the Purpose, to divide the Inhabitants of the United States, and to sooth them with the specious, but ruinous Prospect of Peace and Security, whilst their Fleets and Armies are not withdrawn, but reinforced; and the revolted Subjects, joined by Savages, under the Influence of British Emissaries, are encouraged in the Commission of cruel Depredations on our defenceless frontier Inhabitants: These Laws, you will readily perceive (though in Terms designedly unexpressive) implicatively assert the absolute Supremacy of Parliament, the Rebellion of America, and the discretionary Power of pardoning and punishing for this supposed Rebellion: They are unjustly calculated to draw from America her Ultimatum: They are the forced Language of Im-

becility for Conquest, not the natural Desire for Equality in the Union: They are formed to disarm, with a treacherous Design, the more effectually to complete our Ruin. Permit me, therefore, to recommend to your serious Attention the Papers on this Subject; they will serve to shew you the Sense of Congress, on fallacious and destructive Overtures of our Enemy, secure us against an unmanly and impatient Anxiety for a dangerous Peace, and teach us to wait, without repining, for the wise Result of that august Body, to whom we have entrusted the important Concerns of America, as the only proper Rule of our Conduct.

To encrease the Distresses of our Enemy, by depriving them of all Supplies from the Continent, and to ensure the Success of our Operations, Congress, have thought fit, by an Embargo of the 8th Instant, to prohibit the Exportation of Provisions for a limited Time; I submit it, therefore, to your Consideration, whether, instead of our present Embargo-Law (which was intended to prevent Supplies going to the Enemy from this, through the neighbouring States) some new Provision ought not to be instituted, for permitting a Commutation of Necessaries between us and our Sister States, and open that free Communication with them, which we ought always studiously to maintain, so guarded, however, as effectually to prevent Monopoly.

I am sorry that I am obliged to furnish you (by some of the Papers herewith delivered) with an Opportunity of observing, that the Regulation agreed on by a Convention of the States, at New-Haven, in January last, for the Reduction of Prices, so strongly recommended by Congress, has not obtained the Approbation of all the States. It behoves the Legislature to consider, how far a partial Regulation, obligatory on the In-

habitants of this State, may be injurious to its Welfare, and inadequate to the Design of imposing it, and consequently, what new Provisions ought to be made on a Subject of so much Importance Permit me to observe, that should this Regulation prove abortive, the Necessity of calling out of Circulation, our Emission of State Money, by Taxes and other Means, will become more cogent, and to recommend this Matter to your most serious Attention.

You will be able, from the Papers herewith delivered to you, to see what Effect the Proclamation, founded on the concurrent Resolutions of the Senate and Assembly, has had, as well on the designing and the deluded Inhabitants, who aim at Independency, under the Title of the State of Vermont, as on the well-affected Subjects in that Part of this State. In the Judgment of the disinterested, all Claims on the Justice, and even on the Generosity of this State, have been fully satisfied. From a Perusal of those Papers you will also discover, how strenuously I have pressed for an express and unequivocal Declaration of the Sense of Congress on that important Subject; and as this Matter has, in Consequence of my Application, been referred to a special Committee, I offer it, as worthy your deliberate Consideration, whether the Result of Congress ought not to be patiently expected, before any coercive Steps be taken to reduce the Delinquents to a proper Sense of their Duty.

Geo. Clinton.

Poughkeepsie, June 22, 1778.

The Governor Submits a Commissary's Account to the Legislature with an Explanation.

*Gentlemen of the Legislature, The Accounts herewith delivered to you, were tendered to me by Captain Cregier, who acted as Commissary to Captain Johnson's Company of Rangers, raised in Orange County.

On an Examination of those Accounts, you will perceive, that the Sum expended for Rations (though not amounting to the Number due to the Company) together with the Commissaries Wages, exceeds the Sum allowed by Congress, at Ten Pence Halfpenny per Ration, L. 177:19:8.

As I do not conceive myself authorised to pay this Balance, however reasonable and politic the Measure might be, I think it my Duty to submit the Propriety of it to your Consideration and Advice; of which I am the more desirous, as other Accounts, for supplying the Militia, which have or may be called into Service, will arise, and as the Prices of every Necessary are greatly increased, the public Service demands that they be liquidated, on such Principles as to do Justice and to give Satisfaction to the Parties interested in them.

Geo. Clinton.

The Petition of the Subscribers Inhabitants of the Districts of Clavarack Kinderhook and Kings

Humbly Sheweth: That the many murders and Robberies perpetrated in the neighbourhood of your petitioners by persons who are enemies to the present happy Constitution of this State and who besides the gratification of their own advantages, mean by such practices to distress the friends of Government, are circumstances of So alarming a nature that your petitioners conceive that neither their lives or properties are Safe unless some Speedy remedy is applied to this growing Evil.

Your petitioners, therefore, humbly pray that the premisies may be taken into Consideration and that Leave may be Granted them to raise one Company of Rangers to Consist of one Captain, Two

Lieutenants, & Privates in order to Scour the woods to apprehend Such atrocious offenders.

And your Petitioners as in Duty bound Shall ever pray &c.

Poughkeepsie 25th June 1778.

Sir, I have received your Petition requesting leave to raise a Company of Rangers for the Purposes therein mentioned. I wish you had been more explicit on the Subject Because I have no Objection to the raising of such Company provided they are engaged to serve for a certain limited Time on the ordinary Pay & Subsistence and subject as well to such other Duty as the Commander in Chief for the Time being shall think proper to direct as the Duty you particularly mention. If you can engage a Company on these Terms you have my Leave & the sooner it is effected the better. At the same Time as an Encouragement I assure you I will not order the Company on any other Duty, except when it shall be necessary to call Detachments of Militia in Service, & then if they are ordered out, the Regiments from which they shall be raised, shall have due Credit for them in their Proportion of Militia to be furnished. I have only to add that I shall expect a Regular Return of what you shall cause to be done in the Premisses. I am &c.

Albany 27th June 1778.

Sir, I did my self the Honour to write your Excellency the 20th Instant, acquainting you that I had ordered one fourth part of nine Regts. of my Brigade to Relieve those at Schohary & Tryon County; these I formed into a Regiment & have appointed a Colonell, a Lieut. Colonel, & a major to Command the same to Continue in Service one month. I am astonished to find so few appear; according to the Returns made to me last Febry. the number ought to be 590 men & but about 200 have marched, about 100 of them to Schohary & the Remainder to Tryon County. I have Ordered a General Court martial to meet the 1st July to Try the Delinquents. The Service Suffers much for the want of Officers, some Regiments are almost without any, I wish your Excellency would be pleased to forward the new Commissions as soon as Possible. The Inclosed is Copy of what I Rec'd a day or two ago. Yestardy I received a letter from Colonel Van Alstyn Informing me that his Scouts had Returned & made not the least discovery of an Enemy, upon which he Re-examined the Deponent when he denied what he had Swore the 22d Instant. General Gates Requests Governor Clinton to Take Command of West Point.

Peeks Kill, June 27 1778.

Dear Sir, Upon moving the main Body of the army down the Country I prevailed upon General Glover to take the Command at West Point. But unfortunately that Gentleman was yesterday taken ill, and still continues weak. He is however very willing to undertake the Direction of that Post until the affairs of this state will permit you to assume the Command. Knowing the Influence your station and personal Sway with the militia will give to your authority, I anxiously wish & desire you to assume the Command at West Point. General Glover's Brigade is with the Grand Army, and he only remains here till I can find a proper Person to relieve him. I have not a syllable from General Washington, since his of the 21st Inst. but hourly expect to hear most important News. I am, Sir Your affectionate Humble Servant

Horatio Gates.

P. S. I hope Mr. Livingston entertained you with the newspaper I sent him yesterday.

His Excellency Governour Clinton.

I am this moment informed, by Capt. Grenale, (late Commander of a Frigate burnt in Delaware) that, on Wednesday Night, the Enemy's Army were at Allen Town; & Gen: Washington's at Hopewell; our Army under Orders to march at 4 O'Clock on Thursday morning. The Enemy have been Nine days compleat from Philad'a, how are they to be Victualled, until they reach So. Amboy, where it is believed they were bending their Course.

Colonel Hay Foraging for Wagons.

Head Quarters Peaks Kill 29th June 1778.

Sir, As a movement of this army is now to take place, it will be absolutely necessary that a sufficient quantity of Waggons are constantly found for the necessary duty of the Army and for furnishing them with provisions; this oblidges me to take a considerable number from this State; many of whom come voluntarily; those I have taken all the pains possible to have treated

with the utmost tenderness, some few (having escaped with impunity for the same crime formerly) have deserted, after having been legally impressed; these I must for the good of the service, use with some degree of severity, otherwise I shall never be able to putt an end to that very pernicious custom. Probably complaints on this head may be laid before you; must therefore intreat you will give as little countenance to them for some little time as you properly can, consistent with your dignified Station. Depend on my paying every possible attention to the rights of mankind and the laws of this State which I possibly can do consistent with the duty of my present office. THE ONE HUNDRED THOUSAND DOLLAR ADVANCE.

*Governor Clinton Suggests to Gouverneur Morris how the Money
Should be Distributed.*

Poughkeepsie 29th June 1778.

Dear Sir, I have rec'd your Letter of the 16th Inst. The Death of our mutual friend Mr. Livingston gives me real concern as well for the Loss the public has sustained in him as his distressed widow and family who will feel it at this critical conjuncture more severely.

From my Situation previous to my Election to the Government of this State, I was utterly ignorant how monied matters stood between it and the Continent; nor have I since been able to learn what Disbursements have been made by the former in favor of the Latter. Whether, therefore, the Sum you mean to ask Congress to advance in favor of this State will be for its Interest or not, I presume you (who have long been a member of our Convention) are much better qualified to judge than I am.

The matters complained of in my former Letter you will remember respected Individuals, They appeared to me to be occasioned by the want of Cash in the Quarter Mr. and Commissary's Departments to pay off the Accounts of the Inhabitants who supplied the Army on the west side of the River, after the Loss of the Forts in the Highlands and the Detachments which marched thro' that part of the Country from the Northward to reinforce the grand Army. But I find that tho' these Departments have since been supplied with Cash, these Accounts remain unpaid. The Commissary's & Quarter Masters alledge that they accrued before their appointments, that the Vouchers attending them are not regular, and that therefore they are not authorized to discharge them.

These good People is the Evil I wish redressed. It is not to be accomplished by sending Money to the State alone without directing some proper mode for liquidating and discharging these Debts. Perhaps a Resolution especially charging the present Commissaries and Quarter Masters with this Business would answer the Purpose. I am &c.

George Herkemer Protests Against Injustice and Persecution.

Canajoharra ye 30th of June 1778.

May it Please Your Excellency: Whereas I Have Received an Information from the Council of Appointment that the Third Teusday of June was assigned for my Appearing with Some others, Before said Council to answer a Charge Laid Against me for Countinencing and offering assistance to Certain Subjects of this State to go off to the Enemy: The Charge I Absolutely Deny, But as an Accused Person's own assertion, Can Have no weight in Clearing Himself, Should Have Been Exceeding Glad To Had a Hearing Before S'd Council with my accusers face To face, when I Doubt not, but the True Cause of So many fals accusations being Laid against Sundrie Persons of this County with myself, would Fully appear to Proceed from a malicious Principle, Seeking to Destroy the Carracters of Particular Persons, whom the Council of Appointment Hath Honnoured with Commissions in The Civil Administration of Justice with a View to Have them Ousted of Their Commissions, that They may Have them themselves; as for my Part their is nothing more agreeable to me than that The People Should be Fully Satisfyed with Such as Have the Administration of justice over them, But as I am Fully Convinced The whole Cause of Such Complaints Proceed from a Few that are Seeking to Have All Authority Invested in themselves, who It is Plainly Verified amoungs us Have Never acted any thing Great In Defence of their Country or in Uniting the People, but Some of them Have Done much In Creating Divisions and Desturbing the common peace of the county for which reasons I Cannot Submit to their Unjust Censures, So far as to Condesend To Lay Down a Commision the Council of Appointment Have Honoured me with,

Unless They Should Order it So. They Deprived me of a Hearing this time by Detaining the Notification from me till after the Time appointed for meeting. I would Farther Inform your Excellency, that I Have been Laid under Restrictions in bound̄s for Some Time Past, By which I am much Damaged in Prosecuting my Own Private Affairs and Intirely Prevented from acting any Thing In the Common Defence of my Country, which I Should be Glad your Excellency would Take notice of. In Case your Excellency and the Council of Appointment think Proper to have the matter Examined Into Farther must Beg the Favour of those who Send it, to Transmit the Order by Such Hands as will more Faithfully Deliver it. To be Particular I was Taken before Our Committee, and by their Resolve was Sent to Goal for Nothing, But Having the Peace sworn against me, By one who was Endeavoring to Bring me under the Carracter of a tory, whom I Did Threaten in a Passion, which was Anough to move almoss any thing that had the Least Spirit or Sense of the Consequence of Such a Character; not withstanding I offered any Bail that Should be Required was Confined in Prison a month and then Taken Out and Bound Under the Obligation of Five Thousand Pounds for my Good Behaviour and Bound to the Limits of my own Farm, Under which Circumstance I Still Remain; From which I Beg Your Excellency would Order A Release or Direct Some Proper Authority to Examine the Cause of Such Proceedings and acquit or Condemn as it Shall appear Consistant with justice. Should Have made my Complaint before but Expected the Court of Justice would Before Now Have Been Opened but Now it Seem Someth Remote. From Your Excellencies Most Humble and Obedient Serv't

STATEMENT OF BARNABAS KELLY.

German Flatts June 26th 1778.

Sir, Yesterday evening our Scout came in from the Lake where Henry Herkemer lived, and on their return at the upper end of the Lake, they was overtaken by one Barney Kelley who lived at Brooks's, at the Butter Nuts, who is come here with the

Scout, and is now here with us; the said Kelley being duely Sworn on the Holy Evangelists of Almighty God deposeth as follows; That soon after the Battle at Cobus Kill, he the said Kelly, was at the Butter Nuts; about 40 white men & two Indians who desired the said Kelly to go with them, who told them that if he was to go, he would not go in their company upon which they told him, that if he did not go then, he would be obliged to go, as well as the rest at the Butter Nuts, the next time they came. They bought about 17 Head of Horned Cattle of Brooks, Garret, Johnson & Napp, & about seven hundred weight of Cheese for which they gave them notes upon Butler; and of Capt. Service, Sir John Johnson's Uncle, they got about 40 or 50 Scipple of Flour, & he says Capt. Service sent to them, that they should come & fetch it; & he says that one Carr who lives at Major Edmeston's sent them word that he had 40 Skipple of Corn, for them, but whether that they got it or not he did not learn. That at Pougataukan Poepacken & Cashistan on the Delaware, they got about 70 Head of Cattle and some Horses, and that about 60 or 70 of the Inhabitants of those places, Joined the Enemy at Ocquagoe; and he further declareth that one John Snow, told said Kelly at the Butternuts, that one McGinnes who lived on the Mohawk River, was sent by Butler to Ocquagoe & John Young to Tuenadella, to provide provisions for Butler's Army, against he came, and further he heard that Joseph Brandt had been with Butler at Skeemonk, about two days Journey from Ocquagoe, since the Battle at Cobus Kill, to see what kept Butler so long behind, and it was supposed to be occasioned by the Country's being Alarmed; and he further declareth, that he heard John Young at the Butter Nuts, read a Proclamation from Butler, desiring all the friends to Government to Join him, and to

bring in all their Cattle together with their Wives & families, and they should be kindly received by the said Butler; and as far as said Kelly could learn, it was Brandt's intention only to gather provision, and to get people for Butler's Army and to get the Indians from Fort Hunter, and not fight or make any alarm if possible to avoid it. But on the Indians driving the Cattle from Cobus Kill, and the Militia following them, they was obliged to fight, and further he heard that the Indians had taken five prisoners at the Battle at Cobus Kill, and Brandt asked the prisoners whether they Chose to be seperated among the Indian Families, or sent to Niagara to wait for an exchange, but they told Brandt they would go to Niagara and wait for an Exchange, as they knew the Continental Troops had three prisoners for one; and said Kelly farther declareth; that he heard say, that when Butler Joins Brandt, their army will be about 1,000 strong and that as far as he could learn, they intend to fall in upon some part of the Mohawk River; after the Battle at Cobus Kill Brandt heard that the Militia was to slay him at Youghams on the Susquehana, on which Brandt took 5 Indians with him, and went to Cherry Valey to know the truth, and that they met two men, one of whom was an express and that they killed one & took the other prisoner; and the man they took prisoner was a Black Smith, & he heard say that Brandt said he was sorry they had killed the other for he was a good Kings man, & said Kelly declareth That for the good of the Inhabitants & the County in General, and the preservation of his own Life, was the cause of his comeing in and further the deponent saith not.

His
Barnabas X Kelly
mark

Sir, I should think it requisite, if you think proper, that this account that Kelly has sworn should be sent to the General. I am your Humble Serv't

THE BATTLE OF MONMOUTH.

Dr. Treat Forwards a Description Written by Colonel Biddle.

*Sir, The following is an authentic acc't of the Battle fought on the 28th of June between a Detachment of the Grand Army commanded by Genl. Lee and the flower of the Brittish Forces.

Coll. Biddle author of this Intelligence writes as follows:

On the 28th our advanced Detachment commanded by Genl. Lee with the Jersey militia, attacked the Rear of the Enemy near Monmouth Court house—at first our Troops retired, but on his Excellency Genl. Washington coming up, it seem'd to animate our brave Soldiers, who behav'd with the greatest Resolution and Bravery, drove the Enemy's Rear which consisted of the Granadiers, Guards, and Hylanders, who retired in great Confusion, leaving a number of Dead and wounded on the Field—among the first of which is Coll. Moncton, Abercrombie and other officers, and in the night march'd of so presipitatly as to leave at the Court House, 50 wounded Granadiers several officers and the few of the Prisoners, they had taken from us.

From the best opinion, I can form, of their loss, it must have been 200 kill'd 100 Prisoners and about 700 wounded, and both before and since many deserters have come in, of the latter 500—already at Philad'a—our loss was about 30 kill'd and 120 wounded, of the first Coll. Kimmer, and major Dickinson, of the latter Coll. Wessen dangerously, Lt. Coll. Barber badly, but hop'd not dangerous, Coll. Livingston, Coll. W. Steward, & Coll. Derkie all Slightly, or not mortal.

The. Genl. [Washington] Family distinguish'd themselves; Coll. Lawrence and Coll. Hamilton had their Horses shot under them,

Coll. Fitzgerald slightly wounded—and the rest of the greatest use in the action.

Our artillery was remarkably well serv'd and contributed much to the Rout Genl. Wayne is much prais'd, for Bravery & Conduct, and indeed the whole army showed a most noble Spirit, and had the Enemy been farther from the Sea a general Defeat might follow but they have hastened to Sandy Hook as they are out of reach, our army marches immediatly Northward. I am sir Your most humble Serv't

M. Treat.

NEW YORK AND VERMONT.

*Citizens of Brattleboro Hopeful for a Speedy Solution of the
Difference—Violence Feared.*

Brattleborough 1st July 1778.

May it please your Excellency, The Committees of Guilford and Brattleborough having sent circular Letters to every Town of any Note, in the County of Cumberland, together with Copies of your Excellency's Letter to Messrs. Israel Smith and Micah Townsend, recommending it to the Friends of New York State to transmit to your Excellency a Roll of Persons most proper for civil Officers, to be laid before the Council of Appointment: We being for that Purpose duly authorized by such of the Inhabitants of the Towns of Hinsdale, Guilford, Halifax, Brattleborough, Putney, Westminster, Rockingham, Springfield & Weathersfield as are attached to the State of New York, have with as much Candour and Impartiality as is in our Power, made the inclosed Roll, and beg leave to recommend the several Persons therein named to your Excellency, and the honorable the Council of Appointment as the most proper for the Offices mentioned in the Roll.

The County being divided into three Parties has occasioned our recommending only so many Persons as are absolutely necessary in administering Justice; thinking it more eligible to make additions when the Circumstances of the County shall render it expedient, than to have such as are not qualified for their Stations.

We also inclose a List of military Officers, which was obtained in this method: the Companies elected their Captains and Subalterns, who chose the Field & Staff officers & made Returns of the Officers to us.

The New State officers have lately drafted Men until the first of December next, to fill Colo. Warner's Regiment, and among the rest a considerable Number of the Friends of New York State how this will end we cannot say, but are anxious for the Event. They are also, in some Towns, taking Lists of personal Estates to enable them to lay a Tax.

In this critical Situation, when their Persons and Properties are exposed to the lawless Invasion of a rude Rabble, or the exasperated Leaders of an imperfect unsettled Government, except Violence should be opposed to Violence; the Friends of New York State can not but most ardently wish that Congress would immediately interfere in the most direct manner and settle this internal Contest. The Interest of the State of New York also calls loudly for a speedy End: being put to the present Dispute, as the authority of Vermont have lately confiscated and sold several valuable Estates, and doubtless will continue the Practice as long as their necessities require it, and they can find any the least Pretence for so doing. We, therefore, most earnestly entreat your Excellency to press Congress for a speedy Determination of the Matter, and in the mean time to direct us in what manner to conduct ourselves.

We are of Opinion that should an attempt be made to hold a Court under the authority of the State of New York before a Resolution of Congress is obtained upon the Subject, violence will be used to prevent their sitting.

The Reason of Major Grout's not being recommended to your Excellency for the Shrievalty is, that as the Election is not likely to be held so soon as was expected, when he was recommended by the Town of Brattleborough, and as he by his Situation, is much exposed to ill-treatment from the New States

Men—he has chosen to decline serving in that office at present, seeing it can not be of Disservice to the State of New York.

As soon as it can conveniently be obtained we shall transmit to your Excellency a Return of the Inhabitants in the Towns we represent, with an account of their Principles—whether for the State of New York—Vermont—or neuters.

We beg leave to return our most sincere thanks to your Excellency and the honorable the Senate and General Assembly for your Proclamation of the 23d of February last, and for the salutary Measures taken for restoring Peace and internal Tranquility to this and the other Counties mentioned in the said Proclamation.

We are Your Excellency's Most Obed't Serv'ts Signed by
Order

Pelatiah Fitch Chairman.

His Excellency Governor Clinton.

P. S. As a Supplement to the Protest formerly forwarded to your Excellency, we inclosed a Paper signed by a number of the Inhabitants of Halifax.

PETER R. LIVINGSTON REJECTED.

General Ten Broeck Declares he is not a Proper Officer to Command the Unadilla Expedition—Brigade Orders.

Albany 1st July 1778.

Sir, I had the Honor to write your Excel'y yesterday—the People in Tryon County are much for the Enterprize to Unindillo, they have Requested me to appoint the Officer to Command

* Indecipherable.

it, It fell to Colonel Peter R. Livingston's Tour to Command the Detachment of militia Ordered the 12th Ultimo, now in Tryon County at Schohary & going thither, and he has this day left Albany for that Purpose, Your Excellency will permitt me in Confidence to Inform you that I have a variety of Reasons which Induce me to believe he is very Improper to Command any Troops that may be sent to Unindillo; nor am I Singular in this opinion having advised with some Gentlm. on the Subject. In Order, therefore, to Obviate the Difficulty arising from his being in Tryon County which does not leave it in my power to send another militia Colonel out of Tour, I beg leave to Suggest to your Excellency, a wish to have a Continental officer to Command on the Enterprize, and if one of less Rank is sent then Col. Livingston, he will come away & thus Extricate us from the Embarrasment we are under, Perhaps Lt. Colonel Willett may be proper, and if you think so, he might be sent up with a line from your Excel'cy to General Stark Requesting that he may have the Command.

As the time for which the militia now in that Quarter were ordered out will Expire on the 23d Instant, the necessity of Hastning an officer to take the Command is so Evident that I need not Enlarge upon it. I take the liberty to Inclose your Excellency Copy of the Brigade Order Issued the 12th Ultimo & am with great Regard Your Excellency's most Obedient Servant

His Excel'cy George Clinton Esqr.

Brigade Orders.

The depredations lately Committed by the Enemy to the Westward and in Tryon County and the Apprehensions of farther Incursions on the Inhabitants in those parts, it is become necessary that a Body of the Militia of my Brigade be Embodied for

the protection and defence of our Brethren in those parts and to relieve those of my Brigade now in actual service in Tryon County & at Schohary.

The General orders into actual service for this purpose one fourth part of the several Regiments Command by Cols. Robert Van Rensselaer, Van Ness, Nicoll, Killian Van Rensselaer, Van Den Berg Schuyler, Van Alstyn, Van Bergen & Whiteing.

This detachment to continue in service for the space of one month, to be Computed from the time the men shall arrive at Albany, then to be relieved by an equal number of men from the several Regiments if the service shall require it, and to be formed into one Regiment—the field Officers to be furnished from the following Regts. vizt.—Col.—one Col.—one Lt. Col.—Col.—one Major, the men to be compleatly armed and Equipped and to provide themselves with provisions for their Subsistance on the March from their respective places of abode to the City of Albany, and for which they will be allowed a reasonable Compensation. The several Regiments (Exclsive of the Field Officers to be furnished as above), are also to furnish other officers in proportion to the number of men given by each respective Regiment Estimateing sixty men to a Company Includeing non Commissioned Officers, and to be taken from the Classes agreeable to the directions of the Militia Law.

The General expects that the men will be at Albany on Tuesday the 23d Instant June.

The Commanding Officers of the several Regiments are immediately after Compleating the detachments to be made in Consequence of these orders, to proceed to form detachments for their relief who are to be ready to march at the expiration of the month, should no orders to the Contrary be received.

The Associated Exempts are to hold themselves in readiness to march at a moments warning, as it is probable the whole Corps will soon be called into the Field. The Commanding Officers of the several Regiments will reflect, and it is the General's wish, that they will apprise the other Officers and the privates of their respective Regiments, that by the Militia Law, whenever the Militia are Called into service, they are Subject to Martial Law, and that every person who shall be called into service, and who upon being notified thereof either personally or by notice at his usual place of abode, shall refuse to march is liable to be apprehended and tried for desertion.

Given at Albany June 12th 1778.

THE GOVERNOR ASSISTS TEN BROECK.

Approves of the Choice of Marinus Willett for the Unadilla Expedition—Schuyler to be Consulted.

Poughkeepsie 2d July 1778.

Sir: I have received your Letters of 20th & 27th June & the 1st Instant with their several Inclosures. In the first, you mention that Genl. Starke writes to me fully on the Subject of the Expedition ag't the Enemy at Unnidilla which you & he conceive practicable. I have not been favoured with his Letter; wherefore I conclude it must have misscarried & begg you to mention this Circumstance to him. The only Letter I have received from Genl. Starke is Dated the 21st June, which barely mentions his having ordered scouts to be sent out from Cherry Valley to reconitre the Country & the Enemy's Strength to enable him to form a Judgment of the practicability of the Measure of which he promises to inform me on their Return.

I am sorry that any Consideration shoud have induced you to have intrusted an Officer with so important a Command in whom the greatest Confidence as well in his Integrity as abillitie cannot be placed. It might in my Oppinion easilly been avoided. It woud have been justifiable on this Occasion to have contrived a less Important Command & thereby complied with the Rota-

tion of Duty by giving it to him & fixed upon a suitable Person for the present Service. For whether your Jealousy is well or ill founded, the want of Confidence which naturally results from it may be fatal should it prevail among the Soldiery. I have wrote to Colo. Willet to come to me immediately & if he can be spared & will consent, I will send him to Genl. Starke to be employed on this Service; if not you must at all Events give the Command to an Officer in whose Integrity the most perfect confidence can be placed. The Commissioners of Indian Affairs for fear of any bad consequences ought in my Oppinion to be consulted on the Subject of this Expedition & as far as you may have the Management of it I expect you will take their Sentiments. I am Sir with great Regard Your most Obed't Serv't

Its Rout, from thence is to Paramus, Kakiat and Kings Ferry. I cannot say I am altogether casey about General Gates Position; or the River, should the Enemy Push for either. But as I called the principal work at West Point, Fort Arnold, all I could say to him on the Security of either would be to Little effect. They must therefore take their change.

Mrs. McDougall is absent, but I can answer for the return of her Compliments to Mrs. Clinton. I am Dear Sir Your affectionate Hble. Servant

THE MASSACRE AT WYOMING.

The Citizens of Goshen Highly Alarmed—Their Appeal to the Governor—His Reply.

Goshen July 5 1778.

May it Please Your Excell'y, A Few Minutes Past Capt. Little arived here from Minisink with the disagreeable news of Wyoming on the River Sisquehanah being in the Possession of our most Inveterate Enemy. His Information is by a Person sent Express from Lackawauey about twelve or fifteen Miles from Sis-

quehannah who says, that two Expresses had arived at Lackawannah with Information that Butler & Brandt with a large body of Troops arived at Wyoming & summoned two small forts, who refused to Surrender, but Imprudently turned out & gave Battle to the Enemy, who soon reduced them to the necessity of surrendering themselves with the whole Settlement Prisoners of War. These Accounts together with the late Inteligencies from Coshethton, gives the People of Minisink so much uneasiness that many Families are moveing off & we have the greatest reason to believe that unless something be done more Effectually to repel the Progress of the Enemy our Frontiers will soon be reduced to the greatest distress.

Many of the Militia who are now placed as guards to the Frontiers, have neither Guns nor Ammunition & have it not in their power to purchase, because neither Guns or Lead are to be had; & a Few are not able to buy. It is, therefore, submitted to your Excell'y whither it would not be best to deliver a quantity out of the State Magazien for supplying the Deficiency as well as some general direction for the more Consistent movements of our Militia. We are Your Excellencies most Obed't & Hum'le Serv'ts; Henry Wisner Benj'n Tusten Ju'r Moses Hatfield Issac Nicoll.

Poughkeepsie 6th July 1778.

Gentlemen, I have received your Letter of yesterday with the disagreeable Intelligence of the Enemy's having reduced the Settlement of Wyoming & made the Inhabitants Prisoners of War.

It is long since I ordered the one fourth of two Companies out as a Guard for the Frontiers & to gain Intelligence of the movements & Designs of the Enemy. This at the Time was esteemed

competent for the Purpose even by the Frontier Inhabitants who applied to me on that Occassion; but the Immediate Appearance of the Danger which gave the alarm ceasing, I have reason to believe that instead of scouting on the Frontiers, that Detachment remained at Home, or some Intelligence might have been acquired by them that woud have enabled us to have prevented the Misschief at Casheghton. When that Event took Place, it occasioned a second alarm, on which I ordered Lieut. Colo. Newkirk to strengthen the Guards by Detachments from other of the Frontier Companies, equal to what shoud appear necessary from the Intelligence he might obtain of the Enemy's Strength, & to consult Colo. Tusten on the Subject, as it might be convenient for his Regim't to furnish a Proportion of such Reinforcement. If this last Order like the first is not neglected, I cant see what more can be done at present. To call out a greater Proportion of the Militia on the Frontiers woud tend to weaken the Defences of the River, render supplies for the Frontier Guards more difficult to obtain, & greatly distress the Country at this bussy Season of the year, nor woud it give greater Security to the Frontiers, as till we can learn the Route of the Enemy from Wyoming, we cannot even Guess what Part of the Frontiers they will bend their Course ag't & to line the whole with an adequate Force is not in our Power.

I have not yet been favoured with a Return of the Military Stores in the State Magazine. But from the best Intelligence I am able to collect there is not any Small arms in them. If there were, Mr. Wisner woud inform you that there is no Law impowering me to order them to be delivered out to the Militia. There can be no Difficulty respecting Amunition if the Officers commanding Regts. of Militia will attend to their Duty. They have

only to make Regular Returns of the Quantity of Amunition wanted for their Regts. & give an order for it in Favour of their Qu'r Master on the Commissioner of Military Stores; this Backed by a Warrant from the Gov'r will draw the necessary Supply of Amunition made upon Catridges ready for Use. Mr. Wisner might have informed you of this as a Law passed the Legislature at their last meet'g for this Purpose.

If the Militia Law & the Genl. Orders already issued, are complied with, the Militia will move with great good Order & Consistency. They are to be formed into eight classes The Rotation of Duty of each Class fixed, they are to be compleatly armed & accoutred, & held in the most Perfect Readiness to march at a Moment's warning & in Case of an Invasion or Insurrection, to march without waiting orders & repel the Enemy; making Report of what shall be done to the Governor. No orders therefore can be issued more consistent with the Safety of the Frontiers or by which the Force of the Militia can be more readily collected to the Point where they may be most wanted for that purpose. I am Your Most Obed't Serv't

James Armitage's Deposition in Relation to Tories and Indians on the Frontier.

Personally appeared before me, Abraham Tenbroeck, Esqr., one of the Justices of the Peace, for the city and County of Albany, James Armitage,* of Aera in said county, coach and Chair maker, who being duly Sworn deposeth and Saith: about Six

* This deposition belongs to the letter, dated July 11, 1778, General Ten Broeck to George Clinton. See page 536.—STATE HISTORIAN.

weeks ago two men came to his house armed; he has forgot their names; they said they came from Coymans Patent, and were going to Paghkatakean to look for Land;—they Returned in four or five days; he was not at home; they told his wife if he Stayed at home and remained Quiet, he would not be molested—about a week or ten days ago one of them came with a Stranger again to his house, and said they were pursued by the Rangers; the deponent Said if the Rangers came they would take him & them both, as he was Suspected to be a Tory by some people, and advised them to go to lay at his neighbours, Joshua Weekes house. That they were on their way to Paghkatakean which is about Eighteen miles from Batavia—that last Wednesday an unknown person passed his house upon the Road to Cattskill, he had a Coloured Riffle Shirt on & was armed &c. Said person Returned last friday about nine or ten o’Clock in the morning; that after eating breakfast he followed the deponent to the Garden, but previous to this, in presence of Joshua Weeks, Said person began a discourse, by observing that many were forced to be Tories by harrassing of them; that one Smith went to N. York the winter before last and Resided there, and afterward returned home and meant to live quietly, that one Capt. Snider threatned to take him up, that Smith hearing of it went off and Joined Burgoyne; that before Burgoyne’s Surrender Said Smith went off with five hundred Tories; that Said Smith was a Major and Super Intendant of ye Indians, and he wish’d that Smith had all the Tories. This passed in presence of Joshua Weeks; the person then requested to Speak with the deponent in private; they then went down to the Garden; the person told the deponent that the two men who were at his house some time before, told him the deponent was a friend to Government; and that he had heard from Said

two men, a Great deal of Weeks; that he was a Strong Rebel; he then pulled out of his pocket a letter Signed John Butler, and directed to Lord Howe dated 7th June to the following purpose "My Lord, these are to let you know I am now in Readiness with 15,000 Indians and Government men, and hoping your Lordship will forward the army and fleet on the 15th of July I shall begin my Ruptures and hopes to Join you at Cattskill." He then pulled out another letter and told the deponent he was direct from Butler, and was the Smith, who he had before made mention of, to the deponent and Weeks, and was a Major and Super Intendent of the Indians; this letter was directed to all the friends to Government, Signed John Butler, "desiring that they would come off Immediately and Join him, that if they did not, they must share the same fate as the Rebels as this was the last time of asking." He further Said that one of the men who was at the deponents house was now at Coeymans patent collecting all the men he could, and that he hoped said person would bring a considerable number with him. That they were to Join at Paghkatakcan; and that he would advise the deponent to come off as soon as possible; that each man was to have four Shillings pr day from the time they left their own houses. He further Said that he commanded the Party at Cobus Kill & three of the friends to Government were killed owing to their not coming off, & that he had Seven prisoners and Swore he would have Peter Hagar, and the Beckers, and Sweep Schoharie Kill, and then he would come and take Weeks—he further Said he had Twenty-two Indians at the lower end of Batavia, and five hundred Indians & Government men back of the Mountains. That a Party is back of Cherry Valley, a party back of Schoharie, and the main body with Butler. The Deponent has frequently Seen

armed men Travelling to wards Batavia and has Reason to believe that many have gone off; that as the deponent lived in an exposed Situation he was obliged to disguise his Real Sentiments, and talk with the Enemies of his country as if he was one, in order to preserve his property and life; but upon Receiving the above Information he thought it his duty to make this discovery in order to prevent the Intended Evils that might arise, was the same to have been Kept Secret.

GOVERNOR CLINTON WRITES PELATIAH FITCH.

And Makes a Calm Review of the Troubles Between Vermont and New York.

Poughkeepsie 7th July 1778.

Sir, I acknowledge the Receipt of your Letter of the 1st Instant with the inclosed Returns of Civil and Military Officers. As the Council of Appointment have lately adjourned and as they reside in different Parts of the State I did not think proper to detain Mr. Sherburn until I cou'd convene them. You may rest assured, however, I shall call a Council with all possible Dispatch when your Returns will be laid before them and I have no Doubt but that they will appoint agreeable to your Recommendation. As soon as the Commissions are made out I shall transmit them to you by Express.

We are still waiting with anxious Expectation the Result of our Application to Congress to interpose in this Affair and can impute our not receiving an Answer only to their being engaged in

those very Important Matters which you may easily suppose at present to engross their Attention. I have notwithstanding by a special Conveyance this Day informed them that Drafts were making under the Authority of the pretended State of Vermont to compleat Colo. Warner's Regiment, That tho we were willing that the main Business of advising means for settling the Controversy with the discontented Inhabitants on the Grants should be deferred 'till the more Important & Urgent Business of the Continent is so far compleated as to admit of Leisure, yet that for the present we must insist upon an immediate & positive disavowal of this extraordinary exercise of Authority and express Orders to Colo. Warner (their Officer) not to receive any of the Drafts into his Regiment or in any wise countenance the Measure.

I would still as upon a former Occassion earnestly recommend a firm and prudent Resistance to the drafting of Men, raising Taxes and the Exercise of every other Act of Government under the ideal Vermont State and in such Towns where our Friends are sufficiently Powerful for the Purpose I would advise the Entering into Associations for the mutual Defence of their Persons and Property against this Usurpation.

You will readily perceive that until we have received the Answer of Congress & the Legislature have declared their Sense it is impossible for me to advise except only in general Terms. Your own Prudence and Discretion must determine the true Line of Conduct which I trust will be consistent with the sacred Obligations of Allegiance and the Characters of Men who dare oppose lawless Domination and Power whether attempted to be exercised by a Single Tyrant or a Missguided Multitude. THE VERMONT QUESTION.

Governor Clinton Expresses his Views on the Subject to Gouverneur Morris.

Poughkeepsie 7th July 1778.

Dear Sir, I had prepared an Answer to your Letter of the 16th of June ere I received that of the 23d But before I had an Opportunity of forwarding it the latter came to Hand. I always considered Monied Matters as the most delicate & therefore took the Liberty of communicating the Contents of your Letters to our good Friend the Chief Justice who was kind enough to write you his Sentiments on the Subject which exactly coincided with my own mind & you will receive both Letters under one Cover.

* This letter is practically identical with that to Pelatiah Fitch, on the pages immediately preceding.—STATE HISTORIAN.

I am exceedingly concerned to learn that Congress have not yet taken up our Controversy with the discontented Inhabitants of the Grants, and that we are not of Course to speedily Expect an Explicit Declaration of the Sense of Congress on that Subject. I easily perceive that your time is much taken up with the very Important Affairs of the Continent at this Critical Period but I cant conceive how the great Work of Confederation can so fully employ the Attention of Congress especially as many of the States have not yet vested their Delegates with the necessary Powers on that Point as not to be able to afford a Moment to an Affair in which one of the States is so deeply Interested & the Honor & perhaps the future Peace of the whole so intimately concerned. You are sensible that Jealousies have from the first been entertained by many of the People of this State that the Inhabitants of the Grants were encouraged in their unwarantable Proceedings by at least Individuals in Congress & Servants of the public which I have Reason to fear were but too well founded. While these Jealousies were confined to Individuals they could produce no great Evil, But, Sir, should they extend to the Body, and I am not without apprehensions they will, as well from the Slight & unsatisfactory Manner the Business was treated on a former Occassion, when a few Words only spoken in plain & explicit Language would in all probability have settled the whole Matter, as by Delay now, (when the Mallcontents are strengthening their Cause by establishing & exercising the Powers of Government over the Subjects of this State), Shoud this be the Case it will necessarily occasion the loss of that Confidence which in our present Circumstances is so essential & which the good People have hitherto unreservedly placed in Congress & may be productive of Effects very Injurious to the Common Cause. I have this

Day addressed one more Letter to Congress on that Subject. I wish it may be the last. You will observe it was occasioned by Drafts being made under the Authority of the usurped Government of Vermont for filling up Colo. Warner's Regiment, which the well affected Inhabitants of this State in that Quarter are determined to oppose & resist at the Risk of Life. I am D'r Sir,

The hon'ble Gouverneur Morris Esqr.

[No. 1571.]

He Lays the Matter Before Our Delegates in Congress.

Poughkeepsie 8th July 1778.

Gentlemen, Some late extraordinary Proceedings of the Government of the pretended State of Vermont in ordering Drafts to be made in that Quarter for filling up the Continental Regiment, commanded by Colo. Warner, have again induced me to address Congress on that Subject, tho I confess my present Letter is dictated more by a Desire of acquitting myself of my Duty & this State of Censure should the Peace of the Continent be intercepted by a Civil War in that Quarter (which I am lead to apprehend) than from any sanguine hope I entertain of Success after the many fruitless Applications which have already been made on the Subject of this Controversy. My letter to Congress is left open for your perusal which you will please to Seal & present. The Indians & Tories still continue to discover a hostile Disposition on our Western Frontiers & the Militia are worn out in affording the Inhabitants Protection ag't their Depredations. I am with due Respect Your Most Obed't Serv't

*And in a Letter to Congress Predicts Civil War, Unless Congress
Intervenes.*

Poughkeepsie, July 8th 1778.

Sir, I have to acknowledge the receipt of your Excellency's Letters of the 10th & 20th of June last and to inform you that the Legislature of this State have at their last meeting enacted Laws for appointing suitable Persons to procure military accoutrements for the Quota of Drafts for filling up the Continental Battalions raised under the Direction of this State—for suspending the Law for regulating Prices and for exempting from militia Duty Deserters from the British army & navy (not being Subjects of this State) and disqualifying them from acting as Substitutes in the militia during the present War; copies of these acts together with such others as have before been passed in consequence of recommendations of Congress and have not been already forwarded shall as soon as they are printed be transmitted to Congress.

It is with the utmost regret, Sir, I find myself constrained again to intrude upon the Deliberations of Congress, and to entreat their attention to a Matter of the greatest Importance & which requires their immediate Interposition.

The Disorders which have long prevailed in the Northeastern parts of this State; where the deluded Inhabitants have attempted a Separation from us, and to erect themselves into an Independent State under the Style of the State of Vermont, are fast approaching to a serious and alarming crisis, and unless Measures are speedily adopted to prevent it, we shall very soon be involved in a civil war.

As we have considered the whole continent eventually interested in the issue of this affair equally with ourselves, the Legis-

lature of this State were determined to use no compulsory means for the reestablishment of their authority in that part of the country 'till we were previously favoured with the Sentiments and advice of Congress; and had these unhappy People contented themselves with barely denying our Jurisdiction, matters might have remained in that Situation 'till having expelled our external Enemy, Congress might then have entered upon the Business with more leizure and deliberation; but their Proceedings have of late been such, that we shall very soon, from mere motives of self defence be obliged to have recourse to arms.

The Inhabitants of several Towns within the claim of this pretended State distinguishing between the former and present Government of this, conscious that all their Grievances which they may have suffered arose from abuses under the former and that they had every Thing to expect from the Justice and Generosity of the Latter, have been constantly and warmly attached to us, and are confirmed in this attachment by the equitable Proposals in the Resolutions of both Houses of the 21st of Feby. last; and relying on us for assistance are determined at every hazard to resist this unwarrantable usurpation.

In consequence of an Act of the pretended Legislature of Vermont, a Draft of every fourth man throughout that Terrytory, including these Towns, are to be made to compleat Colo. Warner's Regiment (tho' in Justice to this Gentlemen I must observe it does not appear to have been done upon his application) and assessments are making in Order to raise a Tax. As the well affected Towns will refuse to furnish their respective aids either of men or money, under that usurped authority, Force will probably be used to compel them; which will be opposed by Force.

The Wisdom of Congress will naturally suggest to them what the consequence will be, and what a disagreeable Influence a contest of this kind may have, not only on the minds of the Inhabitants of this State, but upon the affairs of the whole Confederation; and, therefore, trust it will command a proportionable degree of their care and attention to prevent this unhappy dispute from being bro't to so fatal an Issue.

Whether the very important matters now before Congress will admit them to enter fully upon the Business of this controversy is with them to determine; tho' I could wish it might not be deferred Longer. I must however for the present entreat at least a Resolution, expressly disapproving of the conduct of these People in this Instance, and a positive order to Colo. Warner not to receive any of the Drafts into his regiment. This appears to be necessary to prevent the immediate Shedding of Blood; and without it I fear all those Calamities and misfortunes which are the natural attendants of a civil war. I have the Honor to be with the highest Esteem and respect Your Excellency's most Obed't Hum'e Serv't

Geo: Clinton.

D'r Sir, I inclose you a Copy of a Letter which I this Moment received from Colo. Gaansevoort, Commandant of Fort Schuyler.

* See page 93, Volume II.

I fear that the accounts it contains is but too true & I am sorry to find by the Returns of that Garrison (which I take for granted are also forwarded by him or General Starke to you) that that Fortress is so illy prepared to stand a Seige or even resist a sudden vigorous Assault. If the Enemy really mean any Thing Serious ag't that Quarter I presume Sir Henry Clinton's next Operations will be up the River. I am Sir with great Regard Your Most Obed't Serv't

The Commander of the Unadilla Expedition Not Yet Decided Upon.

Albany 11th July 1778.

Sir, I am Hon'd with your Excellency's fav'r of the 2d Instant. General Stark tells me he has wrote your Excel'cy no other letter on the Subject of the Expedition against the Enemy at Unindillo but that of the 21st June; he however told me what I wrote in my letter of the 20th. If Colonell Willett does not come up & if the Expedition takes place, I shall most Certainly appoint an other Officer to the Command—I have & shall farther Consult the Commissioners of Indian affairs on the Subject of this Expedition. When the party will march I do not yet know; as soon as I do I will let your Excell'cy know it. None of the militia have marched since I wrote you the 30th June last, which letter I hope your

Excellency has Rec'd; the time of those on duty will Expire in 11 or 12 days—how the Relieve will come on I don't know, the People Complain most Grievously to be Called out at this Season of the Year. I Inclose your Excellency James Armitage's* affidavit.

I am Informed that some new militia Commissions are sent up to Officers in this Brigade if I am Continued in Com'd (which I by no means Solicit for) I should be glad to know the names of such Officers as are appointed. Your Excellency will see the Propriety of this as it will otherwise be Impossible for me to know to whom to Issue my Orders with great Esteem I Remain Your Excellency's most Obed't & Humble Servant

THE INDIANS ON THE FRONTIER.

Governor Clinton Urges Vigilance—He Prefers Not to Order Out More Militia—Gives Great Discretion to Colonel Cantine.

Poughkeepsie the 11th July 1778.

Sir, I have this Moment received your Letter Dated 2 o'Clock this Morning together with one from Colo. Cantine of yesterday inclosing an Affidavit & a Letter addressed to the Inhabitants of Kingston &c. (said to be wrote by Order of the Anandago Indians) inclosed containing Accounts of the Hostile Designs of the Indians & Tories on our Western Frontiers. By a Letter I received yesterday from Colo. Gaansevoort, at Fort Schuyler, I am informed that a number of Regular Troops from Canada & Indians were assembled at Osewigatje from whence they were directly to proceed ag't Fort Schuyler. This Account which came to Colo. Gaansevoort so as to obtain his full Credit induces me to put greater Faith in Dumond's Affidavit, for I think it more than probable if the Enemy seriously intend any Thing ag't that Post, they will keep small Parties out on our Frontiers, constantly alarming the Inhabitants to prevent the Militia from marching to the Relief of that Garrison, which is, I am sorry to say, neither sufficiently strong or well provided to resist a frmidable attack.

This is the most critical & unfavourable Period to have the

Peace of our Frontiers disturbed. Genl. Washington's Army not having yet arrived I dare not withdraw the Militia from the Post in the Highlands. Harvest being at Hand forbids the ordering & keeping out the whole or indeed a large Proportion of the Militia for any Space of Time. I dont know that any Thing more can be done but keep out those already ordered so stationed as to get the earliest Intelligence of the Enemy's Motions & occasionally to strengthen them, if on the Approach of the Enemy it may appear necessary. I woud apprise you that strong Detachments are out towards Minissink & Peenpack from McClaghry's & Allison's Regts., between whom & Coll. Cantine a constant Communication shoud be maintained, for the Purposes of gaining Intelligence & Cooperating with each other. I expect Colo. Cantine to whom you will please to forward this Letter will increase the Guards on the Frontiers by ordering out a greater part of the Militia if he shall Judge it necessary, without waiting for further Orders. I must submit to you & him whether Gonsalus & Oosterhoudt ought not to be immediately secured. This will depend on their Characters & other Circumstances. I am your most Obed't Serv't

ECHOES FROM WYOMING.

Governor Clinton Receives Depositions from Several Men Who Came In from the Frontier—The Military Situation.

May it Please Your Excellency The frequent Confirmation of the Inteligencies which we gave you in our last as well as the unbounded disatfection & Plotings lately discoverd here made it

absolutely necessary for us to repair to this place with the Militia of Col. McClaghry's & Allison's Regts. and on our arival found things in the Greatest Confusion; some few Men with Women & Children by Hundreds are flocking from Wyoming where by the concurent Testimony of numbers the most horrid Sceans of Savage Barbarity has been Exhibited, and sundry families are moveing from hence to the Eastward, which was not in our power to prevent, till last Evening by the arival of Capt. Cuddeback from Coshethton where he had been with a small Scouting Party, whose report as herein Inclosd, quieted in some measure the apprehentions of immediate danger. You have also Inclos'd an Examination of Robert Jones, who says he left Brant last Tuesday at Achquago & altho we have some reason to Suppose Jones to be a Rascal & have confined him, yet his Information we have good Reason to believe in sundry Particulars, & perhaps some other parts of it ought to be attended to.

From a Consideration of all these facts, evidencies & circumstances, it appears to us not only necessary that a particular attention be paid to the present Exigencies of our western affairs but also a well concerted Plan either Offensive or defensive be speedily put in Execution for the Safety & Protection of our Frontiers.

After we gaind the Inteligence by Capt. Cuddeback we thought best to dismis the whole of our Regts. except one Class from each Company, which no doubt you will deem necessary to be continued; therefore, must Petision your Excellency, that these two Regiments be excusd from the Performance of your late General Order if Possible, otherwise shall expect the Neighbouring Regiments to Furnish their Proportion of the Western Guards. We hope your Excell'y will favour us with a spedy answer as our

men are waiting your determination. We take the Liberty to

Minisink July 10 1778.

P. S. Altho we have thought Proper to Dismiss the Regiments
 for the Present we have no reason to depend on any length of time
 from being excusd from a General alarm, even from Capt. Cudde-
 back's report which is the most Favourable account; therefore
 would take the liberty to suggest the Propriety of Ordering the
 Classes of Ulster & Orrange to the westward, if the Continental
 Troops have ariven in sufficient Numbers at the Posts on Hud-
 sons River to admit of such a thing.

To His Excell'y George Clinton Esqr Governor of the State of

CAPTAIN CUDEBACK'S STATEMENT.

Minisink July 10 1778.

Capt. Cuddaback on his Examination Says, that on Saturday
 last himself with 5 others were sent as Spies, to collect as far as
 Possible every Piece of necessary information as to the Strength,
 number & movements of the Enemy at Cosheighton; that on their
 arival at that place had a private Conference with one Solomon
 Decker, in whom he placed an intire Confidence, who informed
 him that as nearly as he was able to Judge from their appear-
 ance, about 250 Indians & Tories had Collected at Cosheighton,
 who had previously formed an expedition against Penepack &
 Minisink & that they had marched for those places, & he says
 their Plan was to march as privately as possible to Mongope

[Mongaup] River & there to divide into small parties & to allot certain parts of the Settlements to each respective Party then seperate & each party execute their villany at the same time, but when they got as far on their way as the mouth of Lakawack, they were informed that a large number of militia had Collected at Minisink & they then thought proper not to proceed any farther down Deleware, but turned their attention toward a Small settlement on Lackawack where they murther'd a few, took some Prisoners, Cattle, Sheep & hogs, but the exact number of either, he did not know, as they went directly through the Country to Achuago, which pervented him of an oportunity of seeing them on their return; s'd Decker also informed the Examinant that there was still a few lurking villians of the party at Lackawack, which he judg'd was left as a party of observation and kept up a constant communication between that place & Achquago or wherever the above party had march'd to.

ROBERT JONES'S STATEMENT.

Menecinct 10th of July 1778.

Parsonally Appeard Before me Henry Wisner, Esqr., Robert Jones, and Says that he Left Albany the 8th Day of May Last, went from thence to Johnstown, Stayd their 3 Nights, went from thence to Conoughoharre, Stayd their one Night, then went to the Buttunnot or old England Destrict and Stayd their 10 or 11 Days, at which time Joseph Braut Came their with Six Indians and 2 or 3 green Coat Soldiers; Stayd two Days; he orderd the Examinant with Nine famelies who livd at that place to go with him, if Friends to Government, if not to take ther own Resk; him Self and 4 famelies with S'd Brant went to Unedillah, the other

five Soon followed; Brant did not Insist on their going but would take their Cattle; Neither would protect them, unles they went with him; after that the Examinent and one John Faalkner went with S'd Brant to Anaghquago; after Being their Some time an Express Came from Butler to Brant, ordering him to march Immediately to Tyoga, which orders Brant Immediately obeyd and Stayd Eight or Nine Days, Informing when returnd, that he had Been at a treaty; that the Indians Refusd to Join in an Expedition to the Northward unless they first ware assisted to Cut of the Inhabetents of Susquehanah, at which treaty it was agreed that Butler Should go to Wyoming and that Brant Should Stay at Anahquago, and that Brant in the mean time was to Collect all the provision he Could against the time Butler was to be at Anahquago; for that purpose Brant Cald together all the old Indians who Left the matter to him as to provision &c.

Brant then formed an Expedition against Lakawak for the purpose of Collecting provision and went one Day on his march, when an Express was Sent after him Requiring him to Return Immediately, on account that a party from the Northward was Expected to attact Unedillah. Brant Immediately Returnd and Dispatched all the white men he Could to the assistanc of Unnedillah and 2 Days after being last Sunday, S'd Brant followed after, with all the Indians at that place; the Same Day five Indians arived at Aghquago and Gave Information of a Large Number of Sinckes [Senecas] on their march to the Same place to Joyn Brant; on Tuesday a Small number Collected whoo under the Command of Capt'n Jacobs (an Indian) followed after Brant; they left the Examinent at Anahquago; he made his Escape the Same Day; whoo on his march says he met about 20 Indians and white men with a Number of prisoners, which they told him they Got at Lakawak.

The Examinant also says that Butler is not to come down to Minisink (as he understood from Brant) but was to go from Wyoming on an Expedition against Cherry Vally & to be Joind by Brant, thinking it a favourable time for the Purpose as he understood the times of the Militia who guarded it is to expire next Fryday & he intends to attack it the Sunday Following. taken Before me the Day above written.

Henry Wisner.

P. S. If Your Excellency's Knowledg of the facts mentioned by the above Examinant should Incline you to think he ought to have his liberty & that he inteds Friendship for us you will Please to signify it.

GOVERNOR CLINTON'S RESPONSE.

New Windsor Sunday 12th July 1778.

Gentlemen, I have this Moment received your Letter Dated the 10th with the Inclosures. I agree with you that [it] is highly necessary to keep out one Class at least of Colo. McClaghry's & Allison's Regts. on the Frontiers for the present and the whole held in the most perfect Readiness to join them if from the Intelligence you may receive it may appear necessary. I am now at this Place on my Way to see Genls. Washington & Gates; & my particular Business is to concert Measures for the Defence of the Frontiers; as soon as I return you shall have my further answer respecting the above two Regts; till when as Genl. Washington's Troops are not yet arrived I cannot alter my former Orders, but be assured they shall have strict Justice & Credit for the Extra Duty they may perform. I begg you will immediately forward by Express (the Express of which I will pay) the Substance of Jones' & Cuddeback's Information to Genl. Tenbroeck at Albany & to Colo. Cantine at Marble Town. I have Reason to believe the greater Part of what Jones Relates but as yet I cant advise you to release him.

GENERAL SCOTT TAKES A GLOOMY VIEW.

Gathers up the State's Archives and Prepares to Leave Ulster County to the Invader.

Hurley, July 12th 1778.

Sir, The Situation of this Country is truly deplorable. Mischiefs already done at Laghawack. The Country breaking up and the Harvest probably abandoned. I think the Records & my family so unsafe here that I am moving off with them. I hope I shall not be too late. To leave so valuable a Country as this, without Defence, a Country which is a principal Grainery to the Army, nothing but the Want of Troops will in my Opinion justify. Your Knowledge, Sir, of its Situation proves it to be a frontier from Laghawack to Hudson's River. And will not 150 or 200 of the Miscreants who are back of Us be sufficient to break up this whole Extent of Country by falling on different places with different parties? For these reasons, Sir, give me Leave to suggest the propriety of immediately procuring 250 or 300 Troops for the protection of these Frontiers. And as the continental army must now be in suffic't force below I would suggest the removal of Colonel Graham's Corps, (which was raised for defence of the Frontiers) to this Quarter of the Country as proper. The Danger is in my Opinion greatly increased by Butler's late Success at Wioming and the Account I now have from the Mouth of a person just come from the westward, that a party of 300 of the Enemy was destined for Shamokin, & another of 150 or 200 coming up this way. Upon the whole, Sir, I fear the worst for this Country unless immediate Relief be afforded to it. Perhaps if the Inhabitants could be assured of immediate Relief they might be prevailed on to

delay their Harvest for some days and turn out fully for the protection of the Country till such Relief can be furnished. I am Sir with great respect Your Excellency's most obed't Serv't

To the Honourable Thomas Chittenden Esqr. Governor Commander in Chief of the State of Vermont (in Council)

The Remonstrance and Humble Petition of the Town of Shaftesbury Inhabitants of said State Humbly Sheweth. That there is a high Commission Court Erected within this State by the General Assembly in their Last Session which we Humbly apprehend

the s'd Assembly had no Just Right according to the Constitution of this State To Erect or Constitute Especially with Such an Arbitrary and almost unlimited power.

That s'd Court have and Do Deny men the Liberty of a Trial by Jury which is Contrary to the plain letter of the Constitution of this State which at once Takes away one of the Darling Branches of English Liberty.

That s'd Court Do openly avow their Authority from their Instructions Given them from the General Assembly in the above s'd proceedings.

That s'd Court has of late in Sundry Instances Set aside the Judgment of the Honourable Council and also of the Convention of Committees in passing Judgment of Banishment against Sundry persons within this State,—all which proceedings Together with The Necessary Consequences that must and will attend Them we Can but view with the utmost amazement which is Greatly Increased while we Consider that our armies are Contending in the field against Tyranny and oppression and there Introducing and zealously Carrying It on among our Selves.

Wherefore we your Honour's petitioners most Humbly pray that with the Honourable Council You would Take our Distressed Case into Consideration and Grant us Relief and if it may Seem meet put a Stop to the further Unwarrantable proceedings of the above s'd Court untill the next Seting of assembly and suspend the Sentances if Banishment that has Been already Passed under such Restrictions as in your wisdom Shall Seem best to Consist with the Safety of the State and your Petitioners as in Duty Bound Shall Ever pray.

Sir, In Consequence of an Application of some People from Bennington in respect to eight men that are just arrived from said Place, we waited on Genl. Starks to be informed of their Crimes, they being sent to him, with Colo. Ethan Allen; his honor informed us that it was none of our business to interfere with Tories from any other State, they were sent to him to be forwarded over the Enemy's Lines, which he was preparing to effect; as he informed us he was then writing to Genl. Gates on that head; after much altercation on the Subject he informed us that the State of Vermont by their Courts had adjudged them dangerous to the welfare of their State and he judged it expedient to comply with their Commands.

We conceive the Transaction to be of so extraordinary a nature that your Excellency ought to be acquainted with the same with all speed. We are with due Respect Your Excellency's most Obed't humble Serv'ts

Massachusetts Petitions New York for Bread Stuffs.

Council Chamber Boston July 16th 1778.

Sir, It is well known to all who are acquainted with the agriculture of this State, that its Inhabitants have never as yet been able to produce a Sufficient Quantity of Grain for their Consumption,

and the last Year large Quantities of Grain were lost in the western parts of this State by reason of our Peoples being called into and continued in the Public Service. We have, therefore, been obliged to procure a Sufficient Supply of Flour, and Grain, from the Neighbouring States. The Importation of them from the southern States, from whence we used to obtain our principal Supply, has been greatly interrupted by the Enemy; however, notwithstanding this interruption, we have hitherto got a Sufficiency to keep us from Starving, but as Congress by a late resolve has laid an Embargo upon the Exportation of the Articles before mentioned by Water, with a View to prevent their falling into the hands of the Enemy, We can Expect no Supply from that Quarter, and must, unless we are relieved by our Brethren at New York, soon be greatly distressed for the want of Bread Corn; and what increases our anxiety upon this Occasion is, that we have been informed that your Government have prohibited the Transportation of that Article by Land. We must, therefore, request that you would, for our relief, permit such a Quantity of Corn, Rye, Wheat, and Flour, to be transported from your State into this Government as may be necessary for the Use of its Inhabitants. We do not want these Articles for Exportation (an Effectual Bar is put to that by Congress) but barely for the Sustenance of the Inhabitants. We must, therefore, desire your Excellency to use your Influence that such Orders may be given as that we may be enabled to obtain a necessary Supply, and that such Persons as Incline may be permitted to transport their Flour and Grain, without molestation from your State into ours. Hoping for your kind interposition in this matter We conclude with great respect, Your most humble Servant

Jer: Powell Presid't.

SPRINGFIELD DESTROYED.

Lieutenant-Colonel Ford Portrays the Demoralization Along the Frontier to General Ten Broeck.

Cherry Valley 18th July 1778.

Dear Sir, I Embrace the Earliest Opportunity to inform you that the Enemy, Tories, and Indians, have made a Descent upon the Settlement Called Springfield, about 10 or 11 O'Clock this Day, and have burnt and Destroyed the same: the Greatest part of the inhabitants were moved, but some of them were there, how many are killed and taken I can not as yet tell, Upon the first intelligence that I had, that there had been five Guns heard Distinct, I immediately sent two Reconnoitering parties with very Explicit Orders, the next news that arrived, that there was 17 Guns heard; upon this I fired an alarm. Directly after, there Came direct news that the Settlement was all in a light flame; having so few Troops, I thought it not proper to send no larger parties than only to reconnoiter, least I Exposed myself to a Surprize, Posted the few troops in the best manner possible, fully Determining with my men to Defend our Ground or Loose our lives. The men I must Confess appeared with undaunted Courage. Towards night I sent a Scout of about thirty men, which returned in the night, and said that they had been into the Settlement, and found it all in ashes, Could not make any Discoveries of the Enemy or of any other person; So that I Judge that it is a Scouting party that is Come for that very purpose; and to alarm the people in this busy time of the year. After I had Certain accounts that the Enemy were there I sent an Express to Coll. Clock; here will be Considerable of an Alarm, I Expect reinforcements in to morrow, I am informed that there is a small Company of Rangers

on their way to us. I have about 80 men fit for Duty here besides some of the inhabitants. I have not time to make a proper return of the Garrison at this time. The People here are in the greatest Distress. There is Piquets made round the meeting house and all the women and Children and their Household Effects are Crouded into that place, for protection, and they are so thick, it seems to me that they must Die there. And there is so few men here that it is not in our power to protect them, Except they are together and the inhabitants have determined that they must Carry away their Families Directly, Except there Can be men sent them, for they are every moment Exposed; and for my part I must fully agree with them for the Distressed Circumstances here I can not give you an Idea of. The Post is all open to the Enemy and nothing to hinder their Coming; and so few men here is only a Bait for them; and I think if this post is Evacuated that the Mohawk River will not Stay so, that I Conceive the Supporting of this post is of great Consequence to the Northern inhabitants; at least there should be four or five hundred men here and a Good Commandant to be Steady here, and a Number of Continental Troops with the Militia. For this reason the militia officers are not Experienced and a great many of them but ordinary men, and they stay out for but one month and it will take them almost so long to get a proper knowledge of the Country and of their Duty, and they with their men Constantly keeping Tally to know how many Days before their time will be out that is a great Satisfaction with them.

Since my arrival I have been very Vigilant in keeping of Scouts out, and at a Considerable distance; when one scout is a returning I have another one a Going out, besides other parties out; when I Came here I found the men badly Quartered, I immediately Dis-

posed the troops in the best manner that I Could for the number that I had.

The Enemy that have done this mischief have taken another Route where they was not Expected by the inhabitants that was acquainted with the Country. It must be that they Came round back of the Lake were they have had a great way to travel, and where we have had no Scouts,

I hope we shall be timely relieved, I think our men will Stay their times ought [out] and no longer.

Sir, please to write back by the bearer and see that he is paid, for it is hard for me to pay him myself. From Your Sincere Friend and Humble Serv't

Jacob Ford.

General Ten Broeck Apprehensive for the Frontier.

Schohary July 17th 9 O'Clock at night 1778.

Hon'd Sir, I am Informed by a man who is knowing in Albany, his name is Lewis, a France man, that he has seen and Spoke with a Onoghquago Indian this afternoon, a Spy of the Enemy; he told him that the Enemy are on their way Coming up the west Branch of Delaware River to this Place. I don't doubt but what he has told me the truth, as it seems he is a friend to the Cause; he tells me also, that the said Indian told him that they had made a wide Road; he thinks it is to bring field Pieces, (but whether this is Possible I don't know, it perhaps might be); their number is great. I hope you will Hurry on the Reinforcement without delay, I Remain Sir, Your most humble Serv't

Sir, The above is Copy of a letter I Rec'd from Colonel Vrooman. Cherry Valley 19th July 1778.

Dear Sir, I have not as yet found the strength of this Cursed Club that has done this Mischief, but I have a Scout now ready to march with orders to get some intelligence of them and their strength, before they return, and to give them Battle if they can come across them, I have had some intelligence that they have done mischief further to the Westward, but how much I cannot tell this; Springfield lies about 5 Miles Westward from this, we Expect that they have killed or taken 4 or 5 men, the women and Children as yet we get no Intelligence of.

I shall send this by one of our men; their time is so near out and after the delivery of them to go home, and if you think proper to send us any answer, we shall receive the same with great Joy. I remain, Sir, your most Humble Servant

*Continental Troops Gone, Militia Marching Home and Tryon County
Destitute of Protection.*

Palatine, Tryon County, 19th July 1778.

Honoured Sir, Last Evening about 6 O'Clock I received Several Expresses from Cherry Valley, Springfield, and Andreastown, informing that the two last mentioned Places are Entirely destroyed by Indians and Tories, the houses Set on fire, several men killed and Scalped, the Fate of the women is not known. All we could collect from Eye witnesses agreaeth that the Enemy is Strong. This morning likewise Coll. Peter Billinger sent several Expresses for assistance, as the Enemy has burned houses within four Miles from the German Flats. The Continental troops stationed amongst us are Gone, the Militia under Coll. Livingston is on the march for home, so that we are Entirely Destitute of any assistance. I have given the Necessary orders to Stop the Progress of the Enemy, but the Frontiers is too Extensive to be Guarded by the Militia alone, and if no Continental Troops or a Standing Force can be Continued, I fear the whole County by parcels may meet the Fate of the above Settlements, I Suppose your Honour knows that Springfield is within three Miles of Cherry Valley. We expect hourly to hear of another inroad of the Enemy. I do not Doubt but you will afford us all assistance in your power and Recommend our Situation to his Excellency the Governor, to Genl. Starks, and Such other Commanders as have in their power to grant us relief. I remain, Sir, Your most Obdt. & humble Serv't

FINDING PILOTS FOR THE FRENCH FLEET.

Jacobus Van Zandt Acquaints Governor Clinton with Some Interesting Facts.

His Excellency George Clinton Esqr. Sir, His Excellency, William Livingston, by Order of Congress was Pleased to Desire me and Capt'n Patrick Dennis to Collect as many Branch Pilots as Could be had in this State for the use of His Excellency Count D'Estaing's Fleet now Laying within 4 Miles of Sandy Hook. I have the Pleasure to Inform your Excellency, that we have Collected Eight and Delivered them to the Count in Persons, four of which are the first Branch Pilots we had at New York before these Troubles, the other four are Men Capable of Carrying any Ship which draws less water than those under the Command of the Count. However they are Sufficiently acquainted to Follow the largest Ships in the Channel. I have Prevailed on Capt. Patt: Dennis to Remain on Board in Order to Encourage the Pilots there on board who is also well acquainted with the Channel.

As it was hinted to me by the Count, as well as the rest of the Commanders to have Several Coasting Pilots Sent on Board, I beg Your Excellency will forward Major Will'm Dobbs Down to Black Point, or any other Coasting or Channel Pilots you may have in our State, Dobbs I well know is a Proper Coasting and Channel Pilot; they Signify also, to have at least one Pilot for Each Ship for the Channel if they are to be had. From appearance I find the Count will get a Long side the English fleet if He Can, which lay last Fryday Morning in line of Battle, from Sandy Hook up the Channel. They appeared when on Board the admirall's Ship to be about 30 in number, most of them from 14

to 36 Guns. I believe they may have five or Six Battle Ships with them. I hope you'll Excuse this Incorrect account, as I am much Fateagued and allmost Burnt up with hot Sand, in going through a Villanous Tory Country. We had lik'd to have lost all our Lives, Pilots Included, on Board of a French open Boat, going over the Barr at Shrewsburry Inlett*, as the Boat Struck on the Barr and Fill'd half full of water. One Sea more whould have finish'd about 30 in Number half of which was Englishmen. I have the Honor to be Your Excellency's Most Obed't Humb'e Serv't

TEN BROECK REPORTS TO GOVERNOR CLINTON.

*Militia Positively Refuse to Obey Orders—Prefer Harvesting to
Fighting—The Situation on the Frontier Critical.*

Albany 20th July 1778, 5 O'Clock P. M.

Sir, I send your Excellency Copy of two letters which I have this moment Received by Express, the one from Colonel Klock,

the other from Lieut. Colonel Ford, Containing the Disagreeable news of the Destruction of the Settlements of Springfield & Anderstown—in Consequence of Colonel Vrooman's Intelligence Rec'd of the approach of the Enemy of which I have sent your Excellency a Copy, I yestarday ordered Colonel Wemple with the whole of his Schinectady Regiment, to march Immediately to Schohary; there is about 80 men of my Brigade (Exclusive of Vrooman's Regt.) at that place—one fourth part of the Half Moon Regiment are on their march to Cherry Valey—your Excellency will Remember that by my Order of the 12th June, of which you have a Copy I ordered that Detachment to be Relieved by an Equal number at the Expiration of the month; the 11th Instant I sent an Order to the Colonells, Pressing them to be Punctual in sending on the Relieve in time, but none have yet arrived tho I hear they are on their march, I shall push them on as soon as they come in, one half of them to Tryon & the other half to Schohary—to my great Surprize the Detachment at Johnstown, Consisting of ab't 50 men, where Colonell Livingston Commanded, whom I sent Orders to march to Cherry Valey, the Colonel writes me the men Positively Refused to march, alledging their month was up; all the Exertions of the Officers had no Effect, & last Saturday they have most Shamefully deserted that Post—the Colonel Informs me a Company of the Tryon Rangers were to take Post there as on that day. None of the Hampshire militia are arrived here, the Berkshire militia are gone home, only about 30 are Come to Relief those gone home—only about 50 men of Colonel Beedel's Regiment are here.

Let me Beseech your Excellency, to Endeavour to get a Body of Continental Troops sent to our western Frontiers—if they do not come soon I dread the Consequences—it is now harvest & it is

with the utmost difficulty I get the militia to turn out—the number now Ordered out (Exclusive of Col. Wemple's Regt.) is ab't 700 men; about 600 were Ordered the 12th June & only ab't 220 did come. What number I shall get now is Impossible for me to tell. I shall do every thing in my power. I Remain with great

Governor Clinton Requests Washington to Censure General Starke for His Course Toward the Vermont Prisoners.

Poughkeepsie July 20th 1778.

Dear Sir, By the enclosed Copy of a Petition & Letter which I received on my arrival here, your Excellency* will Observe that the usurped Government of Vermont have sentenced sundry of the Inhabitants of this State to Banishment; which Sentence, Genl. Starke has contrary to his Duty undertaken to carry into execution, by forwarding the Petitioners down the River to Genl. Gates to be sent to the Enemy. These unhappy People (whose pretended Crime I have Some Reason to believe is attachment to this State only) before my arrival had passed this Place on their Passage down to the Enemy's Lines. I must, therefore, beg that your Excellency will so far interpose in this Affair as to direct the Guard who may have them in Charge to return with them to this Place and deliver them to the Commissioners of this State. And I flatter myself that your Excellency will not fail calling Genl. Starke to account for his unwarrantable Conduct in this Instance. I have the honor to be &c.

SCHUYLER AND CLINTON.

The Former Notifies the Latter of the Deprcdations in Tryon County—The Governor's Reply.

Albany July 20th 1778.

Dear Sir, An hour ago I received a message accompanied with belt from the Oneidas of Oriska Informing me that the Enemy had destroyed Anderson's purchase and Springfield, that they expected the German Flatts would next be attacked and when that is done they believe the Enemy will attempt Canajoharie, and the other villages in the Vicinity; It is much to be Lamented that the finest Grain County In this State is on the point of being Entirely ruined for want of a body of Continental troops. If any are to be sent, the Greatest dispatch should be used and then, perhaps, they may still come in time to save part of the Settlements and numerous fine crops of wheat. I am D'r Sir with Great respect & Esteem Your Excellency's most Obedient Hum'e Serv't

Ph: Schuyler.

His Ex: George Clinton, Esq: &c. &c.

 Ponghkeepsie 21st July 1778.

D'r Sir,

I have this Moment received your Letter of yesterday giving me the Mellancholly Account of the Destruction of Springfield & Anderson's Purchase by the Enemy. I have long feared that this woud be the Fate of our Frontier Settlements & very early on the withdrawing of all the Troops from the Northward, intimated my Apprehensions by Letter to his Excellency Genl. Washington, but finding from his Answer that no

Relief was to be expected from his Army I made use of every means in my Power to get out respectable Force of the Militia on the Frontiers, and had my Orders for that Purpose been executed, I flatter myself that the present as well as the former Depredations committed by the Tories & Savages might have been prevented.

As soon as I was apprized of the Grand Army's arrival at the River, I waited on his Excellency and represented the Defenceless & unhappy Condition of the Frontiers & the impracticability of Protecting them by the Militia. This produced an Order for a Detachment of Continental Troops under the Command of Lieut. Colo. Butler to march up the Frontier as far as Wawar-sinck in Ulster County & there halt for farther Orders. I have now forwarded by Express the above Intelligence to Genl. Washington & pressed the Hastning of the March of the above Detachment & that they may be directed to proceed at least as far North as Schohary before they halt. This is the only Succour I have the least hope of procuring from the army as it was with Difficulty I could obtain This. Genl. Gates is no ways Apprehensive of Danger to the Northward or Westward of Albany & he expects (he says) large bodies of Militia from Hampshire & Berkshire &ca. Indeed, Sir, we have no hope left but in the Exertions of the Militia, to whom I have again repeated the necessary Orders & after making the necessary arrangements for the Defence of the Frontiers in this Quarter I will endeavour personally to enforce them. I am with great Regard D^r Sir Your most Obed^t Serv^t

ONE HUNDRED THOUSAND DOLLARS FOR NEW YORK.
*Text of the Congressional Resolutions with Proposed Amendments
Relative to the Vermont Matter.*

Philadelphia 21st July 1778.

Sir, Just before we left York Town (in Conjunction with our Colleague Mr. Lewis) we moved for, and obtained from the Congress, an advance of 100,000 Dollars for the Use of the State, and for which they are to be accountable. The Reasons were as follows: We found, by various Intelligence laid before Congress, that the Savages were about making an Irruption upon our Frontiers, & from the probable Evacuation of Philadelphia, it was not unlikely that the British General would again pursue his favorite Object of Hudson's River. In this Situation of Affairs, it appeared to us that money might be wanting in our Treasury, which we had Reason to believe was not very full; and, further, we were informed that our militia remained unpaid for Services formerly done, and, therefore, might not turn out with their usual Alacrity. These Things were laid before Congress, and they, (surprized at the moderation of a Demand which we venture to say from any other State in similar Circumstances would have been at least three Times as great), instantly made the Grant: The adjournment to Philadelphia, the Change of political Circumstances by the Battle of Monmouth, and arrival of the French Squadron (on both of which Incidents we heartily congratulate your Excellency) and the want of a safe Opportunity, have delayed the sending forward of the money.

We have further to observe to your Excellency, that the Complaints of our Fellow Citizens who are unpaid by Commissaries

Quarter Masters and the like, have been laid before Congress; but unfortunately the Complaint is universal, &, therefore, it is objected that a general Remedy is necessary. In this Situation, we have it in View, to obtain a Recommendation to the State to liquidate and adjust those accounts, in like manner as their own accounts are liquidated and adjusted, and this money may be of Use in discharging them. Besides this, it is to be further observed that the Continent [Congress] are very considerably indebted to our State, and the accounts will be settled with greater Ease full than empty handed. Mr. Duer would have gone forwards long ago, but Mr. Lewis was under the Necessity of going to Baltimore to bring up his Family, and the State would have been unrepresented if Mr. Duer had left this Place. We hope that the arrival of Genl. Schuyler or of Mr. Lewis will soon put it in his Power to return to the State. We do ourselves the Honor to enclose to your Excellency, a Report brought in but never yet read upon our Vermont affairs. We think it short of what is necessary, and shall, therefore, urge Congress to such amendments as may render it more equal to the Purposes proposed to be answered by it. It is possible, Sir, that our Constituents may be led to believe, that there hath been a Remissness in their Delegates in not urging this Business with a Degree of Rapidity which in their Opinion would have ill answered the wise Purposes of the application. Your last Letter on this Subject is now before us, and we shall do ourselves the Honor to present it, as soon as the matters necessary to the audience of the French Minister shall be adjusted, which is not yet done, so dilatory are the Proceedings of our Body. The Presenting your Excellency's Letter, will afford a proper Opportunity to call for and urge the Report; the amendments to which will be.

if within our Power such as are stated on the enclosed Paper. We are with greatest Respect Your Excellency's most obed't & humble Serv'ts.

Wm. Duer,

Resolved, that Congress do highly reprobate all attempts to set up, form, or establish any new State or government, as tending to break the Union of the States they represent, to produce civil wars, & to destroy the peace, freedom, & happiness of America.

Resolved, that Congress have not given & will not give any countenance or authority to the discontented subjects of the State of New York, Styling themselves the inhabitants of Vermont, but do disapprove of their proceedings.

Resolved, that it be most earnestly recommended to the persons aforesaid, forthwith to submit peaceably & quietly to the jurisdiction, government, & authority of the said State of New York, & that they represent unto the said government any grievances they may labor under.

Resolved, that the State of New York be requested to forbear, for the present, all coercive measures to compel the submission of their discontented subjects, & also, on a proper representation, to redress the grievances they labor under, if any there be.

Along Our Frontier.*

Poughkeepsie 21st July 1778.

Dear Sir, I have this Moment received the disagreeable account of Springfield and Andreastown on the Western Frontier

of Tryon County being destroyed by the Enemy. Copies and Extracts of the several Letters forwarded to me on that Subject and the Copy of a Letter from Colo. Vroman to General Ten Broeck containing Information of the Enemy's being on their march up the west branch of Delaware against that Place your Excellency will find enclosed. I am extremely apprehensive that notwithstanding the utmost Exertions we shall be able to make with the militia, the Enemy will lay waste that Fertile Country. By General Ten Broeck's Letter, your Excellency will please to observe that none of the Hampshire Militia are arrived at Albany and only about 30 of the Berkshire Militia and about 50 of Colo. Beedel's Regiment are now at that Place. This unexpectedly being the Case, I submit to your Excellency whether it wou'd not be most adviseable to hasten the march of Lieut. Colo. Butler's Regiment and instead of halting them at Wawar-sink, let them proceed immediately at least as far North as Schoharie as it is most probable the next attempt of the Enemy will be against that Settlement. THE MILITIA ALONE TO BE DEPENDED UPON.

Governor Clinton Notifies General Ten Broeck that the Continental Army Cannot Help Him.

Poughkeepsie 21st July 1778.

Dear Sir, Your Letter of the 11th Instant I received at Genl. Washington's Head Quarters & immediately communicated to him the Information contained in Armitage's Affidavit. A Regiment of Continental Troops that was designed for the lower End of Minisink are now on their March up our Western Frontier they are to halt at or near Wawarsinek & wait there for further Orders. It will be some Days yet before they can arrive at that Place.

On my Return Home last Night I was favoured with yours of the 17th Instant. The Information transmitted you by Colo. Vrooman & Copied in your Letter may be true, as it is not improbable. It is, therefore, of the utmost Importance that my former Orders should be strictly complied with & a respectable Force of the Militia kept constantly out on the Frontiers for the Defence of the Inhabitants who must otherwise inevitably fall a Sacrifice to the Enemy. The Militia of your Brigade must submit to an equal Share of Duty with those in the other Parts of the State; more will not be required of them. I have done every Thing in my Power & Consistent with my Duty to obtain you Succour from the Continental Army, but when we consider the Extent of the Western Frontier only from Virginia Northward, equally exposed to & infested by the Tories & Savages, you will readily perceive it would take our whole Army to guard it. This will account for the want of greater Success in my Applications. We must for this one Campaign (for I am almost Confident, if we

do what is in our Power it will be the last), exert ourselves with double Vigour; we shall then have Leisure & Strength to exterminate those perfidious Vilians who now so wantonly disturb the Peace of our Frontiers.

I have appointed a Meeting of the Officers commanding Regiments of Militia in the Counties of Ulster & Orange on Thursday next, to make the necessary Arrangements for the Defence of the Western Frontiers of those Counties, and were you to do the like with those of your Brigade it woud answer valuable Purpose, as you woud find the Officers more attentive to carry Orders which may be necessary to issue founded on the Result of such Meeting into Execution. I have directed the Officers, commanding the Guards on the Frontiers south of Schohary to communicate to you such Intelligence of the Movements of the Enemy as they may from Time to Time receive & to cooperate with those to the Northward of them for the common Defence of the Frontier Inhabitants & you will please to give similar Orders to those ordered out by you & continue to give me the earliest Intelligences.

I propose if nothing extraordinary happens to prevent to go down to the Army at White Plains next Week. I am Sir your most Obed't Serv't .

[G. C.]

Brig'r Genl. Ten Broeck.

P. S. Since writing the above I have received your Letter of yesterday contain'g the disagreeable Accounts of Andreas Town & Springfield being destroyed by the Enemy. This Intelligence with Extracts of the Letters forwarded to me on that Subject I have sent by special Express to Genl. Washington & pressed in the most earnest Terms the forwarding with the utmost Dispatch the Regt. aluded to in my Letter at least as far North as

Scholarly to your assistance. This is the only Relief I have the least Hopes of obtaining from the army & must therefore begg you to exert yourself in getting out the Militia.

THOSE SERIOUS CHARGES AGAINST THE BRITISH.
Governor Clinton Requests John Tayler to Assist in Procuring Proofs to Show that Burgoyne's Troops Dishonored Their Parole.

Poughkeepsie 21st July 1778.

Dear Sir, Some Time since I received a Resolve of Congress requesting me to take the most Effectual Measures for ascertaining the Truth of Information they had received, of divers Infractions being made by Officers in the Service of the King of Great Britain upon the Convention of Saratoga particularly by compelling some of the Prisoners to bear arms ag't these United States since their Return to Canada. Finding it impossible to pay the necessary personal Attention to this Business I wrote to our Friend Genl. Schuyler on the Subject, and also to Mr. Webster (who lives in the Vicinity from whence many of the disaffected Subjects of this State had gone over to the Enemy). Genl. Schuyler was kind enough to Answer my Letter by informing me that he was of Oppinion the Evidence required might be easily obtained but without pointing out in what Way it might be effected. Whether Mr. Webster has done any Thing in the Business I am not informed.

From the Confidence I place in your Abilities to perform this Business, as well your Zeal for the Public Service & the Honor of the States which is much concerned in having Evidence of the Facts respecting the above matter fully ascertained, I take the Liberty of requesting you to take upon yourself the Management

of this Business and as your own private Business may not admit of your employing so much of your Time therein as may be competent for the Purpose, to call on such suitable Persons in whom you can place Confidence to your Assistance as may be necessary. You will please to observe that besides Proof of the Infraction of the Convention on the part of the Enemy in the Instance above particularly mentioned it will be equally material to prove it in any other such as the Concealment of Stores, Standards &c. which ought by the Tenor of the Convention to have been delivered up.

I would mention Messrs. John Lansing & Dirck Swart as Persons proper to be employed by you in the Execution of this Business, if they will undertake it & I am perswaded to oblige me Genl. Schuyler will render you every assistance in his Power. I have only to add that it is to be conducted with secrecy, as perhaps the Evidence required, may be procured from Canada And that I will see that all Expence attending this Matter be paid with a Reasonable Compensation to the Gentlemen employed for their Trouble. I am &c.

GENERAL GATES SNUBS JAMES DUANE.

The Latter Submits a Few Valuable Suggestions to Governor Clinton on the Indian Question.

Manour Livingston 21st July 1778.

Sir, I did myself the Honour of apprizing your Excellency of my having engaged, at the Entreaty of General Schuyler, to assist in forwarding the Measures recommended by Congress for the Protection of our distressed Frontiers; so far as they were

connected with the Indian Department. This by the same Opportunity, I also intimated to General Gates; expressing my wishes that as it depended with him to put the Enterprize in motion we might speedily be furnished with his Directions. On the second Instant I went to Albany. After three or four days our Express returned, with a Line from General Gates, taking no other notice of the interesting Subject of our dispatches than "that he would write to us fully by Lieut. Col. Willet who was shortly expected from General Washington's Head Quarters." I waited at Albany untill the 15th Inst. when I had the Mortification to learn that Col. Willet had returned from the grand army, and was on a Visit to his Family in Connecticut; despairing, therefore, of being anywise Serviceable by a further Exercise of Patience, and waste of money & Time, I returned to the Manour. I shall make no Comment on this Mysterious procedure of the Commander of the Northern Department. My own personal Feelings I have moderation enough to temper. Perhaps the deplorable Events which have recently occurred, and others which are still to be dreaded; could not have been averted, even had the Resolutions of Congress been obeyed with alacrity. Perhaps, too, Appearances in the Southern part of our State may have drawn upon General Gates a weight of Solitude and apprehensions which will fully Justify his seeming Inattention to those Injunctions. I learn from the Speaker, that the House of Assembly, just before their last Rising, expressed their Desire that General Schuyler or myself should repair to Congress, and that a Resolution for this Purpose was only laid aside because it was represented that the General was preparing to proceed thither without Loss of Time. He undoubtedly communicated such an Intention; but being soon after notified by the President

of Congress that a Charge of Neglect of Duty in his late military department was at length transmitted to General Washington, he thought himself bound to repair to head Quarters to demand his Trial. I Esteem the wishes of my Constituents on this Occasion as a Command with which I cannot in point of Honour or Duty dispense, & therefore—foregoing a personal Consideration which lies very near to my Heart, and which on a former occasion I mentioned to your Excellency—am determined in a short time previously doing myself the Honour of asking your Excellency's Commands; to resume my Seat in Congress.

If General Schuyler should be long detained at Head Quarters on his Trial; or again, take his Post in the army, or his Seat in Congress, give me leave, Sir, to recommend the Affairs of the Six nations to your Excellency's more immediate attention. The Oneidas and Tuscaroroës are still our Friends and with proper management might be induced to take an active part, even against the Senecas & Cayugaes. The Onondagaes are divided & many of them may be drawn over to us on the appearance of vigorous Efforts to realize our late Menaces. No one knows better than your Excellency the great advantages which may be derived from this animosity among the Six nations, especially in any offensive Operation, nor the Dangers which are to be apprehended in Case of their uniting against us in acts of Hostility. Candour bids me to give it as my opinion that Mr. Douw with the greatest Zeal & the best Intentions for the publick Service, is not alone equal to the arduous & delicate Task of managing these unsteady People, nor do I believe he would undertake it. I take the Liberty to suggest these Hints that your Excellency may have Time to revolve them & in Case of Emergency to give seasonable Directions.

Permit me, Sir, with the utmost Cordiality, to congratulate your Excellency on the Victory obtained by our great & most worthy General over the British army in the Battle of Monmouth. Among the many eminent advantages which must arise from this happy Event, I am particularly rejoiced that such signal Glory has crown'd the Virtues and the Labours of our illustrious Commander in Chief.

I have the Honour to be with the greatest Respect & Esteem
Sir Your Excellency's most Obedient & very humble Servant.

Governor Clinton Willing to Aid in Suppressing Bandits.

Poughkeepsie 22d July 1778.

Dear Sir, I have received your Letter of yesterday. I will be much obliged to you or any other Gentleman who will undertake to concert a proper Plan for detecting the Lawless Banditis you allude to and I will most cheerfully afford any Force I am authorized to raise which may be thought necessary to carry it effectually into Execution.

I have myself taken great Pains in concerting Measures for apprehending the Robbers who infest different Parts of the Country that they might be brought to Punishment, tho I do not conceive this to be the immediate Duty of my Office. Reflections cast on Government or those in the Administration of it because Roberies are committed in the State by night in so secret a manner as that the Perpetrators cannot be detected, woud in my Oppinion be very invidious & ungenerous as to merit the Contempt of every honest man. The very Robbers themselves by the Care they take not to fall into the Hands of Government confess its Justice & Energy. The Courts lately held at this Place and at Albany have afforded them the most convincing Evidence of nine having been convicted & executed for that Crime alone.

It is indeed to be lamented that not one of the Gentlemen in your Part of the Country who are named in the Commission of the Peace have qualified themselves for the Execution of that Office, and that others cannot be found in so large a District who will consent to serve. It is to this Cause not only the Misschiefs of which you complain but many other Evils may with great Justice be imputed, and until those among you who have Capacity to serve their Country will at least consent to pay some at-

tention to the public good & at the Expence of their private Interest the People must unavoidably suffer under the best Government.

I have nothing new worth Communicating. I had the Pleasure of seeing your Brother at Head Quarters a few Days since. He was perfectly recovered of his Wound & expected soon to obtain leave to vissit the Family. Please to make my best Compliments to Mrs. Livingston & believe me to be with great Respect Your most Obed't Serv't

AN APPEAL TO THE GOVERNOR.

Several Representative Men Call His Attention to the Situation in Tryon County.

German Flatts, July the 22nd 1778.

May it please Your Excellency. We the inhabitants of German Flatts District in the County of Tryon, humbly beg leave to lay our Distresses before Your Excellency, Not doubting but Your Excellency will give us, all the assistance, the nature of our Case requires.

Our case on these Frontiers is truly Deplorable, as we lay open to the continual ravages, and cruelties of the Savages, It is with grief, we can assure Your Excellency, that on Saturday last, the 18th instant Andrews Town, and Spring-Field, was burn'd and Destroy'd by the Enemy, and since that Time, they are continually alarming us, with scalping Parties, who sometimes kill and scalp one, and take another Prisoner.

By two old men, who the enemy took Prisoners at Andrews Town, and have since sent back, we learn that Joseph Brandt,

who commanded the party of Indians, at the burning of the above places, told the said men, that in about eight days time, he should join Butler, and then they intended to fall in, on the German Flatts, and burn and destroy all that came before them. They likewise told the men, that Fight they would, for they came on purpose to fight. And burn and Destroy they must. They drove off a number of Cattle from Andrews Town, and have left several Dead on the Spot.

Your Excellency will be pleased to pardon, our boldness, in thus troubling You, But as we have wrote several times for assistance, and there was some Parties sent up from Albany, but none has been sent to the German Flatts, We are therefore oblig'd as our last refuge to be thus troublesome to Your Excellency, Humbly hoping, Your Excellency, will grant us a reinforcement, sufficient to hinder the wicked designs of our enemies, as we are of ourselves to weak. If we cannot get assistance, we must expect to Starve, as we are oblig'd to keep all in a Body, to Protect ourselves, our Wives and Families, not knowing how soon we may be attacked, By which means we have not time to get in our harvest. Last Year, at the time of the seige of Fort Schuyler, we could get no assistance till too late, by which means we lost most part of our harvest, and the remainder was almost spoil'd. We are sorry to trouble Your Excellence with our fears, but without the desired Reinforcement, we are under apprehensions, that this Harvest, will prove a great deal worse. We have wrote to General Stark in Albany, for such a Reinforcement, and if Your Excellence, would be pleas'd to back it, with a line or two, we trust it would be a means to Expedite our Desire.

Therefore, relying on Your Excellencies firm attachment, to the Glorious cause of American Freedom, and Your Justice and

Humanity to all mankind, for the so much desired reinforcement, we beg leave to Subscribe ourselves, in behalf of the whole District, Your Excellencies, Most Obedient humble Servants

SEARCHING FOR EVIDENCE.

Against English Soldiers Who Dishonored the Parole Given at Saratoga.

Dear Sir, I am favourd with yours of the 21st Instant, in which you request I would undertake to Collect such Information, as can be obtaind, of the Infracation of the Convention of Saratoga. General Schuyler has sent a person into Canada, with directions to learn whether any of those, Included in the Convention, were Compelled to bear arms Since that time; but as the obscure Character in which he must appear will render it difficult for him procure Such proof as will be necessary, I would, therefore, Suggest whether it would not be a prudent Step to Send a man into

Canada with a promise of pardon to two or three of those of the Convention who have been obliged to bear arms Since their Going into Canada from Saratoga; from Such persons the Clearest Evidence could be obtained, & I have not the least doubt but there are many who would Gladly return were they assured of a pardon, I dare Say there are Several in this & Charlotte County who would willingly be the bearers of So agreeable a piece of news to their near Connections who are with the Enemy. General Schuyler looks upon this to be the most Eligible mode of procuring Sufficient proof, and promises his advice and assistance. Should this meet with your Excellency's approbation, on Signifying the same, it shall be carried into immediate Execution, for which purpose a pardon from you would be necessary. Mr. John Lausing will assist me. I have not as yet wrote to Mr. Swart. My Indisposition when I left Poughkeepsie prevented my waiting on you. I mention'd to you that I left Cloth for a watch coat, with a taylor at Esopus whose name I forgot. I wish you would order Some of your people to Enquire after it. Butler it will I hope prevent the destruction of Schoharie &c. for the present, Especially as Colo. Alden's regiment is on Its return from Fort Schuyler, to which I thought it had been Improperly ordered and advised Gen. Ten Broeck to mention It to Gen. Stark, and to request that they might be sent to the German Flatts &c.

The militia from the Eastward which Gen. Gates Expects I believe will not arrive until the latter End of next month.

Inclose your Excellency Copy of a letter from Mr. Deane.

Mr. Taylor has shewed me your Excellency's letter to him on the Subject of the Convention of Saratoga. In Consequence of what you wrote me on that Subject I charged a man whom I sent Into Canada with some paper from Congress, to obtain all the Information he could. Mr. Taylor Suggested that It would probably be only hear say testimony. I fear so; we, therefore, Concluded to send for three or four of the Inhabitants of this state now In Canada provided you approved and that we were authorized to promise them pardons.

A MAN OF SPIRIT WANTED.

Colonel Peter R. Livingston's Observations on the Situation in Tryon County.

Manor Livingston 28 July 1778.

Dear Govenor, I Returned yesterday from Cherry Valley and Johnstown, and think it my duty to acquaint you from the observations I have made during my stay in that Westtreaan part of this State, that unless a proper force of Continental troops are posted without the least delay at Schoharie, Cherry Valley, Fort Dayton, Stone Arabia and Johnstown, all that part of the State will be deserted by the Inhabitans and the Granary of our Country be exposed to the Depridations of a merciless Banditi of Savages. The crops of Wheat, Pease Oats & Corn are most extraordinary fine. Have been up as far as the beginning of the German Flatts thro' Stone Arabia and round by Cherry Valley.

I did meet 240 of Colo. Alden's Regi't going to the last place but an equal number is wanting at every one of the Posts, that on any immergency they may cooperate together, and by all the acc'ts that our Scouts brought in, I make no doubt they intend in a very short time to attack some one of those Posts, if not more, and distroy with an unrelenting and indiscriminate hand.

What makes it the more necessary, I am sorry to inform you, there seems to be little or no dependence on the militia of that county (formerly the best) owing I suppose to the little Command and subordination that now Subsists. Some of their best men are not in Commission. There wants much a man of Spirit and prudence among them for a Brigadier Gen. There are good, honest men, but not qualified for the present juncture of affairs. Expect soon to be at Poughkeepsie when shall do myself the pleasure of waiting on you. This Information I thought it my duty to send you. Am with great Regard & Respect Your Very Humb. serv't

We further beg Leave to inform your Excellency that there are a Number of Women in this and the Neighbouring Counties, whose Husbands are with the Enemy and from their Connection

Sir, Whereas we are by certain directions convinced that the Enemy are very near of Schohary, but we cannot assure of what number; the direction we have I will acquaint you of, which is the Inhabitants of Cobes Kill went home partly to gather their Wheat yesterday, and as some of them came to the upper end of that Settlement, they heard one Shot and a Hog cried as if it was being killed; and a little after two Guns being shot of near a mile from the place where the first was; whereon the Cobes Kill people immediately left their places and returned to Schohary and arrived by midnight; whereupon a Scout being sent this day and returned by Sun Set who informed us that some of the remainder Cattle of Cobus Kill being drove off and as they was following the path to discover, a Gun being discharged hard be-

fore them, whereupon the Scout returned, and the 27th Inst. Lieutenant Dietz Rainschers being on Scout out at Harpersfield where they returned, and in their Coming back—several Indians pursued them, whereupon the Scout scattered and every one after the other made their Escape.

Therefore, if there be now yet any assistance for us, and you mean have Schohary saved, its time now, for we expect soon it will be too late; so we all hope you will do the utmost you possibly can, for we have not man enough to stand and relieve Schohary if a strong party attacks us. From your friend & most obedient Servand

Josep Bakker, Major.

FRICITION BETWEEN COMMANDERS.

General Stark Deprives Colonel Butler of a Chance for Distinction and the Latter Complains to Governor Clinton.

May it please your Excellency, I arrived here on the 27th Instant with the Detachment under my Command, & agreeable to your Excellency's Instructions I waited on General Stark & gave him Returns* of the Necessarys Actually wanting for the Corps at present, But could not be supply'd with a single Article.

I inclose a Copy of the Return & send an Officer who I can depend on to bring the Necessarys if he can be furnish'd with them.

The Rifle men have hardly a Shoe.

I must further Acquaint your Excellency that General Stark's Sentiments seem to differ widely from yours. His Motives I do

*See page 589.

not pretend to Judge, but on my showing him my Instructions he said it was impossable to carry on Offensive Operations against the Enemy at present and, (to make use of his own words) "it woud be like pulling a Cat by the Tail to get out the Militia at this time;" he says some time hence we may Attack them, & intimates that [he] intends to Command the Expedition himself.

He has also Ordered Colonel Alden to join his Regiment now lying at Cherry Valley which deprives me of the Honor your Excellency intended me in the Command of the whole.

If your Excellency thinks me worthy of the Command and impowers me to carry on Offensive measures against the Enemy I will do it at the Risque of my Honor & every thing I hold sacred.

If this cannot be I will do my duty in the Command of my Detachment.

I shall send Off Fifty men as soon as their Rifles are repaired which I expect will be to morrow & follow with the Remainder as soon as possible for Schohary.

I waited on General Tenbrook, last Evening who informs me that he has now at Schohary upwards of 100 Men & had Ordered out a Number more which in the whole wou'd amount to 300, But seem'd to intimate that perhaps some of them cou'd not be depended on.

I have the Honor to be with due Respect your Excellency's Obed't Serv't

Wm. Butler.

Albany July 29th 1778.

N. B. Genl. Tenbrook also informs me that there is no doubt but Tryon County will turn out 300 Men.

Major Moses Hatfield Appointed Commissary of Hides.

War Office Philadelphia July 21, 1778.

Sir, As the main army is now removed to your state, and the commissary of hides, who has hitherto attended it, finds the business of the department on this side the North River sufficient for his employment, and as both he and his assistants are unwilling to leave this district, we must ask the favour of you to appoint

a suitable person to manage the business with the main army within your state. We understand your Council long since appointed such a commissary for the troops then in the state. His authority extended may perhaps answer for the whole. But we refer it entirely to you to make such appointments in the case as you shall think best for the public good. Mr. Ewing, whose assistants are yet with the main army, will continue his care of the hides until relieved by the person you appoint; to whom also he will give any information in his power relative to the department.

We beg your pardon for giving you this trouble: but Mr. Ewing is impatient to quit the main army now 'tis removed from hence; and we are ignorant of the most proper person in your state to succeed him. You will be pleased to inform us whom you appoint for this service, & what instructions you give him. He will doubtless be confirmed by Congress. We have the honour to be Your Excellency's most obed't servants,

By order of ye board Tim: Pickering.

Governour Clinton.

Camp at White Plains 4th Aug't 1778.

Sir, I am requested by the Board of War to appoint a suitable Person for Commissary of Hides for the Grand Army on this Side of the River with Assurances that such Appointment will be confirmed by Congress; And as I know of no Person better qualified to serve the Public in this Capacity whom I woud more willingly serve than yourself I give you the offer of this Berth, which tho I am neither acquainted with the Duty or Emolluments of it, I have no Doubt but it is worth your Acceptance. If you accept the Appointment you will please to repair to this Place immedi-

ately; at any Rate let me have your answer by the Return of the Express who is charged with the Delivery of this Letter. Colo. Ewing the present Commissary will wait here till you arive & give you every Necessary Information respecting your Duty. Yours
G. C.

State of New York.

Pursuant to a Letter from the hon'ble the Board of War, to me Dated the 21st Day of July 1778, requesting me to appoint a suitable Person as Commissary of Hides for the main Army within this State, I do hereby nominate & appoint Major Moses Hatfield, of Goshen, in Orange County to that Office, who is immediately to enter upon the Execution of his Office, Governing himself therein by such Instructions as Colo. Ewing, the late Commissary of Hides, may have received from Congress or the Commander in Chief with which Colo. Ewing will furnish him.

WORK OF THE SUPREME COURT.

Convictions and Sentences and Recommendations for Pardon to the Governor.

Albany Aug't 4th 1778.

Sir, On Saturday last the July Term of the Supreme Court of this State ended: During the Term the following persons were convicted and Sentenced to be executed, to wit:

John Sloss. Upon an Indictment for stealing a Horse of George White, and another of Abner Pease.

And also on an Indictment for the Robbery of George White. His Conviction was upon full Evidence.

John Sloss also stands indicted by three several Bills for the Robbery of Henry Van Rensselaer, the Robbery of Isaac Sheldon and Abner Pease, and for stealing a Horse of Isaac Sheldon. On these he is not tried.

Robert Sloss. Upon an Indictment for stealing a Horse of George White and one of Abner Pease;

On an Indictment for the Robbery of George White;

On another for stealing a Horse of Isaac Sheldon;

On a fourth for the Robbery of Isaac Sheldon & Abner Pease;

And on a fifth for the Robbery of Henry Van Rensselaer.

The Culpit before his Trial retracted his Several Pleas of not guilty, and confessed the respective Felonies, wherewith he stood Charg'd upon the above several Indictments: But alledged, however, in Excuse for the Commission of those Crimes that he was a British Soldier, taken prisoner in the action at Bemus's Heights on the ninth of October last, and after his Recovery of the wound he had received, conceived he was justified in Committing those Crimes, upon the Principle that we were Enemies of the British King, and that he had a right to distress us where he could.

Archibald McCoy, Upon an Indictment for stealing a Horse of George White and another of Abner Pease; and on another Indictment for the Robbery of George White. He was convicted upon full & clear Evidence.

Archibald McCoy also stands charged by several Indictments for the Robbery of Henry Van Rensselaer, Isaac Sheldon and Abner Pease, and for stealing a Horse of Isaac Sheldon, on each of which he is not tried. He was also indicted at the last Court of Oyer and Terminer for stealing a Quantity of Continental Effects out of a covered Continental Cart, for which he has not been tried.

Ann Taylor. Upon an Indictment for Burglary at the House of Jabez Crippen. She was convicted upon proof of her confessing last year before the Commissioners of Conspiracy, the said Jabez Crippen and others, that She was of the party and at the House with them, but did not enter.

Catharine Taylor—her Sister—Upon the same Indictment. The proof with respect to her was full. In addition to the proof of her Confession before the Commissioners last year, that she had been in the House & taken one Cheese, the proprietor of the Effects testified, that altho' he did not know her at the Time the Burglary was committed, yet when he saw her the next day, & heard her voice, he recognized her as one of the party who had been in the House.

Of the above Persons we beg Leave to recommend the following to your Excellency for Pardon.

John Sloss. Because it appeared to us in the Course of the Evidence that he behaved with more Humanity to the persons who were robbed than his accomplices, and prevented them from murdering Captain White.

The Commissioners for detecting Conspiracies have also informed us that his Testimony will be of great use in Convicting others, whose Crimes it is said are aggravated by every Circumstance of Rapine and wanton Cruelty, and one of them at least is in Custody:

Ann Taylor. 1st Because the Burglary whereof she is convicted could only be made out by Construction of Law. No doors or Locks were broken— and there were only twelve small cheeses taken, together with a Shirt & some other Linnen of trifling value. 2dly Because she was convicted upon her own Confession, which went no farther than that she had been at the House tho' She had not entered. 3dly Because tho' not married She has a sucking Child of about fifteen months old.

Catharine Taylor. A young woman—Although so many circumstances cannot be alledged in her Favour yet the first reason assigned in favour of Ann Taylor will equally apply to her.

We would farther beg Leave to observe to your Excellency both Ann & Catharine Taylor stand indicted for receiving Scienter Goods and Chattles taken from Henry Van Rensselaer at the Time of the Robbery at his House. So that Should your Excellency be inclined to pardon the Crime whereof they are convicted, if they should be convicted of the latter offence, they will probably receive a punishment which will not affect their Lives, and may, in the opinion of the public satisfy the public Justice of the Country, be a means to reclaim them, and prevent their pursuing such vicious practices in future.

We have the Honor to be with perfect Esteem & respect Your Excellency's most obedient humble Servants

Robert Yates
Jno. Sloss Hobart

P. S. They are all ordered for Execution on the Eighteenth instant.

Governor Clinton Declines to Raise the Flour Embargo on Massachusetts and Gives Good Reasons.

Camp at White Plains 6th Aug't 1778.

Sir, Two Days since I was honored with the Receipt of your Letter of the 16th Ultimo. It is with real Concern I learn that the Inhabitants of your State are apprehensive of suffering by the

Want of a proper Supply of Flour & Grain for their Consumption. And what greatly adds to my anxiety is the little prospect I have at present of being able to afford them the Relief solicited for without distressing the Grand Army now in this State. Immediately on the Receipt of your Letter I communicated the Contents to the Commissary Genl. of Purchases with a View of convening the Legislature & of recommending it to them in the most pressing Terms to repeal the Embargo Law so far as it respected the Exportation of Flour and Grain to the Neighbouring States if it might be done consistent with the good of the public Service. But he assures me that the necessary Supplies of Flour & Grain for the Army depends on a Continuation of our Embargo and that even an unfaithful Execution of it might be productive of the most fatal Consequences. This being the Case, Sir, notwithstanding our ardent Desire of accomodating a Sister State with whom we wish to cultivate the most Friendly Intercourse by the exchange of good Offices, we must in the present Instance, submit for a Time to the lesser to avoid the greater Evil. I am led to believe that tho your State fails in producing a sufficient Quantity of Grain for the Support of its Inhabitants throughout the year, yet the coming in of their Harvest will afford them such a present Supply as to prevent Immediate Distress by the Want of that Essential Article & that before such an unhappy Event can take Place the Situation of our affairs will be Such as to warrant the Repeal of our Embargo & thereby enable your People to draw the necessary Supplies from this State.

It does not require much Speculation to discover that an Inland Embargo on the Staple Commodity of a State excluded from all Foreign Trade is highly Injurious to the Interest of its Inhabitants. In this Point of View we consider the present Law & sub-

mit to it as a sacrifice of Interest to the Common Cause. It is needless, therefore, to add assurances that as soon as the public Exigencies of the United States may admit of it the Law will be repealed & a free Commutation of the different Necessaries of Life opened on our Part with our Neighbours. I am Sir with very great Respect & Regard Your Most Obed't Serv't

In Relation to a New Court of Oyer and Terminer.

Albany August 6th 1778.

Sir, As it is necessary that the precept to the Sherif for summoning a Court of Oyer and Terminer should be under the Hand and Seal of at least one of the Commissioners of the Quorum, I have delivered a draft of a Precept for the next Court, to be held by virtue of such Commission in this County, to Mr. Justice Yates, who on sight of the Commission will sign, seal and forward the precept with the Commission. Whenever, therefore, it may be thought proper to issue the Commission, your Excellency will please to order it to be sent to Mr. Justice Yates at Claverack.

Robert Sloss and John Sloss two of the prisoners now under Sentence for Execution are both charged as principals in an Indictment found at the last Court of Oyer & Terminer in this County for the Robbery of Arent Van Schaack, of Coxsackie, for which offence they have not been tried. This is no otherways material than that the judges intended your Excellency should

have a full state of the several Charges against the prisoners, and if I mistake not, this Indictment was omitted to be mentioned in the Representation sent to you by their Honors.

With most respectful Compliments to your good Lady & Mrs. Tappen I have the Honor to be Your Excellency's most obedient humble Servant

John McKesson.

Governor Clinton Regrets that General Gates Has Not Moved Against the Indians.

Poughkeepsie 10th Aug't 1778.

Sir, I was honored with the Receipt of your Letter of the 21st July at White Plains where I had been for some Days on a visit to Genl. Washington and did not return from thence till Saturday

Night. I was yesterday about preparing an answer to your Letter in which I meant to request your attend' at Congress when Genl. Schuyler arrived & gave me the Disagreeable acct of your ill State of Health which prevents my saying a word on that Subject.

I had little Reason to expect from the vague & general Charge exhibited ag't Genl. Schuyler that he will speedily be favored with a Trial if he should not, he means to proceed to Congress & will of Course relieve Mr. Duer who expresses great Desire for an Opportunity of paying some attention to his private affairs.

It is to be regretted that the Operations which was intended by Congress ag't the Indians have hitherto been so utterly neglected by the command'g Officer of the Northern Department, especially as the Season is now too far advanced to prosecute an Expedition ag't them of any considerable Consequence with Probability of Success. When on the Recovery of your Health which ardently wish I have the Pleasure of seeing you I will explain the Reasons which in my Opinion influenced Genl. Gates's Conduct. COLONEL BUTLER ACTS WITH ENERGY.

Sends Governor Clinton a Report of His Scouting Party and of the Deaths of Service and Smith, the Tories.

May it please your Excellency, I received Genl. Stark's Orders to remove from Albany to this place. where I have now been two Weeks and thought it my duty to inform your Excellency of the different Occurances that has in that time transpired.

On my Arrival here I found three Forts erected by the Inhabitants for their Protection within 4 Miles of each other. I took

Post at one I thought most liable to be Attacked & immediately sent out a Subaltern with a small Scout to reconnoitre the Country, & to make what discoveries he cou'd of the Enemy. He proceeded about 25 Miles to one Service's, a Noted Villain who had Constantly supply'd the Enemy with Necessaries. Service luckily was at Home & upon his refusing to Surrender, & making some resistance, one of the Party Shot him. They also Brought in 4 Prisoners.

Before the return of the Scout I received intelligence from Genl. Stark of one Smith who had raised a Number of Tories and was Marching to Join the Enemy. I immediately detached Capt. Long, of the Rifle Choir with a party to intercept their March. Capt. Long fell in with them, Kill'd Smith & Brought in his Scalp, Brought in one Prisoner & it is thought Wounded a Number. Only one of Capt. Long's party was Wounded. A Creek unluckily being between the Partys when they Engaged prevented Capt. Long from Advancing & gave the rest an Oppertunity to escape.

With the Prisoners taken by the first party, there was some letters from Smith to Butler & Brandt, informing them that he wou'd meet them at Service's on Sunday following with a Number of Torys who he had engaged. I also had intelligence that the intention of the Enemy was to March in a Body to Service's & there divide one party to Attack Cherry Valley & the other this place.

In Consequence of this Intelligence I detached Major Church with 120 Men to a Canoe place about 5 Miles Beyond Service's (which they must Attempt landing at) to lay in Ambuscade & prevent their landing.

But I imagine their supplies of Provisions being cut off by their loss of Service & their Reinforcement by the defeat of Smith prevented their Coming. The Major then drove off all the Cattle in

that Neighbourhood as their principal supplies was from that Quarter.

Except in these Instances I have been Obliged to Act totally on the Defensive; the little dependence that can be put in the few militia that do turn out, the disaffection of most of the Inhabitants to us, the distance and Wilderness of Country that we have to pass thro to the Enemy without the Necessaries for such an Expedition, makes it very difficult in my present situation to Act otherwise. But have presented a Plan to Genl. Stark & dayly expect an Answer which I will immediately communicate to your Excellency.

Colonel Alden's Regiment with some Militia are at Cherry Valley.

Since my coming here numbers of the disaffected People begin to have a proper sense of their Error and are Hourly coming in Begging Protection and are desireous of taking the Oath of Fidelity to the States.

The Accounts of the Enemy are exceeding Various But from the last intelligence that I have yet been able to get, they are about 1500 in Number at Unindilla about 80 or 90 Miles distance from this place. In a few days I expect certain intelligence which I will inform your Excellency of.

With an Addition which I have erected to the Fort & two pieces of Artillery mounted in it, I shall be able to make a good defence should they Attack me. I am with due respect Y'r Excellency's most Obedt. Serv't

Wm. Butler.

Schohara Aug't 13th 1778.

N. B. I have wrote to his Excellency Genl. Washington informing him of my situation &c. of the same date.

Strond's, and a Part of the Penselvenia & Jersey Militia, which in the whole amounted to 230 men, and So marched up to Coscheeton. And Mr. Tylar was on the advance Guard with his Party and took One Barkar Prisner, and Examined him Strictly who Said that there was no Enemy near. But Mr. Tylar Still advanced about Two miles and he being on the flank Guard, Espyed a Party of Indians Coming Down, Upon which he and his men Sqated and let them Pass to the main Body, and then went Down and lay in Ambush with an Intent to Cut of their Retreat, but they were Soon Discovered by a Party that was in the Rear, who fired on them; Upon which they Retreated, But Discovering a Party on the mountain they took to the River, and the men in Ambush Fired on them and made Some of them fall.

They took Two Prisnors more who Said that the Party which was a Comeing Down were Intended for Minisink. Likewise the Two Prisnors, Told Mr. Tylar that there was Thirty Indians and Five white men in the Party they met and another Party a Coming Down of a hundred. But One of the Prisnors told the Commander of the Standing forces that Butler* was a Comeing Down with his army Upon which he Ordered his men to march back.

*Walter Butler, the Tory.

And after they marched, Capt'n Van Atten of Penselvenia and Capt'n Tylar with a few men advanced a mile further and killed an Indian and brought of from the Enemy Some Plunder.

In the whole they took Three white men Prisoners and killed One, Likewise killed and wounded four Indians. From your Friend & Hum'le Serv't

Jacob Newkerk.

P. S. While I was Up to you, Coll. Woodhull Sent & Called away his men (though he had but One man On the Ground) in Order to apprehend a Party of Robbers that has Plundered Several houses there. And Says he will Send his men when they are taken which I think does not Sute us at Present.

THE WONDERFUL TALE OF TWO CULPRITS.

Disposition of Colonel Cantine's Troops—Payrolls Must be Made Out Monthly.

Hunk Aug't ye 11th 1778.

Sir, I have Not Been able to Comply With your orders in Respect to appoint a Subaltern to provide and Issue Provisions to the troops as None of them Where Willing to Ingage in that Service. I, therefore, have Been oblidged to appoint Capt. Andries Bevier for that porpose. I Have also at the unanimus Request of the Inhabitants of Lurienkill, Naponagh, Warwasinck & the Southeren part of Rochester, Changed my post from Leckawack to this place finding it much more Convenient for keeping out Scouts and patrolling parties, as the Woods on Both Sides of Lackawack ar Exceeding Rof So that it is Impossible to keep out Scouts at any Distance there.

By the Last Returns of Coll. Newkark of the Orange County

men at Peenpack and Minisnick, their Where about Ninety men (that is), Eleven from Coll. Woodhul's, fifty nine of Coll. Heathorn's, twenty of Coll. Tusten's; the men from Ulster County are posted, 40 at Memmacotting, 12 at Lurienkill, 130 at Hunck, 80 at Great Shandaken, and at Little Shandaken the Whole of Coll. Sneyder's Regim't Which Returns I have as yet Not had. The Whole Will amount to about 400, a Number Quit Suffitient, I Believe, to Defend the Different posts at present where the proportions But Equal out of the Different Regim'ts.

This moment I am Informed By Coll. Newkark that Several of the Orange County men are on their Way to Peenpack & Minisnick. I Have Sent Detachments from the Different posts to the Delaware, With orders to act against those Who have tacken an active part against us, as Enemys, Leaveing other Unmolested, Exceeping those In Whose possession the goods robbed from the Inhabitant of the fruntiers Should Be found.

George Andries and Jacob Oosterhout the two men that Where Lately tacken prisoners at Leckawack have made their Escape. Thay Where on there Way to Niagara and Within twenty miles of that place under the Care of a Mowhack Chief (Who Commanded the party that Where at Leckawack), and two other Indians; Oosterhout, a Weakly man, Was Not able to march as fast as the Indians. They Where Resolved the Next Day to kill him and take his Scalp. Andries Informing Oosterhout of their Design and askt him if he Could Do Something for him Self; Oosterhout Said he Could Not. Andries then advised him to Lye Still. When thay Went to Sleep Andries as usual Was put Between the two young Indians, the Capt., or Chief With two Squaws on the other Side of the fire. When Andries found that thay Where asleep he got the ax Which he had prepared for that purpose and

With it Laid his two Bedfellows much Sounder asleep then they Where Before. When geting across the fire in order to Let the Capt. Shear the same fate, he Started awake But Andries Handling his ax So Well that the third Blow Laid him asleep also; the Squaws made their Escape. Andries Came in With Oosterhout at this place, the Nineteenth Day after he had performed this Exploit, with Near the Vallue of one hundred pounds Worth of plunder on his Back; had When they Set out on their Journey 2 Quarts of Sinnemon and 5 young Ducks. He Can give But Little Information of the Enemy. By the Best account I Have there is But few Near our Quarter.

Your Excellency Will Readely Conceive that the making of monthly pay abstracts for this Regim't Will Be attended With many Defficulties, When you Consider that the monthly Detachment of the Different Regim't of which this is Composed, Do Commence at Different Days. I, therefore, Whould Be glad to Draw a Sum of money in order to pay of the Different Companies as their times Exspire, making an abstract of the Whole at the time When I Shall Be Discharged, and then account for the Sum Drawn. If your Excellency Should approve of this, you Will please to Send an order or orders By the Bearer hereof, on the treasurer for Such a Sum or Sums as you Shall Judge Nessesary as Well in favour of the Commissary as for paying the troops—and you Will greatly oblige Your Most Obedient Hum. Ser't

John Cantine.

His Excellency, George Clinton.

Poughkeepsie 14th Aug't 1778.

Dear Sir, I am favoured with your Letter of the 11th Instant. I can have no Objections to your changing your Station from

Lackwack to Hunk provided it is most conducive to the Safety of the Frontier Inhabitants which is the principal Object I have in View, tho my own Judgment woud lead me to a Post still farther West than Lacquwack, as most likely to Effect it, yet for want of a proper Knowledge of the Country I may be mistaken & must, therefore, submit entirely to your Judgment assisted by the Sentiments of the Inhabitants concerned. I am sorry to find that you cant find among your Subalterns one who is willing to serve as Commissary to your Detachment as the Appointment of another Person must naturally increase Expence. Add to this I have certain Objections arising from Reports made to me of Capt. Bevier that I woud wish to have obviated before I give my consent to commit that Business to his Management. I have been informed that on the Desolation of Lackwack he took no Pains to rally his Company to prevent that Catastrophy or oppose the Progress of the Enemy & that instead of exerting himself as a good Officer, he discouraged the Inhabitants by falsely giving out that on his Application to me in the Spring relative to the Affairs of the Frontiers I had refused to afford them relief & insulted him. Tho on his Application you may remember my Orders to you in May last, to keep out scouting Parties were founded, and my subsequent Orders fully evince my close Attention to that Object which I always esteemed Important. This Conduct of his, if true, is unbecoming the good Officer or the Honest Man & forbids my having any Connection with him if it can consistently be avoided.

On perusing the Law, which grants the money for pay'g & subsist'g the militia called into Service, I find that I cannot consistently issue any money for the Purpose until the Service is performed & the proper Pay Rolls or acc'ts rendered; in which

Case on the acc'ts being audited it has been my practice to issue an Order thereon under the privy Seal to the Treasurer for paym't. You must, therefore, for the sake of regularity & to prevent Confusion submit to the Inconvenience of having your Payrolls & acc'ts made out for each month. If an advance of Cash for the purpose of purchasing Provision should be absolutely necessary I woud much rather supply it out of my own Purse than go out of the common Course of Business or drawing Money from the Treasury.

I had rec'd the acc't of Anderson & Oosterhout's return, two Days ago, I wish their affidavits on the Subject may be accurately taken & transmitted to me without Delay. I am &c.

Andrew Stevenson's Willingness to Betray His King After He Had Betrayed the United States.

County Charlotte New Perth Aug't 14th 1778.

Sir, We Send you under Gaurd Andrew Stephenson, an Inhabitant of Skeansborough, who was in the begining of June last brought before us under the Charge of disafection and after Examination was ordered by this Board into the Interior Parts of this State being Previously allowed Eight days to Regulate his Domestic affairs.

About the 15th of June Instead of Complyeing with the orders of the Board, he Proceeded to Canida and has been so far as Quebeck where he Procured a Pass from Sir John Johnson to return to Montreal and there Obtained a Pass from Brigadier General Powels to return to Skeansborough and bring his Family to Canida.

On his return to Skeansborough, he Imediately Came and deliver'd himself up to the Commissioners here who have Examined him & Sent a Copy to the Commissioners in Albany & Requested them to Reexamine him & Send both Copys to Your Excellency if any Material Variation Should be in them.

The Extent of Country that the above Person has Passed over that is now in the Enemy's Posession and the Inteligent Relation which he gives of the Strength dispotision and Intention of the Enemy as well as the Breach of Convention at Saratoga, Induses us to hope that the Information will not only be acceptable to Your Excellency but of Importance to the Country.

His Voluntary Return & delivery of himself to this Board & offering to take the Oath of alleigence which was administer'd to him, together with many other Circumstances Induces us to

have favourable Thoughts of him, Espeticialy as his Relation of matters so much Coresponds with Information we have here-tofore received from that Quarter. We also think him uncapable of that artfull disimulation that many Spies are Master of. We Should not have Sent him only on account of Directions in Your letter to Col. Webster Concerning the Breach of Convention made at Saratoga, and he is the only Person we have mett with, was able to give any Satisfieing account on that head—he has offerd to Enlist with Capt. Barns which we would have Encouraged him to do; had it not been to Complye with Your directions but we doubt not but he will Enlist on his Return if Your Excellency think Proper to dismiss him. Sir, Alexander White's Confinement, in Consequence of your Excellency's Order is the Occasion of Mrs. White's Application to us for a Pass to Poughkeepsie to solicit from your Excellency Permission to go into New York—we beg Leave to remark, that in our Opinion it will be the most effectual measure that Mr. White can adopt to obtain an Exchange for himself, as he is almost as obnoxious to his own Party as he is to us; all the Influence he can pretend to, we conceive must be through the Interest of his

I some days agoe saw in the possession of a man at Murderer's Creek, the Blew Barge which I had Built for the use of Fort Constitution, and made a demand of her as the Property of this State;

GOVERNOR TO OUR DELEGATES IN CONGRESS.

That \$100,000 Advance from the National Government—The Differences Between New York and Vermont.

Poughkeepsie 16th Aug't 1778.

Gentlemen, Some Days since I was favored with your Letter of the 21st of July last by which I am informed you have obtained from Congress an advance of 100,000 Dollars in favor of this State. I am without any Instructions from the Legislature on this Subject but the Reasons you mention as having influenced you to this measure so fully evince it to be for the Interest of the State that in my Opinion they would have justified a much larger Demand. I have not, therefore, the least Doubt that it will meet with the approbation of your Constituents. It will rest with you Gentlemen to forward the Cash and the earlier it may be received into the Treasury of this State, without occasioning any extraordinary Expense in forwarding it, the better.

Genl. Schuyler passed through this Place the beginning of last week on his way to Camp, where he intended to continue if his Tryal was likely to come on soon, if not, to proceed immediately from thence to Congress. He writes me "that Genl. St. Clair's Tryal is to commence the 24th Instant and when that is ended, his will immediately take Place." Mr. Duane who some time ago was preparing to set out for Congress, was seized with a very severe Disorder of which he is not yet recovered, so that you are not to expect the speedy attendance of either of those Gentlemen.

I thank you for the Report on the Vermont Business with the proposed amendments. The Original, if it was intended to do this State common Justice, is indeed very imperfect and should it meet the Approbation of Congress as it now stands, instead of answering any good Purpose it will tend to encourage the discontented Inhabitants (for which it rather appears to have been designed) to persist in their Scheme of establishing their usurped Government. May they not under it safely go on in trying and convicting the Subjects of this State in that Quarter for Crimes created and made Capital by their Laws only, and execute or banish them for their Attachment and Fidelity to the Constitution and Government of this State? May they not continue to levy Taxes on the Inhabitants there indiscriminately for the support of their Government and draft them into the Service of their State without counteracting the Resolution in the Report recommending it to the Parties concerned to refrain from all acts of violence and coercive measures? And how are we to afford that Protection to our well affected Subjects which is due to them and which they may reasonably expect of us against such Oppression, and at the same time refrain from coercive measures? If the

Committee had been sent out instructed to prepare a set of Resolutions for establishing the Government of Vermont, the last one in the present Report could not with propriety have been omitted. I am sure a better one could not be inserted, than one speaking this Plain Language "sit down, enjoy all the Powers of Government in Peace, no one is to disturb you, forbear only levying open war against the State from which you have revolted or other your neighbors." Whether even the amendments you propose, if obtained will render the Resolutions effectual is hard to determine; tho' I am inclined to believe they will, as there are many of the Inhabitants who only wait for a prospect of Protection to return to their allegiance to this State. I am persuaded you will do every Thing in your Power to have this Business accomplished in the best manner. I am sensible you experience many Difficulties and Embarrassments whenever it is the Subject of Deliberation in Congress. To this Cause, and not to any Remissness or want of attention in the Delegates of New York, the neglect and Indifference with which this Subject has been treated, is imputed. I am &c. Gentlemen &c.

Geo: Clinton.

George Clinton's Handsome Certificate for the Services of Captain Machin.

I hereby Certify, that about the midle of July 1776 Capt. Machin of the Artilery, came to Fort Montgomery & by the Direction of

his Excellency, General Washington, & was employed in laying out & erecting Works for the Defence of that Place & for securing the Pass to Anthony's Nose until towards the latter End of Aug't when Genl. James Clinton took the Command at that Post; that in December following, Capt. Machin was employed in constructing Cheveaux De Frize for obstructing the Navigation of Hudson's River opposite Polopen's Island* and that he continued in that Business sinking the same making the Necessary Preparations for fixing the Chain across the River at Fort Montgomery & occasionally superintending the Works at that Place until some Time in June 1777, when Genl. Putnam took the Command of the Army in the Neighbourhood of the North River & then by his Orders, Capt. Machin was employed in constructing & making Booms to draw across the River in Front of the Chain till the Reduction of the Fort by the Enemy at which Time he was badly wounded. And I have Reason to believe that upon his Recovery he has been since stately employed to this Time in the Necessary Preparations for fixing a New Chain across the River, compleating one of the Booms the Cheveaux Defrize & raising the Lady Washington Galley which was sunk on the Enemy's Advance up the River. In Justice to Capt. Machin, I am bound to add that while he was under my Command, he discovered great Dilligence & Industry in forwarding the different Works committed to his Care & that in the Execution of them he experienced an uncommon Share of personal Labour & Fatigue being often necessarily exposed to work in the water in very Cold Weather.

COLONEL HATHORN RESPONDS QUICKLY.

But the Alarm Proves to be False—The Kidnapping of Isaac Martin and His Rescue by the Militia.

Warwick 17th August 1778.

Sir, Pursuant to the directions of the Militia Law I Transmit you the Cobby of a Letter I recieved by Express from Minisink Saturday Last 12 o'Clock with my proceedings thereon.

Cobby.

Col. Hathorn, This moment recieved intelligence from Capt. Miller that the Enemy was discovered about 3 o'Clock in the afternoon about 9 Miles up the River from Lieut. Decker's and Mr. Tyler was up at Coshecton with a party this Week in the whole from Pensilvania and the Jersey about 250 Men and met a party of Indians and Tories on their way down here, and had a Skirmish with them and took three prisoners and Killed some, so that its very probable they are a coming for revenge, and as I have but a few men here I beg you will march with your Regiment immediately to reinforce us. from your friend & Servant

Jacob Newkirk.

Minisink August 14th 1778 10 o'Clock at Night.

Excuse hast for Particulars.

Upon recieving of the above Intelligence together with a number of Verbal accounts and other Circumstances Concurring I marched the whole of my Regiment on the morning of the 16th, within Two miles of Minisink. 3 o'Clock in the afternoon of the same day met an Express on his way to inform the Militia that the Intelligence was Illy found'd, a Scout who had been sent out returned and assured them that there was no Signs of Indians to be found. Immediately discharged the Regiment.

I take the liberty to communicate a piece of Intelligence which perhaps you have not heard of. On Friday Night last Isaac Martin, a Justice of the Peace, living about 10 Miles from me in Jersey, was taken out of his House by five or Six men; the Militia immediately aroused and Pushed themselves in their Front and placed Centinels in every pass of the Mountains where there was a probability of their passing. On the following night the Villians approached with him towards one of the Guards, who Challenged them, not being answered was preparing to fire but the darkness of the Night Prevented, upon which the party fled into the Woods, which gave room for the prisoner to Escape; thus after being taken out of a thick settled Country and Conveyed about 30 Miles at or near Pumpton by the Vigilance of the Militia was Rescued. Martin say the fellows was strangers to him and Intire Strangers to the Country as they obliged him to Shew them the way the Nearest and most hidden through the Mountains to New York.

Martin has been a very active Man in the Business of his County; is one of the Comis'rs of Sequestration for the County of Sussex. Its believed Col. Barton who while a Prisoner here declared he would take Martin to New York, Employed those Villians to Perpetrate his design which was nearly Effected.

A Circumstance Repeating their Usual and dirty measures, it may Serve to teach Individuals the duty they owe to the safety of their persons every measure is Pursueing to discover and take the Villians.

I have the Honour to be with the Greatest Respects Your Excellency's Obt. Servant

John Hathorn, Col.

Governor Clinton.

A TROUBLESOME PROPOSITION.

*How to Handle Persons Who Have Returned to Our Allegiance,
Having Originally Gone Over to the Enemy.*

Fort Clinton Aug. 16 1778.

Sir, The bearer hereof John Wessells served as a Serjeant in my Regiment the Campaign '76. When the Regiment was disbanded in the winter it appears he went to York, & hath continued there untill about fourteen days ago.

By accident I mett with him in this Garrison, and as a Subject of the State I think it my duty to send him to your Excellency—especially as I have reason to be displeas'd with his behaviour. The familys who were banish'd by Governor Chittendon are here—civil discreet people. I really wish you woud give me some orders to sett them at Liberty. I have them at work just now but use them well. My most respectfull compliments to Mrs. Clinton, the old Lady & family & am with due regard D'r Sir your much oblidge and very Hble. serv't

W. Malcom.

His Excellency Governor Clinton.

Poughkeepsie 18th Aug't 1778.

Dear Sir, I have receivd yours of the 16th Instant by John Wessells whom I immediately consigned to the Commissioners.

Numbers of the disaffected Inhabitants of this State who in Times passt went over to the Enemy are daily returning. Suffering them to remain in the Country without taking any Notice of them gives great & in my Opinion just Cause of Disgust to our Friends. To punish them might discourage Desertions from the Enemy. The Com'rs have Authority to commit them to close Confinement but this woud charge us with heavy Expence & Trouble & answer no valuable End. I have had thoughts of consigning them to your Post for Three Months Fatigue, not by Way of excusing them from Punishment for their passt Crimes if in future it shoud be judged Right to inliet any. This or a Close Goal is the only alternative—let them make their Election & if they work & behave well it will be some Evidence of their Penitence which they may avail themselves of with their Country when brought to Account. Will it not be strict Justice? They were influenced to desert to evade Militia Duty. The Militia have performed more than three Months Duty since their Desertion. Pray let me have your Oppinion on this Subject. Will you receive them? Will it be safe?

Tho it was a daring Piece of Insolence of the usurped Government of Vermont to Attempt to banish the Subjects of this State and equally so in Genl. Starke to carry their Sentence into Execution, yet as I have addressed Genl. Washington on this Occasion & requested him to call Genl. Starke to Account for his Conduct & as his Excellency has wrote to Congress on the Subject I woud not wish to give any Order concerning them till an Answer is received. I wish you however to acquaint them what I have done in their Behalf. This will be handed you by the Officer who is appointed to take Charge of Mr. Saml. Bayard & family & a second Cargo of banished Tories. He will shew the

Genl. Letters to me on the Subject. How many more we will have yet to forward is uncertain they multiply on our Hands.

Yours Sincerely

G. C.

THE RHODE ISLAND CAMPAIGN.

Failure of the Expedition Through Lack of Cooperation.

Harison's Precinct—Aug'st 17th 1778.

Sir, With some Difficulty we have at last procured a convenient House in this Neighbourhood and expect to open a Board tomorrow. This afternoon we shall confer with the Adjutant Genl. and settle a proper Plan of Proceedure.

By the last Accounts from Rhode Island Count D'Estang* had not returned to that place, which he left on Monday last to

*In pursuance of the treaty that was concluded between the United States and France, as a result of the surrender of Burgoyne, Vice Admiral Charles Hector D'Estaing sailed from Toulon, France the 10th of April 1778, and early in July arrived in Delaware Bay with twelve ships of the line and four large frigates. An ardent admirer of Marie Antoinette, who from the first had been a warm friend of the Colonies in their struggle against England. D'Estaing had had a memorable career, and was equally distinguished whether as a soldier or a sailor.

At sixteen he was Colonel of his regiment, and at twenty-seven a Brigadier General. He saw service in India, but was made prisoner at Madras in 1759 by Clive. He broke his parole and entered the navy, where he obtained command of two ships and soon spread terror and consternation among the British merchantmen in the far east. He was finally captured, imprisoned at Portsmouth and exposed to unnecessarily harsh treatment on account of his broken parole. The ignominy and humiliation of which he was the victim created in his breast a hatred for the English which the war with the Colonies allowed full exercise. Through Marie Antoinette's friendship for him he was given command of the fleet destined for America. Having learned that Lord Howe had evacuated Philadelphia, and that the British shipping had left the Delaware, the French Admiral sent up the river a man of war which carried M. Gerard the French Minister Plenipotentiary to the United States. D'Estaing then proceeded with the balance of his fleet to Sandy Hook.

He fully expected to encounter the British fleet and destroy it, but on his approach the Englishmen retired to the upper bay. D'Estaing, in his letter to Congress reporting his operations on the coast, charges the pilot whom he took from the Delaware River, with deceiving him by assuring him that his squadron could pass Sandy Hook. "Circumstances required" wrote D'Estaing, "that I should reconnoiter the coast myself and determined me to go almost alone in a boat. By these means we discovered the communication of Shrewsbury River, the extreme difficulties of which cost me an officer, several sailors and a quantity of rowing boats."

Washington had already dispatched Lieutenant Colonel Laurens to the French Admiral, and on the 18th, forwarded Colonel Hamilton, "another of my aides with the best pilots

persue Lord Howe's Fleet upon its Appearance off the Harbour. Indeed nothing has since been heard of either Fleet and important Intelligence respecting them is expected every Moment. Genl. Sullivan has made good a Landing on the Island and is waiting for the Return of the French Fleet before he will operate further. The Count did not leave any of his Troops at Rhode Island. Mr. Dana one of the Massachusetts Delegates was here yesterday on his way from Congress and informed me that Ten of the States have confederated, Mariland Jersey and the Delaware are the only States which have not confederated. Every thing quiet here. This is all the Intelligence worth communicating. I am most respectfully Your Excellency's most obed't Serv't

Egb't Benson.

P. S. Genl. Schuyler is still in the Neighbourhood here.

[To Gov. George Clinton.]

and the most skillful masters of ships I could procure." Laurens had nearly been drowned in crossing the surf to communicate with D'Estaing, who wrote of Laurens: "his patriotism and his courage made him brave the most imposing dangers of the sea with the same firmness as the fire of the enemy. * * * The pilots procured by Colonels Laurens and Hamilton destroyed all illusion. These experienced persons unanimously declared that it was impossible to carry us in. I offered in vain a reward of 50,000 crowns to anyone who would promise success. All refused, and the particular soundings which I caused to be taken myself, too well demonstrated that they were right."

Washington then suggested that D'Estaing should proceed to Rhode Island and cooperate with General Sullivan. When the French Admiral appeared off Point Judith, Sullivan's army was not prepared to attack the British forces and a delay of several days was necessary. After a conference between the British and American commanders, it was decided that the attacking force should land near the northern point of Rhode Island, August 10th. Four thousand French troops were to cooperate with Sullivan's command. D'Estaing successfully passed through the middle channel two days before, the heavy cannonading from the land in no way interfering with his purpose. This movement forced the British to evacuate the northern parts of the Island and to retire within their breastworks at Newport.

The next day Lord Howe's fleet appeared off Point Judith. On the morning of the 19th, under a northeast wind, Count D'Estaing suddenly started seawards with the intention of offering battle to the English Admiral. The following night, a terrific gale arose, scattered the ships, and inflicted severe damage upon several of them. The American troops under Generals Sullivan, Greene, and Lafayette, in the meantime had crossed over to Rhode Island only to discover that their French allies had gone to sea. But understanding that D'Estaing would shortly return, they took up their position two miles distant from the enemy's lines, began the construction of earthworks, mounted their guns, and proceeded to pay their compliments to the British.

It was not until the 20th that D'Estaing returned. Considerable friction had been engendered between the French and American officers, owing to the French Admiral's course. Greene and Lafayette used all their powers of persuasion to induce D'Estaing to

Poughkeepsie 18th Aug't 1778.

D'r Sir, Being engaged with the Council of Appointment I have only a Moment to thank you for your Letter of yesterday and for the Attention you have paid to public Business in procuring an Officer to Attend at Fishkill to take Charge of the Second Cargo of Tories. I am extreemly anxious for the Safety of Count D'Estaing's Fleet as I am not without my Fears that he will have to encounter a greater Force than he expected to meet under Lord Howe. Pray continue to give me the earliest intelligence of every Occurence worth communicating. Present my best Respects to the Genl. & Gentlemen of his Family & believe me to be with great Regard Your most Obed't Serv't

William Duer in a Quandary.

Dear sir, I have had for some Time past a Considerable Sum of the Public money in my Hands, which the Delegates of the State of New York obtain'd from Congress on the Principle as stated to your Excellency in a Late Letter from Mr. Morris and myself.

attack the enemy. But a council of war, held aboard the flagship, voted the proposition down. D'Estaing to the mortification and chagrin of the more aggressive American officers, sailed for Boston Harbor to make repairs. Fearing the return of Howe's fleet, and a general reinforcement of the British army, and realizing the hopelessness of maintaining his siege, Sullivan under cover of darkness, on August 28th, withdrew to the north part of the Island. The British promptly followed him from Quaker Hill and attacked Sullivan on Butts Hill. The Americans lost 211 men; the British loss was heavier.

The following day, Sullivan retreated from Rhode Island to Tiverton, and the British fleet, with the army of Sir Henry Clinton arrived at Newport—this information having been forwarded to Sullivan by Washington from his headquarters at White Plains under date of August 28.—STATE HISTORIAN.

When I first received it, my Determination was to proceed to the State of New York within a few Days—but the Foreign affairs becoming interesting from the arrival of the French Minister; and the Necessity of getting a Decision of Congress upon the Conduct of the State of Vermont, and their late Proscription growing every day more Urgent—I have been induced to stay since Mr. Lewis arrival from Baltimore—in hopes of finishing a Business which in my Judgment strikes at our very Existence as a State. I have endeavoured in vain to get several trusty Persons to take the Charge of this money in order to deliver it to you for the Purpose of its being paid into the Treasury of our State—but one or two out of that Number, who might with some Inconvenience to themselves have carried at least Part of it did not chuse to run the Risque. I have endeavor'd to prevail on Mr. Dennig to become the Bearer of it but on finding disagreeable to him have been obliged to desist from my Request. As I have pass'd a Receipt in my own Name of this money, I am not willing to hazard it with a Person at my own Risque, Unless I should find a very trustworthy Character, who will consent to take the Trouble. I have, therefore, to request that your Excellency will be pleas'd to direct some Person, who may be depended upon, and who may be coming to Philadelphia, to call upon me for the money; and in case I should not be there to call on his Return to New York at Baskinridge in New Jersey, where I purpose staying some Days on my Return on a Visit to Lord Stirling's Family. Mr. Dennig being in a hurry to Set out, I am obliged to conclude myself with great Respect, & Esteem Your Excellency's Obed't H'ble serv't

The Governor Calls Assessors and Collectors of Taxes to Account.

Poughkeepsie Aug't 18th 1778.

Gentlemen, My anxiety for the public welfare is very much increased by the unexpected Neglect of the Assessors to make the assessments without which the Supervisors cannot rate the Tax, nor the Collectors levy it. It is easy to conceive that a Tax for supplying the public Exigences of the State, is a matter of too much importance to be delayed; and it is as obvious that had the Country done their Duty as effectually as the Legislature have made provision, the whole Tax might before this Time have been deposited in the Treasury for public Use. From these Considerations I conceive it to be the indispensable Duty of my office to urge the Supervisors, Assessors & Collectors of the different parts of the State to the immediate Execution of their respective office as they would wish to escape the penalties of the Law and the displeasure of their Country so much injured by their inexcusable Delay. Margaret Childe Contradicts Her Slave and Appeals to Congress.

Philadelphia 18th Aug't 1778.

Gentlemen, I am constrained to trouble you on an affair that affects a distressed Widow, trusting in your goodness and humanity to excuse the freedom I have taken; imploring you to take the case of the distress'd into your consideration, and if in your power, to secure my property in such manner as to you may seem best.

Milford, a negro slave belonging to me and brought up with me, from a regard I had for him, induced me to order, that after my decease, he should be free. He, taking advantage of this, when the English Army left this City, went off with them, and is now in New York. This misbehaviour of his in runing away from me, has made me alter my resolution, and should be glad to have him sold or in some manner secured to my behoof. Thinking, Gentlemen, that you might be most likely to assist me in this affair, I have taken the liberty to lay the matter before you, humbly requesting that you will be pleased to render me all the services in your power; you will thereby greatly relieve the distresses of a widow.

I have likewise herewith laid before your Honors, Copy of a letter from my said servant, to Mr. Jones,* a gentleman he was formerly hired to, in this City; by which you will find that he wants to have his Freedom recorded, and refers to Mr. Anthony Benezet for it. This Mr. Benezet is one of the people called Quakers; is principled against keeping slaves; makes it his business to help all Negroes in obtaining their freedom; and is the person who drew out the instrument of writing which left said Slave free after my decease; which was sealed and put in my Will. Since he ran away I have destroyed the instrument of writing,—therefore Mr. Benezet cannot do any thing in the matter. He (Mr. Benezet) took a minute of the Freedom in a Book which he keeps for that purpose; and did give my servant a Certificate of the same before his elopement; signing my name to it without my consent or knowledge.

I hope your Honors will be good enough to do me all the justice that lays in your power, and as my said servant (who calls him-

self Milford Smith) is in New York, you probably might suggest some plan whereby I might be secured; for which my prayers shall ever attend you, and am Gentlemen your obed't serv't

A Proposition to Exchange Isaac Gedney for Nehemiah Marshall.

- Harison's Precinct August 30th 1778.

Sir, Among other matters that have come before us is the Case of Isaac Gidney, which appears to be this vizt: Gidney while in the Enemy's Service was taken Prisoner and carried to Hartford. Some time before a certain Nehemiah Marshal of New Rochelle was taken by the Tories and conveyed to New York where he was rigorously confined in the Provost. Genl. Lee hearing of his Situation interceeded for him and procured his discharge upon his stipulating that Gidney should be returned in Exchange for him. Marshal accordingly returned Home on his Parol til the Exchange should be compleated and Gidney was dismissed with Intent that he should go to New York. Gidney instead of repairing to New York remained at his place of abode at Mamereneck pretending that he could not proceed to New York without farther Orders, and while in this Situation was apprehended by the American Troops and conveyed to Fort Arnold where he is now confined. Marshall conceives himself bound by the Terms of his Parol to surrender himself to the Enemy whenever they shall demand him unless Gidney should be sent in and Genl. Lee has declared to us

that his Honor is concerned either that Marshall should return or Gidney be given in Exchange for him.

From this State of Facts we submit it to your Excellency to determine whether Gidney ought not to be sent to New York in Exchange for Marshall and in order that the Business may be compleated we inclose your Excellency an Order to the Commanding Officer for the Delivery of him to such Person as you shall appoint. Should your Excellency determine that the Exchange is to take place and to be effected by our agency the Bearer Mr. Merrit will engage, and we are informed he may be trusted, to take Charge of Gidney and deliver him to Us.

TO EXCHANGE HIDES FOR SHOES AND LEATHER.

The Secretary of the Board of War Communicates with Governor Clinton, Who Orders Major Hatfield to Act Accordingly.

War Office Aug't 20th 1778.

Sir, The Board troubled your Excellency some time ago desiring you would be pleased to appoint a Person to superintend the Hide Department at the Grand Army during its Stay in the State of New York & at the Posts in its Vicinity. Copy of that Letter is enclosed. We are anxious to have some more effectual Measures taken on this Head than those heretofore pursued as the Army now want Shoes & as the Season grows inclement will have a Repetition of their Distresses in this particular unless timely Precautions are taken. We are informed that Hides are an Article in so great Demand as few are to be had but those from the Cattle used by the Army that our own Terms may be obtained in the Disposition of them. We would wish to be speedily informed of your Proceedure on the Subject of our Letter which was sent

to you by the Commissary of Hides, Mr. Ewing, who was informed of its Contents & as he was desirous of leaving the Army & confining his Attention to the Settlement of his Accounts within the District allotted to him on the West Side the North River, he promised carefully & quickly to deliver it to you. Should you think proper to appoint the Person we desire you to nominate we beg you to instruct him to exchange the greatest possible Quantity of Hides for strong substantial well made Shoes & the Residue for which no ready made Shoes can be obtained for Leather as we disapprove of the Practice of putting out Hides to tan our Supplies thro this Channell being very remote. Leather & ready made Shoes we are told may be had in abundance thro yours & the Eastern States which also supercedes the Necessity of putting out Hides to tan as well as answers our Wants immediately & effectually. It is said that the Tanners will take the Hides off the Ground & bring their Leather or what would be much more eligible Shoes to Camp in Exchange. If this were effected it would be an happy Circumstance for the Army as the Deputy Clothier at Camp would receive from the Commissary of Hides a constant Supply for the Troops & the Expence of carrying the Hides to a Distance as well as the Time necessary for the manufacturing the Leather would hereby be saved. If a suitable Person does not occur to your Excellency we beg your speedy Information as we will endeavour to find a Gentleman who will undertake the Task. However trifling an Object the providing Shoes for an Army may seem in other Nations, in ours 'tis of the first consequence & demands the Attention of Persons in every Station. This will be ours if an Apology is needed for troubling you on this Subject but we are satisfied that your Knowledge of the past Distresses of the Army & your Anxiety to prevent them in future

will be a sufficient Inducement with you not only to excuse our application to you but to cooperate with us in our Endeavour to procure an ample & certain Supply for the Troops.

By order & on Behalf of the Board I have the Honour to be with great Respect Your obed't Serv't

Richard Peters.

His Excellency Gov'r Clinton.

Poughkeepsie 1st Sep'r 1778.

To Major Hatfield,

Sir, You will receive herewith a Copy of a Letter from the Board of War to me by which you will be pleased to Govern your Conduct as Commissary of Hides. You will perceive it is their earnest desire to exchange Green Hides for Shoes & Leather which they are induced to believe may be effected. It will therefore be your Duty to promote it as much as in your Power & for this Purpose I advise you immediately to publish advertisements in the public Papers of this & the Eastern States encouraging the bringing into Camp those Articles to be exchanged accordingly. I am Sir Your most Obed't

A Petition from the Northern Towns of Dutchess County and the Southern Manor Towns for Authority to Raise a Company of Rangers to Protect the Inhabitants from Robbers.

To his Excellency George Clinton Esqr. Governor of the State of New York General and Commander in Chief of all the militia and Admiral of the Navy of the Same.

The Petition of the Subscribers Inhabitants of the Northern parts of the County of Dutchess and Southern parts of the Manor of Livingston: Most Humbly Sheweth;

That Several of the well Affected and most Loyal Inhabitants in the Neighbourhood of your Petitioners have been despoiled and Plundered of all their arms and great part of their Ready money cloathing and Valuable Effects by a Gang of Robbers pretending to be the Subjects of the King of Great Britain, and to act under his authority.

That your Petitioners have Reason to Believe from the Confessions of a Number of the Inhabitants who have been apprehended that the Said Robbers are Seecreted and Concealed by the disaffected Inhabitants and that many others are deterred from making any Discoverys to the Civil or military authority by the Threats of the said Robbers of burning their houses and Destroying their property.

Your Petitioners farther beg leave to inform your Excellency, that notwithstanding Parties of the Militia have been frequently called out, and allmost of Collo. Graham's Regiment with Several Voluntiers from Colo. Hopkins's were for Several Days Ranging the woods and endeavouring to discover and apprehend them none of the Robbers were taken by them, owing as your petitioners conceive, to there not being a body of men in Readiness to pursue them immediately after the facts were Committed and to the Great Quantity of uncultivated and Mountainous land in the Neighbourhood where they Seecrete themselves.

Your Petitioners, therefore, conceiving it very Improbable that any of them will be apprehended Unless a Company of men be raised for that Express purpose—

Humbly pray that your Excellency would be pleased to direct

the Raising a Company of about Thirty men, under the Command of an active prudent and Vigilant Officer to continue in Service for such time as your Excellency Shall think proper, to the Raising and compleating of which your Petitioners will give every assistance in their power.

LEWIS AND MORRIS WRITE TO GEORGE CLINTON.

Inform him that Virginia Refuses to Pay her Quota Until her Accounts are Adjusted.

In Congress Philadelphia 21st Aug't 1778.

Sir, Just now a Letter was read from the Governor of Virginia to Congress in which his Excellency (in polite Language) informs Congress that having in vain endeavoured to get their accounts adjusted and the United States being indebted to it, the State of Virginia have determined not to pay any Proportion of their

Quota untill the accounts are settled. We think it our Duty to inform your Excellency of this Circumstance. Whether the State we have the Honor to represent will imitate this Example it is in their wisdom to determine. Many States have received such astonishingly large advances from the Continent that we have no Conception how they can have been expended on the continental account and, therefore, are led to beleive that considerable Sums are due from some Individual, to the United States while on the other Hand it is certain that the Union is considerably indebted to others. Whatever may be the future Determinations of wiser Persons in Congress certain it is that on any Principle Injustice will be done unless all these different accounts be finally closed in a short Time. We do not presume to censure or commend the Conduct of any Sister State much less to hold up any Example to be pursued or avoided, having as we have the fullest Confidence in the Wisdom of our Legislature and that they will upon an intimate Knowlege of their own Circumstances pursue the Line of Conduct which shall be dictated by wisdom Justice and that patriotic attention to the American Cause by which they have hitherto been distinguished among the several States which compose the Confederacy.

We have the Honor to be with deep Respect Your Excellency's most obedient & humble Servant

Gouv'r Morris.

ANOTHER INDIAN RAID.

The Entire Brooks Family of Eleven Captured—One Man Killed and Scalped.

There was a Party Sent in Pursuit of them in the afternoon who follow'd their Tracks untill they found the Corps of the wounded man—who they Inhumanly murdered and Scalped—and then Returned, it being night—the Prisners they took with them, was Three of the Old man's Children, to wit: a young Girl of about 15 years of age and Two Boys younger & Two little Girls Children of Said Hubbard the One 5 & the Other 3 years Old.

THE COMMISSARY DEPARTMENT IN TROUBLE.

The Cost of the Average Ration Far in Excess of the Price Fixed by the Legislature—Governor Clinton's Comment.

Hunk 21st Aug't 1778.

Dear Sir, I am Sorrey that I am Under the Nessesity of troubling your Excellency at this time. In my Last I mentioned to you that Lieut. Direk Wesbrouck had Excepted to act as Commisary to the Detachment Under my Command; Mr. Wesbrouck having Laid on the frunteers at Asshokan with a Detachment out of my Regim't, and was oblidged to furnish them with provisions, he went to Mr. Sands the Day Before yesterday to get his accounts audited; the Sum he had Expended for the provisions Exceeded, what is allowed By the Legislature per Day In Lew of Rations, and, therefore, Cold Not pay him; he then Informed Mr. Sands that he was Ingage to Supply the Detachment Under my Command and that he was affraid he whould Not Be able to furnish provision at that Rate, and of Consequence Came to me Last Night and told me he Could Not Suply me any Longer at that Risque, Unless I whold keep him Indamnified. I Immediately made up what a Ration whould amount at the Rate I had Bought for ye party at Hunk, found that it Did Not Quite amount to three Shilling a Ration provided I was admited to Sell the hides, But as I had Been informed By Coll. Newkark that the Beaf at Peenpack and Mini-Sinck Could Not Be had So Cheap, as we had Bought for the party at Hunk, I therefore, thought it Not Safe for me to promise, and trust to the Legislature for pay. I then Called upon Johannis J. Hardenbergh, David Bevier and other Near me, and askt them if they whould Ingage with me to keep the Commissary Indamnified; they Said they whold till Such time

as I Could have your Excellency's opinion or advice about it; hoping you will assist and guide us if Nessesary, for ye price of Provision are Dayly advancing. I am well Satisfi'd, that if I am able to make it Hould this month, I Can Not ye Next.

I have this morning Received accounts from Peenpack that Seventeen Indians and tories, have tacken Six men and Some women; the women they toock to the great pond, and there Stript them and Sent them Back. I Can Not Learn weather the men tacken, are Inhabitants or of the guard; the account I have is Very Imperfect; Said to have Come By a men who Came from Peenpack to Mamacoting with his wagon which makes me Doubt at the truth thereof; this moment I Received Intelligence from great Shandakan that the few friends we had at Packatackan are Cheafly Come Down, Left many of their affects Behind them, and are Desireous to have a guard to go and fetch them, which I have directed to go with order to fetch Down our friend and affects, as also the tories and their affects if possible. of Dear Sir your Very Hum'e Ser't

John Cantine.

To Geo. Clinton.

P. S. to fetch Down the grain from Papacton Cannot well Be affected, that at Packatacken I will Indeavour to Get, If I Can Do it, In Short, or Else Destroy it, for as I am Informed our friend Do Not Exspect to Save theirs as the Road Cannot Be used with teems.

Poughkeepsie 22d Aug't 1778.

Dear Sir, I am this Moment favoured with yours of yesterday. I am unhappy to learn that you meet with any Difficulties in supplying your Troops and particularly so when I reflect on the Cause. Where will Extortion End? What have we not to

dread from it? More I am perswaded than from the Arms of our Common Enemy. You have seen the Law empowering me to pay & subsist the Militia called into actual Service; you know the Rate at which the Legislature have fixed a Ration & that was esteemed extravagantly high; beyond this I have no Power. All I can promise is to lay the Accounts which may accrue for Deficiencies before the Legislature at their next meeting & point out the Necessity of the Services & the Propriety of making provision for discharging them. This I will do.

I begg that your Scouting Parties & Guards may be vigilant & thereby prevent Surprize. The Affair you mention at Peenpack if true shews the Necessity of this. The Enemy to the Westward under Butler & Brandt are distressed for Provisision which shews the propriety of removing or destroying that on Delaware. Yours sincerely.

General Ten Broeck Out of All Patience—Commissions for Eight Regiments in His Brigade.

Albany 24th August 1778.

Sir, Col. Benson's letter of the 17th Instant with 8 Packages said to Contain Commissions for 8 Regiments in this Brigade I

have Rec'd & have forwarded them to the Several Colonels to whom they were directed; whether all the Commissions for the Brigade are come up I cannot say, these are the first that have come to me, Mr. Bancker sometime since furnished me with a list of the names of all the officers appointed, by which I find that Philip P. Schuyler & Jacobus Van Schoonhoven are appointed Colonels. They Inform me that they have not Received their Commissions. Some alterations in their opinion are absolutely necessary to be made in their Respective Regiments of the Propriety of which I am Satisfied; they have furnished me with a list which I inclose & wish that the Commissions agreeable thereto may be made out as soon as Possible & sent. Should the Council of appointment not meet soon, I could wish such of the Com's as are or can be made out Corresponding with the Inclosed lists may be sent Immediately.

Harme Van Buren who was 2d Major in Col. Ab'm J. Van Alstyn's Regiment, I find is left out of the new appointment, I know him to be a friend to the American Cause & I believe him to be Qualified for the office & therefore wish to see him Reinstated.

According to your Excellencies Directions I have Ordered out one fourth part of my Brigade (Except the four Northern Regiments) & directed them to Rendezvous at Schohary & Cherry Valey on the 17th Instant & to Continue in Service one month, I have not had a Return from Cherry Valey, but believe the number there to be about 150 men; the number at Schohary is ab't 270; to Schohary ab't 500 & to Cherry Valey ab't 400 men are Ordered, I have done every thing in my Power. My Officers tell me they have done the same & yet not one half the number of men Ordered is turned out. Colonel Livingston's Regiment ought

to have furnished ab't 130 men, not Exceeding 20 men have marched; from Kinderhook Regt. only ab't 10 men; I am out of all Patience. It hurts me to see so great a Backwardness. I have nothing material from the western Frontiers, at Present all seems to be Quiet in that Quarter.

With great Esteem I Remain Your Excellency's most Obedient

Testimony of Nathaniel Morgan in the Van Schaack Robbery Case.

Part of the Examination of Nathaniel Morgan*—who is thereⁿ named John Morgan, alias Nathaniel Morgan, alias John Williams:

“That they then went to Doctor Ducalon’s—that Ducalon made them welcome and Seemed very intimate with the two Sloss’s—that here he found a Scotchman who called himself by the name of Robert Lewis at that Time, but that he afterwards heard him called Robert Youngs—that he had a Sore leg—that after they had been a while at Ducalon’s, Ducalon proposed to them the robbing of Van Schaack where he said there was a good deal of hard money—that Ducalon proposed the manner of dressing themselves—the two Sloss’s were to put on two wigs which Ducalon provided them with, and they were all to black their faces—that about Six o’Clock in the Evening they left Ducalon’s and went to Van Schaack’s—that Ducalon told them that if any Body came from the House they should fire at him—that they then went up to the House—that they were but a little distance from it when a man came running out—that Ducalon immediately levelled his piece at the man, and it Snapped twice—that after committing the Robbery they all went down to William Bartow’s who lives at the River Side—that they asked Bartow whether he would carry them across the River with his Batteau, which he told them he would, got the Batteau and they all went into It, and crossed the River—that when they landed on the east Side they went to a little House where Ducalon asked for a Candle—the man of the House answered he had none—Ducalon said he must have one—that after Searching a while a Candle was found—that they went to a Small Hut back of the House where they divided the money—that Ducalon’s share of the money amounted to eight Silver Dollars.”

The above is truly copied from an Examination of Nathaniel Morgan which is in the Handwriting of Mr. Leonard Gansevoort, Jun’r, Clerk to the Commissioners for detecting Conspiracies &c. at Albany—the said Examination is Subscribed by Cornelius Humfrey, Esqr., as a Justice of the peace, is tested the 29th August 1778. And the s’d Leonard Gansevoort lately in Court made Oath that the said Examination was taken at Claverack after Morgan was apprehended & before he was sent to be committed to Albany Gaol.

CONTINENTAL TROOPS AT CHERRY VALLEY.

General Ten Broeck on Corporal Punishments and Courts Martial Generally—Appeals to the Governor for Enlightenment.

Albany 29th Aug’st 1778.

Sir, I acquainted your Excellency some time ago, that I had Ordered a General Court martial for the Trial of such of the militia of my Brigade as refused or neglected to march & those who marched & deserted. A general Court martial for this Purpose I appointed to Try the Delinquents of the four Southern Regts., on the East side of the River & one other for the Trial of those Regiments to the northward of them which were Ordered into Service. I have already Informed your Excellency that the

number of Offenders are very great. The last mentioned Court have Reported to me their Proceedings. The former have Reported only in part; they are still Setting & I Expect their farther Proceedings soon; they meet with many Difficulties in getting the Offenders brought before them; the greatest Offenders keep out of the way to avoid a Tryal; the Officers tell me it is Impossible to have them apprehended as they keep Sculking in the woods. I this day Rec'd a letter from Col: Whiting* of which I inclose your Excellency a Copy.

The Court martial which have Tryed the Delinquents of Col. Whiting's Regiment have adjudged Corporal Punishments or pay a fine in Commutation thereof; the Court in this Quarter have not adjudged Corporal Punishment but laid fines, on failure of payment have directed Imprisonment; these fines have been Generally paid & not one person as yet Imprisoned. The Officer who delivered me Col. Whiting's letter Informs me that their men Exclaim most Bitterly against the Corporal Punishment Ordered by the Court, & he says he Conceives it will be Impossible to Carry it into Execution, & if it should be attempted, that it will Create Inconceivable Disturbances, as the men appear Determined not to Suffer it; the men he says in general are very Poor & Cannot, as they have not the money pay the fines to Commute for Corporal Punishment, but thinks if the Corporal Punishment & the one half of the fines be Remitted that they may be able & willing to pay it & that it would have very Salutary Effects. I would, therefore, beg your Excellency's advise on this Important matter, as also on the Proceedings of the Courts martial above mentioned. I have Confirmed the Several Sentences of Both Courts; whether it is Strictly agreeable to the letter of the Law I don't know, but what I have done I conceived for the good of the Service. Perhaps I am mistaken, if so, I wish to be sett Right by

*See page 694.

your Excellency; I would also be glad to know whether the Proceedings ought not to have your Excellencie's approbation or Disapprobation. Will it be necessary, Sir, to appoint another General Court or Courts martial to Try such of the militia (whose number is still great) as have neglected or Refused to march; or can it be done by a Regimental Court; if this can be done, it will save the great Expense of a General Court martial (for they Expect to be paid for their Services) & bring the offenders more Speedily to Tryal. Your Excellency's Goodness will I hope Excuse the Liberty I have taken in Requesting your Sentiments on these Several heads. As it seems to be Quiet to the westward & about 300 Continental Troops are Stationed at Cherry Valey & about the same number at Schohary, & as the time of Service of the militia of my Brigade now at those places Expires the 17th Sep'r, will it be necessary to Order an other $\frac{1}{4}$ part to those places for one month more; in this I wish to have your Excellency's directions as soon as Possible.

I was mistaken; not a man of Colonel Livingston's Regiment has Joined the Detachment at Cherry Valey; the few that were on their march have deserted; what must be done with these Folks? I Remain with great Regard Your Excellency's Most Obedient Humble Servant

Ab'm Ten Broeck.

to order out a Detachment of the Militia to strengthen the Garrison in the Highlands tho I much doubt (considering the large proportion which are constantly kep out on the Frontiers) whether I shall be able to march & keep out at those Posts for any considerable Time a Number larger than the least mentioned in your Excellency's Letter, especially as the Service in Garrison [is] not so agreeable to them as that of the Field. At the same Time I have not the least Doubt if any Movements of the Enemy should render it Necessary that I shall be able to draw out a Considerable Force to join the Army immediately under your Excellency's Command and I will immediately make the Necessary Dispositions for that Purpose.

The People having entertained high expectations from the Operations of the Fleet & Army at Rhode Island, will without Doubt be disappointed on finding that Count D'Estaing has left that Place & gone to Boston: however, I make not the least Doubt but that they will suppose it for the best & that the Injuries the fleet must have sustained in the late Storm has occasioned this sudden movement.

George Clinton Communicates with a Congressional Committee in Regard to Appointment of Officers in the Continental Line.

Poughkeepsie Aug't 29th 1778.

Gentlemen, I have received your favor of the 28th Inst. In answer to which I have to inform you that as early as the 29th of June last I transmitted to Mr. Morris who was then of the Committee of Congress for settling the arrangement of the Army a Return of Colo. Gansevoort Regt. agreeable to the new Estab-

lishm't as returned by him to me, and before that time I had also sent to Mr. Morris similar Returns of Colo. Dubois's & James Livingston's Regts.—in these Returns the names of the Supernumary Officers of Merrit of those Regiments respectively with their Recommendations were inserted. I was employed in the military Line at the time the late Convention by their Committee formed the Arrangem't & settled the Rank of the Regts. raised under the Direction of this State; and I have never been furnished with any part of their Proceed'gs or the Principles on which that Arrangem't was made; it is therefore not in my Power to give you any Information on that Subject.

The Constitution of this State is altogether silent with respect to the Appointm't of Officers in the cont'l line, neither has the Legislature made any Provision for the purpose: yet I have the greatest Reason to believe that the Recommendation of the Genl. Officers will have great weight with those who may be authorized to make the Appointm'ts. I shall take the earliest Oppertunity of laying this matter before the Legislature. I am &c.

G. Clinton.

The hon'ble Jos. Reed & John Banister, Esqrs.

P. S. The Returns above alluded to may be much sooner obtained by applying to Mr. Morris, than to the Colos. especially Colo. Gansevoort's as he is now at Fort Schuyler.

*Governor Clinton Offers a Suggestion for the Treatment of
Delinquent Militiamen.*

Poughkeepsie Aug't 31st 1778.

Sir, I have rec'd your Letter of the 24th Inst. with its inclosures which will be laid before the Council of Appointm't at their next meet'g. I am surprised to find that out of your whole Brigade only 320 men are now in actual Service; when the County of Ulster alone has for some time past had at least an equal number on the frontiers of that County; Orange in the same Proportion. I cant doubt that you have taken great Pains to get the men out, but I am certain that your Officers must have fail'd in their Duty. They have Power of Trying Offenders Capitally for such Neglects which are made Desertion by the Militia Law. They may inflict Corporall Punishments or commute for Fines. If this Authority was rigorously exerted in a few Instances on the most refractory it woud not fail of reducing them to a proper Sense of their Duty; you ought to see that this is done.

The Enemy at New York & its vicinity appear to be in a general Fermentation & from the best Accounts are preparing for some great Movem't. In Consequence of which Genl. Washington has requested one thousand of the Militia of this State to strenghten the Posts in the Highlands, the Times for which the Eastern Militia who now garrison them were to serve being nearly expired & that the whole be in the most perfect Readiness to march for the Reinforcement of his Army shoud the same become necessary. The first part of this Request is more than can be asked from the Militia South of your Brigade without doing them great Injustice. It is necessary, therefore, that a Proportion of them be taken from

some of your Regiments, and as I observe that Colo. Livingston's & the Kinderhook Regt., afford you little or no Aid on the Frontiers, I am induced to believe it will be best to assign them with one good one, to wit, Colo. Robt. Renselaer's Regt., to this Service. You will, therefore, on Receipt hereof, order one fourth Part of those Regts. to march properly Officered, armed & equiped to Fort Arnold, without Delay & that the Officers make me a return of the names of the Officers & Men which may be classed for this Service. The whole Militia at the same Time are to be held in the most perfect Readiness. The French Fleet are gone round to Boston to repair the Injuries rec'd in the late Storm. Lord Howe sailed from the Hook last Thursday with 11 Sail & 6 British Regt. on Board. In all probabillity the Operations ag't Rhode Island will fail for the present. I am your most Obed't

Kings District Aug'st 31 1778.

May it please your Excellency, I think my Duty to acquaint you of the State & circumstances of my Regiment; that they as a body have ever since the war bin zealously ingaged, not Regarding their privet concerns or interest when their injured Country Call'd for their assistance against the Common Enemy & the more infamous torys; notwithstanding I was so unhappy as to find that a number of them Did this Last May & June Disobey

orders & Desert, when at the wesward to gard the fronteirs; that a general Court martial was Call'd which gave Judgment against them which was Ratified by General Tin Broeck. I Call'd the Delinquents together, in order to have the Judgment put into Execution by paying the money; that they with numbers of the Respectable inhabitants acquainted me of their indigent circumstances; that maney of them who Rais'd provision Enough before the war & to spare, are now obliged to Labour for their Daly Bread, at Days work, as their farmes Could not be attended to by Reason of the war; & I need not tel you that their wagers by the amazing fall of money is very trifeling when put in Compition with necessarys of Life; that to Exact the Several Sums from them, (who have so Largly by the Repeated Calls into actual Servis as none of them have slaves or servants to Leave on their farmes to Cast in Sead into the ground), I found to be attended with such Delicacy that I suspended the matter, as I was apprehensive had I proceeded to collect the money, they must have suffered exstreamly & to have put on the stripes would have put the District in the greatest flame; & I am of opinion it woud have Cool'd their zeal if not Discouraged them in the cause. I wrote to the General on the Subject & his thoughts on the matter were such that he chose to suspend his advice for a few Days. In the mene time I thought it Expediant to inform you of the matter & beg that I might be honor'd with your Excellency's Directions by Maj'r Beebe, the barer of this, to whome I would Refer you for more perticulars, as he is a Genteman of varacity & great candor & will I Doubte not give you a more Explicit account of the circumstances of the Regiment in general; but before I conclude, I would Beg Leave to Remark, that if the men can be Led to vew

their crime in its true Light It would be Expediant if the Law will admit to forgive the whol Debts; as many have nothing to pay; but shall submit the matter to your wise Decision & conclud with great Esteem your Excellencies obedient Hu'le S't

COLONEL BUTLER AND THE COMMISSIONERS.

He Establishes a Truce and then Submits the Case to Governor Clinton—Schoharie Tranquil.

May it please your Excellency, In my last I mentioned to your Excellency of my Scouts having drove in some Cattle which was within the excursions of Enemy, which I also acquainted Genl. Stark with, who directed them to be sold for the Benefit of the Captors, which has ever been the custom in Partizan Detachments. I shou'd not have sold them until I had acquainted your Excellency But the scarcity of Pasture Obliged it to be done. On my Advertizing them for sale, some Gentlemen who Stile themselves comissioners of sequestration, demanded them from me for the use of the State. But on a Consultation with these Gentlemen, we agreed to sell the Cattle & the money Arising to remain in my Hands, until your Excellency's & Genl. Washington's pleasure was known on the Occasion. I take the liberty of mentioning to your Excellency the great Fatigue to the partys in bringing off those Cattle out of the Jaws of a Savage Enemy & the Benefit there derives from rewarding good troops.

I have permitted none to be Sold but those belonging to persons who are or have been in Arms against us. Every thing is very Quiet here at present. Since my last I've had three Scouts out consisting of 150 men who have been at the Head of [the] Susquehannah & Delaware, But made no discoveries of the Enemy except a few Tories, two of whom they took, & Capt. Posey delivered them to the militia who on their attempting to escape Fired on them & Shot one, the other got off.

In my last I mentioned to your Excellency my having proposed a plan to Genl. Stark for acting Offensively against the Enemy But his Ideas seems different from mine, I shall in a few days go to Albany & Consult the Genl. Personally on that subject & will inform your Excellency of the result.

Inclosed I send your Excellency some Intelligence I received a few days ago by a Spy.

I shall be exceeding Happy in Hearing from your Excellency as soon as possible. I remain with respect Yr. Excellency's Hble. Serv't

John McKenzie being duly sworn says, that on the 17th Instant he set out for Unandilla & arrived there the 19th, where he continued until the 24th; while he was there he discovered with a Number of his Acquaintance who had Joined the Enemy, who told him that their Numbers at Achquago & Unandilla is about 4 or 500 White men & there was different accounts concerning

the Number of Indians at those places, some thought 500 others 600 & others fewer.

The Deponent was also told that [Walter] Butler is at Chamong with 1100 Indians.

That Brandt commands at Achquaga & that their Intentions is not to Attack the Frontiers, unless the British Troops make an excursion out of York. Bread very scarce.

Gouverneur Morris Notifies Governor Clinton that an Accurate Account Must be Kept of Military Stores.

In Congress 1st Sep'r 1778.

Sir, A Debate just now in the House relative to some Cannon the Property of the United States, which lately arrived in a Southern Port, calls my Attention to a matter which I had the Honor of mentioning shortly before I left the State either to the Assembly or the Council of Safety of which I was a member. Your Excellency is not to be informed that the Cannon of the State of New York as well those in the City as those which were at the Posts of Ticonderoga and Crown Point were frankly and generously submitted to the Use of the United States.* A Day of Reckoning must arrive and I hope the State will be prepared with an accurate Account (among other things) of the military Stores which they have furnished to the Continent. I know well there will be great Difficulty in collecting the necessary Documents on this Occasion and, therefore, it is the more worthy of the early Attention of your Excellency and of the Legislature. You will excuse, Sir, my mentioning to you a matter perhaps not strictly within my Line upon a Principle which I beg you to believe, that I cannot on any Occasion omit attending to matters which respect the Interests of those I have the Honor to represent. I am most respectfully Your Excellency's obedient & humble Servant

The Commissioners of Sequestration Submit Their Side of the Case to Governor Clinton.

[Sept. 1, 1778.]

May it pleas your Excellancy, Inclosed is Copy of a Letter sent Coll. Butler* on Receipt of which he requested us to wait on him, which we Immediately did, Shew him our Instructions and came to the following agreement; that as there was a great Number of Cattle and Horses Indiscriminately brought in, numbers of which belonged to the well affected Inhabitants, which is to be returned, and the Remainder to be sold agreeable to Coll. Butler's advertisement, as a longer detention of the Sale would Occation a great Destruction of Fodder to the Inhabitants, and the proceeds arrising from the Sale thereof to remain in Coll. Butler's hands, untill your Excellancy and General Washington's pleasure is known Concerning the same, wether the Proceeds should be refunded to us for the use of the State or distributed to the Soldery as plunder.

Should the Soldery be Encouraged to plunder the Farms as they now have done, (they having in many Instances exceeded our Instructions), the Inhabitants would be in a verry disagreeable Situation, and such Incouragement would, we conceive, Create in them a sort of Licentiousness which it is not possible to say what length they may carry it, for from all the Information we can collect, we cannot find that they have taken any Cattle or Horses Immediately out of the hands of the Enemy. We should have wrote your Excellancy more fully also Concerning General Stark's Conduct but being short of time and paper prevents.' We are with the Greatest respect

Governor Clinton Remits the Sentences Imposed on Colonel Whiting's Men.

Ponghkeepsie 1st Sep'r 1778.

Sir, Genl. Ten Broeck has transmitted to me a Copy of your Letter to him of the 26th Ultimo by which it appears that sundry Persons of your Regiment have been tried by Court Martial for Disobedience of Orders & Neglect of Duty & sentenced to Corporael Punishment—That Fines are imposed in Lieu thereof, for which they may commute, But that from their Indigent Circumstances they are unable to take the Benefit of this Alternative. The Spirited Conduct of your Regiment on former Occassions induces me to entertain a very favourable Oppinion of them & to believe in the present Instance their Crimes have proceeded from Error of Judgment rather than any Design of Transgressing the Law, and as I am much averse to the inflicting of Ignominous Punishments, if it can be avoided, I have thought proper to advise Genl. Ten Broeck to remit it in the Present Case, to such as you shall judge proper, trusting at the same Time that this Instance of Lenity, instead of encouraging them to a Repetion of their Crime, will have a better Effect than Punishment, by inducing them chearfully to submit to their Duty.

I shall be under the necessity of convening the Legislature on the first of next month for the Election of Delegates in Congress, as the Time for which the present Delegates are elected expires the 3d of next Month, & I expect you will accordingly give your punctual Attendance.

You will have heard before this can reach you that the French Fleet have left Rhode Island & gone Round to Boston to repair the Injuries rec'd in the late Storm. The Enemy at New York

& its vicinity are in a general Fermentation & seemingly preparing for some great Movement. What it will be is hard to Conjecture. I am with great Esteem Your most Obed't Serv't

May it Please Your Excell'y, Agreeable to your Order of the 23 of July a Court Martial was held at this place & a Copy of the Proceedings is herewith Submitted to your approbation.

I intended to have called before s'd Court Capt. Courtright of Col. I have, therefore, Suspended him from acting & wait your farther Directions.

I was charg'd by the Members of the Court, to mention to your Excellency, the propriety of considering our services among the Contingencies of the State & of makeing a proper alowence for the Same. I am with the greatest respect Your Most Obedient Humb'e Serv't

The Charge being read to the Prisoner, plead not Guilty but confessed that he Received Colo. Newkirk Orders to march to Fort Arnold, but did not march agreeable to said Order, alledging in his Defence as followeth Viz: that when he received Colo. Newkirk's Orders he was on Duty at Peenpack, then returned home in order to go, but reflecting on the Disorders and fears of his Family, Occationed by the apprehension of Danger from the Savages, he could not think of leaving home at that Critical time, but Remonstrated to Colo. Newkirk and Desired to be excused at that time, Declareing his Willingness to take the next Tour of Duty, but received for answer that he could not be indulged, On which he was preparing to go, but was taken sick, of which he gave information to Colo. Newkirk.

The Charge being read to the Prisoner, confessed his retiring

as afforesaid, but offers the following reasons, viz: that his party only consisted of Twenty one men and their amunition not amounting to three rounds Pr man, and not above one meal of meat, and three Days Proviton of Flour in the Fort; and a few days before the evacuation of the Fort there was a Scout sent up to Coshahnton and had a Skirmish with the Indians and took three Prisoners which Declared that Butler and Brant was coming down with their army, and two days afterwars Capt. Miller was informed by a man, that had been up the Deleware River and saw three Indians or white men painted, they being on the other side of the River, which told him that the main body of the enemy was a Coming to Minnisinck and offered to make oath of the same. Then Capt. Miller considering the Condition he was in as above mentioned thought prudent to evacuate the Fort.

Lieut. Colo. Newkirk being sworn saith that in conversation with Capt. Miller, both before and after his leaving his post, he had good reason to believe that they ware scant of amunition and the Deponent saith that said Miller's orders was Discretionary in holding the Post, in case that Capt. Miller had intelligence that a Superior force was comeing against his Post, and further that on his leaving the Ground he should inform the Deponent of the same which was done.

The court after hearing the evidences and alligations for and against Capt. Miller are of Oppinion that he has acted up to the Line of his Duty and do order that he be acquitted of the charges against him and with Honour be restored to his place of power and trust as formerly.

Capt. Jackson being sworn saith that on the 20th Instant he received intelligence of the enemy's approaching, which Occasioned some Disorder and Confusion among the men, by reason of their Cartridges being stole two nights runing before the alarm, but in the time of their Confusion Lieut. Tryon asked the Deponent if he did not think it advisable to cross the Neversink Kill; the Deponent did not recollect the Answer he gave, but intended if the enemy appeared in force and attacked him, to pased said Kill, and the Deponent further saith that he shortly was informed that Lieut. Tryon went to get his Horse at some short Distance from the place of Randevvous, and a little while afterwards returned to his post and the Deponent is of Oppinion that Lieut. Tryon wou'd not been absent had not it been for his horse, nor would he been gone so long had his horse been where he put him; the Deponent further saith that Lieut. Tryon behaved himself at all other times of Difficulty and Trouble as a good faithful and trusty Officer ought to do, in every Respect, and the Deponent saith that he made inquiry if said Tryon used any Discouraging Language amoung the men; he could not learn that he did; Neither did he believe he had done the like.

The Court after hearing the evidences and alligations for and against Lieut. Tryon are of Oppinion that he is innocent of the Charges alledged against him and do Order that he be acquitted of the same, and Restored with Honour to his place of power and trust as formerly,

Protests Against the Injustice Done to Captain John Copp.

Gentlemen, As an honest Man and a Friend to our Army, I take the Liberty to trouble you with a particular Matter in the important Business you are now upon, relative to Captain Copp,* of the first New York Battalion, commanded by Colonel Goose Van Schaick, who, I am informed, without the Knowledge of the Lieutenant Colonel or myself, is left out of the Arrangement of the Regiment for the New Establishment, not as a Supernumary, but as an Officer unfit for Service, which is such an Act of Cruelty to this Gentleman, and Injustice to the Service, that I cannot help declaring it to you Gentlemen, (As every good Officer in the Army that has heard it, do among themselves), not doubting you will hear the Circumstances, and do Justice to the injured.

Captain Copp is a young Gentleman of Spirit & Education, who withstood every Persuasion, and sacrificed the Friendship and Protection of all his Friends who were Gentlemen of the greatest Note and Fortune in the City of New York, and entered through Principle the Continental Army at the Commencement of the War.—Since which Time he has always served with Reputation, and when Opportunity offered, distinguished himself in the Field, particularly in the Battle of Monmouth.

And now through Jealousy of a Few of his Equals, and private Pique of a Superior in Commission, there is an Attempt made to turn him out of the Service that his whole Soul is engaged in, with a murdered Reputation. Pardon, Gentlemen, the Warmth of my Language that may appear to reflect on a superior Officer. It flows from an honest Heart, that is free from a single unjust private motive. I am now on my Way to Fishkills, on Business

that will not admit of Delay; in two or three Days I shall do myself the Honor to wait on you, when I expect the Lieutenant Colonel's Return, and make no Doubt of his Concurrence in this matter.

With the greatest Respect, I have the Honor to be Gentlemen,
Your most obedient Servant

Benjamin Ledyard, Major 1st New York Regt.

August 31st 1778.

The Honorable The Commissioners for arranging the Army.

Copy.

Park of Artillery Sept'r 1st 1778.

Gentlemen, Being informed that Capt'n Copp is left out of the Arrangement of the New York Troops, and the Reason assigned for this Act of Injustice, is, that he is unfit to serve. This Assertion is unjust and not founded on Truth; as Captain Copp's Spirit and Abilities are well known, not only to myself, but to every Officer who has served with him in Canada and elsewhere. The Duty I owe my Country induces me to do him this Justice. I am, with great Respect, Gentlemen, your most obedient Servant

John Lamb, Colo: Artillery.

Hon'ble Commissioners of Arrangement.

Camp. near White Plains Sept'r 2d 1778.

Gentlemen, Though I have not the Honor of being personally acquainted with either of you, you will excuse the Liberty I take in recommending Captain John Copp to your particular Notice. He has long commanded a Company in Colonel Van Schaick's

Regiment of the State of New York, and though his Reputation is unsullied I am told his Name is left out of the Arrangement of the New York Officers now under your Consideration. I own, I feel myself deeply interested in Captain Copp's Welfare, as we were Fellow Students at College, and I always concieved the most favorable Opinion of his Abilities and Gentlemanly Conduct.

His Zeal for the Liberties of his Country impelled him to sacrifice many respectable Connections and the most flattering private Views, and accept of a Commission in the Army at a very early Period. He served with General Montgomery in his Expedition to Canada, and gained great Applause. Last Campaign, he was in the Northern Department, and I can assure you with the greatest Truth, that I never heard the least Suspicion to his Prejudice.

These Reasons lead me to wish he may be continued in the Army on an honorable Footing; I could urge many more in his Favor, were I not convinced he will find the best Advocates in your Justice and Sensibility.

I have the Honor to be, Gentlemen, with the purest Esteem,
your most obedient humble Servant,

Robert Troup, Aide De Camp to Major General Gates.

The Honorable Commissioners for arranging the Army.

Gouverneur Morris Discusses Finances and Taxation.

Philadelphia 2d Sep'r 1778.

Sir, The rapid Depreciation of the Continental money as it greatly occupies the attention of Congress, so it calls aloud for the united Efforts and wisdom of every State of every Individual. Taxation is the only Remedy and it is by no means a meer meta-

phor to say that Expedients, however they may for a Time palliate, only encrease the Evil considered with a View to the radical Cure. Need I to you, Sir, or to those who I have the Honor to represent and whose political Character for wisdom & Firmness I am most happy to say stands high, Need I observe, that if by Funding our Paper the immense circulating medium could be so reduced that the Bills were brought on a Par with Specie, the Debt tho nominally the same, would in Fact be much greater because the Produce of the Country being low, it would require so much more of it to pay the same Sum. Early in this Controversy, the War carried on in Canada, brought a very great Sum of money into our State. At that time I wished to adopt Taxation which would even at that Hour have been productive in a great Degree. It was not adopted. Money it is said and justly is like water always seeking a Level; heap it up and it will run from you; take it out and it will run to you. The amazing Price of the Produce of our State at Present demands serious attention. If the Farmer is taxed a Bushel of Wheat now, he is taxed (as I am told) four Dollars; by and bye if taxed a Bushel of Wheat he will be taxed only one Dollar. I will not draw any Consequence but add that if a considerable Sum is taken now it will relieve the State greatly hereafter.

I am most respectfully Your Excellency's most obedient & humble Servant

Gouv. Morris.

THE FAILURE IN RHODE ISLAND.

A Letter from General Sullivan—Moving Provisions to the Eastward.

White Plains 2nd Sept. 1778.

Sir, The extraordinary necessity under which we labour at present for forwarding a large quantity of Provisions to the eastward, and the very poor condition in which most of our public horses and oxen are, obliges me to take the liberty of begging you would be so good as give your advice to the bearer Major Hale, in what part of the state, and by what means the least distressing to the inhabitants, a large number of waggons (I hope not less than a hundred), could be immediately raised, for transporting that Provisions as far as Danbury, and bringing Provisions from Tarrytown into Camp, that our Horses and oxen may gett a little rest, as otherwise in a month more they will be rendered useless. Those who come may depend upon the best usage, a generous Price and immediate payment, as soon as their work is done, which would not detain them above a fortnight after their arrival at Kings Ferry where part of the provisions now lay, and the rest is dayly expected. In short, Sir, I can not see what the Army will do if we have not a considerable assistance from the upper part of this State.

The Day before yesterday a party of our Indians fell in with a party of the Enemy's light horse, who after a little skirmishing

retreated (probably on purpose), and by that means drewed the Indians after them into an open field, after passing a small part of which they found themselves attackd in the rear by a body of infantry, and in front by the retreating light horse who had returnd to the charge:—nineteen of the Indians are a missing, six of whom have been found dead on the field of action, the others are supposed to be taken Prisoners; we have likewise lost a Capt., and six Soldiers in that affair. By a Letter from General Sullivan* we had the following intelligence:

On the night preceding the 29th it was determind to retreat to the north end of the Island, the baggage & heavy cannon being, therefore, sent off; the Army was putt in motion, leaving Colonels W. S. Livingston and Laurens with the light infantry as a rear guard; the Enemy by some means having gott intelligence of the movement followd in two Columns, by the two roads which lead from N: Port to the north end of the Island, and about daylight came up with the rear guard, who skirmishd with them and still kept retreating in good order, the General not willing to bring on the action at that place, sent them but small reinforcements; they, therefore, continued to skirmish and retreat till they joind the main body, upon which the Enemy attempted to turn the right wing, but their motion for that purpose being timely discovered, a strong reinforcement was sent—we skirmishd with the Enemy a great part of the day; at last the action became nearly general, and lasted allmost an hour, when the Enemy gave way and retreated with precipitation: The loss was very considerable on both sides, and several officers on our side have fallen, though the General hopes (as the letter is dated from the field of battle) that the Enemy's loss is greater than ours. Every

one waits impatiently for the particulars none of which have yett arrivd.

Whether the French fleet will or will not return to Rhode Island seems not thoroughly known; much must depend upon that circumstance. I have the Honour to be with much respect & esteem, Sir, Your most obed. & very humble Ser't

Colonel Cantine Avers He Was Shot by a Guard from the Schoharie Rangers—A Successful Foraging Expedition.

Marbletown 4th Sept. 1778.

Dear Sir, The misfortune of Harmanis Dumon's Death or Being Wounded, I Received the 28th Ultomo which was then Supposed to Be Done By the Enemy, whose Number was Computed (By those who Brought the Intelligence first) to Be about two Hundred, I immediately ordered the Detachment at Little Shandakan of Colo. Sneyder's Regim't to Joyn those at great Shandakan, Being one Company of about fifty men of Colo. Hasbrouck's Regim't and forty out of my own, which would have made a Body of about one Hundred and thirty men, But the time of Colo. So that, all the men on those two posts Could muster But about Seventy or Eighty men, with which I Intended to have marched Immediately to Packatackan, But on my arival at Great Shandakan, I found None there But those of my own Regim't, Colo. of Not having a Sufficient Supply of provision Ready. (as they Say). I then was obliged to send for them a Second time, on which they Immediately Came. Next morning I proceeded on my way, Came there about four o'Clock in the after Noon with Seventy men with me, Buried Dumon that afternoon, who was Dyed the Night after he was Shot, and By the Best Information I Could git he had Been Shot By our own gaurd from Scohary; there where two men Belonging to the gaurd who where know to Be the Sons, of a man who formerly teatched School at Packatackan, Since moveed to Scohary and Belong Now to Harper's Rangers, as I have Been Informed by the people of Packatackan. After they had Shot Dumon and was Lying in his Bed, Some of them Said they had a mind to tomahack him; Stript him of his Shouse, Buckles, hat and Some other trifles. I Shall Not Inter Into the perticulars of the Behaviour of that gaurd, as I have Directed those of the Inhabitants I Could Depend on, to go to Colo. Governor Clinton Recommends Professor Addison's School at Kingston for Young Mr. Paris.

Poughkeepsie 4th Sep'r 1778.

Rev'd Sir, I am favoured with your Letter of the 28th Ultimo by young Mr. Paris. It will give me great Pleasure to render the Son of so Worthy a Patriot every Service in my Power &

I shall be happy if any Aid I can give him will enable him to acquire a Character in Public Life equal to that which his Worthy Father maintained & support it with like Reputation.

From the Conversation I have had with the young Gentleman, I find that he has not a sufficient Acquaintance with the learned Languages to enter upon the Study of the Law to Advantage & that he is deficient also in Point of Mathematical Knowledge which is equally useful. It is, therefore, my Opinion that he ought to spend at least a year or two at some good Schooll where he may acquire a Competent Mathematic Knowledge & of the Latin Language, And for this Purpose (if you, Sir, & Mr. Paris agree with me in Sentiments) I woud recommend him to the Academy under the Direction of Mr. Addisson at Kingston as the best & Cheapest I know. He shall have my warmest Recommendation to the Tutor and any Family with whom he may chuse to Board. My House shall be always open to his Vissits whenever a Relaxation from his Studies will admit. I am Sir with great Regard Yours &c.

S'r. Inclos'd I Send your Excellency Some affidavits which points out that their has been a party of men from Schohary, to Poughkatakken Killd Haramanus Dumon; Carry'd of a Number of Horses, and Many other articles which are not Numerated in the affidavits; Dumon was the only Friend we had in that Settlement; he Continued Their as long as he Thought him Self and family Safe; at lenght thought him Self In danger, moved Down with his family, whent up with his waggon To fetch Some things he had left, was killd by Men who have acted with the greatest Imprudence.

I also Inclose a letter which I Just Now Rec'd, Sent me from Rochester; the bearer Informd me, that a party of the Enemy had been last night and burnt Three houses, killd one Andries Shurker, and took Peter Miller and one Ephram Baker prisoner, what number of the Enemy I have not heard, they sent Shurker's wife, to John's G. Hardenbergh's with the Letter. These people lived not far From Hardenbergh. I have no perticular account To give of the matter, I expect Coll. Contine will write to your Excellency, and give you the perticulars. I am S'r with great Esteem your Most Humble Serv't

Levi Pawling.

His Excellency George Clinton.

 P—6th Sep'r 1778.

D'r Sir, I have received your Letter of yesterday. I have only Time to Answer it by referring you to the inclosed Letters to

Colos. Butler & Cantine for your Perusal which you'l please when you have read, to seal & deliver that to Colo. Cantine to the Bearer Mr. Keator. Mr. Dumond tells me you havẽ consented to be the Bearer of the other. I am extreemly sorry to hear the account of new Misschief on the Frontier & wish sincerely it was in my Power to take more effectual Measures to give the Inhabitants perfect protection & safety. I am with great Regard Your Most Obed't Serv't

Geo. Clinton.

The original affidavits are returned inclosed.

Colo. Pawling.

Poughkeepsie 6th Sep'r 1778.

Dear Sir, By a Number of Affidavits which will be handed to you by the Bearer you will learn that Hamanus Dumond, late an Inhabitant of Poughetagtten on the Delaware, was lately cruelly murdered by a Party of Men supposed to be from the Neighbourhood of Schohary under the Command of Colo. Harper. What adds to the Cruelty of this transaction, is that Dumond had for some Time Passt remained at his Habitation at Poughatagtten at the Request of Colo. Cantine, who commands the Militia in actual service on the Frontiers of Ulster & Orange Counties for the Purpose of acquiring & transmitting him Intelligence which he had frequently done. But the Danger increasing in that Quarter, he was now moving into the securer Settlements with his Effects, of which the Party who Shot & plundered him, after he was mortally wounded, even of his wearing apparel, was informed & could not doubt. You will also perceive by the Affidavits, that several other of the well disposed Inhabitants were plundered of their Effects by this Party. Placing the greatest Confidence in you & considering you as immediately Commanding the Militia

in actual Service in your Quarter, I have, therefore, to request that you will cause the Effects of Dumond & the other Persons who were plundered by the above Party, to be restored to the Bearer, for the use of the owners, and that you will deliver the Delinquents over to the Civil Authority to be dealt with according to their Crimes. I am Sir with great Respect Your most Obed't Serv't

LOANS TO THE STATES.

Funds Advanced by the National Government—Gouverneur Morris's Patriotic Utterances.

Philadelphia 6th Sep'r 1778.

Sir, By Doctor Jones who will deliver this to your Excellency, I do myself the Honor to enclose a short memorandum of the Sums advanced from the Continental Treasury to the several States of the Union. I shall make no Comments. The Paper contains Information and, therefore, I have sent it to your Excellency's Prudence.

Doctor Jones hath informed me that a Law lately passed bears very hard upon many Individuals of the State of N. York, who being willing to become faithful Subjects are nevertheless incapable from what they call conscientious Principles to take an Oath prescribed in it. This Information is corroborated from other Quarters. What the Law or Oath are I know not, nor will I pretend even to suppose that against either there is well-grounded Cause of Complaint. Seriously, I have too good an Opinion of our Legislature to believe they would wantonly sport

with the Feelings of mankind. But, Sir, I cannot help mentioning, that in my Opinion it is not good Policy to banish useful Citizens, and that it is better to bend the Spirit of Legislation at Times even to the Prejudices of the People, than to scatter the Riches and Strength of the State among Strangers—what is worse among Enemies. Excuse me, Sir, If I am too free. I am of no Party but that of my Country and as I always have, so I trust I always shall, consult her Interests according to that measure of abilities which it hath pleased Heaven to dispense to me.

I have the Honor to be with deep Respect Your Excellency's most obedient & humble Servant

Gouv. Morris.

TO DESTROY OQUAGA.

Governor Clinton's Orders to Colonel Cantine—Public Property Not Private Plunder.

Poughkeepsie 6th Sp'r 1778.

Dear Sir, I have received your Letter of the 4th Instant with an Account of the Unhappy Fate of Hermanus Dimond, and I am this Morning favoured with a Letter from Colo. Pawling in-

closing Sundry Affidavits on that Subject of which the proper use will be made. Colo. Pawling informs me that the Enemy night before last, burnt three Houses, killed one Andrus Shurker, & took Peter Miller & Ephraim Baker, Prisoners. This Misschief, if I understand the Geography of the Country & am not misstaken as to the particular Situation of the above Persons' Habitations, might have been prevented had your Guard occupied its first Post at Lackawack. Colo. Pawling also transmitted me a Letter subscribed with the Mark of Capt. Ben Shank & John Rennope a Copy of which you have inclosed.

I am much surprized to learn that the Parties of Militia which have been sent out to the Settlements on the Delaware to remove the Cattle & Effects from thence, and thereby prevent their serving as Supplies to the Enemy, have considered what they have brought off as Plunder & accordingly appropriated the same to their own Use. Upon what Principle or by what Authority this is done you must best know. That it is contrary to every Idea of Justice & good Policy & will be productive of much Misschief is certain. I am bound, therefore, to call upon you to exercise your Authority as Commanding Officer of the Detachments of Militia in actual Service on the Frontier of Ulster & Orange Counties not only to prevent the like abuses in Future, but to have the passt to be rectified as far as may be in your Power. I am fully convinced that we are not to have Peace on our Frontier, untill the Stragglng Indians & Tories who infest it are exterminated or drove back & their Settlements destroyed. If, therefore, you can destroy the Settlement of Acquago it will in my Oppinion be a good Piece of Service. I am Sir Your Most Obed't Ser't

GEORGE CLINTON COMPLAINS TO CONGRESS.

Over the Conduct of Vermont and of General Stark—Declares Congress Countenances Vermont's Actions.

Poughkeepsie 7th Sep'r 1778.

Gentlemen, The last I had the Honor of addressing to you was dated the 16th Ultimo. Since which I have been favoured with your Letters of the 21st & 25th of last Month. The Former shall be submitted to the Consideration of the Legislature at their next Session which will commence the first of next Month. In Answer to the Latter you may venture to assure Mrs. Childe, that whenever the Situation of our Affairs is such as to enable me to comply with her Request it will be done with great Pleasure.

The unwarrantable Conduct of the usurped Government of the People on the Grants, in sentencing to Banishment a number of the Subjects of this State and of Genl. Starke, in attempting to carry the same into Execution, calls upon me again to Trouble Congress with the Copies of several Letters & papers on that Occassion which are of themselves so intelligible as not to require any Explanation of mine. The inclosed Copy of Genl. Washington's* Letter to me of the 21st of July informing me of his having transmitted these Papers with some others on the same Subject to Congress for their Decision will Account for my not having forwarded them to you before. Besides those which Congress have received from Genl. Washington you have inclosed Copies of three other Papers which I have since received tending to prove the true Charecters of the Persons attempted to be banished. I have only to add that the Exiles yet remain in Confinement at Fort Arnold under Military keepers, and that I have no Reason to be-

*See pages 571-572.

lieve that Genl. Starke has been punished or even reproved for his Offence which you will readily perceive is no less than having employed the Authority & Arms of the Continent against the Liberties of the Subjects of this State—that the Silence of Congress on this Occassion after the Matter was referred to their Decission by his Excellency Genl. Washington may be considered as countenancing these unwarantable Measures.

The Indians & Tories continue to commit Depredations on our western Frontiers—last week they destroyed 3 Barns, killed 2 men & carried off two Prisoners—and a small party of the militia who pursued & fell in w'th them had their Officers & 2 men killed w'thout doing the Enemy any Injury that I can learn. I am with great Respect Gent. Your Most Obed't Serv't

Geo. Clinton.
